THE HOUSE OF QUICK SHIPMENTS

ANNOUNCEMENT

WE take great pleasure in presenting to you our No. 5 General Catalog, which represents the many additions and complete assortment we have added in all departments, and in making these additions our aim has been to supply goods of merit and "Quality." Our Goods are the product of the most reliable mills and factories of the Country, and we call your particular attention to our many special brands, manufactured from the best materials obtainable by experienced mechanics, and finished in the highest possible manner.

Our business was established over fifty-six years ago, and we take this opportunity to express our thanks to our many customers and friends for their liberal patronage during these many years. Our aim in the future, as it has been in the past, shall be to merit a continued growth of your liberal patronage by giving you the best of service.

Our establishment is entirely modern in plan and construction, and is amply equipped with every appliance, convenience and device known, and used in up-to-date plants where the subject of quick handling of merchandise and freight on an extensive scale is made a matter of prime and essential consideration.

We earnestly solicit your orders through our representatives, as well as by *mail*, and our aim is to merit your patronage by PROMPT SHIPMENT and the COMPLETENESS WITH WHICH WE FILL ALL ORDERS. Our prices shall always be consistent with the markets and competitive lines.

Hoping that this catalog may be of service to you, and that it may aid us in accomplishing the end we desire, which is an increased business with all who receive it, we are

Yours very truly,

WM. FRANKFURTH HARDWARE CO.

THE HOUSE OF QUICK SHIPMENTS

WHY WE CAN MAKE QUICK SHIPMENTS.

Factories and Factory Warehouses located in Milwaukee which we can draw from enables us to make quick shipments.

MILWAUKEE

HAND HAMMERED AXES

Hand Hammered Axes are made entirely by the old fashioned **Hand Process**. The Bits are forged by hand and thoroughly hammered—in this way refining the steel as can be done in no other manner. They are ground before tempering, avoiding all danger of drawing the temper, and are not polished for the same reason. These Axes are perfectly tempered and ground ready for use.

PLUMB AU-TO-GRAF AXES

SINGLE BITTED

Michigan Pattern.

A tag on every axe bears the personal assurance of Fayette R. Plumb that it is the best axe that can be made regardless of cost and also shows the price to consumer.

Plumb Axes are made of one piece of high grade special analysis steel, all the way from head to the cutting edge. No misswelds, no two pieces of steel stuck together to break out while in use.

The body of Plumb Axes is toughened by armor plate heat treatment. No broken, bent or bulged eyes. The head is toughened to a spring temper, will outlast the heads of three ordinary axes.

The bit is hardened all the way through to a depth of one and one-half inches. will not grow softer each time it is ground.

Uniform Price Tag—The tag bears in plain figures the price to the consumer. This is a selling help of the highest kind as it assures the purchaser that the price as shown is the one set by the manufacturer as a fair equitable figure.

Ivory Black, Highly Polished, Deep Etched, with Gold Bevels.

PLUMB AU-TO-GRAF

MICHIGAN PATTERN ONLY

Plumb Au-to-Graf Axe is the Highest Grade of Axe Ever Produced, Ivory Black, Highly Polished, Deep Etched, with Gold Bevel.

A tag on every axe bears the personal assurance of Fayette R. Plumb that it is the best axe that can be made regardless of cost and also shows the price to consumer.

Uniform Price Tag—The tag bears in plain figures the price to the consumer. This is a selling help of the highest kind, as it assures the purchaser that the price as shown is the one set by the manufacturers as a fair equitable figure.

AU-TO-GRAF HATCHETS

All Hatchets designed for hang and balance, to feel right in the hand and fall true to the mark. Refined by armor plate heat treatment, ductile over eye, yet with a bit so tempered as to give a hard, keen cutting edge—an edge that stays sharp. Bit tapered for fast cutting, not built like a wedge, yet stout enough to stand abuse.

HALF

Octagon Pattern.

Extra Damascus Steel, Forged, Highly Polished Bit and Head, Painted Red with Gold Borders, Specially Shaped Selected White Hickory Handle. The best designed and most serviceable Hatchet ever built for general use.

Weight Per Case 170 Pounds.
Two Dozen in a Case.

CAR MOVERS
ATLAS

Atlas—66 inches Long, Made of Malleable Iron and Steel, Best Selected Hardwood Handle, Weight Each 20 Lbs.\$5.00
Extra Spurs—For Atlas Car Mover.50

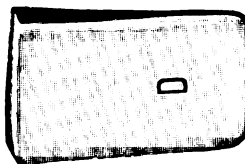

The best and most powerful device ever made for starting and moving loaded cars by hand. Does not lift the wheels from the rail, but uses its force in pushing the wheels forward, and heavily loaded cars can be easily moved with it. It is equipped with double spurs of square steel set at an angle with the top of the rail, which they engage on the outside edge where it is soft and not hardened by the constant pounding of the wheels, and having a double hold on the rail, they will not slip until they become worn and dull by long use. Then, by simply loosening a nut and bolt, they can easily be taken out and turned to use a new edge or replaced entirely by a new one.

NAIL HAMMERS

PLUMB AU-TO-GRAF LINE

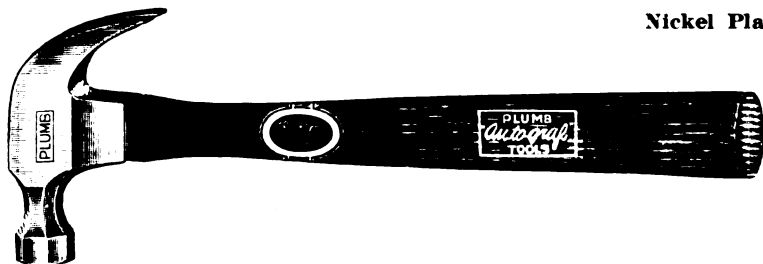

Each tool is handsomely labeled in rich colors of gold and red, an attractive combination. Each label bearing the assurance that it is the best tool possible to make, regardless of expense.

Each tool has a tag bearing the selling points of the tool, a manifest advantage, as it not only educates the dealer as to talking points, but on reverse side the tag bears in plain figures the price to consumer.

These Nail Hammers are designed with large, full face, easy to strike a nail, rolled back claws, with the split as the high point to grip a nail driven close and with the famous claw with knife-like edges which grasps a headless nail or pulls a nail point first through a board.

The handles are specially shaped, highest grade, and beautifully finished.

Nickel Plated.

Octagon Neck, Octagon Face, Handsomely Finished and Nickel Plated, Cherry Handle.

Nos.	C11	C12
Size	1 1/2	2
Weight Each	1 lb. 1 oz.	14 oz.
Weight Per Dozen, Lbs..	20	15
Per Dozen	\$20.00	19.50

One-half Dozen in a Box.

EXPERT'S TRIPLE-CLAW

Round Neck, Round Face, Highly Polished Hickory Handle.

No. TC1 1/2—Size 1 1/2, Weight Each 1 Lb.....	Per Dozen \$18.00
Weight Per Dozen 19 Pounds.	
One-half Dozen in a Box.	

Two Hammers in one. First improvement in Nail Hammers in years.

Draws nails in the corner or against a beading—nails that no other hammer can reach—and draws them straight without putting a block under the head of the hammer.

All the advantages of the Plumb Nail Hammer, and their patented small claws that double the efficiency of the tool.

PLUMB LEADER

Round Neck, Round Face, Highly Polished Hickory Handle.

Nos.	A11	A11 1/2	A12
Size	1 1/2	2	3
Weight Each	1 lb. 4 oz.	1 lb.	13 oz.
Weight Per Dozen, Lbs.....	21 1/2	19	14
Per Dozen	\$13.00	12.50	12.00

One-half Dozen in a Box.

The highest grade, best designed, best finished hammer ever offered at a reasonable price.

It should be the best selling hammer in your stock.

EXPERT'S KNOCK-ABOUT

Round Neck, Round Face, Highly Polished Hickory Handle.

No. K1—Weight Each 1 Lb. 4 Oz., Weight Per Dozen 21 1/2 Lbs.	Per Dozen \$16.00
One-half Dozen in a Box.	

Note—Above Weights Each do not Include Handles.

The Expert's Knock-About Hammer, as the name implies, is a special tool for all-round work, and especially useful around a farm for fencing, the staple puller, for ripping or gouging, the small claw for drawing nails in out-of-the-way places, together with all the features of the Plumb design of regular Nail Hammers, produces a tool unequalled for general service.

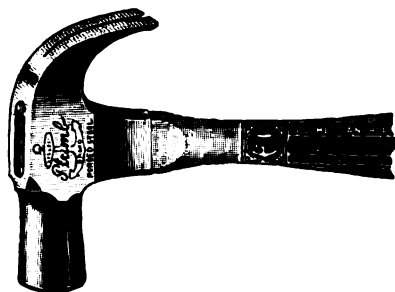

Built heavy to stand rough work.

The Hammer wanted by the general man.

AUGER BITS

RUSSELL JENNINGS STANDARD

No. 100—Genuine Crucible Tool Steel, Accurately Centered, Carefully Hardened and Tempered, Standard Double Thread Screw Point, Extension Lip, Polished.

The Standard Bit for use with Hand Brace. The Screw Point has a double thread, bores easily and cuts a smooth hole, recommended for general use. Especially appreciated by cabinet makers.

Inches, 16ths	3	4	5	6	7	8	9	10	11	12	13

3 to 12/16, One Dozen; Balance, One-half Dozen in a Box.

RUSSELL JENNINGS QUICK BORING.

No. 101—Genuine Crucible Tool Steel, Accurately Centered, Carefully Hardened and Tempered, Coarse Single Thread Screw Point, Extension Lip, Polished.

These Bits have a coarse single thread on the point for rapid boring. For ordinary work in soft wood. Especially suited for use in gummy woods, as the thread will not clog. Not recommended for Cabinet Makers or for work where easy boring or smoothness of hole are essential features.

Inches, 16ths	3	4	5	6	7	8	9	10	11	12	13
Weight Per Dozen, Lbs....	1	1 1/4	1 1/2	1 3/4	2	2 1/2	2 3/4	3	3 1/2	3 3/4	4

IRWIN'S

No. 65T—Forged Throughout from One Solid Piece of Badenger Formula Steel, Double Cutter, Extension Lip, Highly Polished Twist and Shank, 12 inch Twist, Length Over All 18 inches.

The great strength and clearance of the Irwin's Solid Center Bit, is due to the shaft of steel that runs through the entire bit from the screw to shank and will bore more rapidly than those of other patterns.

One-half Dozen in a Box.

WRIGHT'S PATENT

The Cutter absolutely cannot creep or slip. For strength and ease of boring (due to the patent cutter) this bit has no equal. Finish and workmanship are the best.

The Cutter itself is of special construction, having a uniform bevel or cutting edge its entire length.

- Special Cast Steel, Patent Cutters. Per Dozen
- No. 2W—With Two Cutters, One Cutting from $\frac{5}{8}$ to $1\frac{1}{4}$ inches, the Other from $1\frac{1}{4}$ to $1\frac{1}{2}$ inches.....\$20.00
- No. 1W—With Two Cutters, One Cutting from $\frac{3}{8}$ to $1\frac{1}{4}$ inches, the Other from $1\frac{1}{4}$ to 3 inches..... 30.00
- One-twelfth Dozen in a Box.

TOOL KITS

GENERAL UTILITY

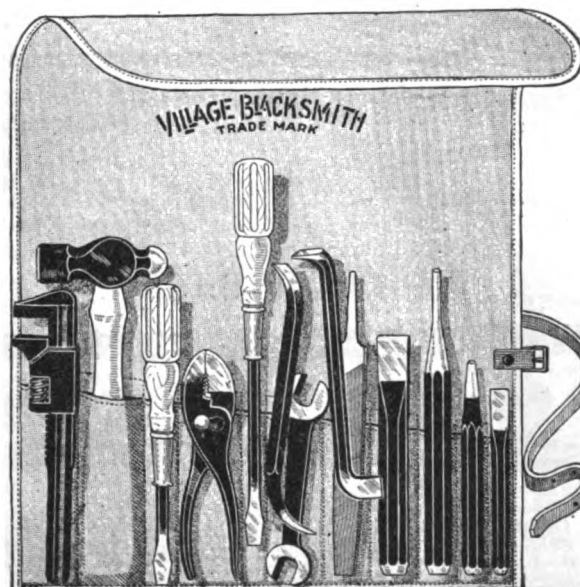

Each

No. 117 Kit—Contains 7 High Grade Village Blacksmith Tools as Described Below, Put Up in a Neat Canvas and Flannel Roll, Weight Per Set $2\frac{1}{2}$ Lbs. \$2.00

CONTENTS OF No. 117 TOOL KIT

- 1— $\frac{3}{8}$ inch Cold Chisel.
- 1— $\frac{1}{2}$ inch Cold Chisel.
- 2— $6 \times \frac{1}{2}$ inch Machine Punches.
- 1—Double End Screw Driver.
- 1—Cotter Pin Tool.
- 1— $8 \times \frac{1}{2}$ inch Drift Point Punch.

- 1—No. 103 $\frac{1}{2}$ inch Drift Point Punch.
- 1—No. 2018 Pliers.
- 1—No. 2020 9 inch Wrench.
- 1—No. 83 $\frac{1}{4}$ inch Cape Chisel.
- 1—No. 2022 6 inch File.

For Mechanics, Farmers and
Automobilists Use.

Each

No. 218 Kit—Contains 13 High Grade Tools as Described Below, Put up in a Substantial Leather Edged Canvas Roll with Good Heavy Leather Strap and Buckle, Wt. Per Set 6 Lbs. \$5.00

No. 217 Kit—Same as No. 218 Kit, but without Hammer 4.00

CONTENTS OF No. 218 TOOL KIT

- 1—No. 2021 Machinists' Hammer.
- 1—No. 2019 "S" Wrench.
- 1—No. 121 Cotter Tool.
- 1—No. 80 $\frac{5}{8}$ inch Cold Chisel.
- 1—No. 91 $\frac{1}{2} \times 6$ inch Machine Punch.

- 1—No. 111 6 inch Screw Driver.
- 1—No. 112 3 inch Machinists' Screw Driver.
- 1—No. 120 Double Machine Screw Driver.

INSIDE THREAD

HERMAPHRODITE CALIPERS

No. 41.

No. 42.

No. 41—With Firm Joint and Adjustable Point.

The firm joint, with its smooth and uniform friction, is incomparably superior to the old style riveted joint.

Length, Inches	4	6	8
Each	\$0.65	.80	1.00

No. 42—With Lock Joint, Sensitive Adjustment and Adjustable Point.

Length, Inches	4	6	8	10
Each	\$1.00	1.15	1.35	1.60

Three in a Box.

The Yankee Calipers and Dividers are manufactured under the Fay patent, are not quite so heavy as the Fay, and cost less. They are much liked, and on account of prices are preferred by many to the higher cost tools.

IMPROVED FIRM-JOINT CALIPERS

No. 26—Outside.

Length, Inches	3	4	5	6
Each	\$0.40	.50	.55	.65

Length, Inches	8	10	12
Each	\$0.80	.90	1.00

No. 27—Inside.

Length, Inches	3	4	5	6
Each	\$0.40	.50	.55	.65

Length, Inches	8	10	12
Each	\$0.80	.90	1.00

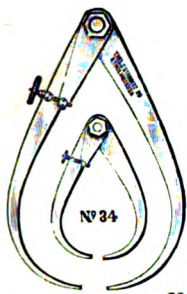

The improvement in these calipers consists in the construction of the joint, which is so made as to be drawn together by means of a screw. The main stud is squared and fitted to one leg, thus preventing the stud from turning when loosening and tightening, and insuring a smooth and uniform friction of more or less tension to suit the user.

The quality of these calipers is incomparably superior to that of any old style riveted-joint caliper on the market.

Three in a Box.

STARRETT TOOLS

PERFECT FIRM-JOINT SCREW-ADJUSTING CALIPERS

No. 34—Outside.

Length, Inches	4	6	8	10
Each	\$0.90	1.00	1.25	1.50

No. 35—Inside.

Length, Inches	4	6	8	10
Each	\$0.90	1.00	1.25	1.50

The screw adjustment for fine measurements, the improved joint which may be set to any desired degree of uniform tension, the shape and stiffness of the legs, quickness and wide scope of adjustment—all go to make this caliper a leader in its line.

Three in a Box.

LOCK-JOINT CALIPERS

No. 38—Outside.

Length, Inches	4	5	6
Each	\$0.90	.95	1.00
Length, Inches	8	10	12
Each	\$1.25	1.50	1.75

No. 39—Inside.

Length, Inches	4	5	6
Each	\$0.90	.95	1.00
Length, Inches	8	10	12
Each	\$1.25	1.50	1.75

These calipers can be instantly adjusted to their full extent, and as quickly locked firm in the joint, and yet provided with a sensitive adjustment. The improvement consists in a socket joint made tapering, and locked or released by a partial turn of the knurled disk drawing it together.

Three in a Box.

POCKET SCRIBERS

Closed.

Open.

No. 70A— $\frac{1}{4}$ inch Diameter Handle, $2\frac{3}{4}$ inch Blade, Weight Each 1 Oz.	\$0.25
No. 70B— $\frac{3}{8}$ inch Diameter Handle, $2\frac{3}{4}$ inch Blade, Weight Each $1\frac{1}{2}$ Oz.	.35

This tool is made from steel tubing, knurled and nickel plated. The scriber is made from the best quality of steel, nicely tempered, and is held by a knurled chuck. The scriber is reversible, telescoping into the stock, and is held by a slight turn of the chuck, so that it is always as safe to carry in the pocket as a penknife.

Six in a Box.

LOCK-JOINT TRANSFER CALIPERS

No. 36—Outside.

Length, Inches	4	5	6	8	10	12
Each	\$1.25	1.40	1.50	1.75	2.00	2.25

No. 37—Inside.

Length, Inches	4	5	6	8	10	12
Each	\$1.25	1.40	1.50	1.75	2.00	2.25

These calipers may be used inside of chambered cavities, over flanges, etc., removed and replaced without losing the size calipered. This is done by loosening the nut binding one arm to the auxiliary leaf and swinging it out or in (while the joint is locked) to clear the obstruction, then moving it back against a stop, where it will show the exact size measured.

Three in a Box.

IMPROVED EXTENSION DIVIDERS

A well made Divider with auxiliary legs, which together with a common pencil, form convenient combinations.

By adjustment of points the 7 inch becomes 9 inches, and will scribe a 22 inch circle and will caliper 11 inches outside and 13 inches inside. By adjustment of points the 9 inch becomes 12 inches and will scribe a 30 inch circle and caliper 14 inches outside and 16 inches inside.

AUXILIARY CALIPER LEGS

Hardened Points, Malleable Iron Head and Arms, Other Parts of Steel.

No. 85A—7 inches, with Divider Legs Only	\$1.50
No. 85B—9 inches, with Divider Legs Only	1.75
No. 85C—7 inches, Complete	2.50
No. 85D—9 inches, Complete	2.75

One in a Box.

IMPROVED SCRIBERS

Each

No. 67—Length with Short Bent Point 9 inches, with Long Point 12 inches, Interchangeable Parts, Nickel Plated Knurled Sleeve, Complete	\$0.50
--	--------

This Scriber is made for mechanics who want a better tool than has been heretofore obtainable. These points are made of a fine grade of steel, nicely tempered. The knurled stock is of sufficient size to be easily held without cramping or turning in the fingers. The long, bent point will be found a valuable auxiliary for reaching through holes, etc.

Six in a Box.

IMPROVED ADJUSTABLE SLEEVE SCRIBERS

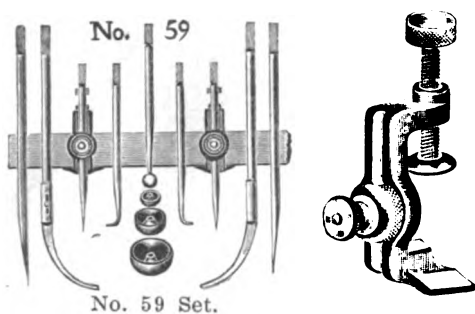

No. 68—Without Knife Point, Nickel Plated Knurled Sleeve.	
Length, Inches	8 12
Each	\$0.50 .50

The knurled sleeve has hole clear through and a clamping device at each end, adapting it for slipping on different tools, securely holding them near to or away from the working point. Tool makers will find the small size more desirable for general use, and the larger one for heavier work.

Six in a Box.

STARRETT TOOLS

NEW TRAMMELS

This illustration gives a more detailed representation of the Trammel Heads.

This cut shows the trammels fastened to a wooden beam, which may be any size from $\frac{3}{4}$ inch to 1 $\frac{1}{2}$ inches wide, and of any thickness desired (requiring no fitting), giving stiffness according to the length and adapting it for small or large work.

No. 59A Set—Trammel Heads Only, with One Pair of Points Per Set \$2.00
No. 59F Set—Complete as Shown 4.75

The auxiliaries designed to go with the trammel heads are as shown above, viz., inside and outside caliper legs, an extra pair of long points, a set of four ball points with holder, which enable one to scribe a circle from the center of any hole up to 1 $\frac{1}{2}$ inches and under. A lead pencil may be used in place of either of the steel points. The clamping device is adapted to take in either a small or common sized pencil. The trammels are furnished with or without auxiliaries.

One Set in a Box.

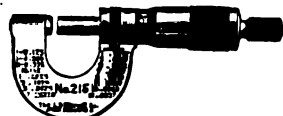

Has improved Speeded Screw with means for adjusting to compensate for wear.

The Frame is made of Drop Forged Steel, Nickel Plated, Dull Finish.

No. 650—With Ratchet Stop, for Measurements by Thousandths up to 1 inch without Case Each \$4.50
No. 0650—Same as No. 650, but with Leather Case 5.15

In the construction of this caliper, the Starrett feature of having the anvil solid in the frame is still retained, also a new method provided to adjust the spindle in relation to the anvil, so that the reading of the micrometer will be correct.

HALF INCH

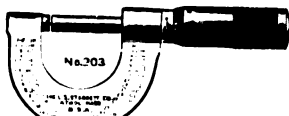

With Lock Nut and Ratchet Stop.

Each

No. 215—For Measurement by Thousandths up to $\frac{1}{2}$ inch, without Case \$5.50
No. 0215—Same as No. 215, but with Leather Case 6.15

ONE INCH

Without Ratchet Stop and Lock Nut.

Each

No. 208—For Measurement by Thousandths up to 1 inch, without Case \$5.50
No. 0208—Same as No. 208, but with Leather Case 6.15

ONE INCH

With Lock Nut and Ratchet Stop

Each

No. 3—For Measurement by Thousandths up to 1 inch, without Case \$6.50
No. 03—Same as No. 3 but with Leather Case 7.15

Starrett Micrometer Calipers have a more exact and easier way of adjustment than by the old method of a movable anvil. This is obtained by placing over the barrel a thin, graduated sleeve, which carries the base or zero line, instead of having this line marked on the barrel itself. This sleeve may be turned by means of a small spanner wrench to bring the zero line correct to compensate for wear. The thin sleeve also keeps dirt from the screw.

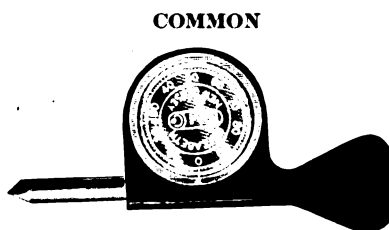

STARRETT HIGH SPEED

SPEED INDICATORS

No. 104—Nickel Plated, with Rubber Tips for Pointed and Hollow Centers, in Pasteboard Box Each \$1.75

May be run at highest speed required without heating. The dial plate has two rows of figures, reading right or left, as the shaft may run.

COMMON

No. 1—Carbon Finish, Brass Dial Each \$1.00
Adapted to pointed or hollow centers, accurate, reliable, and of convenient size for carrying in pocket. The dial revolves once for every hundred revolutions.

STARRETT TOOLS

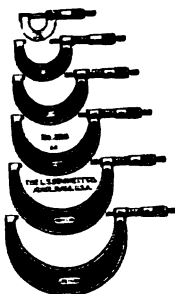

MICROMETER CALIPERS

These Calipers meet the demand for accurate gauges at a low price. They are better adapted for general use than the vernier or bar micrometer, as they can be set quickly for the different measurements and are more easily read.

Each Caliper is graduated to read by thousandths of an inch, fitted with patent lock nut, and is sent with or without ratchet stop as desired.

The 1 inch has the decimal equivalents stamped on the frame. The other sizes are marked to show their capacity. The frames are drop forged from bar steel and are nicely finished.

Without Case.

	Each
No. 226A—1 inch, with Decimal Equivalents Stamped on Frame, without Ratchet Stop.....	\$6.00
No. 226B—1 inch, with Decimal Equivalents Stamped on Frame, with Ratchet Stop.....	6.50
No. 226C—2 inch, From 1 to 2 inches, without Ratchet Stop	5.50
No. 226D—2 inch, From 1 to 2 inches, with Ratchet Stop	6.00

No. 226H—4 inch, From 3 to 4 inches, with Ratchet Stop	7.50
No. 226I—5 inch, From 4 to 5 inches, without Ratchet Stop	7.75
No. 226J—5 inch, From 4 to 5 inches, with Ratchet Stop	8.25
No. 226K—6 inch, From 5 to 6 inches, without Ratchet Stop	8.50
No. 226L—6 inch, From 5 to 6 inches, with Ratchet Stop	9.00

MICROMETER CALIPER SETS

Without Cases.

	Per Set
No. 226AS Set—Consists of 3 Micrometer Calipers, 1 No. 650 1 inch, 1 No. 266 2 inch, and 1 No. 226 3 inch, all without Ratchet Stop.....	\$16.00
No. 226BS Set—Same as No. 226AS Set, but all Fitted with Ratchet Stop	17.50
No. 226ES Set—Consists of 6 Micrometer Calipers, 1 No. 650 1 inch, and 1 Each No. 226 2 inch, 3 inch, 4 inch, 5 inch and 6 inch, all without Ratchet Stop	39.25
No. 226FS Set—Same as No. 226ES Set, but all Fitted with Ratchet Stop	42.25

NEW UNIVERSAL SURFACE GAUGES

	Each
No. 57A—3 inch Base, with 9 inch Spindle	\$2.50
No. 57B—3 inch Base, with 9 and 12 inch Spindle	2.85
No. 57C—3 ¾ inch Base, with 12 inch Spindle	3.00
No. 57C—3 ¾ inch Base, with 12 and 18 inch Spindles.....	3.50

This gauge has all the latest improvements, which make it all that can be desired. Has a heavy base, grooved through the bottom and end, adapting it for use on or against circular work as well as flat surfaces.

One in a Box.

TOOL MAKERS' UNIVERSAL SURFACE GAUGES

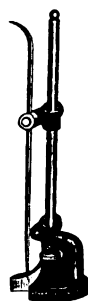

Auxiliary Guide.

	Each
No. 56A—With 4 inch Spindle and Auxiliary Guide....	\$3.00

This gauge is admirably adapted for light work. The base is steel, nicely finished and case hardened, with depressions milled in the sides for the thumb and finger to grasp. The top side of it is slotted, and the rocking bracket is pivoted in the same. There is a stiff spring under one end of the bracket and a knurled adjusting screw in the other; the spindle jointed to this may be set and rigidly held in any position from vertical to horizontal, and the scriber placed in position to be used below its base for depth gauge, or (with bent end down) a scribing gauge. A V-shaped groove in the end and bottom adapts its for use on cylindrical work. There is a small hole in the clamp next to the base in which the scriber may be used for light work, the spindle being removed. An auxiliary guide piece is furnished to clamp to the base.

One in a Box.

SURFACE GAUGES

	Each
No. 52B—With 12 inch Spindle.....	\$2.75
No. 52C—With 12 inch Spindle and 6 inch Extension	3.25

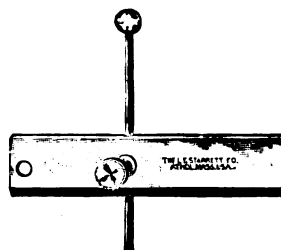

This Gauge, with the improvements made in the few years past, gives great satisfaction to all who use it.

The sleeve and needle clasp, when loosened for adjustment, are both held by a slight spring friction, and by a single knurled nut both are rigidly clamped. For fine adjustment, the spindle in the base is raised or lowered by a knurled nut, and all backlash is taken up by a spiral spring in the base.

For above 12 inch lengths, an extension is provided to couple on to the spindle.

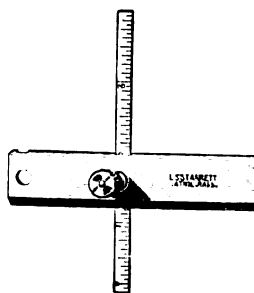

One in a Box.

DEPTH GAUGES

	Each
No. 45A—With 3 ½ inch Stock.....	\$0.75
No. 45B—With 6 inch Stock.....	1.15

No. 46A—With 3 ½ inch Stock and 4 inch Scale.....	\$1.25

One in a Box.

Has in place of the round wire to slide in the groove, as shown with No. 45, a 4 inch scale, ⅜ inch wide, graduated in either 32ds and 64ths, 50ths and 100ths, or 64ths and 100ths, indicating exact measurements, and may be used separately from the gauge.

STARRETT TOOLS

UNIVERSAL BEVELS

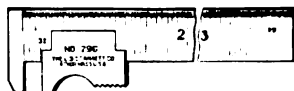

No. 15—3 inches Long. Each \$1.50

The set-off in the blades increases its capacity and usefulness for bevel gear work, etc., so that any angle, however slight may be obtained. One edge of the case being solid, a rest is formed directly under the blade, where thin templates may be placed and accurately fitted.

One in a Box.

SLIDE CALIPER RULES

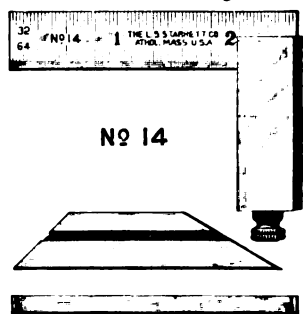

No. 296—4 inches Long, $\frac{5}{8}$ inch Wide, $\frac{1}{8}$ inch Thick, No. 4 Graduation, with the 32ds and 64ths on the Front, and the 8ths and 16ths on the Back, Jaws $\frac{1}{2}$ inch Deep. Each \$1.50

For taking measurements on small rods, tubing, etc. The thumb piece slides in a groove on the reverse side.

One in a Box.

DOUBLE STEEL SQUARES

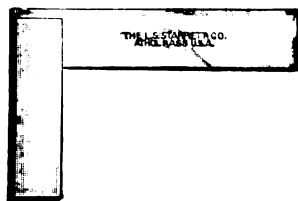

Hardened Steel Head and Blades.

No. 14C—2 $\frac{1}{2}$ inch Sliding Scale, Graduated on One Side Only in 32ds and 64ths, Complete with 1 Bevel and 1 Narrow Blade. Each \$3.10

Especially designed for fine tool makers.

One in a Box.

STEEL SQUARES

No. 20—Solid Steel, Hardened Edge, Not Graduated.

Length of Blade Inside of Beam, Inches	1	1 $\frac{1}{2}$	2
Full Length of Beam, Inches	1	1 $\frac{1}{2}$	1 $\frac{7}{8}$
Each	\$2.00	2.25	2.50
Length of Blade Inside of Beam, Inches	3	4 $\frac{1}{2}$	6
Full Length of Beam, Inches	2 $\frac{3}{8}$	3 $\frac{1}{2}$	4 $\frac{1}{8}$
Each	\$3.00	4.50	6.00

One in a Box.

COMBINATION BEVELS

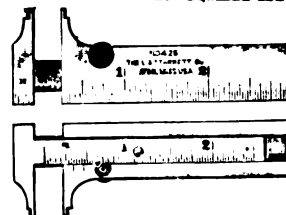

No. 49—With 4 inch Stock. Each \$2.00

This bevel has a stud riveted in the straight edge stock or head, on which its split blade is hinged, so as to swing over the stock and be clamped at any angle. The slotted auxiliary blade with clamp bolt may be slipped on to the split blade and be clamped at any desired angle and used, in combination with the stock of the other, for laying out work, measuring, or showing any angle desired, and when so combined will lie flat upon its work.

One in a Box.

POCKET SLIDE CALIPERS

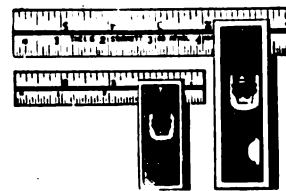

No. 425—Graduated 32ds and 64ths, with Improved Clamping Device.

Length, Inches	3	5
Each	\$2.50	3.50

The improved clamping device is a valuable feature.

One in a Box.

PATENT DOUBLE SQUARES

No. 13—Sliding Hardened Steel Blade, No. 4 Graduation, One Side 8ths and 16ths, Other Side 32ds and 64ths.

Complete with One Extra Bevel Blade.

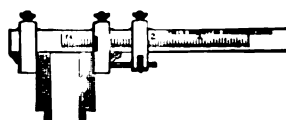

Length of Blade, Inches	4	6
Each	\$1.65	2.50

Note—The 4 inch Square is furnished without, and the 6 inch Square with level in stock.

The most practical square for machinists and fine tool makers use ever offered. The extra bevel blade gives both the hexagon and octagon angles. The bevel blade is not shown in above illustration.

One in a Box.

CALIPER SQUARES

For Both Inside and Outside Measure, Graduated in 64ths on One Side and 100ths on the Other, with Adjusting Screw.

No. 25C—6 inch, without Case	\$9.00
No. 025C—6 inch, with Leather Case	9.75

One in a Box.

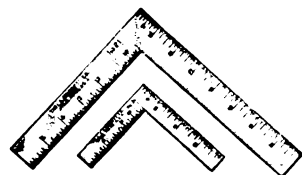

TRY SQUARES

No. 21—Thin Steel, Graduated, for Machinists and Draftsmen.

Size, Inches	2x1	3x2	4x3	6x4
Thickness, Inches	1/20	1/20	1/16	1/16
Each	\$1.25	1.75	2.25	3.25

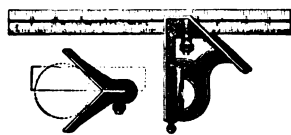

The 2 and 3 inch are graduated, 16ths and 64ths one side, 32nds and 64ths other side; 4 and 6 inch are graduated 16ths and 32nds on both sides.

One in a Package.

STARRETT TOOLS

COMBINATION SQUARES

Hardened Steel Blade, Graduated with Heavy Figures Reading Both Ways, No. 4 Graduation; One Side 8ths and 16ths, Other Side 32ds and 64ths.

No. 11—Without Center Head, with Level.

Length of Blade, Inches.....	6	9	12
Each	\$1.00	1.25	1.50

No. 011—With Center Head and Level.

Length of Blade, Inches.....	6	9	12
Each	\$1.50	1.75	2.00

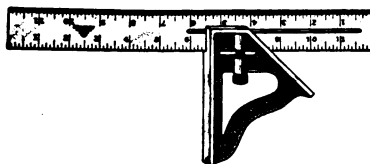

A complete substitute for a whole set of common try squares, one of the best gauges made for transferring exact measurements or laying out work.

One in a Box.

EXTRA BLADES

Length of Blade, Inches.....	6	9	12
Each	\$0.75	1.00	1.25

STANLEY'S ADJUSTABLE TRY AND MITRE SQUARES

No. 21—Nickel Plated Handle and Blade.

The Edges of the Blades are Machined, Graduated in 8ths, 16ths and 32ds, and the Tool is Square Inside and Out.

Length of Blade, Inches.....	6	9	12
Per Dozen	\$6.60	7.80	9.25

Especially useful for doing short work about windows, doors, etc., or in putting on butts or locks.

The blade is adjustable and as it can be reversed, provides any size of try or mitre square within the capacity of the tool.

The locking device is such as to insure the blade being firmly and accurately secured at any point desired.

One in a Box.

NEW COMBINATION SETS

No. 434—Hardened Steel Blade, No. 4 Graduation.

Length of Blade, Inches.....	9	12
Per Set	\$5.25	5.50

This set consists of a Combination Square with hardened drop forged stock and center head and a new reversible Protractor Head extending on both sides of the blade.

One in a Box.

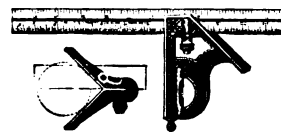

STEEL RULES, ENGLISH MEASURE

No. 300—Spring Tempered, $\frac{3}{4}$ in. or No. 18 Gauge Thick, No. 4 Graduation.

Graduations. First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 8ths.

Length, Inches	1	2	3	4	6
Width, Inches	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{3}{8}$	$\frac{5}{8}$	$\frac{3}{4}$
Each	\$0.20	.30	.40	.50	.65
Length, Inches	9	12	18	24	
Width, Inches	$\frac{7}{8}$	1	1 $\frac{1}{8}$	1 $\frac{1}{4}$	
Each	\$1.00	1.25	2.00	2.50	

Steel Blade, Not Hardened, Graduated with Figures Reading Both Ways, No. 4 Graduation, One Side 8ths and 16ths, Other Side 32ds and 64ths.

No. 23—Without Center Head, with Level.

Length of Blade, Inches.....	6	9	12
Each	\$1.00	1.25	1.50

No. 023—With Center Head and Level.

Length of Blade, Inches.....	6	9	12
Each	\$1.50	1.75	2.00

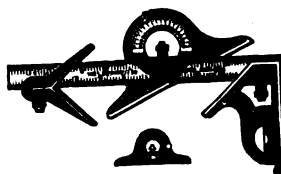

This Square is similar in design to No. 11, but, while the blade is made from good hard steel, it is not hardened.

One in a Box.

EXTRA BLADES

Length of Blade, Inches.....	6	9	12
Each	\$0.75	1.00	1.25

COMBINATION SETS

No. 9—Hardened Steel Blade, No. 4 Graduation.

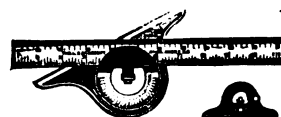

Graduations: First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 8ths.

Length of Blade, Inches.....	9	12
Per Set	\$3.75	4.00

Above cut shows No. 11 Combination Square with Center Head and additional 7 inch Bevel Protractor Head, all on the Square Scale. Each Head may be instantly removed and used interchangeably with the Scale, thus forming the most useful combination set of tools ever devised for mechanics' use.

One in a Box.

IMPROVED BEVEL PROTRACTORS

No. 12—12 inch Hardened Steel Blade, Graduated with Heavy Figures Reading Both Ways, No. 4 Graduation, One Side 8ths and 16ths, Other Side 32ds and 64ths, Length of Head 7 inches.....\$3.00

An adjustable rule, held firmly at any point by a thumb nut, passes through a revolving turret which is nicely graduated in degrees from 0 to 90, both right and left, and can be accurately adjusted to show any angle.

A valuable auxiliary is made in the shape of a small level attached to the head, forming an adjustable level to show any degree.

One in a Box.

No. 303—Spring Tempered, $\frac{3}{4}$ inch or No. 18 Gauge Thick, No. 4 Graduation, Also Graduated 32ds on Both Sides of One End.

Graduations: First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 8ths.

Length, Inches	2	3	4	6
Width, Inches	$\frac{1}{2}$	$\frac{3}{8}$	$\frac{5}{8}$	$\frac{3}{4}$
Each	\$0.30	.40	.50	.65
Length, Inches	9	12	18	24
Width, Inches	$\frac{7}{8}$	1	1 $\frac{1}{8}$	1 $\frac{1}{4}$
Each	\$1.00	1.25	2.00	2.50

STARRETT TOOLS

No. 320—Flexible, Very Thin, Spring Tempered, Graduated on One Side Only.

No. 10 Graduations: First Corner, 32ds; Second Corner, 64ths.
 Length, Inches 4 6
 Width, Inches $\frac{1}{2}$ $\frac{1}{2}$
 Each \$0.5065

These Rules will easily conform to a 2 inch circle.

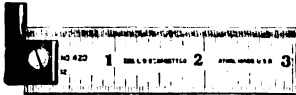

Narrow.

No. 330—Spring Tempered, $\frac{1}{4}$ inch or No. 18 Gauge Thick, Graduated One Corner Each Side Whole Length.

No. 10 Graduations: 32ds and 64ths.

Length, Inches 4 6
 Width, Inches $\frac{1}{8}$ $\frac{1}{8}$
 Each \$0.5065

Improved Hook.

No. 419—Spring Tempered, $\frac{1}{4}$ inch or No. 18 Gauge Thick, No. 4 Graduation, Also Graduated 32ds on Both Sides of One End.

No. 4 Graduations. First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 8ths.
 Length, Inches 6 6
 Width, Inches $\frac{3}{4}$ $\frac{3}{4}$
 Each \$1.00

Very convenient in taking measurements from round corners, through hubs of pulleys, setting inside calipers, etc., etc. The 6 inch may be carried in the pocket. The hook can be quickly removed by turning eccentric stud one-half round.

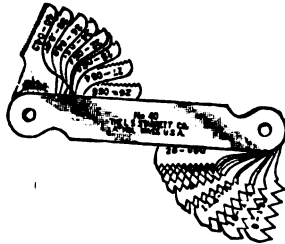

CENTER GAUGES

No. 390—Not Tempered, Graduated One Corner Each in 32ds, 24ths, 20ths and 14ths, 60 Degree Angle \$0.25

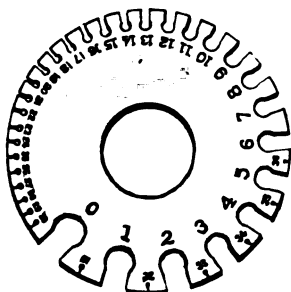

For use in grinding and setting screw cutting tools.

SCREW PITCH GAUGES

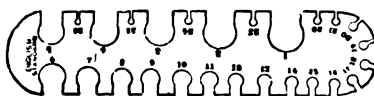

No. 40—Improved Screw Pitch Gauge Each \$1.00

This gauge has 22 pitches as follows: 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40, and can be used inside a nut, as well as on the outside of a screw or bolt.

WIRE GAUGES
ENGLISH STANDARD

Cast Steel, Polished.

No. 1—Large, Round, Nos. 0 to 36 Each \$2.00
 No. 2—Small, Round, Nos. 6 to 36 1.50

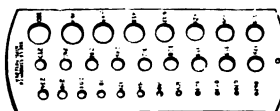

WIRE GAUGES

English Standard.

No. 3—Oblong, Nos. 0 to 36, Cast Steel, Polished Each \$2.00

JOBBER'S DRILL GAUGES

No. 187—For Gauging Twist Drills, Cast Steel, Hardened and Tempered, Standard Holes.... \$2.25

This gauge shows sizes from $\frac{1}{16}$ to $\frac{1}{2}$ inch, varying by 64ths. Each size is designated by both common and decimal fractions.

No. 407—With One Beveled Edge, Spring Tempered, $\frac{1}{4}$ inch Thick, No. 7 Graduation, with 100ths on Beveled Edge.

No. 7 Graduation: First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 100ths.

Length, Inches 6 6
 Width, Inches $\frac{3}{4}$ $\frac{3}{4}$
 Each \$0.65

Narrow Hook.

No. 422—Spring Tempered, $\frac{1}{4}$ inch Thick or No. 18 Gauge, Graduated One Corner Each Side Whole Length.

No. 10 Graduations: 32ds and 64ths.

Length, Inches 4 6
 Width, Inches $\frac{1}{8}$ $\frac{1}{8}$
 Each \$0.7590

These rules are designed for use in taking measurements through small holes where our regular hook rules cannot be used. They can also be used for setting inside calipers, etc. Measurements through holes as small as $\frac{3}{16}$ inch can be obtained.

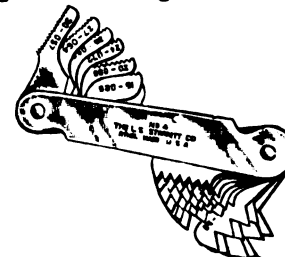

LUFKIN'S

No. 2204—Machine Divided, Tempered Steel, About 1/20 inch Thick, No. 4 Graduation, Also Graduated 32ds on Both Sides of One End.

No. 4 Graduation: First Corner, 64ths; Second Corner, 32ds; Third Corner, 16ths; Fourth Corner, 8ths.
 Length, Inches 6 12
 Width, Inches $\frac{3}{4}$ 1
 Each \$0.65 1.25

Each

No. 4—Screw Pitch Gauge Each \$1.25

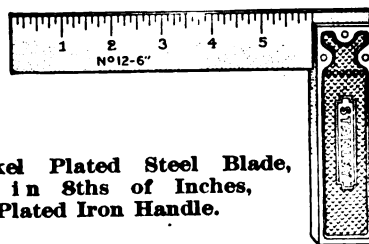

This gauge has 24 pitches as follows: 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30. The teeth are sharp and clean cut, it can be used inside of a nut as well as on outside of a screw or bolt. It is also a convenient and reliable tool to use as a 60-degree center gauge and gauge to test the grinding of either an inside or outside threading tool.

No. 20—Blued Steel Blade, Graduated in 8ths of Inches, Rosewood Handle, with Brass Face Plate.

TRY SQUARES

STANLEY'S

No. 12—Nickel Plated Steel Blade, Graduated in 8ths of Inches, Nickel Plated Iron Handle.

Square Inside and Out.

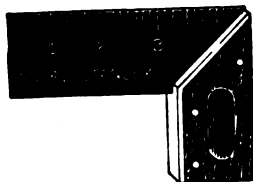

Length of Blade, Inches..	4 1/4	6	7 1/2	9
Length of Handle, Inches..	3 1/2	4 1/2	5 1/2	6
Weight Per Dozen, Lbs..	3 1/4	4	5 1/4	7 1/4
Per Dozen	\$4.00	5.50	6.00	7.50
Length of Blade, Inches..	10	12	15	18
Length of Handle, Inches..	6	7	8 1/4	9 3/4
Weight Per Dozen, Lbs..	7 1/2	9 1/2	12 1/4	15 1/4
Per Dozen	\$8.00	10.00	12.50	17.00

The edges of the blade are machined to insure accuracy. The inside of the handle has a brass face plate securely fastened with screws.

*The 15 and 18 inch sizes have a rest in the handle. One-half Dozen in a Box.

TRY AND MITRE SQUARES

STANLEY'S

No. 2—Blued Steel Blade, Graduated in 8ths of Inches, Rosewood Handle with Brass Face Plates.

Square Inside and Out.

Length of Blade, Inches....	4 1/4	6	7 1/2	9	12
Length of Handle, Inches...	3 3/4	4	5	5 3/4	5 3/4
Weight Per Dozen, Lbs....	3 3/4	4 1/2	5 1/4	7 1/2	8
Per Dozen	\$6.50	8.00	9.00	10.50	14.00

These Squares can be used with equal convenience and accuracy as a Try Square or a Mitre Square. One-half Dozen in a Box.

MITRE TRY SQUARES

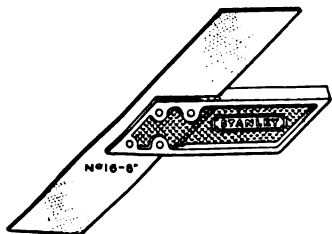

FOX'S

All Steel, Dull Nickel Finish. Per Dozen

No. 6—6 inch Blade, Graduated 8ths, 4 1/4 x 1 1/2 inch Head, Square Inside and Out,.....\$2.00
Weight Per Dozen 5 Pounds.
One-half Dozen in a Box.

MITRE SQUARES

STANLEY'S IMPROVED

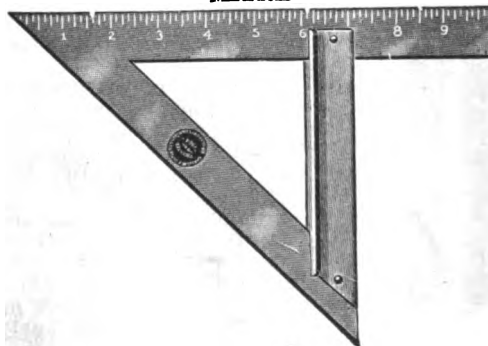

No. 16—Plain Nickel Plated Steel Blade, Nickel Plated Iron Handle.

Length Blade, In.	8	10	12
Lgh. Handle, In.	4 3/4	5 1/4	5 3/4
Wt. Dozen, Lbs..	8	9	10
Per Dozen	\$10.00	12.00	14.00

Much in demand for picture framing, as well as for other classes of regular mitred work. The blade is set at an angle of 45 degrees with the handle. One-half Dozen in a Box.

COMBINATION SQUARES

FOX'S COMBINED SQUARE AND MITRE

No. 3—10 inches Long, All Steel, Polished and Nickel Plated, Graduated 8ths, Simple, Accurate and Durable, no Adjusting Necessary, Weight Per Dozen 6 Lbs.....\$12.00
One-half Dozen in a Box.

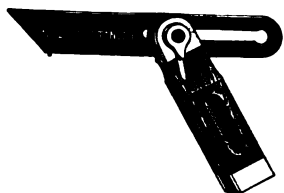

ROLLIS COMB. BEVEL AND SQUARE

Steel, Polished and Nickel Plated. Per Dozen
No. 1—Combines all the Advantages of a Figure 4 Mitre and Square with the Added Features of Having a Bevel, Weight Per Dozen 7 Lbs..\$12.00
One-half Dozen in a Box.

SLIDING T BEVELS

STANLEY'S

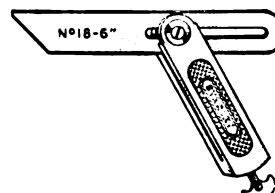

No. 25—Blued Steel Blade, Rosewood Handle with Brass Tips, Flush Brass Lever.

Length of Blade, Inches..	6	8	10	12	14
Length of Handle, Inches..	4 3/4	5 7/8	7 3/8	8 1/2	10 1/4
Weight Per Dozen, Lbs..	2 1/2	3 1/2	4 1/2	5 3/4	7
Per Dozen	\$5.00	5.50	6.00	6.50	7.00

These Bevels are so constructed that the bevel blade can be firmly secured by moving the lever with the thumb of the hand which grasps the handle, thus leaving free the other hand of the workman.

One-half Dozen in a Box.

No. 18—Nickel Plated High Grade Steel Blade, Nickel Plated Iron Handle, Thumb Screw in Handle.

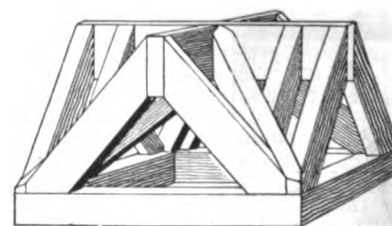

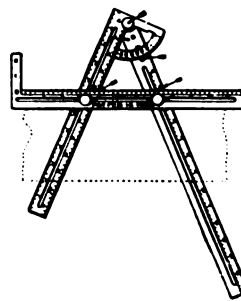

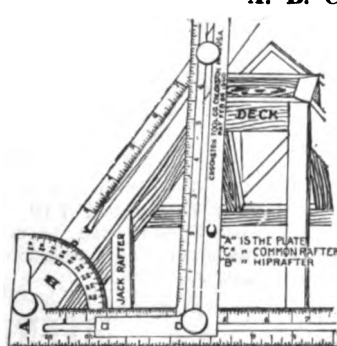

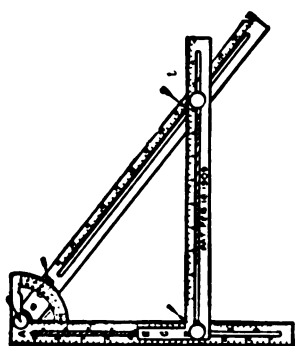

Length of Blade, Inches....	6	8	10
Length of Handle, Inches..	4 3/4	5 7/8	6 1/4
Weight Per Dozen, Lbs....	4 3/4	6 3/4	7
Per Dozen	\$9.00	11.00	12.00

These Bevels have an improved patented locking device which prevents the blade slipping after having once been locked in the desired position by means of a thumb screw. The blade is machined, hardened, tempered and ground on both edges and sides.

One-half Dozen in a Box.

PROTRACTOR SQUARES

A. B. C.

No. 1—A. B. C. Protractor Square, 16 1/4 inches Long, Steel, Accurately Graduated, Well Finished, Weight Each Boxed 1 1/2 Lbs. \$3.00

This is a carpenter's instrument which computes dimensions and angles mechanically. It does away with much figuring. It will prove your figures, if you prefer to work this way.

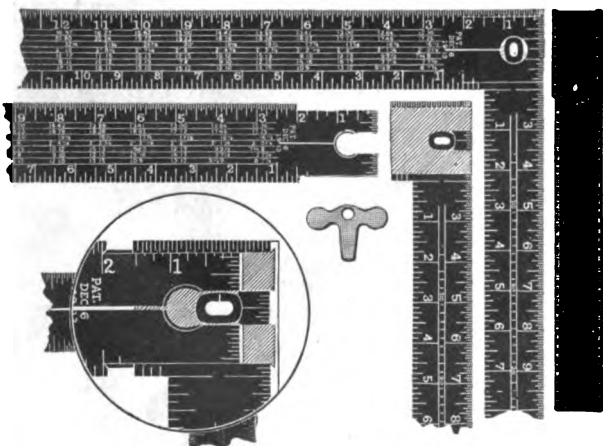

The three members, A, B and C constitute an adjustable triangle, combined with a degree circle.

It is especially useful in determining the measurements and angles at which rafters are to be cut; automatically shows the bevels or angles and computes lengths to the fraction of an inch.

Used in building framework, stairways and figures having a number of sides or segments such as towers, tanks, or silos.

STEEL SQUARES

NICHOLLS EXPANSION FIT JOINT TAKE-DOWN

Guaranteed to Remain True.

These Squares are so constructed so as to assure accuracy, and at same time take up the wear which comes in taking Squares apart and putting them together. They are constructed with bearings accurately machined, so as to bring the Square absolutely true when the cam is turned so as to expand the end of body in milled portion of tongue.

These Squares are hand fit, thus making a perfect joint, and taking this in connection with the expansion which comes when cam is turned, these Squares will last indefinitely.

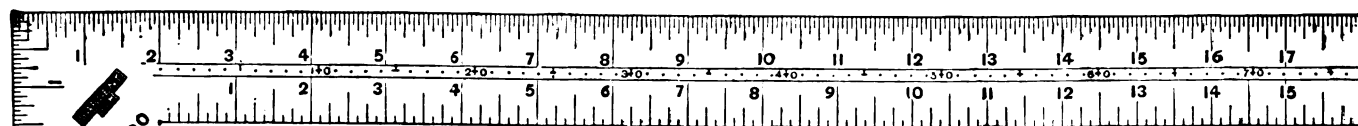

The following are some of the good points:

1. Strength where 1 1/2 inch portion of tongue joins on to 2 inch portion of Square.
2. Long bearings assure accuracy.
3. Tongue slipping on to body gives strength when throwing it down over joint or bench.
4. Oblong hole in cam so screw driver or nail can be used to release lock in case key is lost.
5. Bevel under cam holds end of tongue down.

Two Feet, Steel, In Rust Proof Canvas Case.

No. Z3—Polished, 24x2 inch Body, 16x1 1/2 inch Tongue, Face Marked 1/8 and 1/4 inch, Back Marked 1/12 and 1/4 inch, Board and Brace Measure, Octagon Scale.....	Per Dozen
No. Z100—Oxidized, 24x2 inch Body, 16x1 1/2 inch Tongue, Face Marked 1/8 and 1/8 inch, Back Marked 1/2, 1/12 and 1/10 inch, Essex's Board Measure, Brace Octagon, and 1/100 Scale.....	\$31.00
No. Z100F—Oxidized, Framing, 24x2 inch Body, 16x1 1/2 inch Tongue, Face Marked 1/8 and 1/8 inch, Back Marked 1/2, 1/12 and 1/10 inch, Regular Roof Framing Rule, Brace Measure, Octagon and 1/100 Scale.....	40.00

V. & B. ASSORTMENT

Extra Refined Steel, Oil Tempered, Polished Blade and Bevel, Knurled Handle.

Per Assortment

No. 100 Assortment—Consists of 12 Assorted V. & B. All Steel Wood Chisels, 6 3/4-inch, 4 1-inch and 2 1 1/4-inch, Put Up in a Neat Display Box, Weight Per Assortment 10 Lbs. \$14.00

A rough and ready efficiency tool for carpenters, electricians, tin-smiths, plumbers and general use.

Not intended to take the place of the wooden handle chisel.

The blade taper of the V. & B. Chisel is greater, therefore when prying off trim, mouldings, etc., or striking heavy blows for quick cutting, it will not bend or break.

- No. 37—1½ inch. 1.60

NOTE—When Ordering Any of the Above Planes, Always State Size of Iron Wanted.

FANCY WOOD PLANES

NOTE—Each Plane Cuts Only One Size. When Ordering, Always Specify Both Number and Size.

CENTER BEAD

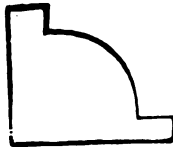

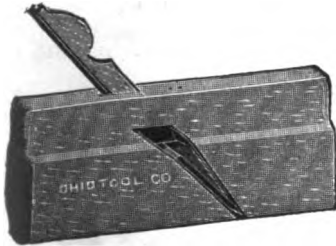

Bead Made by No. 41.

Double Boxed, Beechwood, Forged Tool Steel Cutter.

No. 41— $\frac{1}{2}$ inch	Each
No. 41— $\frac{3}{8}$, $\frac{1}{2}$ inch	\$1.00
No. 41— $\frac{3}{8}$, $\frac{1}{2}$ inch	1.10
No. 41— $\frac{3}{8}$, 1 inch	1.30

QUARTER ROUND OR SCOTIA

Moulding Made by No. 43 $\frac{1}{2}$.

Beechwood, Forged Tool Steel Cutter.

No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	Each
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	\$0.80
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	1.05

COMMON OGEE

Moulding Made by No. 59.

Beechwood, Forged Tool Steel Cutter.

No. 59— $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$, 1 in.	Each
No. 59— $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$, 1 in.	\$1.05
No. 59— $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$, 1 in.	1.40

REVERSE OGEE

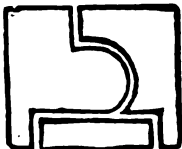

Moulding Made by No. 62, Reverse Ogee.

Beechwood, Forged Tool Steel Cutter.

No. 62— $\frac{1}{2}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, 1 inch	Each
No. 62— $\frac{1}{2}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, 1 inch	\$1.20

TABLE

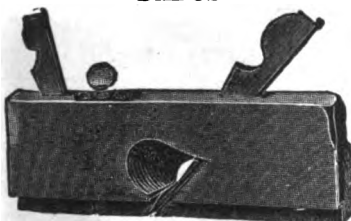

Work Done by No. 136.

Beechwood, Forged Tool Steel Cutters.

No. 136—With Gauge, $\frac{1}{2}$ and $\frac{3}{4}$ inch	Per Pair
No. 136—With Gauge, $\frac{1}{2}$ and $\frac{3}{4}$ inch	\$2.15
No. 137—With Gauge, Dovetailed and Boxed, $\frac{1}{2}$ and $\frac{3}{4}$ inch	2.80
No. 138—With Fence, $\frac{1}{2}$ and $\frac{3}{4}$ inch	2.65

DADOS

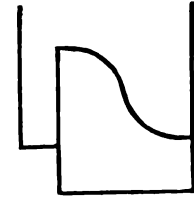

With Screw Stop, Beechwood, Forged Tool Steel Cutter.

No. 48— $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$ and 1 inch	Each
No. 48— $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$ and 1 inch	\$2.40

Average Weight Each 1 Pound.

CASING MOULDING

Moulding Made by No. 43 $\frac{1}{2}$.

With Fence, Beechwood, Forged Tool Steel Cutter.

No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$ inch	Each
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$ inch	\$1.80
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, $\frac{1}{2}$ inch	1.45

A new style plane. Works more easily than the old style.

CASING MOULDING

Beechwood, Forged Tool Steel Cutter.

No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	Each
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	\$1.80
No. 43 $\frac{1}{2}$ — $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$ inch	1.45

No. 43 $\frac{1}{2}$ is a new Moulding, much used for Door and Window Casing.

GRECIAN OGEE

Moulding Made by No. 60.

Beechwood, Forged Tool Steel Cutter.

No. 60— $\frac{1}{2}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, 1 inch	Each
No. 60— $\frac{1}{2}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{3}{4}$, 1 inch	\$1.20

ROMAN REVERSE OGEE

Moulding Made by No. 62 $\frac{1}{2}$.

Beechwood, Forged Tool Steel Cutter.

No. 62 $\frac{1}{2}$ — $\frac{1}{2}$, $\frac{3}{8}$ inch	Each
No. 62 $\frac{1}{2}$ — $\frac{1}{2}$, $\frac{3}{8}$ inch	\$1.20
No. 62 $\frac{1}{2}$ — $\frac{1}{2}$, $\frac{3}{8}$ inch	1.40

REEDING

Bead Made by No. 122.

Beechwood, Forged Tool Steel Cutter.

No. 122— $\frac{1}{4}$, $\frac{1}{2}$ inch, to Make One Bead	Each
No. 122— $\frac{1}{4}$, $\frac{1}{2}$ inch, to Make One Bead	\$1.60
No. 122— $\frac{1}{4}$, $\frac{1}{2}$ inch, to Make Two Beads	2.25

NOSING STEP

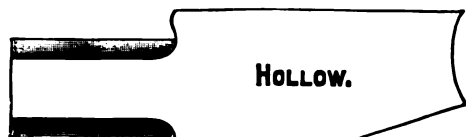

Beechwood, with Two Forged Tool Steel Cutters.

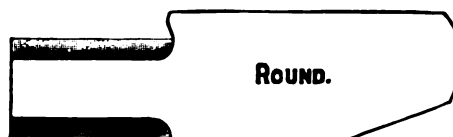

No. 91— $\frac{1}{4}$, $\frac{3}{8}$, 1, 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ inch	Each
No. 91— $\frac{1}{4}$, $\frac{3}{8}$, 1, 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ inch	\$1.75
No. 91— $\frac{1}{4}$, $\frac{3}{8}$, 1, 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ inch	1.95
No. 91— $\frac{1}{4}$, $\frac{3}{8}$, 1, 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ inch	2.40

FANCY WOOD PLANES

HOLLOWS AND ROUNDS

HOLLOW.

ROUND.

Beechwood, Forged Tool Steel Cutters, Average Length 9 1/4 inches.

Note—When ordering Half Pairs of Hollows and Rounds, be careful to give Number of Plane, and whether Hollow or Round. For instance, if a Plane as per cuts is wanted, say One No. 72, No. 3 Hollow, or One No. 72, No. 3 Round, and thus avoid confusion.

The Hollow Plane cuts the Round and the Round Plane Cuts the Hollow. Each Plane Cuts only one size.

No. 72—HOLLOWS AND ROUNDS

PANEL PLOW

No.	Description	Each
No. 97—Beechwood, Forged Tool Steel Cutter, Screw Stop, Boxed Fence, with Handle		\$11.00

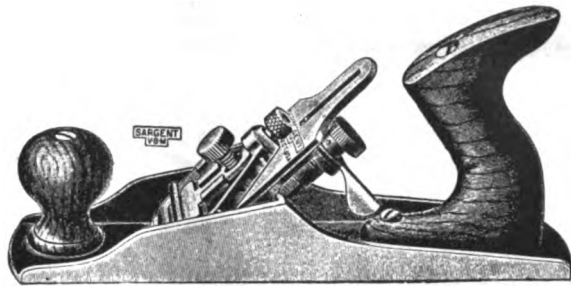

Average Weight Each 4 Pounds.

ADJUSTABLE IRON PLANES

SARGENT V. B. M.

Adjustable Knob for Nos. 718, 718C, 722 and 722C.

No. 707, Etc.

These Planes have the Superior Features Described Below:

THIN CUTTER

These Planes have a thin Cutter (No. 14 gauge), but the support for the Cutter is so solid below and the clamp so firm above, that there is no tendency to chatter, hence it is possible to use the thin Cutter and so get the slight advantage of the quicker grinding.

The Cutter requires no cap as the clamp acts as a breaker for the chip.

RIGIDITY

The Frog is very rigid and the Frog and Bed at the mouth are in alignment so that the Cutter has an even bearing down to the bevel of the Cutter. The Plane combines solidity, compactness and simplicity. The meeting surfaces of the Frog and Bed are all machined so that the fit is absolute.

EASE OF ADJUSTMENT

The lateral adjustment may be secured without removing the hand from the handle and the vertical adjustment, obtained through a direct acting thumb screw at the back of Cutter, is positive and rapid.

AUTOMATIC SET

When once set the clamp, when replaced after removal, will always return to its original position until reset. The clamp may be easily adjusted by means of a regulating screw, close to the cutting edge when a fine cut is required, away from the cutting edge when a coarse cut is desired and may be set in as many intermediate positions as may be needed.

ADJUSTABLE KNOB

The Fore and Jointer Planes, Nos. 718, 718C, 722 and 722C, are equipped with an Adjustable Knob. This Knob is high to give a full grip for the hand and is adjustable so that the user may regulate the position of the Knob, bringing it closer to the handle or further away, as he may prefer. This feature makes it convenient for use by carpenters with long or short arms and allows the forward hand plenty of clearance when the Plane is used close up to a projecting surface.

PURPOSE

These Planes are intended for both heavy and very fine cuts. They are especially adapted for working against the grain on cross-grained hard wood where the absolute rigidity of the Cutter avoids any tendency to chatter.

Automatic Set, Polished Trimmings, East India Mahogany Handle and Knob, with Patented Side Adjustment for Exact Adjusting of the Cutter with the Face of the Plane.

SMOOTH, JACK, FORE AND JOINTER

With Smooth Bottom.

	Each
No. 707—Smooth, 7 inches Long, 1½ inch Cutter, Weight Each 2½ Lbs.....	\$3.00

No. 722C—Jointer, 22 inches Long, 2¾ inch Cutter, Weight Each 7 Lbs.....	6.25

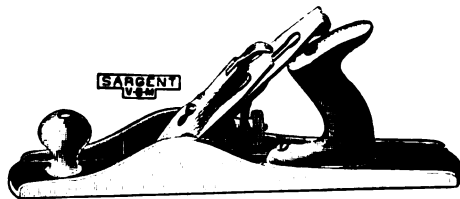

One in a Box.

ADJUSTABLE IRON PLANES

SARGENT V. B. M.

These Planes have a heavy cutter (No. 12 gauge) which offsets the tendency found in a Spring Cap Plane to vibrate when being used on cross-grained wood. The additional weight prevents chattering. The large opening in the cutter slot, being away from the cutting edge, lessens the liability of the cap being drawn over the edge in adjusting. Polished Trimmings, East India Mahogany Handle and Knob, with Patent Side Adjustment for Exact Adjusting of Cutter with the Face of the Plane.

ADJUSTABLE IRON PLANES

SARGENT V. B. M. SCRAPER

These Planes are especially suitable for scraping veneers and finishing cabinet and other fine work. They may also be used for removing old paint and glue.

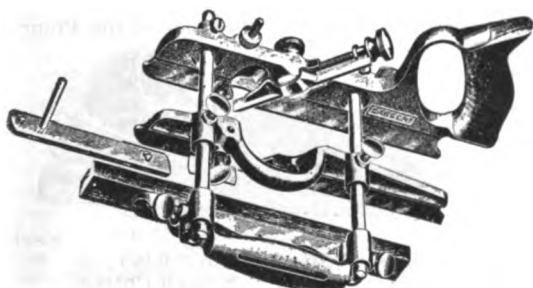

Particularly adapted for Stair Makers' and Floor Finishers' use.

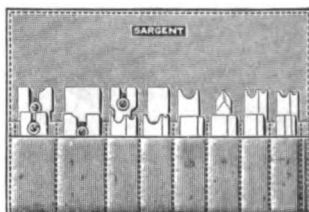

The Sargent Cutter Binding Screw is made from a steel stud headed over in a brass nut. The steel screw prevents the stripping of threads as on brass screws. The Frog, held by a machine screw, may be easily replaced in case of breakage.

No. 53—Japanned, Raised Handles, 3 1/2 inch Beechwood Face, 2 1/2 inch Cutter, Weight Each 4 Lbs.....	Each	\$2.75
Extra Cutters, 2 1/2 inch.....	Each	\$0.35
One in a Box.	Extra Wood Bottoms.....	Each
		\$0.75

SARGENT COMBINATION

No. 1080 Plane.

Cutters for No. 1080 Plane in Canvas Case.

No. 1080 Plane Complete in Box.

With Screw Adjustment, East India Mahogany Handle and Fence Plate.

No. 1080—(Stanley No. 45), 10 3/4 inches Long, Nickel Plated, Complete with 25 Cutters in Canvas Case, Plane and Canvas Case Put up in a Handled Stained Hardwood Box.....**\$18.25**
Designed for use in the following types of work: Dadoing, Rabbeting, Tonguing and Grooving, Beading, Slitting and Sash Cutting. It may also be used as a Filletster and with special Cutters as a Reeding Plane.
Fitted with two Depth Gauges for regulating the depth of the cut, one located on the Bed and the other on the Movable Bed. The Depth Gauge on the Bed may be raised or lowered by means of an adjusting nut.
For Beading or Grooving on the edge of a tongued board where there is no room for the Fence, an adjustable Guide is provided, replacing the Depth Gauge.

The Fence, which is reversible for use on wide boards, is also adjustable along the Rods for either side of the Plane. It is designed for service when the plane is used as a Filletster or Plow, to gauge the distance from the Cutter to the edge of the board and holding the Cutter at right angles to it.

A detailed description and directions for using are packed with each Plane.

ADJUSTABLE WOOD BOTTOM PLANES

BAILEY'S BENCH

"Bailey" Wood Planes supply the demand for a wood plane of superior quality. The bottom, handle and knob are made from selected and well seasoned beechwood. The cutters are the regular "Bailey" type and are adjustable both endwise and sidewise.

The Frog is held in place by two machine screws which pass through the top iron and screw into two brass lugs. These lugs are screwed and securely pinned into the wood bottom. This is far superior to other methods of fastening, as it holds together firmly the wood bottom, the top iron which strengthens the wood bottom and the frog.

Black Japanned Iron Frame.

One in a Package.	

STANLEY'S BENCH

With Lever Adjustment.

These Planes have a simple lever adjustment, are well made, and are for use in any place where extreme nicety of work is not required. The bottom, handle and knob are made of beechwood, and the entire plane is well finished.

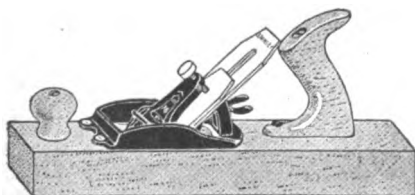

The cutters are of the double cutter type, of a high grade of steel and ground and honed ready for use. They are adjustable endwise by means of a lever and are held in place by a lever thumb screw.

SMOOTH

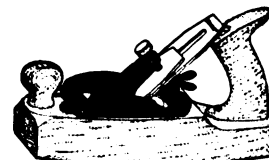

No. 122—8 inches Long, 1 3/4 inch Cutter, Weight Each 2 3/8 Lbs.	Each \$1.70
One in a Box.

No. 132—Jointer, 26 inches Long, 2 3/8 inch Cutter, Weight Each 7 3/8 Lbs.	Each \$2.80
One in a Package.	

ADJUSTABLE IRON PLANES

STANLEY'S "BED ROCK"

This Plane, owing to its solidity and variety of adjustments, surpasses all others for fine work on all woods.

The cutter, frog and bottom are so designed, machined and fitted that they are practically one solid piece of metal, thus preventing any chance of vibration.

Particular attention is called to the shape of the sides. This new and distinctive feature adds greatly to the strength of the plane as well as affording large bearing surfaces when the plane is used on its sides.

The frog may now be adjusted either forward or backward without removing the lever and cutter, simply slacken the tension of the two frog clamping screws "B" and with a screw driver adjust the frog as desired by means of the frog adjusting screw "C" in the center, and then tighten the frog clamping screws. (See cut).

The frog is held to its seat by means of two pins "A" of large diameter, each of these has a tapered hole near the lower end. The two frog clamping screws "B" have tapered points. These points fit in the holes in the pins "A". The center of the tapered hole in these pins is slightly above the center line of the frog clamping screws, so that when these screws are driven in, they produce the effect of a wedge, drawing the pins downward, and clamping the frog absolutely rigid in its place.

If, for any reason, these frog pins "A" should be taken out of the plane, care must be used in replacing them to see that the tapered holes come in line with the points of the frog clamping screws "B".

The cutter is the regular "Bailey" cutter and is adjustable both endwise and sidewise.

The handle and knob are of well seasoned rosewood. The shape of the knob has recently been changed, the new shape allowing a firmer and easier grip.

No. 606C—18 inches Long, 2 1/2 inch Cutter, Weight Each 7 1/2 Lbs. 5.50
No. 607C—22 inches long, 2 3/4 inch Cutter, Weight Each 8 1/2 Lbs. 6.40
No. 608C—24 inches Long, 2 3/4 inch Cutter, Weight Each 9 1/2 Lbs. 7.50

One in a Box.

NOTE—The Corrugated Bottom creates very little friction and makes an easier running Plane than the Flat Bottom.

ADJUSTABLE IRON PLANES

BAILEY BENCH

Bench Planes are divided into four classes, namely: **Smooth, Jack, Fore, and Jointer.**

A **Smooth Plane** is for finishing or smoothing off flat surfaces. Where the uneven spots are of slight area, its short length will permit it to locate these irregularities, leaving the work with a smooth surface when finished.

A **Jack Plane** is used to true up the edges of a board in the rough and prepare it for the Fore or Jointer.

A **Fore Plane** is simply a short Jointer, and being lighter, is preferred by some workmen to the longer plane.

A **Jointer** is a finishing Plane for large surfaces and is invariably used to true up the edges of boards so that they can be closely fitted or joined together.

In the illustration the detail of construction is very clearly shown. Note that the frog has a support directly at the rear of the mouth, making practically one solid piece from the cap to the bottom. The sides and bottom of the plane are stiffened by means of the cross ribs. The screw bosses on each side of the center rib are very deep, allowing a number of threads to engage, thereby securely holding the frog. The design prevents the plane being drawn out of true when the face of the frog is screwed up hard.

The width of the mouth may be regulated and made wider or narrower as coarse or fine work may require.

The cutter, which is thin and of uniform thickness, is a prominent feature of the "Bailey" Plane.

The cutter is adjustable endwise by means of the adjusting wheel at the back of the frog. It is also adjustable sidewise by lever located near the top and at the back of the cutter.

It is made of the finest quality English steel, tempered and ground by an improved process, and honed ready for use.

The handle and knob are made of highly finished, thoroughly seasoned rosewood.

ADJUSTABLE STEEL PLANES

STANLEY'S BENCH

These Planes are much in demand for outdoor work where tools are apt to get knocked around and are subjected generally to more or less rough usage. The bottoms and sides are one piece of pressed steel, making them practically non-breakable. They weigh considerably less than iron planes, and for light work on soft woods will be found very useful. The cutters are of the double type and are adjustable endwise by means of the small lever shown in the cut. The handles and knobs are made of rosewood.

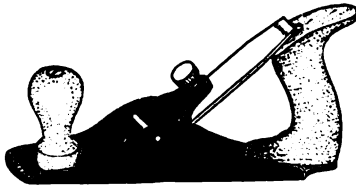

No. 104—Smooth, 9 inches Long, 2½ inch Cutter, Weight Each 3 Lbs.	\$3.00
One in a Box.	

No. 105—Jack, 14 inches Long, 2½ inch Cutter, Weight Each 4 Lbs.	\$3.85
One in a Box.	

ADJUSTABLE IRON PLANES

STANLEY'S SCRUB

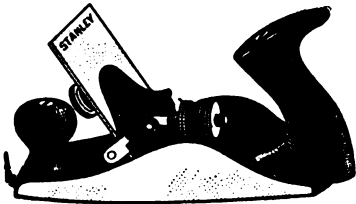

- Each
No. 40—9 1/2 inches Long, 1 1/4 inch Cutter with Rounded Edge, Beechwood Handle and Knob, Weight Each 2 Lbs. \$1.75

With these planes the user can quickly plane down to a rough dimension any board that is too wide to conveniently rip with a hand saw, an operation that is sometimes called "hogging". This is made possible by reason of the peculiar shape of the extra heavy cutter, the cutting edge of which is rounded instead of square.

One in a Box.

STANLEY'S SINGLE HANDLE VENEER SCRAPER

- Each
No. 112—9 inches Long, 3 inch Cutter, Rosewood Handle and Knob, Weight Each 4 Lbs. \$3.30
No. 112V—Extra Cutters, for Veneer Scraping, 3 inch... .25
No. 112T—Extra Toothing Cutters, 22, 28 or 32 Teeth to the inch25

This Plane has the same form as the regular Bailey Plane and is preferred by some users to the double handle Scraper Plane. The blade is adjustable endwise and for angle, and can be firmly locked in position desired.

One in a Box.

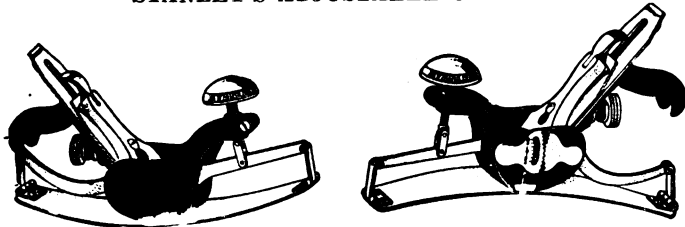

STANLEY'S EDGE TRIMMING

- Each
No. 95—6 inches Long, 7/8 inch Cutter, Japanned, Weight Each 1 1/4 Lbs. \$1.70
Designed especially for trimming or smoothing the ends of boards, such as sidings, etc., for a square or close fit. It has a right angle rest or guide from the cutter edge, and the cutter works on a skew, giving an easy shaving cut. In the rest or guide are two screw holes to which wood blocks of various bevels may be attached, enabling the user to make a slanting cut.

One in a Box.

STANLEY'S ADJUSTABLE CIRCULAR

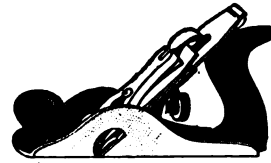

- Each
No. 113—10 inches Long, 1 3/4 inch Cutter, Flexible Steel Face, Japanned Stock, with Graduated Scale for Setting the Face, Weight Each 3 1/2 Lbs. \$4.75

These Planes have flexible steel faces which can be accurately adjusted for planing the inside or outside of circles. The cutters are the same and have the same adjustments as the "Bailey" and "Bed Rock" Planes.

No. 113 is the original design for this class of tools. The face is fastened at its center to the plane body, and adjusted at the ends by means of a screw and levers.

One in a Box.

STANLEY'S CARRIAGE MAKERS' RABBIT.

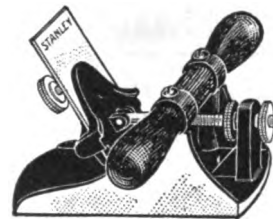

- Each
No. 10 1/4—9 inches Long, 2 1/4 inch Cutter, Rosewood Handle and Knob, Weight Each 3 Lbs. \$4.50
No. 10—13 inches Long, 2 1/4 inch Cutter, Rosewood Handle and Knob, Weight Each 4 1/4 Lbs. 4.90

Especially designed for heavy work and framing and will be found to be an excellent tool for a wide variety of work. The Cutter is of the Double Cutter type, and is adjustable endwise and laterally.

One in a Box.

STANLEY'S DOUBLE HANDLE VENEER SCRAPER

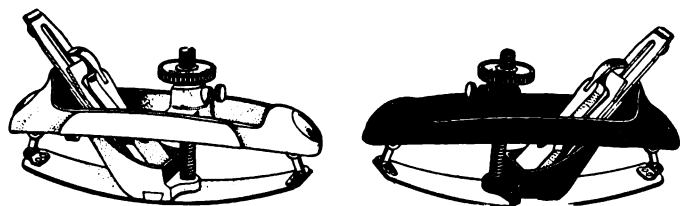

- Each
No. 12—6 1/4 inches Long, 3 inch Cutter, Rosewood Handle, with Double Grip, Weight Each 3 3/4 Lbs. \$3.80
No. 12V—Extra Cutters, for Veneer Scraping, 3 inch... .25

The handles are of rosewood with a double grip, and, being placed across the center of the tool, give it a good balance. The blade is adjustable endwise and for angle, and can be firmly locked in position desired.

One in a Box.

VICTOR ADJUSTABLE CIRCULAR

- No. 20. No. 20 1/2. Each
No. 20—10 inches Long, 1 3/4 inch Cutter, Flexible Steel Face, Nickel Plated Stock, Weight Each 4 Lbs. \$6.35
No. 20 1/2—Same as No. 20, but with Japanned Stock.. 5.40

Nos. 20 and 20 1/2 are of a more recent and improved design. The face is fastened at each end to the plane body and adjusted by a screw at the center. This construction gives great strength and accuracy.

IRON BLOCK PLANES

STANLEY'S

Black Japanned Iron Frame, Polished Face, Japanned Sides, Best Quality English Steel Cutter, Tempered and Ground, Honed Ready for Use.

Each
No. 101—3½ inches Long, 1 inch
Cutter, Non-Adjustable.....\$0.30
Per Dozen
Extra Cutters\$0.90
A very handy little plane. Can be
used for a variety of purposes.
Weight Each ¼ Pound.
Six in a Box.

Black Japanned Iron Frame, Polished Face and Sides, Best Quality English Steel Cutter, Tempered and Ground, Honed Ready for Use.

Each
No. 102—5½ inches Long, 1½
inch Cutter, Non-Adjustable.....\$0.60
Per Dozen
Extra Cutters\$1.80
Extra Caps1.80
A light, serviceable plane.
Weight Each ¾ Pound.
One in a Box.

Each
No. 103—5½ inches Long, 1½
inch Cutter, Endwise Lever
Adjustment\$0.80
Per Dozen
Extra Cutters\$1.80
Extra Caps1.80
A good plane for light work.
Weight Each ¾ Pound.
One in a Box.

Each
No. 110—7½ inches Long, 1½
inch Cutter, Non-Adjustable,
Applewood Knob\$0.80
Per Dozen
Extra Cutters\$2.40
Extra Caps1.80
The most popular of all the non-ad-
justable planes.
Weight Each 1½ Pounds.
One in a Box.

Each
No. 120—7½ inches Long, 1½
inch Cutter, Endwise Lever
Adjustment, Rosewood
Knob\$1.05
Per Dozen
Extra Cutters\$3.40
Extra Caps1.80
Same style as No. 103, but with
ground sides and knob.
Weight Each 1½ Pounds.
One in a Box.

Each
No. 220—7½ inches Long, 1½
inch Cutter, Endwise Lever
Adjustment, Rosewood
Knob\$1.05
Per Dozen
Extra Cutters\$3.40
Extra Caps1.80
In many ways better adapted for aver-
age use than the cheaper block planes.
Weight Each 1½ Pounds.
One in a Box.
Double End.

Manual Training.
Each
No. 203—5½ inches Long, 1½
inch Cutter, Endwise Screw
Adjustment, Rosewood
Knob\$1.10

Designed especially for manual training use. The bottom
and sides are ground and it is fitted with the well known
"Hand-y" feature, which aids very materially in providing a
firm grip for the hand of the user. The cutter is secured in its
place by a lever fastened with a cam.

Weight Each 1½ Pounds.
One in a Box.

Each
No. 130—8 inches Long,
1½ inch Cutter, Hard-
wood Knob.....\$1.10
Per Dozen
Extra Cutters\$2.40
Extra Caps1.80
This Plane has two Slots and two Cutter Seats. By revers-
ing the position of the Cutter and the Clamping Wedge, it can
be used close up into the corners, or other difficult places.
Weight Each 1½ Pounds.
One in a Box.

Adjustable Double End.
Each
No. 131—8 inches Long, 1½ inch Cutter, Rosewood
Knob, Endwise Screw Adjustment.....\$2.00
A combination Block and Bull Nose Plane. Has two slots
and a movable cutter seat. Use center cutter seat and slot
for ordinary block plane work. For use as a bull nose plane
remove the cap and cutter, reverse the cutter seat by throwing
over the adjusting wheel, replace the cap and cutter in the new
position. Fitted with the well known "Hand-y" feature on
the sides, forming a convenient grip for the hand.
Weight 1½ Pounds.
One in a Box.

Low Angle, Adjustable Throat.
Each
No. 60—6 inches Long, 1½ inch Cutter, Endwise Screw
Adjustment, Nickel Plated Trimmings, Weight Each
1½ Lbs.\$1.85
No. 60½—Same as No. 60, but with Japanned Trim-
mings1.65
In the Low Angle Planes, the cutter rests on its seat at an
angle of only 12 degrees. This angle permits of great ease in
working across the grain on hard woods. They have adjustable
throats, which allow of the opening or closing of the mouth
as coarse or fine work may require. Fitted with the well known
"Hand-y" feature. One in a Box.

Low Angle, Adjustable Throat, Knuckle Joint.
Each
No. 65—7 inches Long, 1½ inch Cutter, Endwise Screw
Adjustment, Nickel Plated Trimmings.....\$2.20
The Knuckle Joint permits of great leverage, consequently
the lever can be placed in position or removed with very little
effort. The cutter rests on its seat at an angle of only 12
degrees, permitting great ease in working across the grain of
hardwoods.
Weight Each 1½ Pounds.
One in a Box.

Low Angle, Adjustable Throat.
Each
No. 62—14 inches Long, 2 inch Cutter, Rosewood Han-
dle and Knob, Endwise Screw Adjustment.....\$4.40
Especially adapted for use in cutting across the grain on
heavy work, where more power is required than can be obtained
by the use of the ordinary block plane. The adjustable throat
allows opening or closing of the mouth, as coarse or fine work
may require. Weight Each 3½ Pounds.
One in a Box.

IRON BLOCK PLANES

BAILEY'S

"Bailey" Block Planes are the highest type of Block Planes manufactured. They have the most improved form of adjustment, which enables the user to accurately adjust the cutter either endwise or sidewise. The cutter rests on its seat at an angle of 20 degrees as against 45 degrees in the ordinary bench planes, and the cutter bevel is made on the upper instead of on the lower side. All have adjustable throats which permit of the opening or closing of the mouth as coarse or fine work may require. The "Hand-y" feature on the sides forms a convenient grip for the hand.

Adjustable Throat.

- No. 9½—6 inches Long, 1½ inch Cutter, Endwise Screw and Lateral Lever Adjustment, Japanned Trimmings \$1.60
Weight Each 1½ Pounds.
One in a Box.

Adjustable Throat.

- No. 9¾—6 inches Long, 1½ inch Cutter, Rosewood Handle, Endwise Screw and Lateral Lever Adjustment, Japanned Trimmings.....\$2.00
No. 15¾—7 inches Long, Otherwise Same as No. 9¾ .. 2.10
The rosewood handle enables the user to conveniently work the plane with both hands, if he so desires.
Weight Each 1½ Pounds.
One in a Box.

Adjustable Throat.

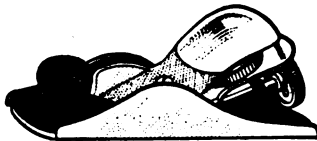

- No. 15—7 inches Long, 1½ inch Cutter, Endwise Screw and Lateral Lever Adjustment, Japanned Trimmings\$1.80
No. 16—6 inches Long, 1½ inch Cutter, Nickel Trimmings, Otherwise Same as No. 15..... 1.85
No. 17—Nickel Trimmings, Otherwise Same as No. 15. 2.00
Weight Each 1½ Pounds.
One in a Box.

- Knuckle Joint, Adjustable Throat, Nickel Plated Trimmings. Each
No. 18—6 inches Long, 1½ inch Cutter, Endwise Screw and Lateral Lever Adjustment.....\$2.00
No. 19—7 inches Long, Otherwise Same as No. 18..... 2.10
The Knuckle Joint in the cap makes it also a lever, and placing the cap in position clamps the cutter securely to its seat.
Weight Each 1½ Pounds.
One in a Box.

ADJUSTABLE IRON PLANES

STANLEY'S RABBIT AND BLOCK

- No. 140—7 inches Long, 1¾ inch Cutter, Rosewood Knob, with Detachable Side, Nickel Plated Trimmings\$2.20
The Detachable Side will easily change this tool from a Block Plane to a Rabbit Plane, or vice versa. The Cutter is set on a skew and is adjustable endwise.
Weight Each 1 Pound.
One in a Box.

STANLEY'S BULL NOSE RABBIT

- No. 75—4 inches Long, 1 inch Cutter, Japanned Trimmings\$0.60
Very useful for working close up into corners or other difficult places. The mouth can be adjusted for different widths by means of the set screw on top of the plane.
Weight Each ½ Pound.
One in a Box.

STANLEY'S SIDE RABBIT

No. 98

- No. 98—4 inches Long, Right Hand, ½ inch Cutter, Nickel Plated, Rosewood Knob\$1.55
No. 99—4 inches Long, Left Hand, ½ inch Cutter, Nickel Plated, Rosewood Knob 1.55

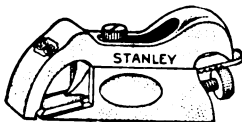

No. 99

A convenient tool for side-rabbiting and trimming Dados, Mouldings and Grooves of all sorts. A Reversible Nose-piece will give the tool a form by which it will work close up into corners when required.

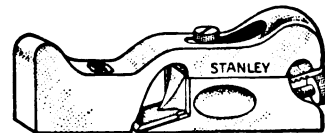

Weight Each ½ Pound.
One in a Box.

STANLEY CABINET MAKERS' RABBIT

No. 90—Bull Nose.

Nickel Plated, Adjustable Throat, Endwise Screw Adjustment.

Nos. 92, 93, 94.

Nos.	90	92	93	94
Length, Inches	4	5 ½	6 ½	7 ½
Cutter, Inches	1	¾	1	1 ¼
Weight Each, Lbs.	1	1 ½	1 ¾	2
Each	\$4.40	4.40	3.60	4.25

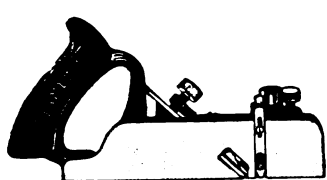

Adapted for fine cabinet or other work where extreme accuracy is required. The sides and bottom being square with each other, the plane will lie perfectly flat on either side and can be worked with either right or left hand.

No. 90 Plane is of the Bull Nose pattern so that it can be used close up into corners or other difficult places.

One in a Box.

ADJUSTABLE IRON PLANES

STANLEY'S DADO

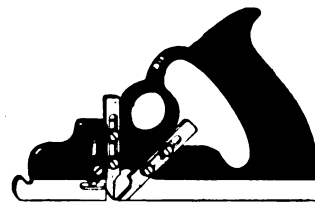

Japaned Iron Stock, 8 inches Long, with Skew Cutters, Adjustable Depth Gauge and Two Adjustable Spurs.

Nos.	39 1/4	39 3/8	39 1/2	39 5/8	39 3/4	39 7/8	39-1
Cutter, Inches....	1/4	3/8	1/2	5/8	3/4	7/8	1
Wt. Each, Lbs....	1 3/4	1 3/4	1 3/4	2	2	2 1/4	2 1/4
Each	\$2.50	2.50	2.50	2.50	2.50	2.50	2.50

The great advantage of these Dado Planes over those of wood is that they will keep true under all conditions even in the narrowest widths. They have skew cutters, an adjustable depth gauge and two adjustable spurs, one on each side of the Plane. This adjustable feature permits of the spurs being adjusted to take up wear, as well as for the depth of the cut.

One in a Box.

This Plane will be of Special Interest to Electricians.

Japaned Iron Stock, with Double Spur and Detachable Depth Gauge.

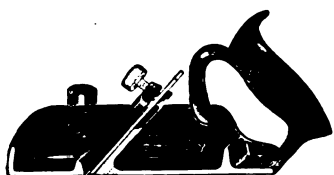

No. 239—7 1/2 inches Long, 1/8 inch Cutter, Weight Each 1 Lb. \$3.40

This Plane has an extra narrow cutter, only 1/8 of an inch wide, making it an ideal tool for blind wire grooving as well as for many other purposes.

It is fitted with a double spur, which prevents splintering when working across the grain and insures a smooth, clean cut.

A depth gauge is also attached allowing a groove to be cut of any desired depth up to the limit of the plane—1/2 of an inch. One in a Box.

STANLEY'S RABBIT

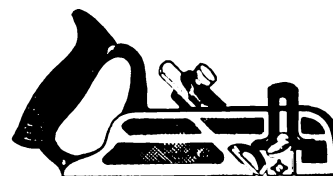

Japaned Iron Stock, 8 inches Long, without Spur, with Detachable Depth Gauge.

Nos.	180	181	182
Cutter, Inches	1 1/2	1 3/4	1
Weight Each, Lbs.....	2 1/2	2 1/4	2
Each	\$1.80	1.80	1.80

These planes will lie perfectly flat on either side and can be used equally as well with right or left hand while planing into corners or up against perpendicular surfaces.

One in a Box.

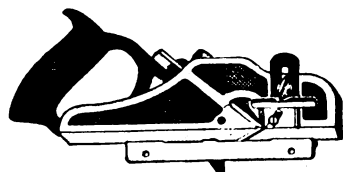

Japaned Iron Stock, 8 inches Long, with Spur for Working Across the Grain and Detachable Depth Gauge.

Nos.	190	191	192
Cutter, Inches	1 1/2	1 3/4	1
Weight Each, Lbs.....	2 1/2	2 1/4	2
Each	\$2.00	2.00	2.00

These Planes will lie perfectly flat on either side and can be used equally well with right or left hand while planing into corners or up against perpendicular surfaces.

One in a Box.

STANLEY'S DUPLEX, FILLETSTER AND RABBIT

No. 280—8 1/2 inches Long, 1 3/4 inch Cutter, Japaned Iron Stock

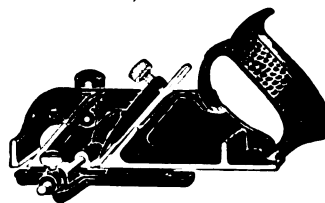

Each

\$3.00

This Plane has an extra wide skew cutter. An adjustable spur is fitted to each side. The fence and depth gauge can be attached to either side; the plane is therefore suitable for right or left hand work. The adjustable fence slides under the bottom, regulating the width of the cut. Remove arms and fence and a Skew Cutter Rabbit Plane is obtained.

Weight Each 3 3/4 Pounds.

One in a Box.

No. 78—8 1/2 inches Long, 1 1/2 inch Cutter, Japaned Iron Stock, with Spur and Detachable Depth Gauge..

Each

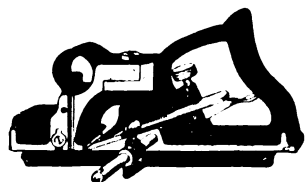

\$2.50

This Plane has two seats for the cutter, one for regular work and the other where a bull-nose is required. It has a spur and a removable depth gauge. The adjustable fence can be used on either side and slides under the bottom, regulating the width of the cut. To work same as a rabbit plane, remove fence and arms.

Weight Each 3 Pounds.

One in a Box.

STANLEY'S RABBIT AND FILLETSTER

No. 278.

No. 278—6 3/4 inches Long, 1 inch Cutter, Japaned Iron Stock, with Two Spurs and Adjustable Depth Gauge.....

Each

\$2.50

The sides and bottom being square with each other, the plane will lie perfectly flat on either side.

It has an adjustable fence which slides under the bottom, regulating the width of cut. As both the fence and the depth gauge can be attached to either side, the plane is suitable for either right or left hand work.

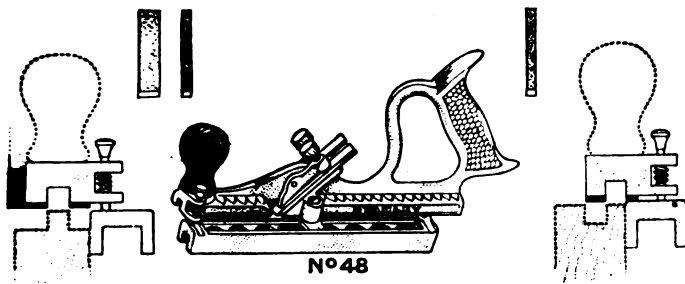

The front part of the plane can be easily detached, thus providing a bull nose plane for working close up into corners or other difficult places.

Weight Each 2 Pounds.

One in a Box.

ADJUSTABLE IRON PLANES

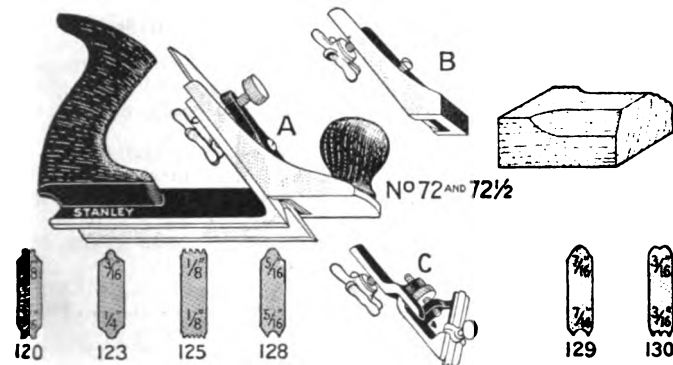

STANLEY'S SWINGING FENCE MATCHING

Nickel Plated Iron Handle and Body, Rosewood Knob.

- Each
No. 48—Cuts $\frac{1}{8}$ inch Groove on $\frac{3}{4}$ to $1\frac{1}{4}$ inch Boards, Centers on $\frac{7}{8}$ inch, Weight Each $3\frac{3}{4}$ Lbs. \$4.15
No. 49—Cuts $\frac{1}{8}$ inch Groove on $\frac{1}{2}$ to $\frac{3}{4}$ inch Boards, Centers on $\frac{1}{2}$ inch, Weight Each $2\frac{3}{4}$ Lbs. 4.15
This form has two plow cutters of the same width, and one extra wide cutter. The fence in one setting exposes two cutters for cutting the tongue, and, when reversed, leaves only one exposed for cutting the groove. On thicker boards than the plane works on center, the extra wide cutter is substituted for for groove cutter when cutting tongue.
One in a Box.

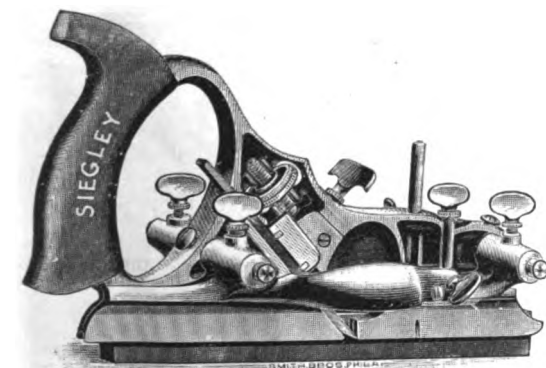

STANLEY'S ADJUSTABLE CHAMFER

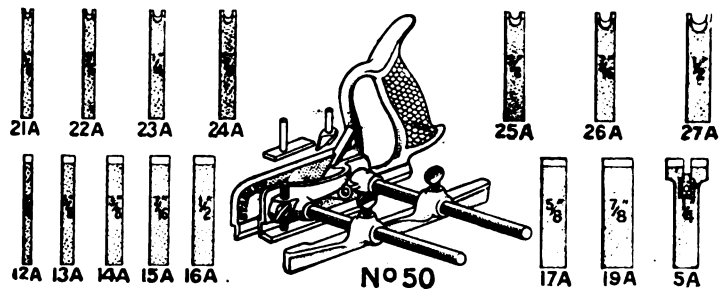

Japanned Iron Body, Rosewood Handle and Knob.

- Each
No. 72—9 inches Long, $1\frac{1}{2}$ inch Cutter, with "A" and "B" Attachments, Weight Each $3\frac{3}{4}$ Lbs. \$3.40
No. 72 $\frac{1}{2}$ —9 inches Long, $1\frac{1}{2}$ inch Cutter, with "A", "B" and "C" Attachments and 6 Moulding Cutters Sharpened at Both Ends, (Attachment "C" and the 6 Cutters Make Possible the Working of a Variety of Ornamental Forms), Weight Each $4\frac{1}{2}$ Lbs. 5.15

This Plane will do perfect chamfer or stop-chamfer work. It has a ninety degree V bottom which acts as a mitre guide. To this is attached an adjustable front, "A", having a flat bottom which carries the cutter; this front can be set for different sizes of chamfer. Front "A" can be readily detached and a bull-nose front "B" (furnished with this plane) substituted, permitting the plane to be worked close up into corners.
One in a Box.

STANLEY'S COMBINED PLOW, BEADING AND MATCHING

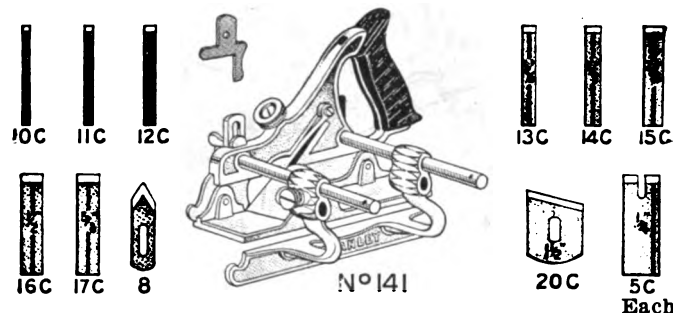

Nickel Plated Stock and Fence.

- Each
No. 50—9 $\frac{1}{4}$ inches Long, Complete with 15 Cutters. \$6.90
The Cutters comprise 7 plow and dado bits, one each $\frac{1}{4}$, $\frac{1}{8}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$ and $\frac{3}{4}$ inch; 7 beading tools, one each $\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$ and $\frac{3}{4}$ inch, and a $\frac{1}{4}$ inch tonguing tool.
A very handy tool for light work. It consists of a main stock, carrying a spur and a depth gauge, forming a support for one side of the cutter; a sliding section, carrying a spur and forming a support for the other side of the cutter and a fence with a 5 inch adjustment.

Weight Each $3\frac{1}{2}$ Pounds.
One in a Box.

STANLEY'S COMBINED BULL NOSE PLOW, FILLETSTER AND MATCHING

- Each
No. 141—9 $\frac{1}{4}$ inches Long, Nickel Plated Stock and Fence, Rosewood Handle, Complete with 11 Cutters, Weight Each $5\frac{1}{2}$ Lbs. \$8.25

The Cutters comprise 8 plow bits, $\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$, $\frac{7}{8}$, $\frac{1}{2}$ and $\frac{3}{4}$ inch; a $1\frac{1}{2}$ inch filletster cutter; a $\frac{1}{4}$ inch tonguing tool and a slitting cutter.
This Plane has two interchangeable front parts that make it either an ordinary plow or bull nose plow.

STANLEY'S COMBINED BULL NOSE PLOW AND MATCHING

- Each
No. 143—9 $\frac{1}{4}$ inches Long, Nickel Plated Stock and Fence, Rosewood Handle, Complete with 10 Cutters, Weight Each $4\frac{1}{2}$ Lbs. \$6.00
The Cutters comprise 8 plow bits, $\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$, $\frac{7}{8}$, $\frac{1}{2}$ and $\frac{3}{4}$ inch; a $\frac{1}{4}$ inch tonguing tool and a slitting cutter.
This plane is the main stock, with spur, depth gauge and slitting and the fence used in No. 141 Plane, but without the filletster bottom and cutter.

One in a Box.

SIEGLEY'S IMPROVED ADJUSTABLE COMBINATION

- Each
No. 2—10 $\frac{1}{2}$ inches Long, Iron Stock, Nickel Plated, with 18 Cutters, Weight Each 8 Lbs. \$11.00

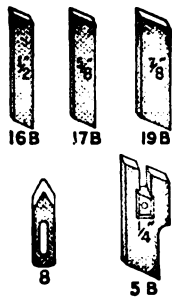

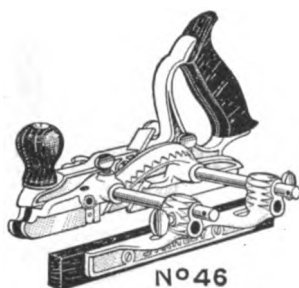

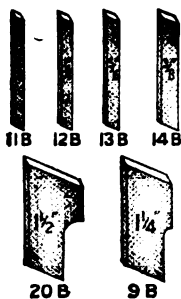

This Plane is a combination of a Carpenter's Plow and Dado with a Side and Center Beading Plane. Each Plane is accompanied by 9 Plow Cutters ($\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ and $\frac{7}{8}$ inch).

Seven Beading Tools ($\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$ and $\frac{3}{4}$ inch), a $\frac{7}{8}$ inch Match Cutter, and a Sash Tool.

One in a Box.

ADJUSTABLE IRON PLANES

STANLEY'S PLOW, DADO, FILLETSTER AND MATCHING

No. 46—10 $\frac{1}{2}$ inches Long, Nickel Plated Stock and Fence, Rosewood Handle and Knob, Complete with 11 Cutters, Weight Each 5 $\frac{1}{2}$ Lbs. \$7.50
The cutters comprise 8 plow and dado bits, $\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ and 1 $\frac{1}{4}$ inch; a 1 $\frac{1}{2}$ inch filletster cutter; a $\frac{1}{4}$ inch tonguing tool, and a slitting cutter.

Skew cutters are the feature of this Plane. It consists of a main stock carrying a spur, a depth gauge and a slitting cutter, a sliding section carrying a spur and forming an extra sole for the Plane, and a fence (rosewood face) which can be set for either plow or filletster work.

One in a Box.

Each

STANLEY'S DADO

No. 47—10 $\frac{1}{2}$ inches Long, Nickel Plated Stock, Rosewood Handle and Knob, Complete with 6 Cutters, Weight Each 3 $\frac{1}{4}$ Lbs. \$6.00

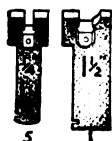

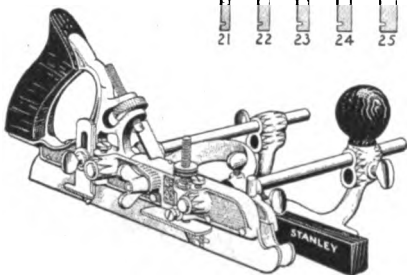

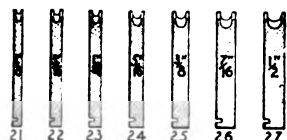

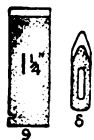

The cutters comprise 5 dado bits, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ and 1 $\frac{1}{4}$ inch, and a slitting cutter.

This is the main stock with spur, slitting, depth gauge and the sliding section with spur, used in Plane No. 46 described above, but without the fence, and with fewer cutters.

One in a Box.

Each

STANLEY'S PLOW, BEADING, RABBIT AND MATCHING

Seven Tools in One in Compact and Practical Form.

No. 45—10 inches Long, Nickel Plated Stock and Fence, Rosewood Handle and Knob, Complete with 21 Cutters as Described Below, without Hollows and Rounds and without Nosing Tool. \$12.00

Weight Each 9 $\frac{1}{2}$ Pounds.

One in a Neat Steel Box, Complete with Cutters.

Each

This Plane embraces in a compact and practical form (1) beading and center beading plane; (2) plow; (3) dado; (4) rabbit and filletster; (5) match plane; (6) sash plane; (7) slitting plane.

Each Plane is accompanied by seven beading tools ($\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ and 1 $\frac{1}{4}$ inch), ten plow and dado bits ($\frac{1}{8}$, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ and 1 $\frac{1}{4}$ inch), a filletster, slitting, match and sash tool; twenty-one tools in all.

The Plane is fitted with spurs for use across the grain, etc., and can be used either right or left hand.

Per Set

Cutters Only—Set of 21, as Described Above. \$6.80

CAM REST

For beading at a distance from the edge of a board, attach Cam Rest (see cut at right of plane) to the front arm between the sliding section and fence to prevent the fence sagging. In certain work attach same to the rear arm to prevent the plane from rocking.

STANLEY'S HOLLOW AND ROUNDS

For Use on No. 45 Plane Only.

Japanned Cast Iron, Polished Faces, Steel Set Screws, Complete with Cutters.

Nos.	6	8	10	12
Width of Cutters, Inches.	$\frac{1}{2}$	$\frac{5}{8}$	$\frac{3}{4}$	1
Work Circle, Inches.	$\frac{3}{4}$	1	1 $\frac{1}{4}$	1 $\frac{1}{2}$
Per Pair	\$2.10	2.10	2.25	2.25

Note—A Pair consists of 1 Hollow complete with Cutter and 1 Round complete with Cutter. A Hollow and its Cutter will form a Round on the moulding being worked. A Round and its Cutter will form a Hollow.

STANLEY'S NOSING TOOL

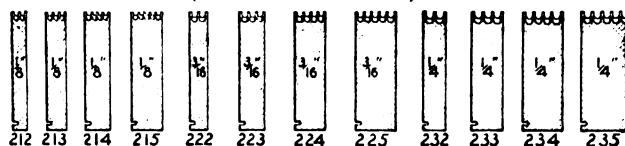

For Use on No. 45 Plane Only.

No. 5—Japanned Cast Iron Body with Polished Face, Steel Set Screws, 1 $\frac{1}{4}$ inch Cutter, Works 1 $\frac{1}{4}$ inch Circle, for Use on No. 45 Plane Only. \$1.50

A Nosing Tool and its Cutter will form what might be called an exaggerated Round. Used for shaping the edges of stair treads.

Each

ADJUSTABLE IRON PLANES

STANLEY'S PATENT UNIVERSAL COMBINATION

This Tool in the Hands of an Ordinary Carpenter Will do all the Fancy Cutting that a Full Assortment of So-Called Fancy Planes Will do.

No. 55—10 inches Long, Nickel Plated, Rosewood Handles and Fences, Complete with 52 Cutters as Described Below. . . \$24.60

Weight Each Complete 15 1/4 Pounds.

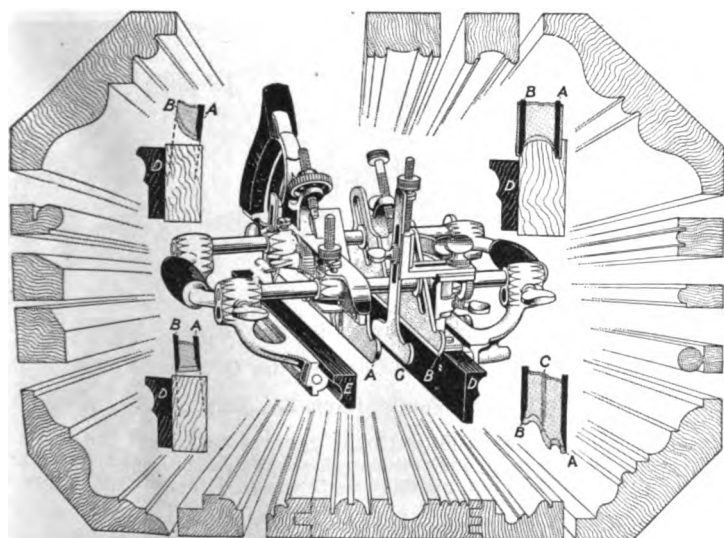

One in a Neat Steel Box, Complete with Cutters.

This tool, in addition to being a Beading and Center Beading Plane, a Plow, Dado, Rabbet, Filletster, Match Plane, Sash Plane, and a Slitting Plane, is also a superior Moulding Plane, and will accommodate Cutters of almost any shape and size.

The Following Cutters are Furnished with Each Plane:

One 1 1/2 inch Sash Tool; one 1/4 inch Match Tool; one Slitting Tool; one 1 1/4 inch Filletster; ten Plow and Dado Tools (1/8, 1/8, 1/4, 1/8, 3/8, 1/2, 5/8, 3/4 and 7/8 inch); nine Beading Tools (1/8, 1/8, 1/4, 1/8, 3/8, 1/2, 5/8 and 3/4 inch); four Fluting Tools (1/4, 3/8, 1/2 and 3/4 inch); four Hollows (1/2, 3/4, 1 and 1 inch); four Rounds (1/2, 3/4, 1 and 1 inch); two Quarter Hollows (1/2 and 3/4 inch); two Quarter Rounds (1/2 and 3/4 inch); three Reverse Ogees (1/2, 3/4 and 1 inch); two Roman Ogees (3/4 and 1 inch); three Grecian Ogees (1/2, 3/4 and 1 inch); two Quarter Rounds with Bead (3/4 and 1 inch); three Reeding Tools with two Beads (1/2, 1/8 and 1/4 inch).

The Plane is fitted with spurs for working across the grain and a special cam rest, to be located on the front arm when working at a distance from the edge of the board, to keep the fence from sagging, or on the rear arm on certain work, to prevent the possibility of the plane rocking. All parts are interchangeable.

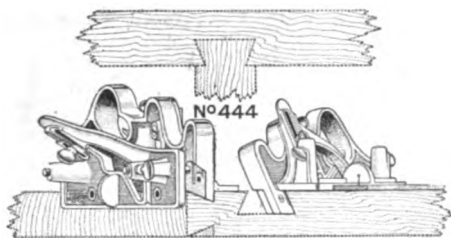

The samples of work illustrated to the left, (see cut), show some of the mouldings that can be made with cutters regularly furnished with No. 55 Plane.

The Plane has a Main Stock which carries the cutter adjustment, a Handle, a Depth Gauge, a Slitting Gauge and a steel bottom forming a bearing for one edge of the Cutter. A sliding section with a steel bottom gives bearing for the other edge of the cutter and slides on arms secured in the main stock. This bottom can be raised or lowered so that, in addition to allowing the use of cutters of different widths, cutters can be used having one edge higher or lower than the edge supported in the Main Stock. The Fences can be used on either side of the Plane, and the rosewood guides can be tilted to any desired angle up to 45 degrees, by loosening the screws on the face.

The four small cuts in the corners, show how the bottoms should be set for different forms of cutters, and the great importance of having the Fences adjusted so that the cutters will not run.

ADJUSTABLE IRON PLANES

STANLEY'S COMBINATION DOVETAIL TONGUE AND GROOVE

Each

No. 444—9 inches Long, Nickel Plated, Complete with Three Sizes of Cutters for Forming Grooves, the Smaller Size for $\frac{1}{2}$ and $\frac{3}{8}$ inch, the Middle Size for $\frac{3}{4}$ and $\frac{7}{8}$ inch, and the Largest Size for 1 to 2 inch Boards\$9.60

This novel tool accomplished a result sought for many years by wood workers in general, namely, to form a dovetailed tongue and groove with one hand tool.

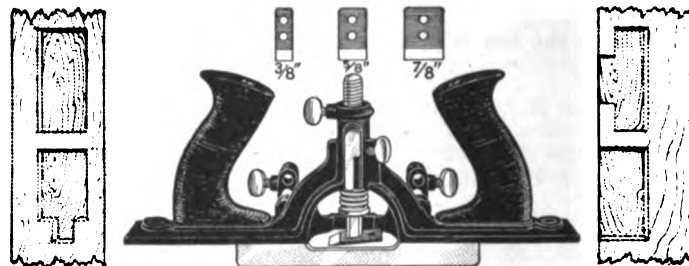

It will cut any size grooves and tongues to fit with sides at flare of 20 degrees, where the width of the neck is more than one-quarter of an inch and the depth of groove not more than three-quarter of an inch. The tongue and groove are cut separately, and can be made with parallel or tapering sides.

The cut on the left shows the Plane assembled for cutting the tongue, and that on the right the Plane assembled for cutting the groove. All parts are carefully machined and are interchangeable. The operation of the Plane is simple.

Weight Each 6 Pounds.

One in a Box.

STANLEY'S DOOR TRIM

Each

No. 171—11 inches Long, Japanned Stock, Rosewood Handles, Complete with Three Forged Steel Cutters, $\frac{3}{8}$, $\frac{5}{8}$ and $\frac{7}{8}$ inch Wide.....\$4.10

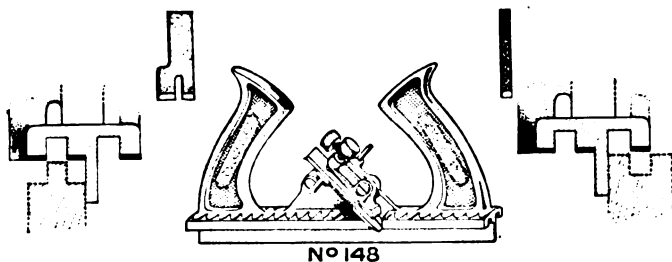

This Plane will make mortises for butts, face plates, strike plates, escutcheons, etc., up to a depth of $\frac{3}{4}$ inch, and a width of 3 inches. Its original feature is the method of mounting the cutter, which can be instantly set to work from either end of the Plane or across it. In addition, the cutter is cushioned by a spring which prevents taking a heavier chip than can be easily carried. A fence regulates the position of the cut and insures the sides of the cut being parallel. The depth of the cut is governed by a positive stop.

By removing the fence and locking the cutter post with the thumb screw instead of using the spring a very superior Router Plane is obtained. The bottom is designed so that an extra wooden bottom of any size desired can be screwed on, enabling the user to router on large openings.

Weight Each 3 Pounds.

One in a Box.

STANLEY'S DOUBLE END MATCHING

Nickel Plated Iron Handles and Body.

Each

No. 146—Cuts $\frac{1}{8}$ inch Grooves on $\frac{3}{8}$ to $\frac{1}{2}$ inch Boards, Centers on $\frac{3}{8}$ inch, Weight Each 1 $\frac{1}{2}$ Lbs.....\$3.10

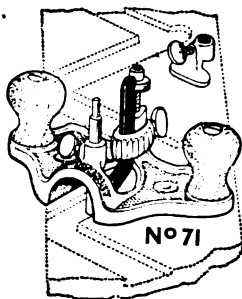

No. 147—Cuts $\frac{3}{8}$ inch Groove on $\frac{1}{2}$ to $\frac{3}{4}$ inch Boards, Centers on $\frac{5}{8}$ inch, Weight Each 2 Lbs..... 3.10

No. 148—Cuts $\frac{1}{4}$ inch Groove on $\frac{3}{4}$ to 1 inch Boards, Centers on $\frac{7}{8}$ inch, Weight Each 2 $\frac{1}{2}$ Lbs..... 3.10

These Planes have two separate cutters, a plow and a tongue tool, both governed by one permanent fence. The tongue tool has one edge wider than the other, which overhangs one side when tonguing on center. Both tongue and groove are cut by working the tool in the same direction, by merely reversing it end for end.

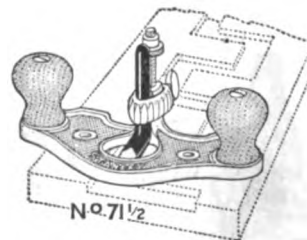

One in a Box.

STANLEY'S ROUTER

Each

No. 71—7 $\frac{1}{2}$ inches Long, Open Throat, Nickel Plated, $\frac{1}{4}$ and $\frac{1}{2}$ inch Cutters, Complete with Two Attachments, One for Regulating the Thickness of the Chip, the Other for Closing the Throat for Use on Narrow Surfaces, Weight Each 2 $\frac{3}{4}$ Lbs.....\$3.20

Each

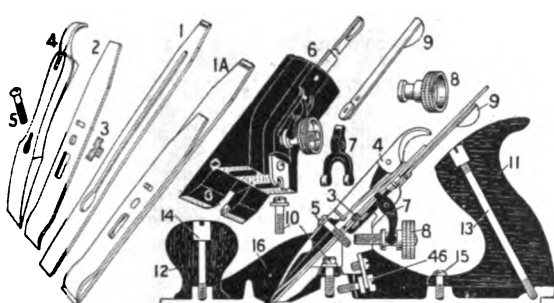

No. 71 $\frac{1}{2}$ —7 $\frac{1}{2}$ inches Long, Closed Throat, Nickel Plated, $\frac{1}{4}$ and $\frac{1}{2}$ inch Cutters, the Ordinary Form of Router Plane, Weight Each 2 $\frac{3}{4}$ Lbs.....\$2.50

These Planes are for surfacing the bottom of grooves or other depressions parallel with the general surface of the work. The bottoms of both styles are designed so that an extra wooden bottom of any size desired can be screwed on, enabling the user to router on large openings. The cutters have screw adjustment, and can be held as shown in above illustrations, or on the back of the cutter post, for bull-nose work.

One in a Box.

NOTE:

In several of the Planes, the Parts designated by the same name differ in form.

In these cases the corresponding Parts are given the same number; and when the Part is not shown directly opposite the number of the Plane, it will be found in another place on the plate.

Always give Plane number and Part number when ordering Cutters or Parts.

DOWELING JIGS

STANLEY'S

This tool is for the purpose of enabling the user to bore dowel holes in the edge, end or surface of work with ease and accuracy. It will take any thickness of material up to 3 inches. It is also an excellent bit guide for mortising.

When making dowel holes with only a brace and bit it is also necessary to use a square to insure the hole being bored perpendicular to the edge of the stock, and even then more than ordinary skill is required to produce perfect work.

With the Doweling Jig the steel guide is automatically set to guide the bit properly when the Jig is clamped to the work.

If drill bits are used there will be no danger of boring out of line, even in cross-grain wood or through knots, and the use of drill bits is recommended for quick and accurate work.

No. 59—Made Entirely of Metal, Nickel Plated, Working Parts Milled True, Complete with Five Steel Guides, 1 1/4 inch Long, One Each 1/4, 5/16, 3/8, 7/8 and 1/2 inch, Also Depth Gauge which can be Used with or without the Jig. . . . \$3.00
Each
Weight Each 1 1/2 Pounds.
One in a Box.

DOWEL SHARPENERS

STANLEY'S

No. 22—4 inches Long, 1 inch Tip, Malleable Iron, Nickel Plated \$3.50
Cuts very rapidly and can be readily resharpened.

Weight Per Dozen 1 1/2 Pounds.

One-half Dozen in a Box.

DOWEL PLATES

JOHNSON'S

Carbon Steel, Full Polished.

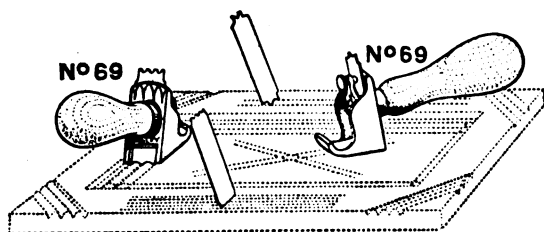

No. 78—6 inches Long, 1 1/2 inches Wide, 3/8 inch Thick, with 5 Holes, 1 Each 1/4, 5/16, 3/8, 7/8 and 1/2 inch Diameter \$5.50

Weight Per Dozen 12 Pounds.

One-half Dozen in a Box.

HAND BEADERS

STANLEY'S SINGLE HANDED

No. 69—5 inches Long, Nickel Plated Metal Body, Maple Handle, Complete with 6 Steel Cutters and 1 Blank \$12.50

A very handy little article. With it one can do all kinds of straight beading, reeding or fluting.

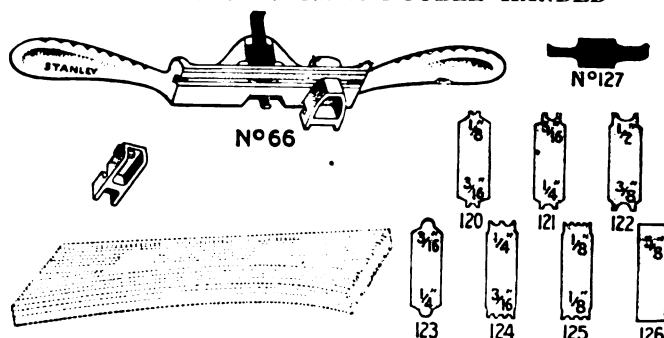

Both ends of the cutters are sharpened, thus embracing six ordinary sizes of beads, two fluters and four sets of reeds.

The sample of work shown in connection with the tool illustrates some of the usages to which it can be put.

Weight Per Dozen 4 1/2 Pounds.

One-twelfth Dozen in a Box.

STANLEY'S UNIVERSAL DOUBLE HANDED

No. 66—11 1/2 inches Long, Nickel Plated Metal Body and Handles, Raised Handles, Complete with 7 Steel Cutters and 1 Blank, a Square Gauge for Straight Work and an Oval Gauge for Curved Work \$16.50

For beading, reeding or fluting straight or irregular surfaces and for light routing.

Both ends of the cutters are sharpened, thus embracing six ordinary sizes of beads, two fluters, four sets of reeds and a double router iron.

Weight Per Dozen 16 1/2 Pounds.

One-twelfth Dozen in a Box.

FLOOR SCRAPERS

FOX

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle.

Each

Fox Junior—Height of Frame 5 inches, Width 4½ inches, Length 16½ inches, Complete with One Burnisher, One Wrench, One Stone and Four 3x4 inch Knives, Weight of Frame 52 Pounds.....

\$21.00

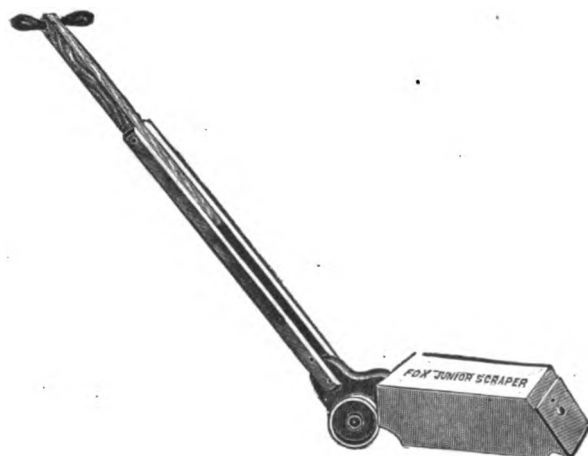

Per Dozen

\$11.00

Extra Blades

The front of frame is planed for knife and when knife is placed in machine for operating, it is covered with a rubber cushion 3 inches wide, 5 inches long and ¼ inch thick, which lays over knife to eliminate any possible jar and prevent chattering. Both knife and rubber cushion are held with a steel plate, bolted to front of machine with a ½x1½ inch square head cap screw. The bottom of frame is corrugated and when in operation slides on floor like a plane, thus insuring uniform cut.

Weight Each Boxed 72 Pounds.

Fox Junior.

Cast Iron Frame, Planed and Corrugated Bottom, 5 inch Rubber Tired Wheels, 38 inch Adjustable Handle.

Each

No. 4—Height of Frame 5 inches, Width 6 inches, Length 12 inches, Cutting Edge of Blade 6 inches, Complete with 6 Blades, 1 Burnishing Steel, 1 Hone, 1 Wrench and 1 Form for Holding Blades when Re-Sharpening.....

\$25.00

Per Dozen

\$18.00

Extra Blades Works equally well on all hardwood flooring and is well adapted for scraping old floors. The wheels are set in so that the knife will cut close up to baseboards and into corners. A rubber pad is placed over the blade, which prevents chattering or leaving waves.

Weight Each Boxed 100 Pounds.

No. 4.

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle.

Each

No. 1—Height of Frame 4¼ inches, Width 9 inches, Length 15 inches, Complete with One Wrench, One 10 inch Mill File, One Oil Stone, One Burnisher, One Clamp for Holding Knife while Filing and Sharpening, Four 3x9 inch Finishing Knives, Three 3x4 inch Old Floor Knives, One 3x9 inch Polishing Knife and Directions, Weight of Frame 52 Lbs.....

\$36.00

Per Dozen

\$18.00

Extra Blades

Weight Each Boxed 95 Pounds.

No. 1.

One Piece Grey Iron Frame, Rubber Tired Iron Wheels, Adjustable and Telescopic Maple Handle, with Adjustable Weight.

Each

No. 3—Height of Frame with Weight 8 inches, Width 9 inches, Length 18 inches, Complete with One Wrench, One Burnisher, One File, One Oil Stone, One Clamp for Holding Knife while Filing and Sharpening, Six Old Floor Knives, Twelve Crown Knives, One Special Knife, Substitute for Sander, and Directions, Weight of Frame and Weight 125 Lbs.....

\$54.00

Per Dozen

\$18.00

Extra Blades

Weight Each Boxed 135 Pounds.

No. 3.

These machines will scrape and surface all kinds of flooring, old or new, and any kind of wood: Oak, maple, yellow pine, fir, ash, birch, etc.

The front of frame is planed for knife and when knife is placed in machine for operating, it is covered with a rubber cushion 9 inches long, 4 inches wide and ¼ inch thick, which lays over knife to eliminate any possible jar and prevent chattering. The knife and rubber cushion are held with a steel plate bolted to front of machine with three ½x1½ inch square head cap screws.

A great feature of No. 1 Scraper is that when in operation, 80 per cent of the entire weight is on the knife exactly where it is required, and when not in operation, the knife is automatically raised, thus preventing it from marring the floor.

The special feature of No. 3 Scraper in addition to 80 per cent of the weight resting on the knife, is the adjustable weight, which permits the operator to add additional weight and place this weight where he desires it.

FOX FLOOR SCRAPER ACCESSORIES

BURNISHERS

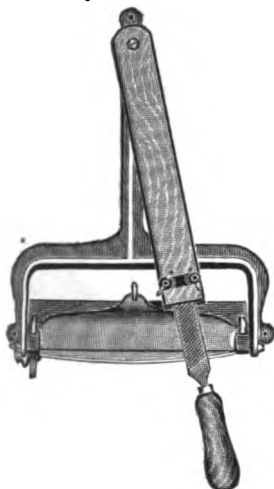

No. 20—9 inches Long, 5x $\frac{1}{4}$ inch Properly Tempered
Very Best Steel Blade, Hardwood Handle.....\$0.50

Each

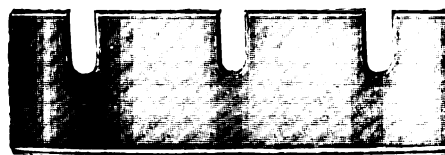

One Dozen in a Box.

This Burnisher, like the knives, is tempered with the greatest care, for if the burnisher is too hard it will snap off when being used, and still must be hard enough so that the steel of the knife will not cut or mar it.

Knife Sharpener.

FLOOR SCRAPER KNIVES

High Carbonized Steel, Tempered by a Special Process.

Size, Inches	3x4	3x9
Each	\$1.00	1.00

Adapted for scraping all kinds of hardwood flooring. Will maintain a keen edge a long time under heavy pressure.

KNIFE SHARPENERS

No. 30—Will Take Any Size of Knife Up to 9 inches Long, Average Weight Each 15 Lbs..\$5.50

Each

This device is designed for the purpose of sharpening and turning a perfect edge on any floor scraper knife.

It is a very simple contrivance and takes any sized knife up to 9 inches.

The operator can file, hone and turn the edge without removing the blade.

No experience is necessary to operate it, and a perfect edge and turn will be given the knife with very little effort.

CORNERING TOOLS

STANLEY'S

METALLIC MARKING AND ROLLER CUTTER

N°97

No. 97—6½ inches Long, Nickel Plated Steel Bar, Marked 16ths, Double Faced Nickel Plated Iron Head, Adjustable Steel Marking Point and Roller Cutter, Weight Per Dozen 6 Lbs.....\$9.00

Per Dozen

METALLIC MORTISE AND ROLLER CUTTER

N°98

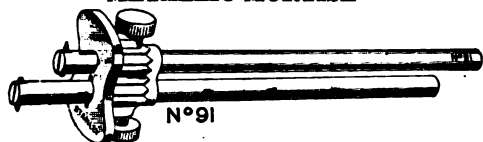

No. 98—6½ inches Long, Nickel Plated Steel Bars, Marked 16ths, Double Faced Nickel Plated Iron Head, Adjustable Steel Marking Points and Roller Cutter, Weight Per Dozen 8 Lbs.....\$13.50

Per Dozen

These Gauges have both Rollers and Steel Points. Roller Cutters are preferable in some work to Steel Points, being especially adapted for running over knots, across the grain or where a fine line is desired.

One-twelfth Dozen in a Box.

METALLIC MORTISE

N°91

No. 91—6½ inches Long, Nickel Plated Steel Bars, Marked 16ths, Nickel Plated Iron Head, Adjustable Steel Marking Points, Weight Per Dozen 6 Lbs...\$11.00
This gauge has the steel points inserted very near the ends of the bars to admit of being used close up into a rabbet or corner. The head is reversible, giving a broad or narrow bearing, as desired.

Per Dozen

One-twelfth Dozen in a Box.

SLITTING

N°84

No. 84—17 inches Long, Beechwood, Bar Marked 8ths, Adjustable Tempered Steel Cutter, Weight Per Dozen 15 Lbs.....\$12.00
This Gauge has a roller bearing and a large convenient handle. The head can be securely fastened to the bar at any point by means of a thumb screw.

Per Dozen

One-half Dozen in a Box.

PANEL

N°85½

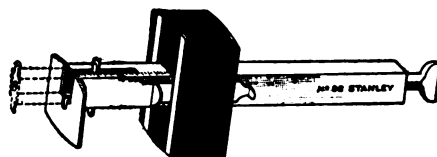

No. 85—17½ inches Long, Beechwood, Adjustable Steel Point, Weight Per Dozen 5½ Lbs.....\$ 4.50
No. 85½—20½ inches Long, Rosewood, Brass Thumb Screw and Shoe, Adjustable Steel Point, Weight Per Dozen 8 Lbs.....24.00

Per Dozen

These Gauges are mainly used for marking door panels and such wide work where an extra long bar is needed. They have an extra wide head that is rabbeted to prevent slipping.

No. 85, One Dozen; No. 85½, One-quarter Dozen in a Box.

BUTT

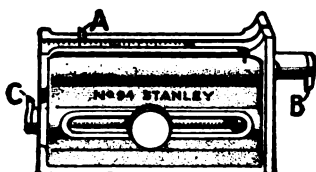

Butt, Marking, Mortise and Rabbet Gauge.

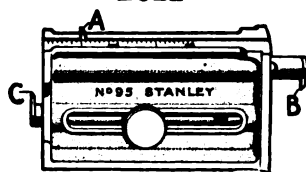

No. 92—8 inches Long, Brass Faced Rosewood Head, Brass Slide, Graduated 16ths for 3 inches, Three Steel Cutters, Screw Adjusting.....\$21.00
Weight Per Dozen 9 Pounds.
One-twelfth Dozen in a Box.

N°95½ STANLEY

Butt, Rabbet and Mortise Gauge.

Per Dozen

No. 94—3 inches Long, Iron Body, Steel Bars, Nickel Plated, Graduated 16ths for 2 inches, Three Cutters, Weight Per Dozen 8 Lbs...\$16.00

Butt, Rabbet and Mortise Gauge.

Per Dozen

No. 95—3 inches Long, Iron Body, Steel Bars, Nickel Plated, Graduated 16ths for 2 inches, Three Cutters, Weight Per Dozen 6 Lbs...\$14.00

Butt, Rabbet and Mortise Gauge.

Per Dozen

No. 95½—2½ inches Long, Iron Body, Steel Bars, Nickel Plated, Graduated 16ths for 1½ inches, Three Cutters, Weight Per Dozen 5 Lbs...\$10.50

The term "Butt Gauge" covers a gauge having three cutters, purposely arranged so that no change of setting is necessary when hanging several doors. In reality these tools comprise Rabbet Gauges, Marking Gauges and Mortise Gauges of a scope sufficient for all door trim, including lock plates, strike plates, etc.

Nos. 94 and 95 Gauges are made so that they can be used as inside or outside squares for squaring the edge of the butt on either the door or jamb.

One-twelfth Dozen in a Box.

ROOFING BRACKETS

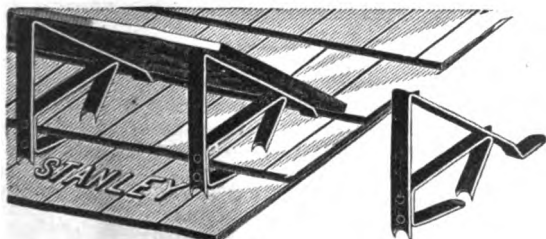

Per Dozen

No. 1—8 inches Long, 1 inch Wide, Spring Steel, Japanned, with Spurs\$6.00

These Brackets are so constructed that any increase of pressure or weight from above increases their security by pressing the spurs into the shingles. Two steel spurs also project above the horizontal surface of the brackets to secure the staging boards.

Weight Per Dozen 13½ Pounds.

One-half Dozen in a Package.

SAND'S ALUMINUM

These Levels are made of the Best Aluminum obtainable, and are light, strong and durable. Will not warp nor rust same as iron levels will. In falling an iron level will break, aluminum bends and can be straightened.

The plumb and level glasses are covered with heavy plate glass protecting them, also making those parts dust, dirt and waterproof.

Easy reading. Work either end or edge up.

No. 18.

No. 30.

- No. 18—18 inches Long, with Two Plumb and Two Level Glasses, Weight Each 1 1/4 Lbs. \$6.00
- No. 24—24 inches Long, Otherwise Same as No. 18, Weight Each 2 1/4 Lbs. 7.00
- No. 28—28 inches Long, With Four Plumb and Two Level Glasses, Weight Each 2 3/4 Lbs. 8.00
- No. 30—30 inches Long, Otherwise Same as No. 28, Weight Each 3 Lbs. 8.00
- One in a Box.

STEEL PLUMBS AND LEVELS

ACME

With these Levels you can easily establish any grade, either in degrees or inches, rise to the foot—or find any grade already established.

They are all made of Cold Rolled Steel Strips substantially put together. The frame is nickel and the webs are oxidized. Very light and strong. Provided with the best proved vials obtainable. One ring in each level (except the No. 3) is graduated, the upper half in degrees and the lower half in inches, rise per foot.

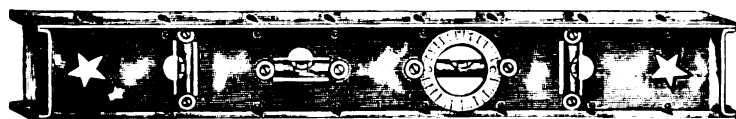

More durable and cheaper than aluminum, wood or cast iron.

No. 1A—2 3/4 inches Wide.

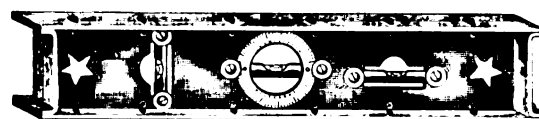

Length, Inches	26	28	30
Per Dozen	\$36.00	36.00	36.00

The 28 inch Level Weighs About 2 Pounds.

No. 2A—2 3/4 inches Wide.

Length, Inches	26	28	30
Per Dozen	\$32.00	32.00	32.00

No. 4A—2 3/4 inches Wide.

Length, Inches	22	24
Per Dozen	\$28.00	28.00

No. 5A—Mason's, 2 3/4 inches Wide.

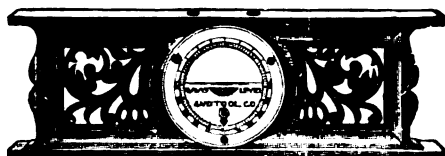

Length, Inches	48
Per Dozen	\$66.00

The 48 inch Level Weighs About 4 Pounds.

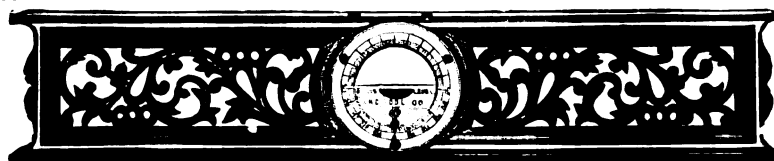

All Above, One-twelfth Dozen in a Box.

IRON LEVELS

DAVIS PATENT ADJUSTABLE INCLINOMETER

No. 1.

No. 2.

Iron Frame, Handsomely Japanned.

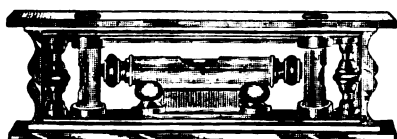

Nos.	1	2	3	4
Length, Inches	7	12	18	24
Weight Per Dozen, Lbs.	1 1/4	2	4	5
Per Dozen	\$40.00	45.00	50.00	70.00

The above Levels are made for Machinists' and Carpenters' use, and are particularly useful in leveling up shafting or stair-cases, or anything that is hung at an angle. The dial is graduated by degrees and all that is necessary to do is to move the bubble case with the dial pointer attached to the desired degree and the Level is ready to be used. The adjustment is derived by the use of two screws on the top surface, tightening one and loosening the other will cause the bubble case to move.

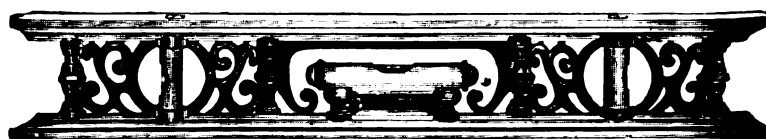

One-twelfth Dozen in a Box.

IRON PLUMBS AND LEVELS

DAVIS PATENT ADJUSTABLE DOUBLE

No. 6.

No. 7.

Iron Frame, Handsomely Japanned, Polished Plumb and Level Cases, Plain Glasses, Adjustable.

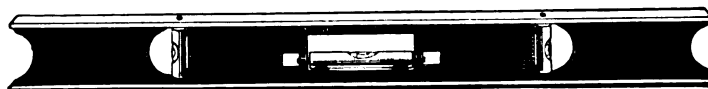

Nos.	6	7	8	9
Length, Inches	6	12	18	24
Weight Per Dozen, Lbs.	1	2	3	4 1/4
Per Dozen	\$40.00	42.00	45.00	50.00

The Plumb Tubes as well as the Level Tubes are adjustable. To adjust Level Tubes, tighten one and loosen the other screw entering Level Tube from bottom of frame. To adjust Plumb Tubes turn screw or eccentric on bottom of frame. In adjusting Levels care should be taken not to turn either screw down tight, as the adjustment sometimes becomes set when this is done.

One-twelfth Dozen in a Box.

METALLIC PLUMBS AND LEVELS

STANLEY'S ADJUSTABLE

No. 36—9 inch.

No. 36—12 inch.

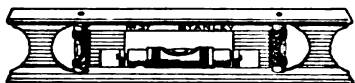

No. 36—24 inch.

No. 36—Japanned Iron Frame, Nickel Plated Trimmings, Proved Glasses, Two Plumb and One Level Glass, Set in Metal Case.

Length, Inches	6	9	12	18	24
Weight Per Dozen, Lbs.	10	15	22	36	51
Per Dozen	\$20.00	24.00	30.00	35.00	38.00

These Plumbs and Levels have tops and bottoms milled and wet ground to insure two perfectly parallel surfaces. The glasses are so set that either surface may be used to level or plumb.

One-twelfth Dozen in a Box.

No. 37—12 inch.

No. 37—24 inch.

No. 37—Full Nickel Plated Iron Frame, Ground Glasses, Two Plumb and One Level Glass Set in Metal Cases with Revolving Protecting Cover.

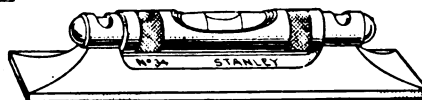

Length, Inches	12	18	24
Weight Per Dozen, Lbs.	22	36	51
Per Dozen	\$40.00	48.00	56.00

These Plumbs and Levels have milled and wet ground tops and bottoms to insure two perfectly parallel surfaces. When not in use, the protecting covers can be turned so as to completely protect the glass from damage.

One-twelfth Dozen in a Box.

MACHINISTS' IRON LEVELS

STANLEY'S ADJUSTABLE

No. 34V—Full Nickel Plated, Iron Base, Ground Glass, Revolving Glass Protector, with V Shaped Bottom for Leveling Shafting, Etc.

Length, Inches	4	6	8	10
Wt. Per Dozen, Lbs.	4 1/2	9	13 1/2	21
Per Dozen	\$17.00	20.00	26.00	30.00

One-twelfth Dozen in a Box.

No. 34—Full Nickel Plated, Iron Base, Ground Glass, Revolving Glass Protector, with Flat Bottom.

Length, Inches	4	6	8	10
Wt. Per Dozen, Lbs.	4 1/2	9	13 1/2	21
Per Dozen	\$17.00	20.00	26.00	30.00

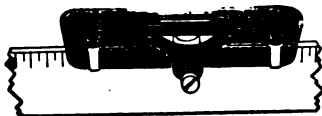

One-twelfth Dozen in a Box.

MACHINISTS' IRON LEVELS

STANLEY'S NON-ADJUSTABLE

STANLEY'S STRAIGHT EDGE

DISSTON'S

Nickel Plated Iron Case, Proved Glass.

Nos.	38 1/2	39 1/2
Length, Inches	4	6
Wt. Per Dozen, Lbs.	3	7
Per Dozen	\$7.50	9.00

The top plate is entirely separate from the glass. The glass is set solid in plaster.

One-half Dozen in a Box.

No. 40.

No. 40—3 1/4 inches Long, Japanned Top Plate, Non-Adjustable Proved Glass, Wt. Per Dozen 1 1/2 Lbs. \$2.00
No. 41—Same as No. 40, but with Brass Top 2.50
Can be attached to any straight edge or carpenter's square.
One Dozen in a Box.

Per Dozen

No. 200—6 inches Long, Rosewood, Nickel Plated Top Plate, Weight Per Dozen 3 Lbs. \$4.00
No. 150—12 inches Long, Cherry Wood, Stained, Nickel Plated Top Plate, Weight Per Dozen 6 Lbs. 2.50
No. 200, One Dozen; No. 150, One-half Dozen in a Box.

STRAIGHT EDGE LEVELS

LEONHART'S IMPROVED

Can be Attached to Any Piece of Wood.

Per Dozen

No. 50—3 inch Diameter, Made of One Solid Piece of Steel \$7.50

No nuts to work loose. No threads to wear out. The only lever that can be taken off without taking out screws. The glass is out in plain view, a feature to be appreciated.

Weight Per Dozen 1 1/2 Pounds.

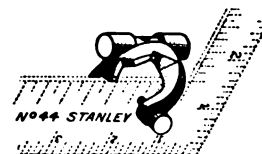

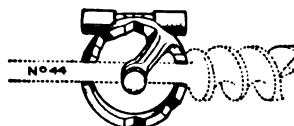

One Dozen in a Box.

For setting door jambs, window frames—plumbing walls and partitions, leveling joist, etc., it has no equal. Can be set to give any grade.

BIT AND SQUARE LEVELS

STANLEY'S

Per Dozen

No. 44—1 1/4 inches Long, 1 1/2 inch Wide, Brass Frame, Polished, Non-Adjustable Proved Glass \$5.50
The tool has three pairs of V slots on its back edges. The shanks of a bit will lie in these slots, either vertical or at an angle of 45 degrees, and boring can be done with perfect accuracy. It can also be attached to a carpenter's square, making it an accurate plumb or level.

Weight Per Dozen 1 1/2 Pounds.

One-twelfth Dozen in a Box.

SURVEYING INSTRUMENTS

WHITE'S IMPROVED CONVERTIBLE LEVEL
(Something Entirely New).

Cut "A" shows instrument when used as a modified transit. Cut "B" shows instrument when used as an ordinary level.

Very useful to the architect, contractor, millwright and railroad builder or in fact anyone who has use for a light, portable surveying instrument.

SPECIFICATIONS

Telescope—12 inches long with dust shade. Magnifying power 25 diameters showing objects erect. Object glass $1\frac{1}{4}$ inch aperture, rack and pinion movement to object slide; spiral movement to eyepiece. Cross-hairs, sun-shade and dust cap. Range 5 feet to one mile. Lenses of finest quality; level to telescope 4 inches long housed in tube with protection bridge, graduated on the glass and is ground to a sensitiveness of 60 sec. of arc to 1-10 inch motion of bubble.

Cross-Bar and Wyes—Cross-Bar of improved design with standards cast in one piece, heavily ribbed and strengthened. Wyes are adjustable and of improved design with lock-nuts for locking yokes, dispensing with old style pin bolts. One wye yoke is provided with stop insuring true position of cross-hairs when leveling. Cross-Bar constructed of steel-like bell metal. Convertible standard provided with two brass straps which hold telescope firmly in the trunnions when in transit position.

Circle— $4\frac{1}{2}$ inch diameter with 8 reinforced spokes, divided to degrees, numbered 0—90 in quadrants and reading by vernier to 5 minutes. Circle is movable for purpose of setting same at any given point and is provided with set screw.

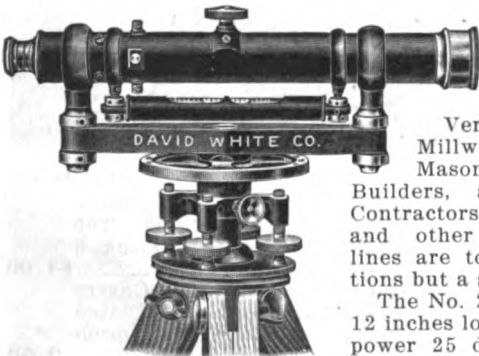

Leveling Head—Improved design, heavily ribbed, with clamp to spindle and tangent screw. Four leveling screws with shoes. Center extra long and constructed of hard bell-metal.

Regular Equipment—Solid leg white ash tripod with iron shoes and protection cap to head. Bolts provided with wing nuts for tightening by hand. Polished hardwood carrying case with strong lock and strap. 6 oz. plumb bob trivet, (for foundation work) sunshade and adjusting pins. Full instructions for use with each level.

Finish and Weight—Instrument is finished in rich olive color with telescope and wyes in gun metal and small parts in bright golden finish. Weight of level only 8 lbs., with case and accessories 12 lbs.; weight of tripod 7 lbs.

No. 2020—As Described Above.....\$65.00

No. 2021—Same as No. 2020 but with Vertical Arc Divided to Degrees Numbered 0—45 Each Way and Reading by Vernier to 5 Minutes..... 70.00

DUMPY LEVEL
WHITE'S
IMPROVED

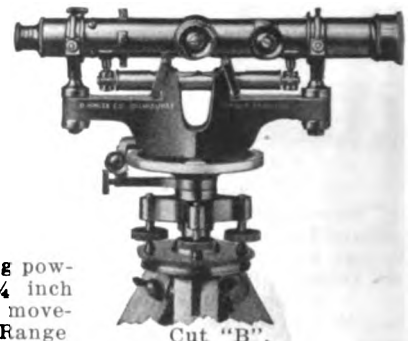

Very serviceable for Millwrights, Architects, Mason Contractors and Builders, also for Drainage Contractors for Tile Draining and other operations where lines are to run with the stations but a short distance apart.

The No. 2038 has a telescope 12 inches long, with magnifying power 25 diameters. Aperture of objective lens $1\frac{1}{4}$ inch. Horizontal circle $4\frac{1}{2}$ inches in diameter and graduated from 0 to 90 degrees each way, with vernier reading to 5 minutes. The circle can be set at zero at any given point. Center is extra long and well tapered and is made of hard bell metal. Telescope is of fine definition and the objective lens is focused by rack and pinion of improved make. Improved eye-piece for precise focusing of the Cross Hairs. Telescope Yokes are of best composition metal, permanently fixed, thus insuring greater stability. Tripod is made of best seasoned hardwood. A metal trivet having three sharp steel points, for placing the level on any surface of wood or stone, together with hardwood tripod, is furnished with each instrument. Level vial is extra long, carefully ground and is graduated on the glass. Instrument packed erect, ready for use, in polished hardwood box with strap, containing full directions for use, together with screw capped plumb bob, sunshade, dust cap and adjusting pins.

No. 2038—As Described Above.....\$71.10

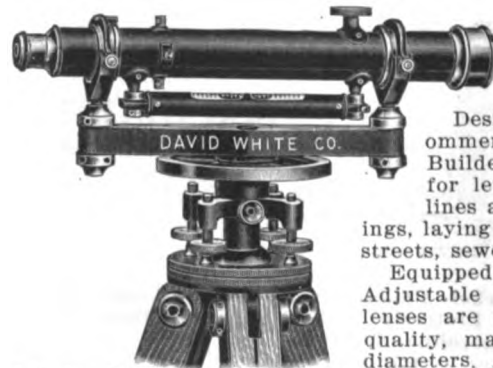

No. 2039—Same as No. 2038, Provided with a Clamp and Tangent Movement, Enabling Instrument to be Clamped More Securely and a Movement in a Horizontal Plane to be Made More Accurately..... 80.00

Weight Each, Ready for Shipment, 30 Pounds.

Cut "B".

ARCHITECTS' LEVELS

WHITE'S
IMPROVED

Designed for and recommended to Architects, Builders and Contractors, for leveling walls, giving lines and levels for buildings, laying out angles, grading streets, sewers, drains, etc.

Equipped with 12 inch long Adjustable Telescope. The lenses are of the best optical quality, magnifying power 25 diameters. Aperture of object is

$1\frac{1}{4}$ in. Instrument is provided with four leveling screws and clamp to spindle. The V's have an improved locking arrangement dispensing with the old-fashioned pin bolts. The center is made of hard bell metal, extra long and well tapered. It also has a horizontal circle $4\frac{1}{2}$ in. in diameter fitted to the upper end of the socket and turns readily upon it, thus allowing it to be set at zero at any given point. The circle is graduated from 0 to 90 degrees each way and has a vernier reading to 5 minutes, which is screwed to the flange of the center. The telescope is of fine definition and is focused by rack and pinion of improved form. The eye-piece turns in a spiral-like manner, which enables a more precise focusing of the cross-hairs. The instrument can be placed either upon a tripod or a small triangular plate called a trivet, having three sharp steel points by which it can be firmly set upon any surface of wood or stone. Both tripod and trivet are furnished with each level. The level vial is extra long, very carefully ground and is graduated on the glass.

Each

No. 2011—Complete, Packed Erect Ready for Use in Polished Hardwood Box with Strap, Containing Full Directions for Use, Together with Screw Capped Bob, Sun Shade, Dust Cap and Adjusting Pins.....\$ 75.00

No. 2012—Same as No. 2011, with a Clamp and Tangent Movement, thus Enabling the Instrument to be Clamped More Securely and a Movement in a Horizontal Plane to be Made More Accurately... 83.25

No. 2013—Same as No. 2011, with 3 inch Needle Compass; this Instrument will be Found Very Serviceable as a Ready Means of Determining the Bearing of Lines or of Measuring Angles by the Needle; the Compass is Graduated to Degrees, Figured from 0 to 90 on Each Side of North and South, Graduations and Inside of Face of Compass Silvered, Magnetic Needle 3 inches Long, Made of Finest Tempered Oval Steel Tubing and is Perfectly Balanced..... 100.00

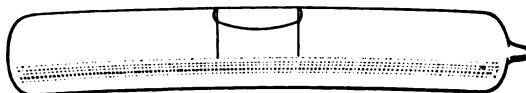

No. 2014—Same as No. 2013, with the Exception that it is Supplied with a Clamp and Tangent Movement, thus Enabling the Instrument to be Clamped More Securely and a Movement in a Horizontal Plane to be Made More Accurately..... 108.25

Weight Each Ready for Shipment About 28 Pounds.

LEVEL GLASSES

STANLEY'S PROVED

These Level Glasses are made of Extra Thick Tubing.
Each Glass is marked at its central

or crowning point by two indelible lines, enabling the user to very quickly center the bubble.

One Pair in a Box.

ODD JOBS

STANLEY'S

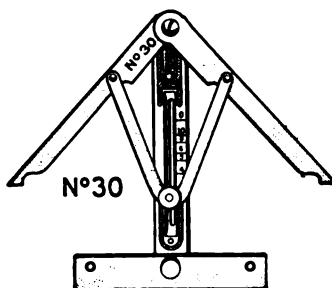

Per Dozen

No. 10—4 inches Long, Iron Body, Nickel Plated, Steel Scratch Awl, 12 inch Wood Rule Graduated 16ths of Inches \$12.50
Combines a Level, Plumb, Try Square, Mitre Square, Bevel, Scratch Awl, Depth Gauge, Marking Gauge, Beam Compass and a One Foot Rule. With its use the owner can do all ordinary jobs with the addition of only a saw, a hammer and a plane. One-twelfth Dozen in a Box.

ANGLE DIVIDERS

STANLEY'S

No. 30

Iron Body, Pressed Steel Arms, Full Nickel Plated.

Each

No. 30—Length Over All 7 3/4 inches, Length of Arms 6 inches, Length of T Head 4 inches, Weight Each 7 1/2 Lbs. \$2.50

Designed for bisecting or dividing any angle, and for fitting mouldings or other woodwork into odd angles. The angle is first measured accurately by adjusting the angle divider in the corner it is desired to fit. This angle, owing to its construction, is always symmetric with the central shaft of the angle divider, and by laying this central shaft along the moulding to be cut, the correct angle bisected is marked, and by reversing the angle divider, the other corresponding angle can be marked. The central shaft is graduated on the back side for laying out 4, 6 or 8 sided work. Can also be used as a Try or T Square.

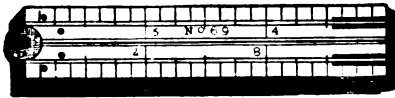

One-twelfth Dozen in a Box.

BOXWOOD RULES

STANLEY'S

Stanley's Boxwood Rules have a superiority due to quality and seasoning of the wood, the weight of the metal used in the joints and trimmings, the nicety of graduation, and the care given to the finish. All joints, plates, bindings, etc., in these rules are made of brass, which prevents rusting.

One-half Dozen in a Box.

IVORY RULES

STANLEY'S

Genuine Ivory, thoroughly seasoned, is used in the manufacture of these rules. All Ivory Rules have German silver trimmings, and the utmost care is taken in machining and assembling the various parts.

Ivory is very susceptible to atmospheric conditions, consequently a contraction or expansion occurs as the weather may be dry or damp. For this reason Ivory Rules cannot be guaranteed to retain their accuracy as in the case of Boxwood Rules.

ONE FOOT, FOUR FOLD

- No. 90—½ inch Wide, Round Joint, Middle Plates,

STANLEY'S EXTENSION ZIG ZAG

Yellow Enameled.

Concealed Joint, $\frac{5}{8}$ inch Wide, Flexible Hardwood, Marked 16ths of Inches, Brass Plated Steel Joints and Tips, Patent Direction Arrows, Patent Strike Plates, 6 inch Folds.

No. 204—4 Feet Long, 6 inch Folds, Weight Per Dozen 3 Lbs.....	\$ 8.50
No. 206—6 Feet Long, 6 inch Folds, Weight Per Dozen 4 Lbs.....	11.00

These Rules have an extra leg termed an Extension Slide, making the rule an inside "Caliper," with which inside measurements can be readily obtained up to the length of the rule plus the length of the extension. For instance: Rule No. 204 would caliper 4 feet 6 inches; No. 206, 6 feet 6 inches.

EXTENSION RULES

STANLEY'S

Maple, Marked 8ths of Inches, Brass Trimmings, 1 inch Wide.

Nos.	240	360	480	510
Length, Feet	2 to 4	3 to 6	4 to 8	5 to 10
Per Dozen	\$10.00	12.00	13.50	16.50

These Rules are very useful for accurately measuring the distance between two fixed points. When extended to required length, the sections may be secured by the set screw. To read this rule, add to the number of feet indicated by large figure, nearest left end of rule, the inches and fractions of inches exposed from under left hand end of the upper section.

Average Weight Per Dozen 12 Pounds.

Open Stock.

MASTER SLIDE RULES

Interlocking.

Rust Proof.

Fool Proof.

For Inside and
Outside
Measurements.

Selected Boxwood, Finished with Waterproof Lacquer, Solid Brass Trimmings.

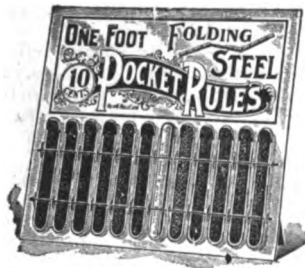

Nos.	4M	5M	6M	8M
Length, Feet	4	5	6	8
Weight Per Dozen, Lbs.	2	2 3/4	3	4
Per Dozen	\$6.00	8.00	10.00	12.00

The Master Slide Rule measures 8 inches when closed. By extending lower slide you have the exact measurement from point to point. When extended it is kept in place rigidly by strong steel springs that cannot get out of order. Has one side marked for inside measurements, the reverse side is just like any other rule. Can be opened and closed instantly.

One-half Dozen in 'a Box.

FOLDING STEEL POCKET RULES

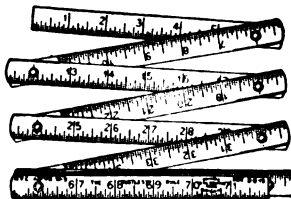

LUFKIN'S

No. 041—1 foot, 28 Gauge Finest Quality Spring Steel,
3/8 inch Wide, Graduated in Inches and 16ths.
Put Up in a Metal Bound Leather Case. \$1.50
Will bend to a 3 inch circle. Very neat and compact.
Weight Per Dozen 1/2 Pound.
One Dozen on a Display Card.

Per Dozen

"RUSTLESS"

Will Not Rust.
Large Figures.
Light Weight.
Strong and
Durable.

Luminoy, High Grade Spring Steel Joints, Large Figures, Graduated 16ths of an Inch on Both Sides.

Nos.	13	14	15	16
Length, Feet	3	4	5	6
Each	\$1.10	1.50	1.75	2.25

Luminoy, of which the rule is made, is a special alloy of aluminum, having a beautiful, bright surface, and requires no polishing or rubbing to keep it bright.

The figures are large and stamped in the metal. They cannot be rubbed out nor worn off by abrasion.

The light weight of this rule is one of its very desirable features. It is strong, durable and permanent.

One-half Dozen in a Box.

Without Leather Case.

Flexible Spring Steel, 3/8 inch Wide, Raised Figures, with Patent Stop Joints that Hold Rule True and Rigid when Extended.

Marked Inches and 16ths on Both Sides.

MEASURING TAPES

"RELIABLE" STEEL

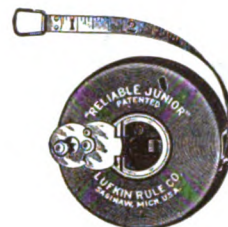

Instantaneous Readings.

The above illustration gives a fair idea of this marked improvement.

Briefly described, it consists of repeating the foot marks at each inch in small, yet easily distinguishable figures. Thus, the total reading is brought directly before the eye, eliminating all chance for a possible error, to say nothing of the saving of time.

"RELIABLE JR." STEEL

With Instantaneous Readings.

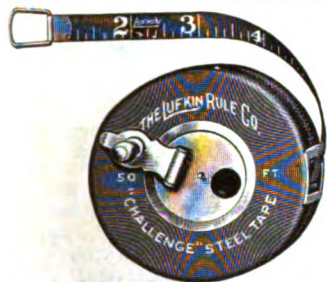

Metal Lined Hard Leather Case, Double Folding Flush Handle Opened by Pressing on Opposite Side, Nickel Plated Trimmings.

$\frac{3}{4}$ inch Steel Tape, Marked Feet, Inches and 8ths on One Side, Links on Back.

Per Dozen	\$61.00	64.00

One-sixth Dozen in a Box.

CORNER BIT BRACES

UNIVERSAL

No. 215—Length from Extreme End of Operating Handle to Gearing 10 inches, Distance from Gearing to End of Chuck 6 inches, Nickel Plated Parts, Japanned Frame, Hardwood Handle, Chuck Holds Square Shanks **\$54.00**

The steadying handle attached to the knurled sleeve can occupy any one of the eight positions shown in above cut. The geared drive is completely enclosed. The operating handle is adjustable to two different lengths.

Weight Per Dozen 42 Pounds.
One-twelfth Dozen in a Box.

RATCHET HANDLES

UNIVERSAL

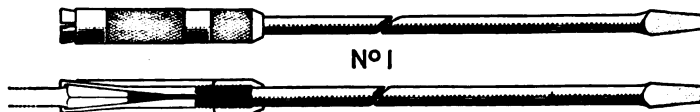

No. 83—8 inch Iron Handle, Ball Bearing Lignum vitae Head, with Shifter Operating the Ratchet Mechanism **\$24.00**

The Shifter can be made either right or left hand at the operator's pleasure. The socket has a square taper hole provided with a set screw for fastening the bit, screw driver or nut wrench in place.

Weight Per Dozen 21 Pounds.
One-twelfth Dozen in a Box.

EXTENSION BIT HOLDERS

STANLEY'S

No. 1—Steel, Polished and Nickel Plated, $\frac{1}{8}$ inch Tip, Chuck Follows Bits $\frac{5}{8}$ inch Diameter and Larger into their Bores.

Length, Inches	16	20
Weight Per Dozen, Lbs.	7	9
Per Dozen	\$21.00	22.00

The bit socket and shank are of one piece of steel and so constructed that the bit will not work loose while boring.
One-half Dozen in a Box.

FRAY'S

No. 3—Steel, Polished and Nickel Plated, Forged Steel Jaws, Chuck Follows Bits $\frac{5}{8}$ inch Diameter and Larger Into Their Bores.

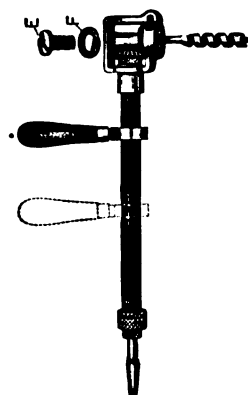

Length, Inches	16	20
Weight Per Dozen, Lbs.	7	9
Per Dozen	\$21.00	22.00

The chuck is formed on the end of the extension rod. The sleeves are made of seamless steel tubing.

One-half Dozen in a Box.

SILL BORERS

MILLERS FALLS, BALL BEARING

For use in connection with a bit brace or breast drill in boring at right angles in cramped places and indispensable for car builders, electricians, carpenters, and other wood workers.

No. 51—16 $\frac{1}{2}$ inches Long, Depth of Head 2 $\frac{3}{8}$ inches, Malleable Iron Frame, Hardened Steel Working Parts, Adjustable Steadying Handle, with Patent Cup Washer and Screw to Hold Head in Place without Working Loose..... **\$48.00**

Weight Per Dozen 35 Pounds.
One-twelfth Dozen in a Box.

ANGULAR BIT STOCKS

UNIVERSAL

No. 108—Japanned Body, with Nickel Plated Master Chuck for Holding $\frac{1}{8}$ to $\frac{1}{2}$ inch Round Shanks, No. 1 Morse Taper, Bit Stock and Expansion Bit Shanks **\$32.00**

To be used with a bit brace or a breast drill either as an extension or angular borer. The adjustable arc varies angle from 180 to 125 degrees. (Length when at 180 degrees) 12 $\frac{1}{2}$ inches.

Weight Per Dozen 26 Pounds.
One-twelfth Dozen in a Box.

Extension Bit Holder will extend the bit, enabling the user to bore through walls, floors, etc., where the ordinary bit will not reach.

MILLERS FALLS EXTENSION

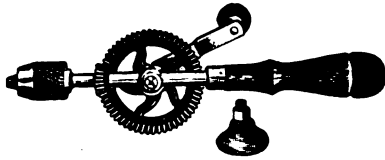

No. 6—16 $\frac{1}{2}$ inches Long when Collapsed, 24 inches Long when Extended, Steel, Polished and Nickel Plated, Chuck Follows Bits $\frac{5}{8}$ inch Diameter and Larger into their Bores..... **\$29.00**

The outer sleeve telescopes over and engages at 1 $\frac{1}{2}$ inch intervals upon inner spindle, combining lightness with strength. Four strong steel jaws, made in one piece, grip firmly over shoulder of bit stock and shank.

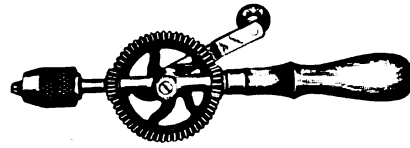

Weight Per Dozen 14 Pounds.
One-twelfth Dozen in a Box.

HAND DRILLS

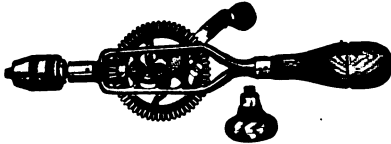

MILLERS FALLS

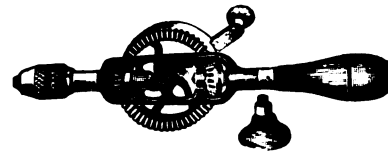

- No. 303—11 1/4 inches Long, Solid Steel Frame, Red Large Gear, Nickel Plated Metal Parts, Cut Gears, Steel Pinion, Stained Hardwood Handles, Hollow End Handle with Screw Cap, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks\$25.00
Weight Per Dozen 18 Pounds.

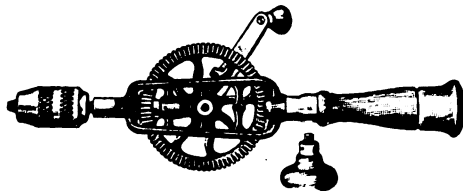

- No. 313—11 1/4 inches Long, with Idler Gear to Equalize Bearings, Solid Steel Frame, Red Large Gear, Nickel Plated Metal Parts, Cut Gears, Steel Pinion, Stained Hardwood Handles, Solid End Handle, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks.....\$27.00
Weight Per Dozen 18 Pounds.

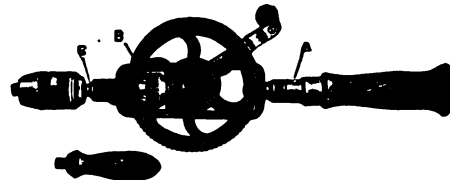

- Ball Thrust Bearing.** Per Dozen
No. 1—12 1/2 inches Long, Black Enameled Malleable Iron Frame, Red Large Gear, Nickel Plated Parts, Cut Gears with Adjustable Equalizing Bearings, Steel Pinion, Hardwood Handles, Hollow End Handle with Screw Cap Containing Eight (1/8 to 1/4 inch) Drill Points, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks\$30.00
Weight Per Dozen 20 Pounds.

- Ball Thrust Bearing.** Per Dozen
No. 5—12 1/2 inches Long, Black Enameled Malleable Iron Frame, Red Large Gear with Wide Rim to be Grasped Between Thumb and Fingers when Delicate Work is to be Done, Nickel Plated Parts, Cut Gears, Idler Gear, Hardwood Handles, Hollow End Handle with Screw Cap Containing Eight (1/8 to 1/4 inch) Drill Points, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks..\$33.00
Weight Per Dozen 22 Pounds.

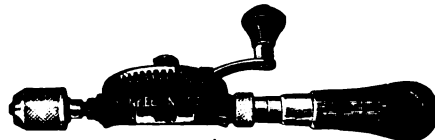

- Ball Thrust Bearing.** Per Dozen
No. 2—14 1/2 inches Long, Black Enameled Malleable Iron Frame, Red Large Gear, Nickel Plated Parts, Cut Gears with Adjustable Friction Roll to Equalize Bearings, Steel Pinion, Hardwood Handles, Hollow End Handle with Screw Cap Shaped so Tool May be Used as a Breast Drill and Containing Eight (1/8 to 1/4 inch) Drill Points, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks\$46.00
Weight Per Dozen 29 Pounds.

- Ball Thrust Bearing.** Per Dozen
No. 98—15 1/4 inches Long, Black Enameled Malleable Iron Frame, Red Large Gear, Nickel Plated Parts, Changeable Speed, Inclosed Steel Pinions and Shifting Device, Cut Gears with Adjustable Friction Roll to Equalize Bearings, Stained Hardwood Handles, Detachable Hollow End Handle Shaped so Tool may be Used as a Breast Drill, Detachable Side Handle, Three-Jawed Chuck Holding 0 to 3/8 inch Round Shanks.....\$54.00
Weight Per Dozen 38 Pounds.

YANKEE SINGLE SPEED.

This Drill can be adjusted to different workings by a Shifter on Cylinder, with slide in first notch the tool is a Plain Drill; in second, a Left Hand Ratchet;

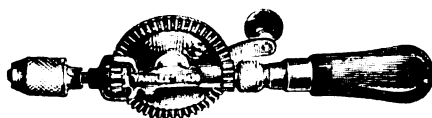

in third a Right Hand Ratchet; in fourth, a Double Ratchet; in fifth, Drill is locked to adjust chuck.

With Right and Left Hand and Continuous Ratchet Movement.

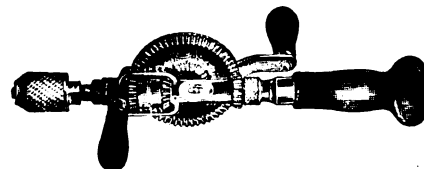

- No. 1530—10 1/2 inches Long, Dead Black Finished Malleable Iron Frame, Steel Spindle, Cut Gears, 4x1 1/2 inch Detachable Hollow Hardwood Handle, Nickel Plated Three-Jawed Chuck Holding Up to 3/8 inch Round Shanks Only, without Drill Points, Weight Each 1 1/4 Lbs.....\$4.25
Instead of ball bearings the thrust on spindle is taken by a hardened steel bearing in lower end of frame and so arranged that any wear can be readily taken up. Interior of handle can be used as a magazine for drills.

YANKEE "PLAIN" SINGLE SPEED

YANKEE "PLAIN" DOUBLE SPEED, BALL BEARING

- No. 1430—10 3/4 inches Long, Dead Black Finished Malleable Iron Frame, Steel Spindle, Cut Gears, 4x1 1/2 inch Detachable Hollow Hardwood Handle, Nickel Plated Three-Jawed Chuck Holding Up to 3/8 inch Round Shanks Only, without Drill Points, Weight Each 1 1/4 Lbs.....\$3.00

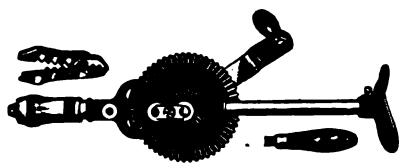

- No. 1445—15 3/4 inches Long, Dead Black Finish Malleable Iron Frame, Adjustable Ball Bearings, Steel Spindle, Cut Gears, 4 1/2 x 2 1/2 inch Detachable Hollow Hardwood Handle, Nickel Plated Three-Jawed Chuck Holding Up to 3/8 inch Round Shanks Only, without Drill Points, Weight Each 3 1/2 Lbs.....\$5.00

No. 1445 Drill has fast and slow speed and can be locked so the chuck can be readily opened or closed.
All Above, One-twelfth Dozen in a Box.

BREAST DRILLS

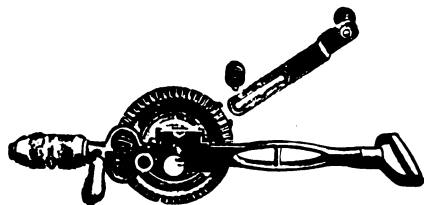

MILLERS FALLS

Ball Thrust Bearing.

- No. 19—18 inches Long, Black Enameled Cast Iron Frame, Detachable Rolled Steel Main Stock, Red Large Gear, Polished Parts, Adjustable Black Enameled Breast Plate, Adjustable Crank with Radius of 4 to 7 inches, Cut Gears, Steel Pinion, Changeable Speed from Even to 3 to 1 inch, Barber's Chuck Holding Bit Stock and Many Sizes of Round Shanks\$42.00

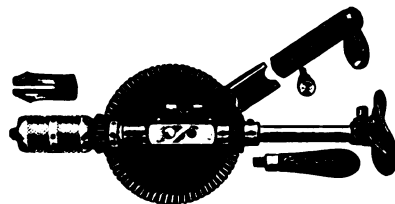

Weight Per Dozen 74 Pounds.

With Level Attachment, Ball Thrust Bearing.

- No. 15—19 inches Long, Black Enameled Malleable Iron Main Stock, Green Painted Large Gear and D Handle, Nickel Plated Parts, Adjustable D Handle, Extension Crank with Radius from 4 to 6 inches, Cut Gears, Large Gear with Idler Roll to Equalize Bearings, Changeable Speed from Even to 3 to 1, Stained Hardwood Handles, Master Chuck Holding $\frac{1}{8}$ to $\frac{1}{2}$ inch Round Shanks, No. 1 Morse Taper, Bit Stock and Expansion Bit Shanks.....\$55.00

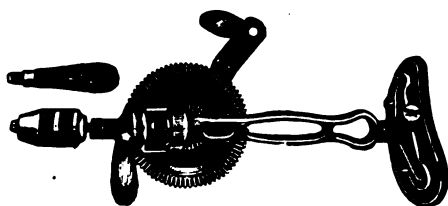

Weight Per Dozen 79 Pounds.

With Level Attachment, Ball Thrust Bearing.

- No. 13—15 inches Long, Solid Steel Main Stock, Large Gear and Under Side of Breast Plate Painted Red, Nickel Plated Parts, Adjustable Breast Plate, Extension Crank with Radius from $5\frac{1}{2}$ to 7 inches, Cut Gears, 6 inch Diameter Large Gear Giving Speed of $4\frac{1}{2}$ to 1, Idler Gear to Equalize Bearings, Steel Pinions, Stained Hardwood Handles, Master Chuck Holding $\frac{1}{8}$ to $\frac{1}{2}$ inch Round Shanks, No. 1 Morse Taper, Bit Stock and Expansion Bit Shanks.....\$75.00

Weight Per Dozen 70 Pounds

With One Adjustable and One Auxiliary Breast Plate, Ball Thrust Bearing.

- No. 100—18 inches Long, Black Enameled Malleable Iron Frame, Red Painted Large Gear and Main Breast Plate, Adjustable Breast Plate Made to Fit the Hand, Detachable Auxiliary Breast Plate for Comfort and Heavy Work, Cut Gears, Steel Small Gears, Changeable Speed from Even to 3 to 1, Stained Hardwood Handles, Star Chuck Holding 0 to $\frac{1}{2}$ inch Round Shanks.....\$74.00

When grasped with middle finger through hole provided for it the tool can be held easily and steadily in awkward and out-of-the-way places when the breast plate must be held in the hand.

Weight Per Dozen 85 Pounds.

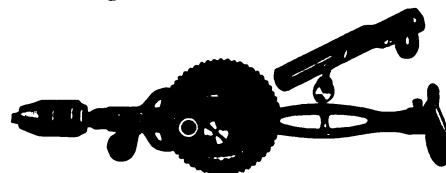

All Above, One-twelfth Dozen in a Box.

With Level Attachment, Ball Bearings Throughout.

- No. 12—17 $\frac{1}{2}$ inches Long, Black Enameled Malleable Iron Main Stock, Green Painted Large Gear and Breast Plate, Nickel Plated Parts, Adjustable Breast Plate, Extension Crank with Radius from 4 to 6 inch, Cut Gears, Large Gear with Idler Roll to Equalize Bearings, Steel Pinion, Changeable Speed from Even to 3 to 1, Stained Hardwood Handles, Master Chuck Holding $\frac{1}{8}$ to $\frac{1}{2}$ inch Round Shanks, No. 1 Morse Taper, Bit Stock and Expansion Bit Shanks\$55.00

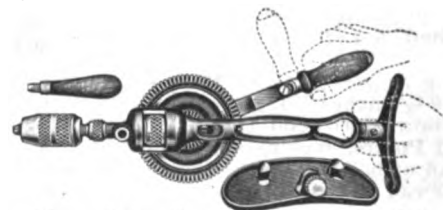

Weight Per Dozen 79 Pounds.

With Level Attachment, Ball Thrust Bearing.

- No. 118—17 $\frac{1}{2}$ inches Long, Black Enameled Malleable Iron Main Stock, Green Painted Large Gear and Breast Plate, Nickel Plated Parts, Adjustable Breast Plate, Extension Crank with Radius from 4 to 6 inch, Cut Gears, Large Gear with Idler Roll to Equalize Bearings, Changeable Speed from Even to 3 to 1, Stained Hardwood Handles, Star Chuck Holding 0 to $\frac{1}{2}$ inch Round Shanks.....\$65.00

Weight Per Dozen 81 Pounds.

With Adjustable and Auxiliary Breast Plate, Adjustable Crank Handle and Ratchet, Ball Thrust Bearing.

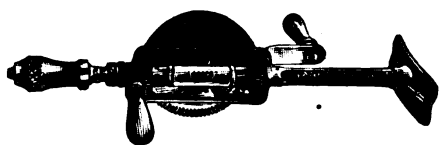

- No. 200—18 inches Long, Black Enameled Malleable Iron Frame, Red Painted Large Gear and Main Breast Plate, Adjustable Breast Plate Made to Fit the Hand, Detachable Auxiliary Breast Plate for Comfort and Heavy Work, Crank Handle Adjustable to Two Positions, Effective Ratchet, Changeable Speed from Even to 3 to 1, Cut Gears, Stained Hardwood Handles, Star Chuck Holding 0 to $\frac{1}{2}$ inch Round Shanks.....\$90.00

The crank handle is adjustable to two positions, which is of advantage in cramped quarters. The ratchet is a convenience in cramped places or when doing delicate work.

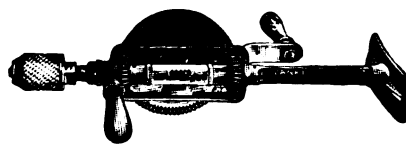

Weight Per Dozen 85 Pounds.

BREAST DRILLS

YANKEE SINGLE SPEED, BALL BEARING

No. 550.

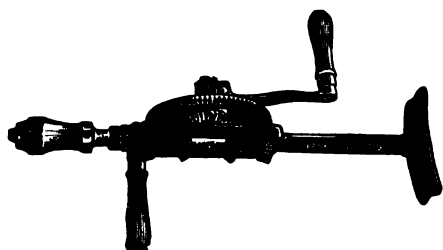

No. 1550.

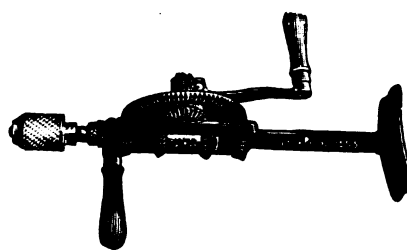

With Right and Left-Hand and Continuous Ratchet Movement.

- No. 550—18 inches Long, Dead Black Finished Malleable Iron Frame, Adjustable Ball Bearings, Steel Spindle, Cut Gears, Adjustable Breast Plate with Polished Face, Nickel Plated Two-Jawed Chuck Holding Square and Round Shanks Up to $\frac{1}{2}$ inch, Weight Each $5\frac{1}{2}$ Lbs. Each **\$8.00**
- No. 1550—17 inches Long, Same as No. 550, but with Three-Jawed Chuck Holding Up to $\frac{1}{2}$ inch Round Shanks Only, Weight Each $5\frac{1}{2}$ Lbs. **8.00**

YANKEE DOUBLE SPEED, BALL BEARING

No. 555.

No. 1555.

With Right and Left Hand and Continuous Ratchet Movement.

- No. 555—With Double Speed, Otherwise Same as No. 550 Described Above, Weight Each 7 Lbs. Each **\$9.00**
- No. 1555—With Double Speed, Otherwise Same as No. 1550 Described Above, Weight Each $6\frac{1}{2}$ Lbs. **9.00**

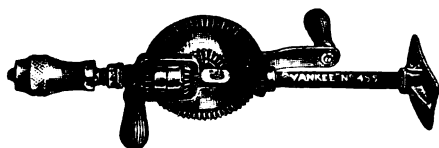

The change of speed on the double speed is made by pushing the little lever at the hub of the crank toward gear for fast speed and away from gear for slow speed.

Note—All of the above Drills can be adjusted to different working by a shifter on cylinder. With slide in first notch the tool is a plain drill; in second, a left hand ratchet; in third, a right hand ratchet; in fourth, a double ratchet; in fifth, drill is locked to adjust chuck.

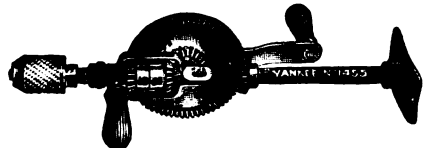

The side handle can be unscrewed and has on it a screw driver bit to take care of all the screws on the tool.

The end of the shell of chuck is so constructed that it permits the use of a monkey wrench for tightening large drills, instead of the common practice of holding the chuck shell in vise.

YANKEE "PLAIN" DOUBLE SPEED, BALL BEARING

No. 455.

No. 1455.

- No. 455—17 $\frac{1}{4}$ inches Long, Dead Black Finished Malleable Iron Frame, Bright Solid Steel Rod, Adjustable Ball Bearings, Steel Spindle, Cut Gears, Adjustable Breast Plate with Polished Face, Nickel Plated Two-Jawed Chuck Holding Square and Round Shanks Up to $\frac{1}{2}$ inch, Weight Each $5\frac{1}{2}$ Lbs. Each **\$6.00**
- No. 1455—16 $\frac{1}{2}$ inches Long, Same as No. 455, but with Three-Jawed Chuck Holding Up to $\frac{1}{2}$ inch Round Shanks Only, Weight Each $5\frac{1}{2}$ Lbs. **6.00**

The change of speed is made by a small shifter on main frame between the small gears. With shifter at top notch S, it is set for slow speed; at bottom notch F, fast speed; in center notch L, the spindle is locked so the chuck can be readily opened or closed.

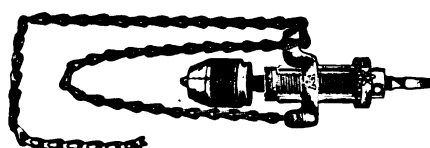

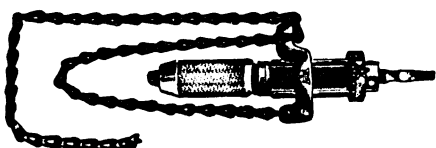

The side handle can be unscrewed and has on it a screw driver bit to take care of all the screws on the tool.

The end of the shell of the chuck is so constructed that it permits the use of a monkey wrench for tightening large drills, instead of the common practice of holding the chuck shell in vise.

CHAIN DRILLS

GOODELL'S AUTOMATIC

Ball Bearing.

Automatic Feed, End Thrust of Automatic Feed Reduced by Ball Bearings, Squared End of Steel Spindle Case Hardened to Prevent Damage.

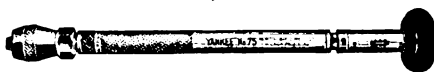

- No. 307—9 $\frac{1}{4}$ inches Long, Japanned Malleable Iron Frame, Nickel Plated Steel Chuck Holding Square Shanks Only, Complete with 36 inch Steel Chain, Weight Each $2\frac{1}{2}$ Lbs. Each **\$3.00**

- No. 316—9 $\frac{1}{4}$ inches Long, Japanned Malleable Iron Frame, Nickel Plated Steel Chuck Holding Up to $\frac{1}{2}$ inch Round Shanks Only, Complete with 36 inch Steel Chain, Weight Each $2\frac{1}{2}$ Lbs. Each **\$4.50**

All Above, One in a Box.

PUSH BRACES

YANKEE

- No. 75—16 $\frac{1}{4}$ inches Long without Bit when Closed, 23 $\frac{1}{2}$ inches when Extended, Nickel Plated, Ratchet Movement, Steel Spiral Rod with 1 $\frac{1}{2}$ inch Hard Bronze Nuts, Grooved for Both Right and Left Hand, 2 $\frac{3}{8}$ inch Diameter Polished Hardwood Handle, Nickel Plated Malleable Iron Chuck, Drop Forged Steel Jaws, Will Hold Either Round or Square Shank Drills up to $\frac{1}{2}$ inch. **\$50.00**
- Will hold all the small tools used in a bit brace, but is operated by pushing the handle to revolve the tools. It excels a bit brace in its greater rapidity and convenience in the lighter work ordinarily done by a brace. It will with little effort, bore $\frac{1}{8}$ inch holes in metal, drive $\frac{3}{8}$ inch auger bit in hardwoods, or $\frac{1}{2}$ to $\frac{3}{4}$ inch bits in white pine. It will drill holes, drive screws in or out or can be used for tapping holes, and with socket bit drive in small lag screws, run burrs or nuts on bolts, etc.

Weight Per Dozen 26 Pounds.

One-twelfth Dozen in a Box.

AUTOMATIC DRILLS

YANKEE

- No. 43—10 $\frac{3}{4}$ inches Long with Drill Point, Steel and Brass Construction, Nickel Plated, Polished Hardwood Handle, Complete with 3 Drill Points, One Each $\frac{1}{8}$, $\frac{3}{16}$ and $\frac{1}{4}$ inch. **\$14.00**

For use where only the smaller size drill points are required.

Weight Per Dozen 3 $\frac{1}{4}$ Pounds.

One-twelfth Dozen in a Box.

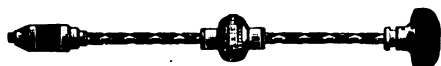

- No. 41—11 $\frac{1}{4}$ inches Long with Drill Points, Steel and Brass Construction, Nickel Plated, Magazine in Handle for Holding Drill Points, Complete with 8 Drill Points, $\frac{1}{8}$ to $\frac{1}{4}$ inch. **\$28.00**
- During the return movement of handle the drill point revolves backward to clear chips, etc.

Drill points are in plain sight when magazine is open.

Weight Per Dozen 8 Pounds.

One-twelfth Dozen in a Box.

YANKEE RECIPROCATING

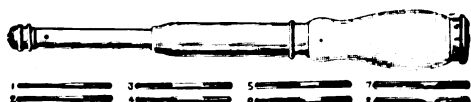

- No. 50—16 inches Long without Drill Point, Traverse of Driver 8 $\frac{1}{2}$ inches, Tool Steel Spiral, Ball Bearing Hardwood Handle, Nickel Plated Chuck and Driver, Will Hold Any Drill with Shank $\frac{1}{8}$ inch Diameter or Less, without Drills. **\$44.00**
- Designed for use in drilling in steel, iron, brass and other metals, as well as all varieties of woods.

Weight Per Dozen 15 Pounds.

One-twelfth Dozen in a Box.

GOODELL-PRATT

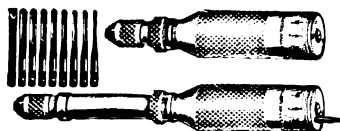

- No. 3 $\frac{1}{2}$ —10 $\frac{1}{4}$ inches Long without Drill Point, Steel and Brass Construction, Nickel Plated, Polished Hardwood Magazine Handle with Separate Numbered Compartments for Drill Points, Hard Brass Center Nut, Complete with 8 Drill Points, $\frac{1}{8}$ to $\frac{1}{4}$ inch. **\$25.00**

Many users insist upon having a wooden handle, believing that it is easier for the hand, and for such purchasers we offer this tool.

Weight Per Dozen 8 Pounds.

One-twelfth Dozen in a Box.

- No. 8—Length Extended 7 $\frac{1}{4}$ inches, Length Compressed 4 $\frac{7}{8}$ inches, Nickel Plated Metal Parts, Knurled and Nickel Plated Steel Magazine Handle with Separate Numbered Compartments for Drill Points, Complete with Eight ($\frac{1}{8}$ to $\frac{1}{4}$ inch) Drill Points and a Screw Driver Bit. **\$40.00**

Weight Per Dozen 8 $\frac{1}{4}$ Pounds.

One-twelfth Dozen in a Box.

"STAR" POCKET

Per Dozen

- No. 3—10 inches Long without Drill Point, Steel and Brass Construction, Heavily Nickel Plated, Magazine Handle with Separate Numbered Compartments for Drill Points, Hard Brass Center Nut, Complete with 8 Drill Points, $\frac{1}{8}$ to $\frac{1}{4}$ inch. **\$25.00**

Has smooth and comfortable handle. The drills are removed through a hole in the rotating cap.

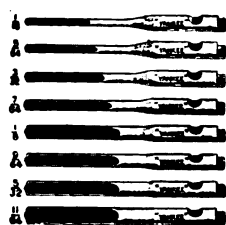

Weight Per Dozen 7 Pounds.

One-twelfth Dozen in a Box.

SCREW DRIVERS

REID'S AUTOMATIC

Per Dozen
No. 2R—Length with Bit when Closed $13\frac{1}{2}$ inches, when Extended $22\frac{1}{2}$ inches, Nickel Plated Cylinder, Lignumvitae Head and Handle, Complete with 2 Screw Driver Bits and 1 Boring Bit.....\$30.00
Weight Per Dozen 12 Pounds.
One-half Dozen in a Box.

G-P AUTOMATIC INTERCHANGEABLE

Nickel Plated Parts, Polished Cocobolo Handle, Complete with 3 Interchangeable Best Cast Steel Blades.

Nos.....	G40-1	G40-2	G40-3
Length Extended, Inches.	14	16	18
Spiral Slants, Degrees....	40	30	20
Per Dozen	\$16.50	18.00	21.00

Per Set of 3

Extra Blades60
Intended to be used as an automatic screw driver for driving screws only, that is, it has but one spiral and that for right hand work.

Weight Per Dozen 8 Pounds.

One-twelfth Dozen in a Box.

YANKEE RATCHET

No. 11—Right or Left Hand and Rigid.

Polished Cast Steel Blade, Nickel Plated Parts, Polished Hardwood Handle.

Blade, Inches.....	3	4	5	6	8
Length Over All, Inches.	$7\frac{1}{4}$	$8\frac{1}{4}$	$9\frac{1}{4}$	$10\frac{1}{4}$	13
Wt. Per Dozen, Lbs....	3	$3\frac{1}{2}$	$3\frac{1}{2}$	5	6
Per Dozen	\$7.50	8.00	9.00	11.00	12.00

The adjustment for right or left hand is made by pushing shifter to right or left end of slot. When placed midway the blade is held rigid as in ordinary screw driver.

One-half Dozen in a Box.

YANKEE SPIRAL RATCHET

Right or Left Hand and Rigid.

Per Dozen
No. 135—Length with Bit in Chuck when Closed 10 inches, Full Length when Extended $13\frac{1}{4}$ inches, Nickel Plated Parts, Polished Hardwood Handle, Complete with 3 Sizes of Straight Bits\$26.00

This is the regular pattern No. 35 with a spring added in handle as shown in cut, which causes the handle to come back for the next push, in driving screws in and out. It is a "quick return" and more rapid as well as convenient in practical use, than pulling the handle back.

Weight Per Dozen $7\frac{1}{2}$ Pounds.

One-twelfth Dozen in a Box.

Per Dozen
No. 1R—Length with Bit when Closed 18 inches, when Extended 29 inches, Nickel Plated Cylinder, Lignumvitae Head and Handle, Complete with 1 Screw Driver Bit\$36.00
Weight Per Dozen 18 Pounds.
One-twelfth Dozen in a Box.

G-P SPIRAL RATCHET

Per Dozen
No. 111—Length without Bit when Closed 10 inches, Length with Bit when Extended 18 inches, Nickel Plated Parts, Polished Cocobolo Handle, Angle Slant of Spiral 20 Degrees, Complete with 3 Interchangeable Tool Steel Blades.....\$30.00
Per Set of 3

Extra Blades60
A strong and heavy automatic screw driver, capable of either right or left hand, automatically or by using the ratchet mechanism. Can also be made a stationary driver by setting the shifter knob on the ferrule.

Weight Per Dozen 12 Pounds.

One-twelfth Dozen in a Box.

YANKEE SPIRAL RATCHET

Light Pattern, Right or Left Hand and Rigid.

Per Dozen
No. 35—Length with Bit in Chuck when Closed $9\frac{1}{2}$ inches, Full Length when Extended $12\frac{3}{8}$ inches, Nickel Plated Parts, Polished Hardwood Handle, Complete with 3 Sizes of Straight Bits.....\$22.00

Intended for electrical workers, cabinet makers, carpenters and mechanics having a large number of small screws to drive. The bits are straight so they can be used to drive screws through holes in insulators, etc., where the flattened bits will not pass through holes.

Weight Per Dozen $6\frac{1}{4}$ Pounds.

One-twelfth Dozen in a Box.

SCREW DRIVERS

YANKEE SPIRAL RATCHET

Regular Pattern, Right or Left Hand and Rigid.

Per Dozen

No. 30—Length with Bit in Chuck when Closed $13\frac{1}{2}$ inches, Full Length when Extended $19\frac{1}{4}$ inches, Nickel Plated Parts, Polished Hardwood Handle, Complete with 3 Sizes of Bits.....\$28.00

Drives or draws screws by pushing on handle, or by ratchet movement of handle, and can be made rigid as an ordinary screw driver. Its advantages over all similar tools is its greater simplicity, compactness, strength, durability and easy operation.

Weight Per Dozen $13\frac{3}{4}$ Pounds.
One-twelfth Dozen in a Box.

Heavy Pattern, Right or Left Hand and Rigid.

Per Dozen

No. 31—Length with Bit in Chuck when Closed $17\frac{1}{2}$ inches, Full Length when Extended $26\frac{1}{4}$ inches, Nickel Plated Parts, Polished Hardwood Handle, Complete with 3 Sizes of Bits.....\$38.00

This driver is of same design as No. 30, but is made considerably heavier and stronger throughout for use in car shops, etc., where heavy screws are required to be driven or drawn.

Weight Per Dozen $20\frac{1}{2}$ Pounds.
One-twelfth Dozen in a Box.

YANKEE QUICK RETURN SPIRAL RATCHET

Right or Left Hand and Rigid.

Per Dozen

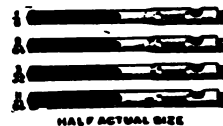

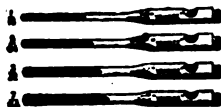

No. 130—Length with Bit in Chuck when Closed 15 inches, Full Length when Extended $20\frac{1}{2}$ inches, Nickel Plated Parts, Polished Hardwood Handle, Complete with 3 Sizes of Bits\$33.00

This is the regular pattern No. 30 with a spring added in handle as shown in cut, which causes the handle to come back for the next push, in driving screws in and out. It is a "quick return" and more rapid as well as convenient in practical use, than pulling the handle back.

Weight Per Dozen $14\frac{1}{2}$ Pounds.
One-twelfth Dozen in a Box.

CHUCKS WITH DRILL POINTS

YANKEE

For Use with Yankee Spiral Ratchet Screw Drivers Making Same a Drill.

Per Dozen Sets

No. 30C Set—8 Drill Points, $\frac{1}{8}$ to $\frac{1}{4}$ ths inch, with Chuck, for Nos. 30 and 130 Yankee Screw Drivers.....\$10.00

No. 35C Set—3 Drill Points, $\frac{1}{8}$, $\frac{3}{16}$ and $\frac{1}{4}$ inch, for Nos. 35 and 135 Yankee Screw Drivers..... 5.00

One-twelfth Dozen Sets in a Round Wooden Box.

"YANKEE" BITS WITH SCREW HOLDER

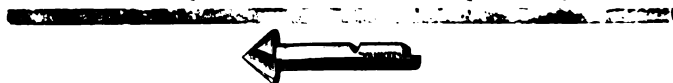

Per Dozen

No. 30SH—For Nos. 30 and 130 Yankee Screw Drivers..\$5.50
No. 31SH—For No. 31 Yankee Screw Drivers..... 5.50
No. 35SH—For Nos. 35 and 135 Yankee Screw Drivers. 5.00

A longer bit than regular, with holder attached to hold screw. When screw is driven in place the jaws open as the head of screw sinks into wood.

One Dozen in a Box.

"YANKEE" COUNTERSINKS

Per Dozen

No. 30CS—For Nos. 30 and 130 Yankee Screw Drivers...\$2.50
No. 31CS—For No. 31 Yankee Screw Drivers..... 2.50
No. 35CS—For Nos. 35 and 135 Yankee Screw Drivers. 2.50

Made of superior steel and can be used in either hard or soft woods.

One Dozen in a Box.

SCREW DRIVER ASSORTMENT

LITTLE WONDER

A fine little tool, made exactly like other high grade Screw Drivers, except for size. Suitable for mechanics. Not a toy.

Tempered Steel Blade, $\frac{1}{8}$ inch Diameter, Red Varnished Wood Handle, Long Steel Ferrule.

A steel pin through Ferrule, Blade and Handle holds them securely and prevents turning in handle.

Per Assortment

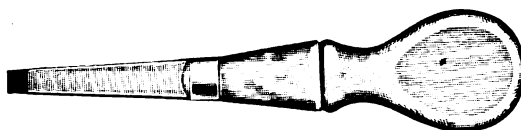

No. 42 Assortment—Consists of 12 "Little Wonder" Screw Drivers; Four with $1\frac{1}{4}$ inch Blade, Length Over All 3 inches; Four with 2 inch Blade, Length Over All $3\frac{1}{4}$ inches; Four with 3 inch Blade, Length Over All $4\frac{1}{4}$ inches, Mounted on a Very Attractive Red and Gold Finished Display Card, Each Packed in a Container Box.....\$1.75

Very useful for all light work on clocks, telephones, locks, electric fixtures, typewriters, cabinet hardware, etc.

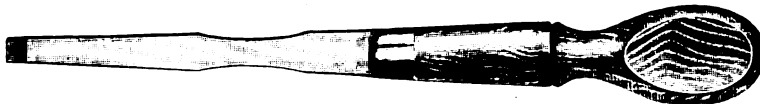

SCREW DRIVERS

Per Dozen	\$4.00	4.50	5.00	6.00	7.00	8.00	9.00	12.00

Can be used with a hammer to loosen rusty screws. The hammer head is an invaluable feature.

One-half Dozen in a Box.

SCREW DRIVERS

HURWOOD

"Hurwood" Screw Drivers are unsurpassed for strength and durability. The blade, shank and head are one piece of special steel. Two patent projecting wings under the head, together with a rivet which passes through the ferrule, handle and shank, securely fastens the blade in the handle, preventing its turning.

HURWOOD REGULAR

SAW KITS

DISSTON'S HANDY

The combination of Blades in this Set provides a handy kit for the practical mechanic, farmer, householder, etc.

The Plumbers' Saw Blade is specially tempered for cutting nails, spikes, bolts, gas pipe, soil pipe, etc.

The handle has a special lever device which is arranged to hold the blades comprising the set rigid and the special formation of the butt of the blades prevents wobbling.

The special shaped lever bolt permits by a quarter or half turn of same, the keeping of the lever in position so it will not interfere with the working of the saw.

Crucible Steel Blades, Ground and Polished.

Weight Per Dozen 5 Pounds.

One Dozen in a Box.

CROSS CUT SAWS

HENRY DISSTON & SON'S

Disston's Cross Cut Saws are ground on lines that conform exactly to the breast of the saw, leaving the blade perfectly uniform in thickness, throughout the entire length of cutting edge, and being tapered to an extra thin back, gives the maximum amount of clearance without sacrificing the necessary elasticity and stiffness.

"ZIP"

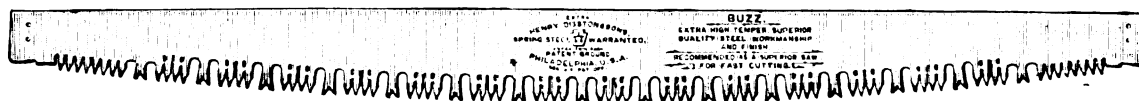

Finest Crucible Spring Steel, Extra Thin Back, Hardened and Tempered, Taper Ground.

14x19 Gauge, Five Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6	6½
Weight Each, Lbs.....	4½	5½	6	7
Each, without Handles.....	\$5.60	6.50	7.60	8.70

"BUZZ"

Finest Crucible Spring Steel, Extra Thin Back, Hardened and Tempered, Taper Ground.

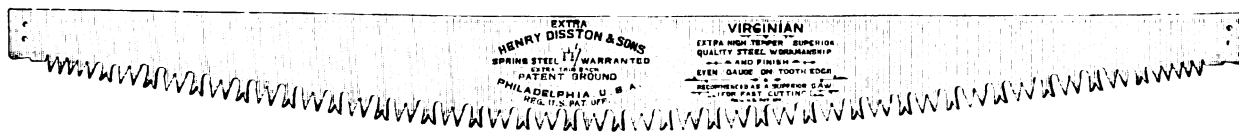

14x19 Gauge, Five Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6	6½
Weight Each, Lbs.....	4½	5½	6	7
Each, without Handles.....	\$5.60	6.50	7.60	8.70

"Zip" and "Buzz" Cross Cut Saws are tempered by the exclusively Disston Process, which imparts the "Superior Edge and Set-Holding Qualities" for which the Disston brand of saws are renowned.

In design, material, temper and workmanship these saws represent everything that is most desirable in cross cut Saws.

VIRGINIAN

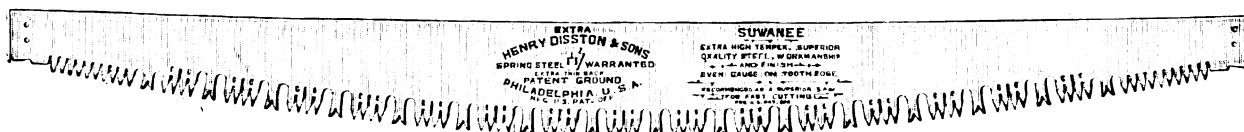

Finest Crucible Spring Steel, Extra Thin Back, Hardened and Tempered, Taper Ground.

14x20 Gauge, Six Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6	6½
Weight Each, Lbs.....	4½	5½	6	7
Each, without Handles.....	\$5.60	6.50	7.60	8.70

SUWANEE

Finest Crucible Spring Steel, Extra Thin Back, Hardened and Tempered, Taper Ground.

14x20 Gauge, Six Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6	6½
Weight Each, Lbs.....	4½	5½	6	7
Each, without Handles.....	\$5.60	6.50	7.60	8.70

The Virginian and Suwanee Cross Cut Saws are made of Disston's finest Crucible Steel. Tempered by the exclusively Disston Process which imparts the "Superior Edge and Set-Holding Qualities" for which the Disston Saws are renowned. Ground an even gauge throughout the entire tooth-edge and six gauges thinner on the back than on cutting edge, insures free running and fast cutting saws.

CROSS CUT SAWS

HENRY DISSTON & SONS'

No. 660—Perforated Lance Tooth, Finest Crucible Spring Steel, Extra Thin Back, Hardened and Tempered, Taper Ground.

14x16 Gauge, Two Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6	6½
Weight Each, Lbs.....	5½	6½	7½	8½
Each, without Handles.....	\$3.50	3.80	4.20	4.50

No. 01—Common Tooth, Finest Crucible Spring Steel, Thin Back, Hardened and Tempered, Taper Ground.
14x16 Gauge, Two Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5½	6
Weight Each, Lbs.....	5½	6½	7
Each, without Handles.....	\$3.60	3.80	4.20

No. 001—Tenon Tooth, Finest Crucible Spring Steel, Thin Back, Hardened and Tempered, Taper Ground.
14x16 Gauge, Two Gauges Thinner on Back than on Tooth Edge.

Length, Feet	4	4½	5
Weight Each, Lbs.....	4	4½	5½
Each, without Handles.....	\$2.80	3.10	3.50

Disston's Cross Cut Saws are taper ground. They are uniform in thickness on the cutting edges and of relative and uniform thickness throughout the blade of the saws, the taper being ground on lines conforming to the breast of the saw, to a thin or extra thin back, gives the saws the maximum amount of clearance at all parts of the blades without sacrificing their weight, stiffness or elasticity.

CROSS CUT SAWS

E. C. ATKINS & CO.'S

No. 222—Diamond Tooth, Special Steel, Thin Back, 14x18 Gauge, Four Gauges Thinner on Back than on Tooth Edge.

No. 6—Hemlock King, Silver Steel, Tempered Hard and Tough, Segment Ground, 14 Gauge on Tooth Edge, 17 Gauge on Back at End, 20 Gauge at Center of Back.

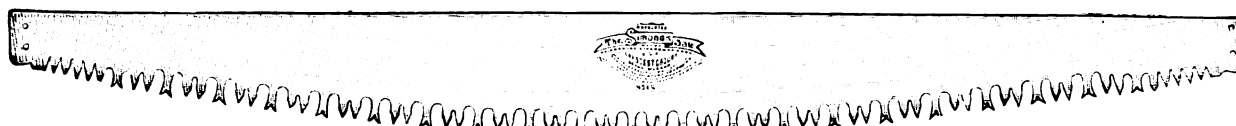

Used Extensively Throughout the Northwest in Cutting Hemlock and Other Similar Woods.

Length, Feet	5	5 1/2	6	6 1/2
Weight Each, Lbs.	4 1/2	5	5 1/2	6
Each, without Handles	\$4.10	4.80	5.60	6.40

Segment Grinding consists of finishing the blade of an absolutely even gauge along the toothed edge and from the point, on a true taper to the center of the back.

Atkins Segment Ground Cross Cut Saws, being thicker at the ends, are stiff and do not buckle and being thinnest at the center of the back, they have ample clearance, enabling them to be operated fast and most easily with very little set.

SIMONDS MFG. CO.'S

No. 18—Champion Tooth, Best Crucible Steel, Crescent Ground, Five Gauges Thinner on Back than on Tooth Edge.

Length, Feet	5	5 1/2	6	6 1/2

SOLID TOOTH CIRCULAR SAWS

HENRY DISSTON & SONS

Extra Quality Cast Steel, Patent Ground and Tempered.

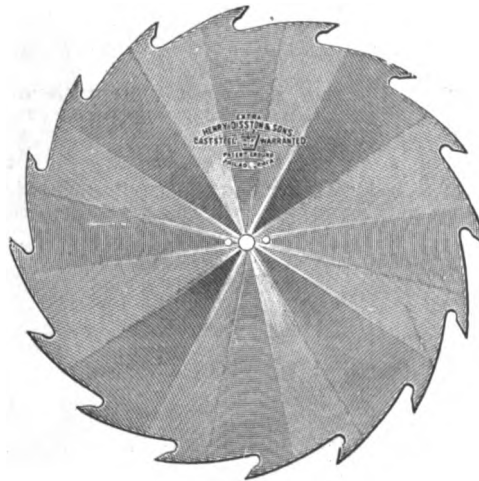

Left Hand Saw.

Right Hand Saw.

Warranty—Each saw is warranted as true as it is possible to make it, free from flaws and seams. If found to be defective in any of these particulars, it may be returned within thirty days from delivery; and, if we are satisfied the saw is at fault, all necessary repairs will be made free of charge, or a new one given in exchange. We do not warrant saws cracked in gumming where the punches and dies are not kept in proper order. The filing of square corners in the gullets will also cause the plate to crack. Our warranty does not cover such cases.

Instructions—When ordering be careful to give us the following particulars: Whether rip or cross cut, right hand or left hand (see above illustrations), diameter in inches, number of teeth, thickness or gauge at rim, thickness or gauge at center, size of mandrel hole, size of pin holes, distance from center to center of pin holes, number of revolutions per minute, kind of lumber to be sawed.

Note—All Stock Saws, 40 inches in Diameter and Larger, have 2 inch Mandrel Hole and $\frac{5}{8}$ inch Lug-Pin Holes, 3 inches from Center to Center. If Wanted Different, Send Full Pattern of Holes.

For saw one gauge thicker than list, no extra charge when shipped from factory.

Circular saws up to 42 inches beveled one gauge without extra charge; 44 inches and larger, beveled two gauges without extra charge when shipped from factory.

Circular saws 48 inches and larger if made thinner than 10 gauge are not warranted, and add 10 per cent for each gauge thinner than No. 10.

The speed of circular saws is one of the most essential things to be observed. If speed is too high it cannot do good work, as it generates heat, becoming tough and limber. Too slow speed has its objections, but is not attended with such ruinous effects.

SOLID TOOTH CIRCULAR SAWS

E. C. ATKINS & CO.'S

Silver Steel, Patent Ground and Tempered.

Left Hand.

Right Hand.

INSTRUCTIONS FOR ORDERING CIRCULAR SAWS

- 1st. Give diameter of saw in inches.
- 2nd. State if right of left hand.
- 3rd. Give gauge (thickness) of saw at center and also at rim.
- 4th. Give number of teeth in saw.
- 5th. Give style or pattern of tooth.
- 6th. Give diameter of mandrel hole, diameter of pin hole, and distance center to center of pin holes.
- 7th. Give number of revolutions of saw per minute while in cut.
- 8th. Give greatest feed in inches per revolution—kind of feed.
- 9th. Give kind of timber to be sawed.
- 10th. If spring or swage set.
- 11th. If for rip or cross cut work.
- 12th. Horse power available.

Note—Saws 40 inches and larger in diameter, have standard mandrel and pin holes, namely—2 inch mandrel holes and $\frac{1}{2}$ inch pin holes, 3 inches from center to center. If wanted different, please send full pattern of holes.

No Charge

All saws of odd diameter, not listed, take price of next larger size listed.

No extra charge for saws one gauge thicker than list.

No extra charge for saws one to three gauges thinner than list; when more than three gauges thinner, add 5 per cent to list for each gauge.

Circular Saws 48 inches and larger, thinner than 10 gauge are not warranted.

Circular Saws 42 inches or less in diameter beveled one gauge without extra charge; 44 inch or larger beveled two gauges without extra charge.

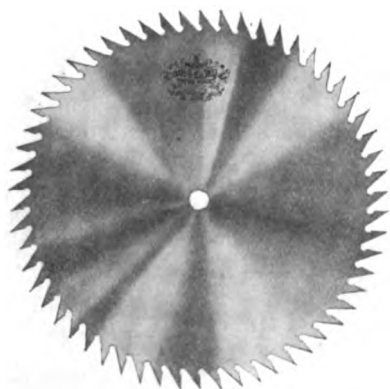

Circular Saws hollow ground or concaved, add for each gauge hollow ground or concaved double list for beveling.

CORD WOOD SAWS

RELIANCE

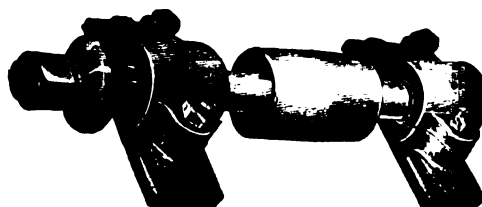

Gullet Tooth, Patent Ground and Tempered, Set and Sharpened Ready for Use.
Not Intended for Mill Work.

These Saws have a hard, tough temper, free from flaws, cracks or splits and the teeth will hold their edge without the corners crumbling.

Special Sizes Made to Order.

When ordering Saw Mandrels, send sketch and give distance from saw to end of mandrel, if the pulley is between the bearings. If the pulley is on the end of mandrel, give distance from saw to inside edge of pulley. Also state whether the pulley is on the right or left-hand side of mandrel when the saw is running toward you.

Note—Our Mandrels are made with pulley on right-hand side with left-hand thread unless otherwise ordered.

Per Dozen	\$ 1.20	1.30	1.50	1.70
Per Gross	14.00	15.00	16.00	18.00

These blades are made from a special formula of steel, possessing just those qualities which have been so long desired for this class of work.

The teeth are sharp and given just enough set to insure a free, smooth and rapid cut, removing no more stock than is necessary.

One Dozen in a Package; One-half Gross in a Box.

ATKINS NON-BREAKABLE

These Blades are made with the usual hard edge, but with a soft back that practically prevents breakage. They should not be confused with any so-called flexible blades.

No. 300— $\frac{7}{16}$ inch Wide, 23 Gauge Thick, 18 Teeth to the Inch, for Ordinary Work.

Length, Inches	8	9	10	12
Per Dozen	\$ 1.20	1.30	1.50	1.70
Per Gross	14.00	15.00	16.00	18.00

The edge is tempered so as to insure a cutting capacity equal to all hard blades.

One Dozen in a Package; One-half Gross in a Box.

SCROLL SAWS

NEW ROGERS

With Automatic Dust Blower.

Iron Frame, Japanned Red with Red and Gilt Stripes, Steel Arbors, Best Selected Ashwood Arms and Pitman.

Each

No. 18—35 inches High, Japanned Tilting Table, Iron Balance Wheel, Complete with 12 Saw Blades, 1 Wrench, 3 Sheets of Designs, 1 Awl, Impression Paper and 3 Drill Points.....\$7.00

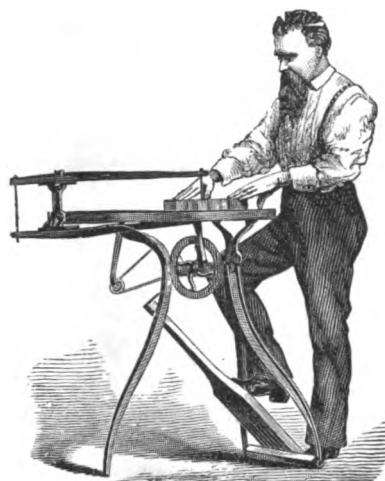

No. 28—With Nickel Plated Tilting Table and Emery Balance Wheel, Otherwise Same as No. 1..... 7.75

Bearings to the arms are carefully adjusted. A jointed stretcher rod permits free action of arms. Adjustable lever saw clamps with hinged jaw overcome a disagreeable raking overthrow of the saw blades and prevent breakage of blades.

Net Weight 28 Pounds; Boxed Weight 45 Pounds.

One in a Box, Knocked Down.

BARNES' IMPROVED

Each

No. 7—Cast Iron, Hard Maple Table and Arms, Balance Wheel Runs on Steel Arbor, 7 inch Blade, Swing Around the Blade Under Arm 24 inches, Complete with 1 Dozen Blades.....\$24.00

Designed for practical service in the work shops of carpenters and builders, cabinet makers and other wood workers. The ordinary rate of speed when sawing is from 800 to 1200 strokes per minute.

The saw leaves the work as smooth as it is possible for any saw to do, and can be taken out and replaced in an instant for inside work.

Weight Each Boxed 80 Pounds.

One in a Box.

STEARNS' FOLDING

No. 1—Without Saw, Graduated Plate, Hardened Steel Indexing Lever, Black Japanned Frame, Nickel Plated Parts \$3.25
Very compact. When folded flat it occupies a space of only 8 3/4 x 8 1/2 x 2 7/8 inches. The saw guide may be adjusted to accommodate any thickness of saw. Any ordinary saw may be used.

Weight Each 3 Pounds.
One in a Box.

PERFECTION

Perfection—Box Made of Inlaid Fancy Wood, Highly Finished, Japanned and Nickel Trimmings, Any Saw May be Used, Back, Panel or Hand.....\$4.00
The saw guide can be instantly set and rigidly held by the set screw at any angle wanted. To facilitate such adjustment with accuracy, notice the projecting gauge points for setting against a "T," or angle bevel.

By means of the sliding key (exactly adjusted between bearings) the saw guide can be set to the angles more commonly used, indicated on the dial by the letters M, P, H, O, W, R, W, O, H, P, M, viz.: R, right angle or square cut, M, mitre, or 45 degree. P, pentagon, or 36 degrees. H, hexagon, or 30 degrees. O, octagon, or 22 1/2 degrees. W, to match usual door and window sill pitch, 9 degrees.

Weight Each 3 Pounds.
One in a Box.

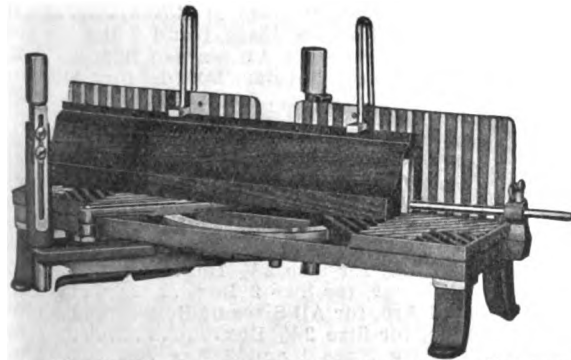

MARSH AYER.

Iron and Steel Construction, Dull White Nickel Finish.
Principal Features.

Heavy One-Piece Frame, Back and Plates, Solid Steel Saw Guides, Length Gauges for Pieces Up to 18 inches Long. Stock Gauges for Crown Moulding. Graduated Arc. Detents for Holding Saw Elevated. Lock for Fastening Lever at Any Point.

With Saw.

MITRE BOXES

IMPROVED LANGDON ACME

Extra long saw guides give stability when the saw is raised to its highest point.

A simple and effective device automatically catches the saw guides and holds them suspended when they are raised to their highest point and releases them instantly when desired.

Notches in bed plate determine the positive angles most in use.

By the use of a thumb lever at the front of the box the saw supports may be swung freely and locked at either a positive or an intermediate angle.

A graduated arc upon the bed and an index plate tell at what degrees to set the saw for certain desired cuts.

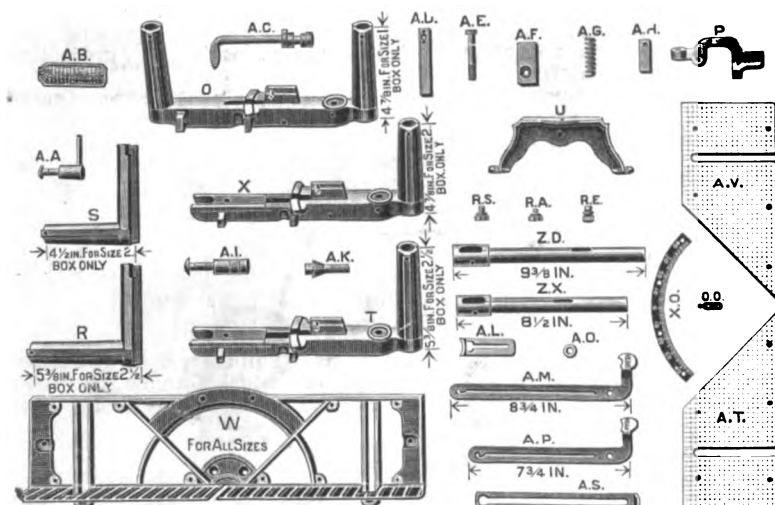

Steel bottom board, roughened to prevent slipping.

Iron and Steel Castings, Bronze Finished Main Castings, Nickel Plated Parts, with H. Disston & Sons Mitre Box Saw.

Weight Each, Lbs.	30	34	36
Each	\$18.00	19.50	20.50

These Boxes are compact, strong and durable and are quickly put together or taken apart for convenience in carrying.

The saw guide uprights are securely clamped in tapered sockets in the swivel arm and can be adjusted to hold the saw without play, and also to counteract a saw that runs out of true, due to improper setting or filing.

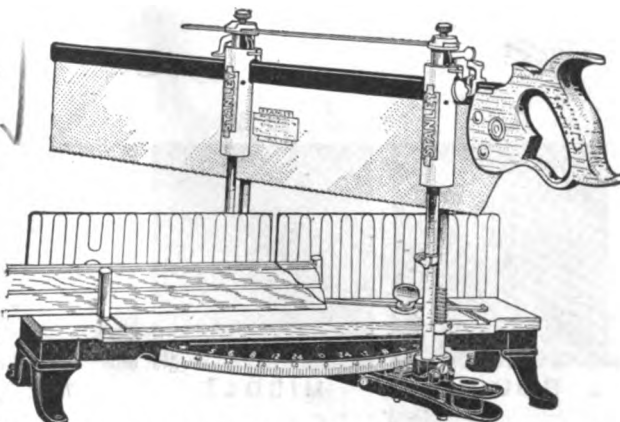

The uprights, front and back, are graduated in sixteenths of inches, and movable stops can be set by means of thumb screws to the depth of the cut desired.

Automatic catches on the uprights hold the saw up, which allows the use of both hands in placing the work.

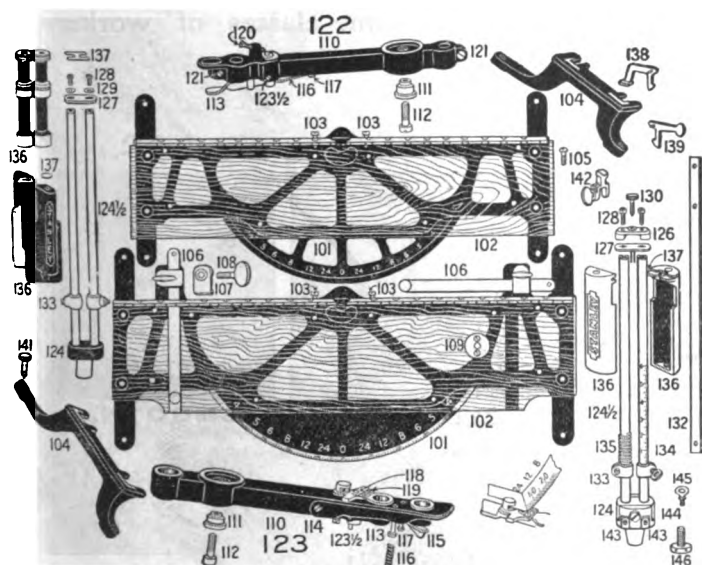

One in a Box.

Weight Each 20 Pounds.

One in a Box.

CHUTE BOARD AND PLANE

STANLEY'S

Special Iron Board, Ribbed Construction, Adjustable Runway, Accurately Machined for the Plane.

Each

No. 52—22 inches Long, 15 inch Plane with Rosewood Handle and Knob, 2 3/4 inch Tool Steel Cutter.....\$15.00

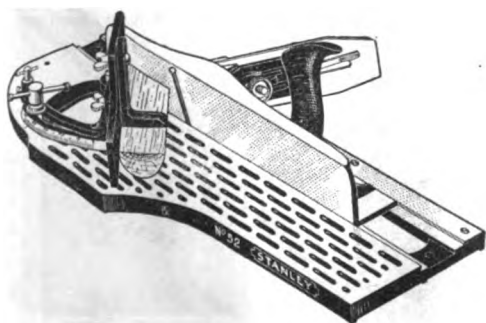

A very important tool for all wood workers.

The Swivel is indexed at forty-five and ninety degrees for planing a mitre or square, but can be securely locked by means of a clamping screw at any angle desired, between zero and ninety degrees, the quadrant being graduated between these points.

The Swivel is also fitted with a sliding back that can be adjusted close to the Plane, thus supporting the work to the edge and preventing it from splintering. It is further provided with a sliding Back Clamp, which is designed to hold any shaped work in position to be planed.

Weight Each 17 1/4 Pounds.

One in a Box.

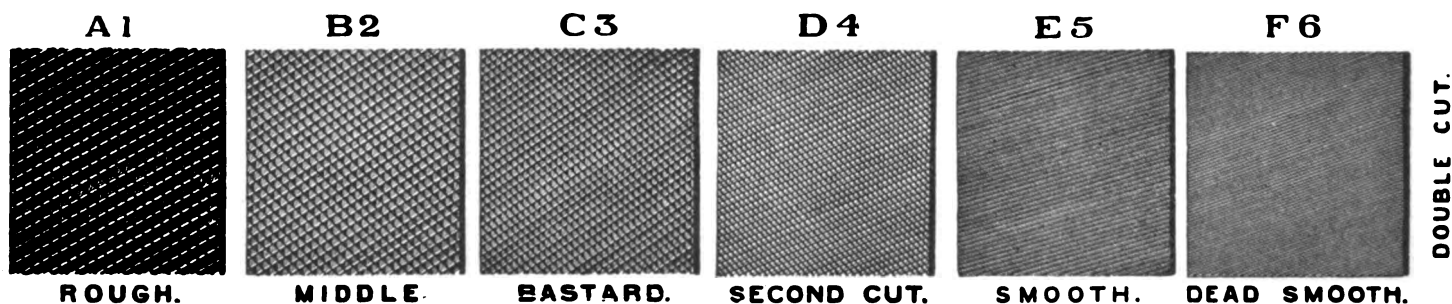

FILES

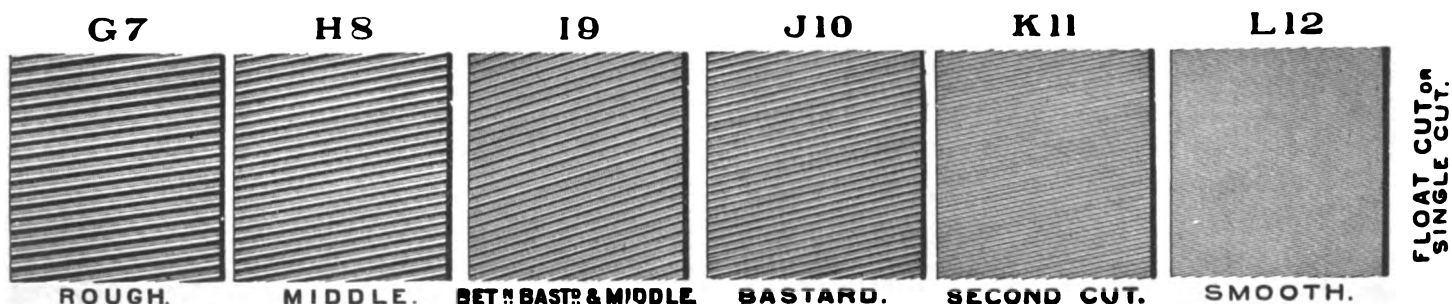

The following Cuts are engraved from Files 12 inches long; if longer than 12 inches the Cuts will be larger; if smaller, they will be less in proportion.

ILLUSTRATIONS OF CUTS OF FILES AND RASPS

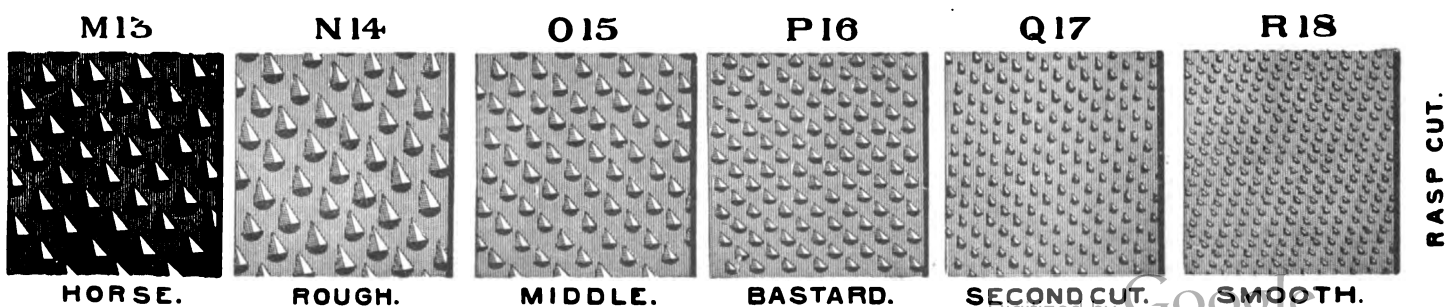

Cuts in this section are mostly used in Foundries, Locomotive Works, Machine Shops, Etc.

Cuts in this section are principally used in Saw Mills, Lumbering Camps, etc., but are also frequently called for by Machinists for Lathe-work finishing purposes, etc., and by some classes of workers in Wood, Carriage Smiths, etc.

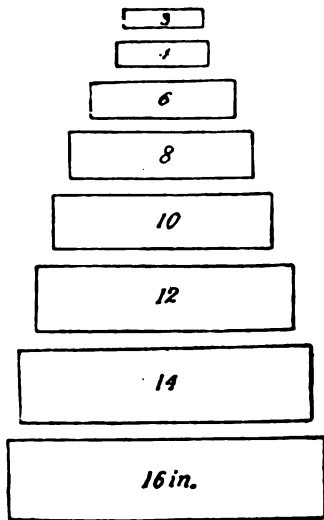

Cuts in this section are used by Blacksmiths, Cabinet-makers, Plumbers, Wood-workers, etc.

FILES

REGULAR TAPER, SINGLE CUT

Mostly Used on Hand and Buck Saws.

Length, Inches	3	3½	4	4½	5	5½	6	7	8	9	10
Weight Per Dozen, Lbs.	½	½	¾	1	1¼	1¾	2	3	4	5	7
Black Diamond	Per Dozen, \$2.10	2.10	2.20	2.40	2.60	3.00	3.40	4.30	5.40	6.60	8.10
Nicholson's	Per Dozen, 2.10	2.10	2.20	2.40	2.60	3.00	3.40	4.30	5.40	6.60	8.10
Badger	Per Dozen,	2.20	2.40	2.60	3.00
Milwaukee	Per Dozen,	2.20	2.40	2.60	3.00	3.40	4.30	5.40	6.60	8.10

One Dozen in a Box.

SLIM TAPER, SINGLE CUT

Supersedes the Regular Taper, the Principle Advantage Being the Greater Sweep or Stroke Obtainable from the Same Section.

Length, Inches	3	3½	4	4½	5	5½	6	7	8
Weight Per Dozen, Lbs.	¼	¼	½	½	½	¾	1¼	2	3½
Black Diamond	Per Dozen, \$2.10	2.10	2.20	2.30	2.50	2.90	3.10	3.80	4.50
Nicholson's	Per Dozen, 2.10	2.10	2.20	2.30	2.50	2.90	3.10	3.80	4.50
Badger	Per Dozen,	2.10	2.20	2.30	2.50	2.90	3.10	3.80
Milwaukee	Per Dozen, 2.10	2.10	2.20	2.30	2.50	2.90	3.10	3.80	4.50

One Dozen in a Box.

EXTRA SLIM TAPER, SINGLE CUT

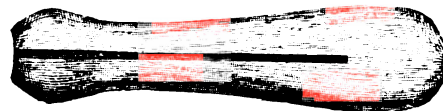

Narrow Cross Section is a Great Advantage on Fine Tooth Saws.

Length, Inches	4	4½	5	5½	6
Weight Per Dozen, Lbs.	¼	¾	½	½	¾
Black Diamond	Per Dozen, \$2.20	2.30	2.50	2.90	3.10
Nicholson's	Per Dozen, 2.20	2.30	2.50	2.90	3.10
Milwaukee	Per Dozen, 2.20	2.30	2.50	2.90	3.10

One Dozen in a Box.

DOUBLE ENDER TAPER, SINGLE CUT

Twelve Handles with Each Dozen Files.

Same as Slim Taper, with an Added Advantage of a Handle, which Can be Easily Attached, and of Having Two Files in One.

Length, Inches	7	8	9	10
Weight Per Dozen, Lbs.	1	1½	2	2¾
Black Diamond	Per Dozen, \$3.50	3.90	4.40	4.90
Nicholson's	Per Dozen, 3.50	3.90	4.40	4.90
Milwaukee	Per Dozen, 3.50	3.90	4.40	4.90

One Dozen in a Box.

WEED'S SPECIAL SLIM BLUNT

Made Especially for Filing Very Hard Tempered Saws, 1½ inch Handle with Brass Ferrule.

Length, Inches	5	5½	6
Weight Per Dozen, Lbs.	¾	1	1¼
Per Dozen	\$2.50	2.90	3.10

One Dozen Files and Four Handles in a Box.

PARALLEL MILL BASTARD

Same Width and Thickness from Point to Shank.

Length, Inches	6	7	8	10
Weight Per Dozen, Lbs.	1½	2	4	6
Black Diamond	Per Dozen, \$3.50	3.90	4.30	5.60
Disston's Imperial	Per Dozen, 3.50	3.90	4.30	5.60

One Dozen in a Box.

FILES

MILL BASTARD, SQUARE EDGE

Used Principally for Sharpening Mill Saws, Also Mowing Machine Knives and Plows; in Machine Shops for Lathe Work, Draw Filing, and, to Some Extent, Finishing the Several Compositions of Brass and Bronze.

Length, Inches	3	4	5	6	7	8	9	10	11	12	14	16
Weight Per Dozen, Lbs.	$\frac{1}{4}$	$\frac{1}{2}$	1	$1\frac{1}{2}$	2	4	$4\frac{1}{2}$	6	8	12	15	22
Black Diamond	Per Dozen, \$3.00	3.00	3.20	3.50	3.90	4.30	4.90	5.60	6.70	7.50	10.70	14.70
Nicholson's	Per Dozen, 3.00	3.00	3.20	3.50	3.90	4.30	4.90	5.60	6.70	7.50	10.70	14.70
Badger	Per Dozen,	3.50	4.30	5.60	7.50	10.70
Milwaukee	Per Dozen,	3.00	3.20	3.50	3.90	4.30	4.90	5.60	7.50	10.70

3 to 10 inch, One Dozen; 11 to 16 inch, One-half Dozen in a Box.

MILL BASTARD, WITH ONE ROUND EDGE

There is a Considerable Demand for this Style, the Round Edge Better Adapting it for Gumming Saws.

Length, Inches	6	8	10	12	14
Weight Per Dozen, Lbs.	$1\frac{1}{2}$	4	6	12	15
Black Diamond	Per Dozen, \$3.90	4.80	6.30	8.40	12.00
Nicholson's	Per Dozen, 3.90	4.80	6.30	8.40	12.00
Milwaukee	Per Dozen, 3.90	4.80	6.30	8.40	12.00

6 to 10 inch, One Dozen; 12 and 14 inch, One-half Dozen in a Box.

MILL BASTARD, WITH TWO ROUND EDGES.

There is a Limited Demand for Two Round Edges.

Length, Inches	8	10	12	14
Weight Per Dozen, Lbs.	4	6	12	15
Black Diamond	Per Dozen, \$5.40	7.00	9.40	13.40
Nicholson's	Per Dozen, 5.40	7.00	9.40	13.40
Milwaukee	Per Dozen, 5.40	7.00	9.40	13.40

8 and 10 inch, One Dozen; 12 and 14 inch, One-half Dozen in a Box.

MILL BASTARD, DOUBLE CUT

Length, Inches	10	12	14
Weight Per Dozen, Lbs.	6	12	15
Black Diamond	Per Dozen, \$6.70	9.40	13.10
Nicholson's	Per Dozen, 6.70	9.40	13.10
Milwaukee	Per Dozen, 6.70	9.40	13.10

10 inch, One Dozen; 12 and 14 inch, One-half Dozen in a Box.

FLAT BASTARD

One of the Most Common Files in Use, Not Confined to Any Specific Kind of Work, but Employed by Mechanics Generally, for a Great Variety of Purposes.

Length, Inches	4	5	6	7	8	9	10	12	14	16
Weight Per Dozen, Lbs.	$\frac{1}{2}$	$\frac{3}{4}$	1	3	4	6	7	13	19	27
Black Diamond	Per Dozen, \$3.70	3.90	4.30	4.80	5.30	6.30	7.00	9.70	13.30	17.80
Nicholson's	Per Dozen, 3.70	3.90	4.30	4.80	5.30	6.30	7.00	9.70	13.30	17.80
Badger	Per Dozen,	7.00	9.70	13.30	17.80
Milwaukee	Per Dozen,	4.00	5.30	7.00	9.70	13.30	17.80

4 to 9 inch, One Dozen; 10 to 16 inch, One-half Dozen in a Box.

FLAT SECOND CUT

Length, Inches	3	4	5	6	8	10	12	14
Weight Per Dozen, Lbs.	$\frac{1}{4}$	$\frac{1}{2}$	$\frac{3}{4}$	1	4	7	13	19
Black Diamond	Per Dozen, \$4.30	4.80	4.60	4.80	6.10	8.10	11.00	15.30
Nicholson's	Per Dozen, 4.30	4.80	4.60	4.80	6.10	8.10	11.00	15.30

3 to 8 inch, One Dozen; 10 to 14 inch, One-half Dozen in a Box.

FLAT SMOOTH

Length, Inches	3	4	5	6	8	10	12	14
Weight Per Dozen, Lbs.	$\frac{1}{4}$	$\frac{1}{2}$	$\frac{3}{4}$	1	4	7	13	19

CEMENT WORKERS' TOOLS

S. & H. DETACHABLE LONG HANDLE AND CLAMP

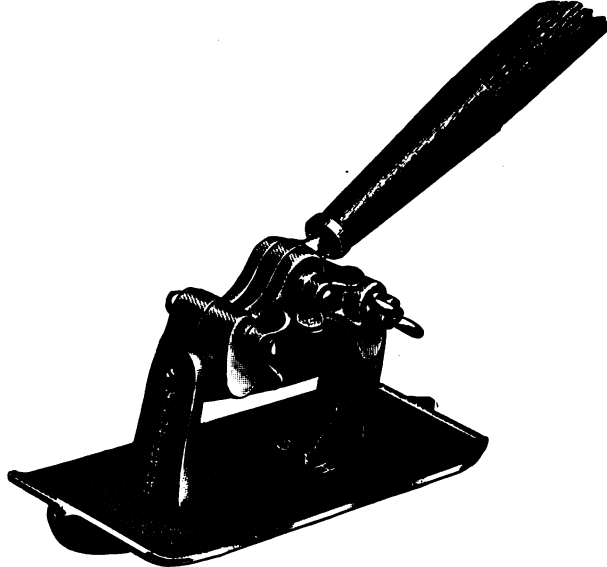

This Long Handle and Clamp fits all Cement Workers' Tools with the short handles described on preceding pages.

A long handle tool can be made in an instant's time by tightening the clamp on to the short handle, and you have a solid, rigid tool that works to perfection.

The Clamp is made from either hard bronze or malleable iron, supplied with 3 strong bolts and steel thumb nuts, and fitted with 6 foot hardwood handle.

Cut Showing Clamp and Part of Long Handle.

Cut Showing Jointer or Groover Attached to Clamp and 6 foot Hardwood Handle.

Use of Edger.

Working Trowels from an Angle.

Showing Advantage of Long Handle.

	Per Dozen
No. 1—Malleable Iron Clamp, 6 foot Hardwood Handle	\$24.00
No. 2—Hard Bronze Clamp, 6 foot Hardwood Handle	29.00

Average Weight Per Dozen 30 Pounds.

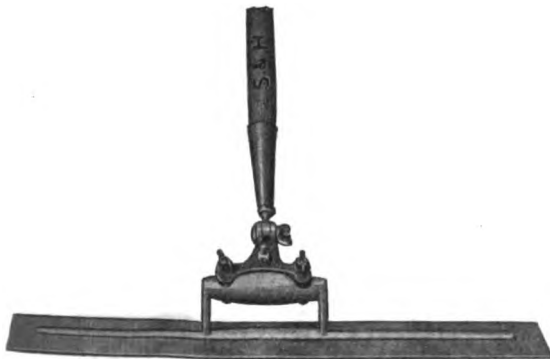

By having a long handle on each tool a great deal of room is taken up in the tool box, but by keeping all hand tools in a box and a few separate long handles, the tools are easy to move from one place to another and they do not take up much room.

LONG HANDLE TROWELS

This Trowel is made from the best tempered steel. Mountings and handle are cast in one piece from aluminum and riveted securely on to the blade. The handle on the trowel being hollow, makes the tool light, at the same time this tool is strong and will stand hard usage. The knuckle on the long handle makes it possible to work with the tool in any conceivable angle, either up or down or sidewise, a feature much appreciated by a workman.

Best Tempered Steel Blade, Complete with 6 foot Hardwood Handle and Adjustable Clamp.

	Each
No. 20T—20 inches Long, 5 inches Wide, Weight Each 3 ¾ Lbs...	\$5.00
No. 24T—24 inches Long, 5 inches Wide, Weight Each 4 ½ Lbs...	5.50

Cut Showing Long Handle Trowel.

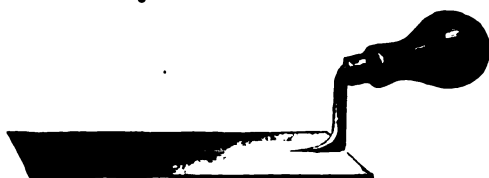

LONG HANDLE FLOATS

Aluminum Blade, Built and Mounted Like the Steel Trowels Described Above.

	Each
No. 20F—20 inches Long, 5 inches Wide, with 6 foot Hardwood Handle and Adjustable Clamp, Weight Each 4 ¼ Lbs...	\$6.60
No. 24F—24 inches Long, 5 inches Wide, with 6 foot Hardwood Handle and Adjustable Clamp, Weight Each 4 ½ Lbs...	7.00

The screw is turned from cold rolled steel and has a square lathe-cut thread.
One Assortment in a Case.

VISES

LUTHER

All Luther Vises are made just a little bit stronger than would seem absolutely necessary. The movable jaw slides on steel guides and is operated by steel screw, so that it is practically impossible for a Luther Vise to become sprung or out of alignment. The clamps are made wide and heavy, so as to clamp them rigidly to any bench. The vise is equipped with a steel handle, steel guide, steel feed screw and clamp screw, and inserted corrugated jaws.

Clamp Base, Corrugated Steel Jaws, Japanned Body.

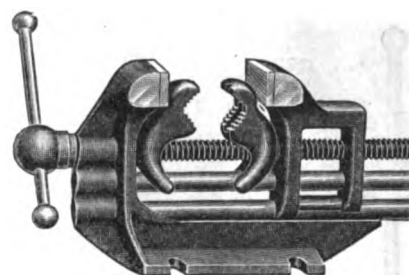

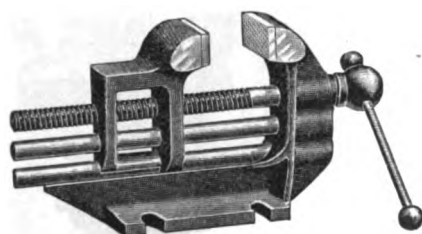

Nos.	V15	V17	V20	V22	V25	V30
Width of Jaws, Inches...	1 1/2	1 3/4	2	2 1/4	2 1/2	3
Jaws Open, Inches.....	2	2 1/4	2 1/2	2 3/4	3 1/4	4 1/4
Gross Weight Each, Lbs..	3 1/2	4 1/4	6	8	11	16
Each	\$1.25	1.50	2.00	2.30	3.10	4.10

No. V31—Same as No. V30 but with Additional Pipe Jaws\$4.60

Clamp Base, Iron Jaws, Japanned Body.

No. V60—Width of Jaws 1 1/2 inches, Jaws Open 1 1/4 inches, Gross Weight Each 1 1/2 Lbs.....\$0.35

A very good quality vise for automobile tool kit and other similar uses, where a small, practical vise is needed. Is equipped with steel guides, steel feed-screw and steel thumb screw. It is impossible for the jaws to become sprung or out of alignment.

Corrugated Steel Jaws, Japanned Body.

Nos.	V65	V70
Width of Jaws, Inches.....	2 1/2	3
Jaws Open, Inches.....	3 1/2	5
Gross Weight Each, Lbs.....	9	13 1/2
Each	\$2.40	3.10

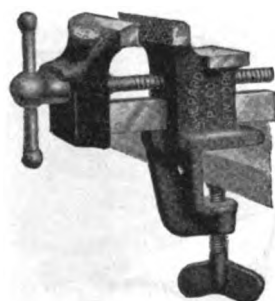

The movable jaws slide on steel guides, which absolutely prevent the vise from being sprung, or becoming out of alignment. The guides, feed-screw and handle are made of heavy steel, and the inserted jaws are corrugated so as to grip the work tightly.

Corrugated Steel Jaws, Additional Pipe Jaws, Japanned Body.

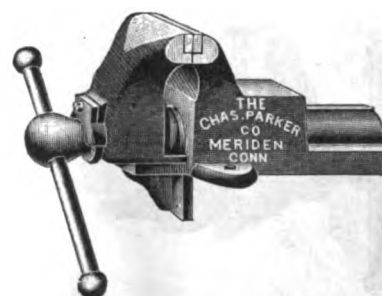

No.	V71
Width of Jaws, Inches.....	3
Jaws Open, Inches.....	5
Holds Pipe, Diameter, Inches.....	1/2 to 2
Gross Weight Each, Lbs.....	14
Each	\$3.60

Is just exactly the same as Luther Bench Vise No. V70, but has the additional equipment of Luther Pipe Jaws, which will firmly hold any pipe from 1/2 to 2 inches in diameter.

SHEPARD'S TABLE CLAMP

TAP WRENCHES

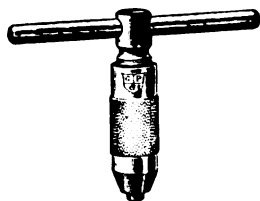

LIGHTNING ADJUSTABLE

Fine Tool Steel Jaws, Mottle Finished Drop Forged Steel Body, Polished and Knurled Handles.

Will Hold Both Hand and Pipe Taps. Adjustment is Obtained Through a Right and Left Hand Screw by Revolving One of the Handles.

Nos.	5	6	7
Length, Inches	11	15	19
Takes Hand Taps, Inches	$\frac{1}{8}$ to $\frac{1}{2}$	$\frac{1}{4}$ to $\frac{3}{4}$	$\frac{3}{8}$ to 1
Takes Machine Screw Taps, Inches	8 to 30	8 to 30	15 to 30
Takes Pipe Taps, Inches	$\frac{1}{8}$ to $\frac{1}{4}$	$\frac{1}{8}$ to $\frac{3}{8}$	$\frac{1}{8}$ to $\frac{3}{4}$
Weight Each, Lbs.	$\frac{3}{4}$	2	3 $\frac{1}{2}$
Each	\$3.00	\$3.80	5.25

No. 88.

GOODSELL-PRATT

Hardened and Tempered Steel Jaws, Knurled Extra Long Nut.

	Per Dozen
No. 88—Capacity $\frac{1}{2}$ inch, Weight Per Dozen 3 Lbs.	\$ 8.00
No. 89—Capacity $\frac{3}{8}$ inch, Weight Per Dozen 6 Lbs.	10.50

One-twelfth Dozen in a Box.

YANKEE RATCHET

Right and Left Hand and Rigid.

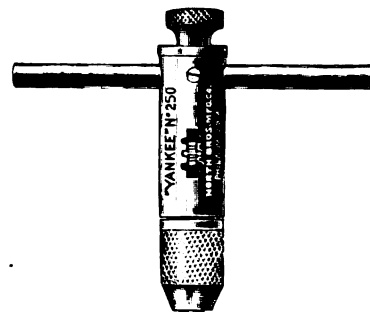

Tool Steel Ratchet and Pawls, Hardened and Tempered, Hardened Steel Jaws, Polished.

	Per Dozen
No. 250—Length Over All 3 $\frac{1}{4}$ inches, Outside Diameter of Chuck $\frac{1}{4}$ inch, Holds up to $\frac{1}{4}$ inch Taps, Weight Per Dozen 4 $\frac{1}{2}$ Lbs.	\$24.00
No. 251—Length Over All 5 inches, Outside Diameter of Chuck $\frac{3}{8}$ inch, Holds up to $\frac{1}{2}$ inch Taps, Weight Per Dozen 8 $\frac{1}{2}$ Lbs.	30.00

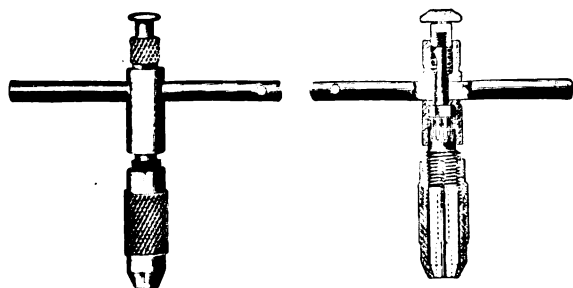

The distinguishing features are its adaptability, convenience and efficiency for working in close quarters, corners and inaccessible places.

With shifter at top, it is left hand; at bottom, right hand; and in center, an ordinary tap wrench.

One-twelfth Dozen in a Box.

No. 250.

ALERT RATCHET

	Each
No. 2—Length Over All 3 $\frac{3}{4}$ inches, Capacity $\frac{1}{8}$ to $\frac{1}{4}$ inch, Carefully Hardened and Tempered Parts, Polished, Blue Finished to Prevent Corrosion, Jaws Adjustable to Various Sizes of Taps	\$2.40

Can be used in corners. Allows quickly changing from a solid wrench to a right or left turning tool without the inconvenience of adjusting by pin or pawl. By simple geared arrangement a right or left turning movement may be obtained by merely pressing a swivel button with the thumb or palm of the hand.

One-twelfth Dozen in a Box.

OIL STONES

HARD ARKANSAS

No. 1 Quality, Carefully Selected High Grade Arkansas Rock.

2 inches Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	3A	4A	5A	6A	7A	8A
Length, Inches....	3 ½	4 ½	5 ½	6	7	8
Each	\$1.65	2.35	3.35	4.70	5.65	6.65

For all tools or instruments requiring long-lasting, keen cutting edges.

One in a Paper Box.

LILY WHITE WASHITA

2 inch Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	6L	7L	8L
Length, Inches	6 ½	7 ½	8
Each	\$0.80	.85	1.00

Uniform in texture, free from foreign substance and nicely finished. The most satisfactory natural grit oilstone for carpenters' and wood workers' tools.

One in a Paper Box.

WASHITA

Extra Washita—2 inches Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	6EW	7EW	8EW
Length, Inches	6 ½	7 ½	8
Each	\$0.65	.80	.95

No. 1 Washita—2 inches Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	6W	7W	8W
Length, Inches	6 ½	7 ½	8
Each	\$0.45	.55	.65

Extra Washita is a hard, slow cutting stone, imparting a fine lasting edge.

No. 1 Washita is a medium priced oilstone for general use.

One in a Carton.

QUEER CREEK

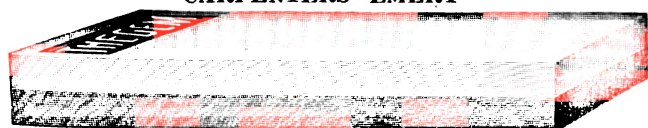

2 inches Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	5Q	6Q	7Q	8Q
Length, Inches	5	6	7	8
Each	\$0.20	.30	.35	.40

A hard, medium-coarse grain stone. Can be used with oil or water.

One in a Carton.

CARPENTERS' EMERY

Per Dozen

No. 703—7x2x1 inch, Pure Turkish Emery, One Coarse and One Fine Side, May be Used with Oil or Water...\$5.50
One-half Dozen in a Box.

TURKEY

Extra Quality, Very High Grade Asia Minor Rock.

Nos.	7T	8T
Length, Inches	7	8
Each	\$1.65	2.00

A very fine close grained stone for mechanics' tools.

One in a Carton.

ROSY RED WASHITA

2 inches Wide, $\frac{3}{4}$ to 1 inch Thick.

Nos.	6R	7R	8R
Length, Inches	6 ½	7 ½	8
Each	\$0.80	.85	1.00

Has an even, porous grit somewhat coarser than the Lily White, and therefore is faster cutting.

One in a Paper Box.

DEERLICK

Razor Edge Grit, Fast Cutting.

Per Pound

No. 21D—½ Lb. Size, 5 inches Long, 1 ¾ inches Wide, ¾ inch Thick	\$0.40
No. 1D—1 Lb. Size, 8 inches Long, 2 inches Wide, 1 inch Thick40

These Stones are of uniform, extra quality. Will give a fine, lasting edge.

HINDOSTAN

Per Pound

No. 1H—8 inches Long, 2 inches Wide, $\frac{3}{4}$ to 1 inch Thick	\$0.12
--	--------

Soft and fine gritted, extremely useful for general sharpening purposes. Best results are obtained by using water.

Open Stock.

INDIA

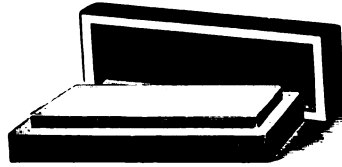

Medium Grit, Pure Alundum, Fast Cutting.

Nos.	2	20	1 ½	0
Size, Inches	6x1 ½ x ¾	6x2x1	7x2x1	8x2x1
Each	\$0.80	1.00	.85	1.00

India Oil Stones are a product of the electric furnace. They cut rapidly, last long, and are filled with oil by a patented process.

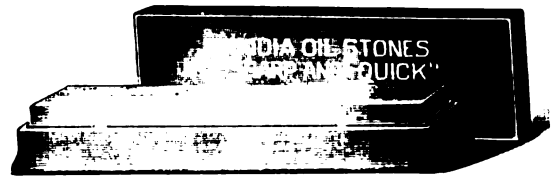

One in a Box.

MOUNTED OIL STONES

Mounted in a Nicely Finished Hardwood Box.

No. 7WM—No. 1 Washita, 7x2 inches	Each	\$1.00
No. 8WM—No. 1 Washita, 8x2 inches	Each	1.15
Per Dozen		
No. 7DM—Deerlick, 7x2 inches	Each	\$8.50
No. 1½M—India, 7x2x1 inches	Each	\$1.85

Mounted in a Japanned Iron Box, Felt Lined.

No. 29M—India, 6x2x1 inch	Each	\$1.50
No. 0M—India, 8x2x1 inch	Each	2.00

The stone rests on a piece of felt which absorbs surplus oil and keeps the stone moist. The box has four cork feet which prevent sliding on the bench.

OIL STONE SLIPS

HARD ARKANSAS

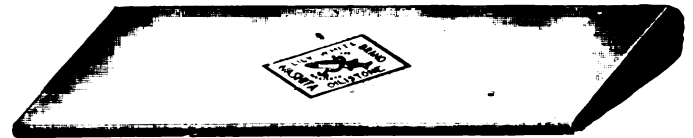

No. 1 Quality.

Nos.	3A	4A
Length, Inches	3	3
Width, Inches	1½ to 1¾	2
Back, Inches	¾	¾
Edge, Inches	¾	¾
Each	\$0.75	1.00

Hard Arkansas is composed of pure silica and its sharpening qualities are due to small sharp pointed grains, hexagonal in shape, which are much harder than steel and will, therefore, cut away and sharpen steel tools.

One in a Pasteboard Box.

WASHITA

Extra Washita.

Nos.	3EW	4EW	5EW
Length, Inches	2¾ to 3½	3¾ to 4½	4¾ to 5½
Width, Inches	1¾ to 2	1¾ to 2	1¾ to 2
Back, Inches	¾ to 1½	¾ to 1½	¾ to 1½
Edge, Inches	¾ to 1¼	¾ to 1¼	¾ to 1¼
Each	\$0.80	.85	.50

No. 1 Washita.

Dimensions Same as Above.

Nos.	3W	4W	5W
Each	\$0.20	.80	.35

Twelve in a Pasteboard Box.

OIL STONE SLIPS

INDIA

No. 14—4½ inches Long, 1¾ inches Wide, ¾ inch Back, ¾ inch Edge	Each	\$0.50
---	------	--------

India Oil Stones possess the characteristics of hardness, sharpness and toughness and in addition they also possess absolute uniformity. They cut rapidly, last longer and keep a better surface than any other artificial stone.

One in a Pasteboard Box.

AXE STONES

Nos.	Per Pound
No. 10H—Hindostan, 4x2x¾ to 1½ inches	\$0.12
No. 11H—Hindostan, 4x2x¾ to 1 inches	.12

No. 03T—Hard, 3 to 4½ inches Long, ¾ to 1 inch Face	Per Dozen	\$6.70
---	-----------	--------

PEN KNIFE PIECES

No. 05P—Hard, 3 to 4½ inches Long by ¾ to 1 by ¾ to 1 inch	Per Dozen	\$5.35
--	-----------	--------

CARBORUNDUM STONES

Carborundum is an artificial abrasive or grinding material, a product of the electric furnace. It is very much harder than any other known abrasive, which gives it great durability. It is made up of small sharp crystals that are just brittle enough to break slightly when in use. The sharp edges of the crystals cut clean and fast, while the brittleness, by constantly presenting fresh cutting edges, prevents glazing. The combination of these qualities gives to Carborundum its unquestioned title of being one of the best of all known abrasives.

SHARPENING STONES

CARBORUNDUM

Fine Grit.

Nos.	115	118	121	124	133	136
Length, Inches	8	8	6	6	7	5
Width, Inches	2	2	2	2	2	2
Thickness, Inches	1	$\frac{3}{4}$	1	$\frac{5}{8}$	1	$\frac{5}{8}$
Weight Each, Lbs.	1 $\frac{1}{2}$	$\frac{7}{8}$	$\frac{7}{8}$	$\frac{5}{8}$	1	$\frac{1}{2}$
Each	\$1.65	1.30	1.00	.85	1.30	.80

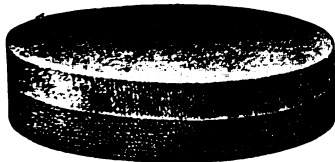

Medium Grit.

Nos.	116	119	122	125	134	137
Length, Inches	8	8	6	6	7	5
Width, Inches	2	2	2	2	2	2
Thickness, Inches	1	$\frac{3}{4}$	1	$\frac{5}{8}$	1	$\frac{5}{8}$
Weight Each, Lbs.	1 $\frac{1}{2}$	$\frac{7}{8}$	$\frac{7}{8}$	$\frac{5}{8}$	1	$\frac{1}{2}$
Each	\$1.65	1.30	1.00	.85	1.30	.80

Positively unequalled for rapid cutting qualities. Used dry or with water or oil. Are quite porous and may be tempered in their cutting by filling with wax or vaseline.

One in a Carton.

ROUND COMBINATION BENCH STONES

Each
No. 107—4 inches Diameter, 1 inch Thick, One Side Coarse Grit, Other Side Very Fine Grit without Box, Weight Each $\frac{5}{8}$ Lbs. \$1.65
No. 5—Extra Box, Quartered Oak, Wt. Each 1 $\frac{1}{4}$ Lbs. 1.00

The size and shape of this stone allows for the circular motion used by carpenters and mechanics in sharpening plane irons and chisels.

POCKET HONES

Per Box of 2 Dozen
No. 149 — 3 $\frac{1}{2}$ x $\frac{1}{2}$ inch, for Sharpening Pocket Knives and Small Tools, Put up in a Neat Buff Colored Carton, 2 Dozen Cartons Put up in a 10x12 inch Display Box with Easel Back, Weight Per Box 2 $\frac{1}{4}$ Lbs. \$4.80

COMBINATION STONES

With One Side Coarse Grit, Other Side Very Fine Grit.

Nos.	108	110	109
Length, Inches	8	7	6
Width, Inches	2	2	2
Thickness, Inches	1	1	1
Weight Each, Lbs.	1 $\frac{1}{2}$	$\frac{7}{8}$	$\frac{7}{8}$
Each	\$1.95	1.65	1.30

The coarse side can be used for sharpening dull tools; the fine side for giving required keen, lasting edge.

One in a Carton.

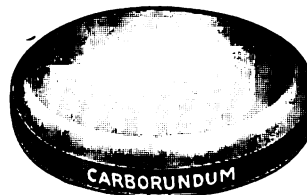

SLIP STONES

CARBORUNDUM DISPLAY CASES

The newest of the trade stimulating Carborundum Display Cases is the Four Drawer Case here illustrated. This Case is about 14 inches square and 7 inches high. It is made in the natural wood colors, is strong, durable and practical as a stock keeper and as a display medium is a most desired addition to any counter.

Four spacious drawers each fitted with a strong drawer pull, are built into the body of the Case. Each drawer is large enough to hold a good supply of the quick selling, hardest and sharpest Carborundum Stones.

A most artistic tone is given the Case by the lift-top cover, on the inside of which appears the Carborundum Indian Head Trade Mark, done in five glowing colors.

This Case is given Free to the dealer purchasing any of the Assortments of Carborundum Stones listed below.

One Assortment in a Box.

CARBORUNDUM GRAINS AND POWDERS

Carborundum Grains and Powders are Graded in the Following Sizes:

6, 8, 10, 12, 14, 16, 20, 24, 30, 36, 40, 50, 60, 70, 80, 90, 100, 120, 150, 180, 220, F, FF, FFF.

	Per Pound
In 1 Lb. Tin Cans.....	\$0.51
In 5 Lb. Tin Cans.....	.42

Carborundum is a wonderfully abrasive material, diamond-like in its hardness, wonderfully sharp, fast cutting and durable. It is a product of the electric furnace.

Carborundum Grains are produced by crushing and grinding the crude crystals, washing and separating by sieves into various sizes. These are numbered, the same as emery, in accordance with the number of threads per lineal inch of the sieve through which they have passed.

PIKE OIL

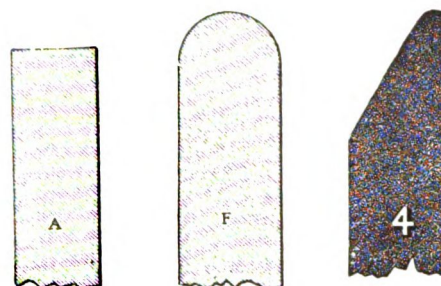

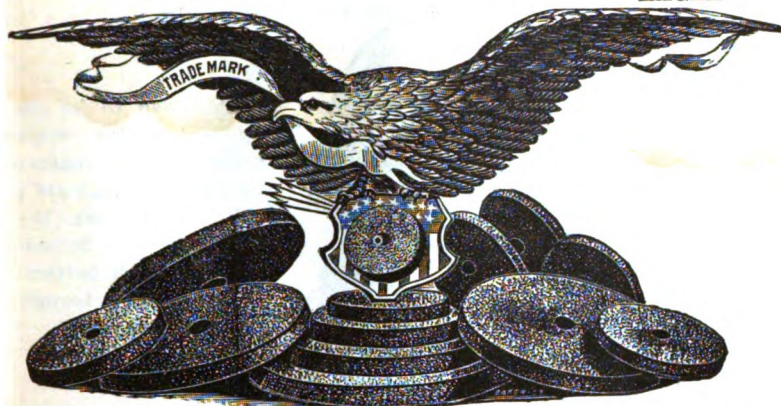

Pike Oil—In 2 Oz. Bottles.....**\$1.75**

A Perfect Oil for Oilstones, Razor Hones, Guns, Revolvers, Razors, Clippers, Razor Strops, Clocks, Typewriters, Locks, etc. Pike Oil is perfectly pure, acidless and non-drying. It will not gum, nor will it corrode the most highly polished metal. It is an oil that can be recommended with greatest safety for all purposes where a thin, pure oil is required as a lubricant or rust preventive. It is also used with a high degree of success for cleaning and polishing all kinds of wood and metal surfaces.

A Neat Wooden Display Stand Furnished with Each Dozen Bottles.

EMERY WHEELS

EAGLE

Square Face. Round Face. Beveled Face.

Manufactured from a Superior Combination of Emery and Corundum.

A high grade wood frame power grindstone. Frame shipped knocked down, stone crated.

Weight Each Complete 175 Pounds.

MOUNTED GRINDSTONES

STERLING, BALL BEARING

Heavy Steel Tubing Frame, Malleable Iron Castings, Enameled a Rich Vermillion.

Each

- No. T100—19 to 22 inches Diameter Genuine Berea or Lake Huron Stone, 1 3/4 to 2 1/4 inches Thick, Weight 50 to 60 Lbs., with Large Comfortable Steel Seat, Clothes Protector and Drip Can, Weight Complete in Crate 100 Lbs. \$8.40
- No. T18—Bushed Stones Only 3.20
- No. T1F—Frames Only with Fixtures 4.50

The most substantial and lightest running grindstone made. Constructed of 1 1/2 and 1 3/4 inch diameter heavy steel tubing, braced securely with heavy material. All rods and bolts are threaded, has no cotter pins and loose parts. Is fitted with encased ball bearings on crank and shaft, consisting of a heavy steel ball casing and a cone or sleeve, turned out of solid cold rolled steel shafting. Balls cannot work loose or drop out. Shipped knocked down in a strong crate. The frame folds intact, the shaft and bearings remain in the frame.

One in a Crate, Knocked Down.

BI-TREADLE

Steel Frame, Braced and Riveted, Coated with Black Waterproof Paint.

Each

- No. B110U—Regular Bearing, 19 to 22 inches Diameter, Genuine Berea or Lake Huron Stone, 1 3/4 to 2 1/4 inches Thick, Weight 50 to 60 Lbs., with Steel Seat, Clothes Protector and Drip Can, Weight Each Complete in Crate 100 Lbs. \$6.90
- No. B110—Ball Bearing, Otherwise Same as No. B110U 7.40

The frame is firmly riveted together and braced in a manner to insure absolute rigidity.

One in a Crate, Knocked Down.

The power applied with the legs by means of duplex treadsles, is nearly double that obtained with a crank, enabling the operator to run the stone at much higher speed and perform much better work.

115, BALL BEARING

Angle Steel Frame, Painted Black, Detachable Malleable Iron Fixtures, Ball Bearing Journals and Pitman.

Each

- No. 115—18 to 20 inches Diameter Selected Stone, 1 3/4 to 2 inches Thick, Average Weight 50 Lbs., with Steel Seat, Clothes Protector and Drip Can, Weight Each Complete in Crate 90 Lbs. \$5.80

One in a Crate, Knocked Down.

No. 115.

LOOSE GRINDSTONES

LAKE HURON

Per Ton

- Under 40 Lbs. \$48.00
- 40 to 200 Lbs. 46.00
- Over 200 Lbs. 54.00

TOOL GRINDERS

DIMO-GRIT

MECHANIC'S SPECIAL TYPE

MECHANIC'S SPECIAL TYPE

No. 14.

No. 15.

No. 16.

Black Enameled Dust Proof and One Piece Gear Case, Cut Steel Gears, Light "Dimo-Grit" Grinding Wheel, Medium Grit. Each

No. 14—4x1 inch Grinding Wheel, with Combination Adjustable Tool Rest and Scissor Guide, Weight Each Boxed 6 ½ Lbs. \$3.70

No. 15—5x1 inch Grinding Wheel, with Combination Adjustable Tool Rest and Scissor Guide, Weight Each Boxed 9 Lbs. 5.00

No. 16—6x1 inch Grinding Wheel, with Combination Adjustable Tool Rest and Chisel Guide, Weight Each Boxed 14 Lbs. 7.30

These Grinders are built to stand wear and hard usage. One in a Box.

BEST MAIDE
Ball Bearing.

Cuts Showing Horizontal and Upright Positions of Nos. 51 and 53 Grinders.

Black Enameled Gear Case, Cut Steel Worm Gear, Oil Bath, Tilting Frame, Extra Large Bearings, Dark "Dimo-Grit" Grinding Wheel with Medium Grit Body and Extra Fine Face. Each

No. 51—5x1 ½ inch Double Grit Grinding Wheel, with Combination Adjustable Tool Rest and Chisel Guide, without Extra Attachments, Weight Each Boxed 12 Lbs. \$7.00

No. 53—Same as No. 51, but Equipped with Patented Chisel and Plane Bit Guide, and No. 523A Twist Drill Sharpening Attachment as Illustrated Above, Weight Each Boxed 13 ½ Lbs. 7.50

These Machines can be tilted so that the grinding wheel will run at any angle and in any plane.

One in a Box.

BEST MAIDE

Ball Bearing.

Black Enameled Gear Case.
Cut Steel Worm Gear.
Oil Bath.
Tilting Frame.
Improved Swiveling Device.

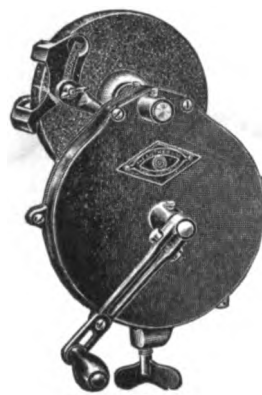

Dark "Dimo-Grit" Grinding Wheel with Medium Grit Body and Extra Fine Face.

Upright Position. Horizontal Position. Each
No. 51—4x1 ½ inch Double Grit Grinding Wheel, with Adjustable Tool Rest, Weight Each Boxed 9 Lbs. \$5.70
The improved swiveling device allows the grinder to be swiveled to any angle.

One in a Box.

Note—For Foot Power Attachment See Page 240.

No. 17.

Patent Chisel and Plane Bit Guide.

Black Enameled Dust Proof and One Piece Gear Case, Nickel Plated Trimmings, Spiral Cut Gears, Light "Dimo-Grit" Grinding Wheel, Medium Grit. Each

No. 17—7x1 ¼ inch Grinding Wheel, Combination Adjustable Tool Rest and Chisel Guide, Complete with Twist Drill Sharpening Attachment and Chisel and Plane Bit Guide, Weight Each Boxed 24 ½ Lbs. \$9.90

No. 523A Twist Drill Sharpening Attachment.

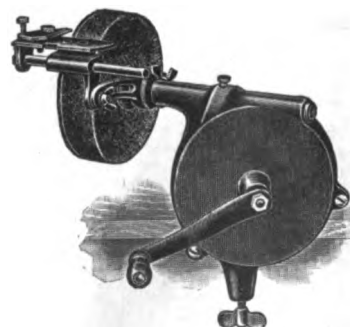

Patented Chisel and Plane Bit Guide.

BEST MAIDE

Ball Bearing.

Black Enameled Gear Case.
Cut Steel Worm Gear.
Oil Bath.
Tilting Frame.
Extra Large Bearings.
Perfect Swivel Device.
Dark "Dimo-Grit" Grinding Wheel with Medium Grit Body and Fine Grit Side for Finishing.

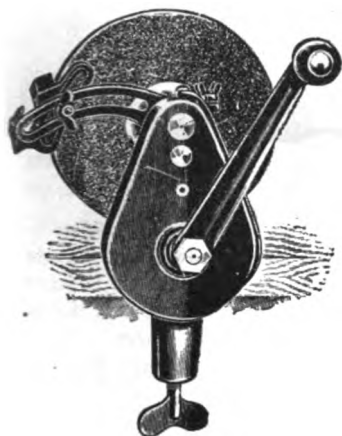

No. 56—6x1 ½ inch Double Grit Grinding Wheel, with Chisel and Plane Bit Guide, Weight Each Boxed 18 Lbs. \$9.50

Similar in construction to No. 51, excepting that the grinding wheel shaft does not run parallel with the main gear wheel, but is set off at an angle of about 30 degrees so that any tool, no matter of what shape, can be sharpened without danger of it coming in contact with the handle.

One in a Box.

TOOL GRINDERS

DIMO-GRIT MULTIGEAR
HIGH SPEED

Every turn of the driving handle on this machine causes 30 revolutions of the grinding wheel, giving a speed as great as a power driven machine.

Its mechanism consists of three gears and three pinions, all cut from solid steel blanks and having long bearings at both ends of the arbors.

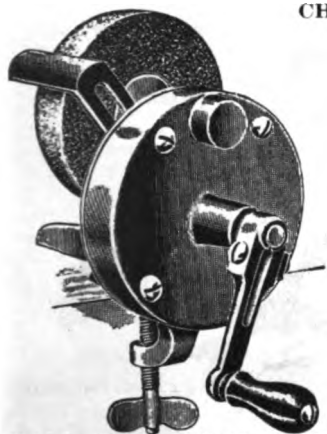

The entire frame is in one piece.

Black Enameled One-Piece Frame, Enclosed Dustproof Bearings. Each

No. 104—4x1 inch Light "Dimo-Grit" Grinding Wheel, Medium Grit, Complete with Adjustable Tool Rest, which Can be Used for Either Right or Left Hand Sharpening, Will Give an Accurate Bevel to Chisels and Plane Bits, Has a Special Scissors Guide, Weight Each Boxed 7 Lbs. \$7.00
Note—For Foot Power Attachment, See Page 240.
One in a Box.

TOOL GRINDERS

CHALLENGE

The frame is made in two separate halves, with one bearing in each half.

Easy running cut gears, fully enclosed and dust proof.

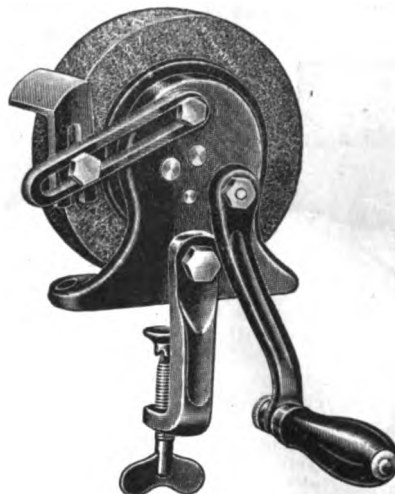

Will be found very satisfactory, and, with careful use, will give long service.

Black Enameled Gear Case, Adjustable Tool Rest, Dark "Dimo-Grit" Grinding Wheel.

Nos.	4C	95C	96C
Wheels, Inches	4x1	5x1	6x1
Weight Each Boxed, Lbs.	5 1/4	6	12
Each	\$2.60	3.50	5.50

One in a Box.

DIMO-GRIT COMPACTO

Quickly Taken Apart for Packing.

Compactness and high efficiency are the special features of this Grinder. The gears and driving mechanism are contained within the wheel, so that it can be packed into a box scarcely larger than the grinding wheel itself. This is just the machine that carpenters and plumbers have long needed for their tool chests.

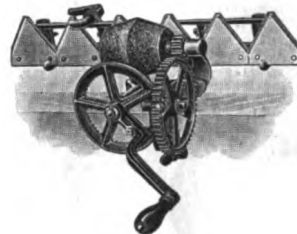

A series of three gears and three pinions, cut from solid steel blanks, gives a high speed to the grinding wheel.

Black Enameled Frame, Enclosed and Dustproof Gearing. Each

No. 35—5 1/2 x 1 3/8 inch "Dimo-Grit" Grinding Wheel, Medium Grit, Complete with Adjustable Rest, Put Up in a Neat Box Scarcely Larger than the Grinding Wheel Itself, Weight Each Boxed 9 Lbs. \$7.90
One in a Box.

SICKLE GRINDERS

LUTHER

No. 82C—Carborundum Sickle Grinding Wheel, Complete with Sickle-Holding Attachment, Weight Each Boxed 16 Lbs. \$4.00

The driving mechanism consists of a bevel gear and two spur gears, which give a simple transmission of power. The bearings are long, large in diameter and insure durability and ease of running. A long handle affords a big leverage.

The sickle holding attachment will take a mower or binder knife of any make.

The sickle grinding wheel will give to any sickle the same bevel the sections had when new.

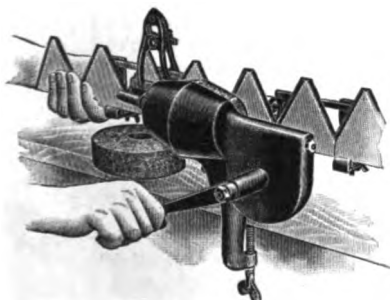

One in a Box.

TOOL AND SICKLE GRINDERS

BEST MAIDE

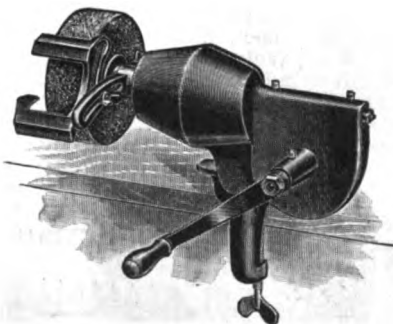

Ball Bearing.

These Grinders can be tilted so that the tool grinding wheel will run at any angle and in any plane. This means that either side of the grinding wheel can be utilized in sharpening. The body of the wheel is medium grit for general sharpening and for quickly grinding down a tool. The finishing is done on the side face of the wheel, which is of very fine grit.

As a Sickle Grinder.

Black Enameled Gear Case, Worm Shaft, Cut Steel Gears, Large Wearing Surface, Enclosed and Dust Proof Parts, Universal Swiveling Device.

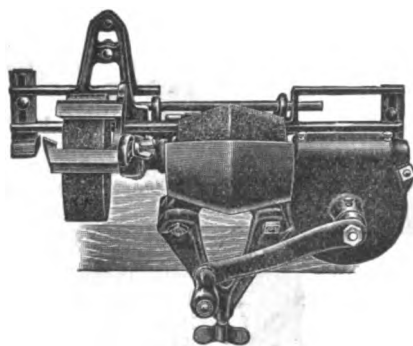

As a Tool Grinder.

No. 255—5x1 1/4 inch Double Faced Dark "Dimo-Grit" Tool Grinding Wheel with Medium Body and Extra Fine Face, Dark "Dimo-Grit" Sickle Sharpening Wheel, Sickle Holder and Special Adjustable Tool and Chisel Guide, Weight Each Boxed 18 Lbs. \$8.50

Note—For Foot Power Attachment, See Page 240.
One in a Box.

TOOL AND SICKLE GRINDERS

BEST MAIDE

A very practical tool and sickle grinder that can be used the whole year around.

The sickle holder is adjustable to hold firmly any make of bar.

Two half sections may be ground at the same time or one, just as the operator chooses.

The grinding is at all times under full control of the operator, and it takes only one person to use the machine successfully.

Can be clamped to any mower wheel or bench.

During the moving season the tool wheel is removed.

Black Enameled Gear Case, Worm Shaft, Automatically Cut Steel Gears, Large Wearing Surface, Enclosed and Dustproof Parts.

No. 264—4 1/4 x 1 3/8 inch Medium Grit Light "Dimo-Grit" Tool Wheel, Light "Dimo-Grit" Sickle Sharpening Wheel, Combination Adjustable Tool Rest and Sickle Holder, Weight Each Boxed 16 1/2 Lbs. \$7.50
One in a Box.

FOOT POWER ATTACHMENTS

FOR HAND GRINDERS

Black Baked Enamel.

Each

No. 128—Fits Nos. 15, 16, 04, 56
and 255 Grinders. \$2.00

No. 128 1/2—Fits No. 35 Grinder. 2.00

No. 129 —Fits No. 17 Grinder. 2.00

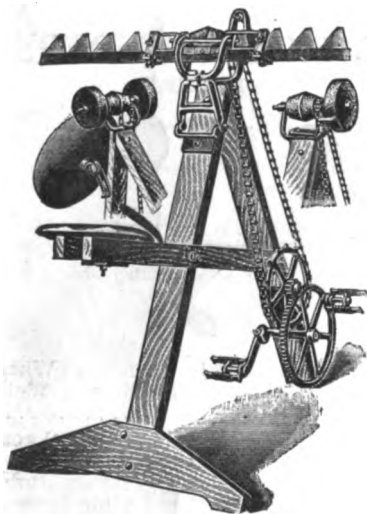

With one of these foot power attachments it enables you to have both hands free for sharpening and much better work can be done on nearly all tools when both hands can be used. They screw to the floor while the grinder remains on the bench.

Above illustration shows Foot Power Attachment attached to Grinder.

TOOL AND SICKLE GRINDERS

DIMO-GRIT FARM SPECIAL

Heavy Selected Maple Frame, Strongly Braced, Heavy Gears, Adjustable Steel Seat.

Each

No. 63—Complete with One Each 5x1 3/8 inch Medium and Coarse Grit Light "Dimo-Grit" Tool Grinding Wheels, One 3 1/2 x 3 1/2 inch Light "Dimo-Grit" Double Beveled Sickle Grinding Wheel, One Polishing Wheel, Sickle Holder, Disc Holder and Tool Rest, Weight Each Boxed 51 Lbs. \$13.00

All Grinding wheels run on the same shaft, which will carry three at one time, allowing any tool to be sharpened on the wheel best adapted to it without having to remove the others, sickles excepted. This disc holder will take easily any disc between 14 and 28 inches in diameter.

EXTRA ATTACHMENTS FOR HUMMER TOOL GRINDER

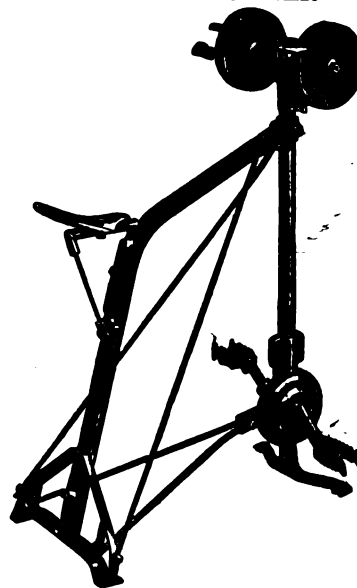

SICKLE SHARPENING ATTACHMENT

Each

No. 16A—Convenient Rest on which to Hold a Sickle while Grinding, One End is Held in the Rest and the End which You Wish to Grind is Held on One of the Regular Tool Rests, the Grinding is Done on the Side Face of Either of the Wheels, the Rest is Adjustable to Any Angle and Can be Used on Either Side, Weight Each 2 Lbs. \$0.60

DIMO-GRIT HUMMER

Channel Iron Frame, Steel Tubing Standard, All Metal Parts, Adjustable Seat.

Steel Shaft Drive, Enclosed Dustproof Bearings, Bevel Gears, Head can be Swiveled to Any Angle.

Each

No. 271—Complete with One Each 6x1 3/8 inch Medium and Coarse Grit Light "Dimo-Grit" Tool Grinding Wheels, Universally Adjustable Tool Rest and Chisel and Plane Bit Guide, Weight Each Boxed 62 Lbs. \$20.00

Both grinding wheels run on the same shaft, allowing any tool to be sharpened on the wheel best adapted to it without having to remove the other.

SICKLE AND DISC SHARPENING ATTACHMENT

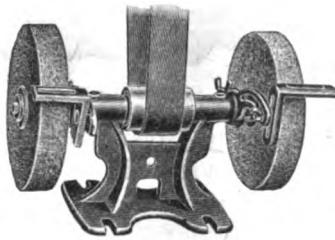

Each

No. 17A—Consists of the Sickle Attachment No. 16A and a Disc Attachment which will Hold Any Disc from 14 up to 28 inches in Diameter, Any Bevel can be Given to the Disc and the Work can be Done Automatically or at the Will of the Operator, Boxed 6 Lbs. \$1.20

POWER BENCH GRINDERS

DIMO-GRIT

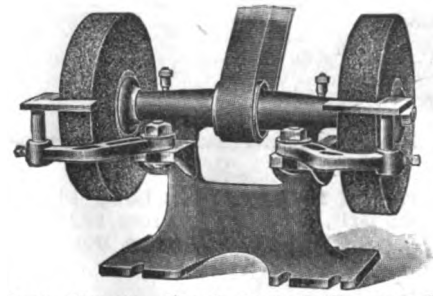

Iron Frame, Black Baked Enameled.

Each

No. 306—Complete with One Each 6x1 inch Medium and Fine Grit Light "Dimo-Grit" Grinding Wheels, Two Adjustable Tool Rests and One Pulley, Weight Each Boxed 14 Lbs. \$8.00

One in a Box.

Iron Frame, Black Baked Enameled.

Each

No. 309—Complete with One Each 7x1 1/4 inch Medium and Coarse Grit Light "Dimo-Grit" Grinding Wheels, Spring Oil Cups, Two Adjustable Tool Rests and One Pulley, Weight Each Boxed 32 Lbs. \$13.50

One in a Box.

Iron Frame, Black Baked Enameled.

Long, Wide, Steel-On-Gray-Iron Bearings, Dust Protected and Adjustable for Taking Up Wear, Spring Oil Cups, Overhanging Flanges.

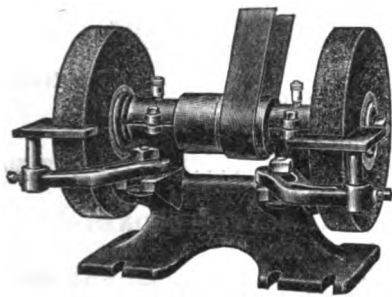

Each

No. 310—Complete with One Each 7x1 1/4 inch Medium and Coarse Grit Light "Dimo-Grit" Grinding Wheels, Two Universally Adjustable Tool Rests and Two 2 1/2 x 2 1/2 inch Pulleys, Weight Each Boxed 34 Lbs. \$15.00

This strong, heavy power grinder is constructed according to the best mechanical principles.

It can be bolted to any bench and its heavy design makes it the ideal grinder for use with power of any sort.

An idler pulley allows the belt to continue running, even though the grinder itself is not being used.

No. 310.

The power can come from beneath, from the side, or from above with equal efficiency.

The tool rests are adjustable in and out or up and down, giving great assistance in sharpening any tool.

The pulleys should make about 2,000 revolutions per m'nute.

One in a Box.

Iron Frame, Black Baked Enameled.

No. 305C—Complete with 5x1 3/4 inch Dark "Dimo-Grit" Grinding Wheel and Adjustable Tool Rest, Weight Each Boxed 13 Lbs. \$4.90

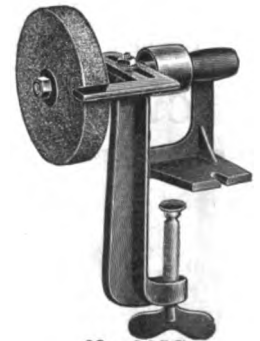

Each

The feature of this power grinder is that it is furnished with an extra large heavy clamp, so that it is easily moved from place to place.

It is especially desirable for use with an ensilage cutter, for the grinder can be attached to any convenient cross piece of the machine or even to the drive wheel of a threshing machine engine and the same power sharpens the knives that is used to drive the machine.

It is also highly desirable wherever there is any light tool grinding to be done on any sort of power available.

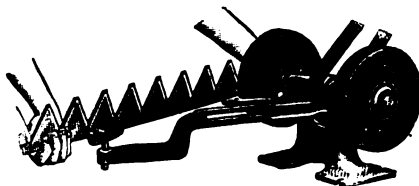

One in a Box.

No. 305C.

EXTRA ATTACHMENTS FOR Nos. 309 and 310 POWER BENCH GRINDERS

SICKLE ATTACHMENT

Cut Showing Sickle Attachment Attached to Grinder.

No. 945A—For Nos. 309 and 310 Power Bench Grinders, Weight Each Boxed 4 Lbs. \$1.10

Each

One end of sickle rests on the attachment and the other on the tool rest support used on either side of the grinder and on either side of wheel.

Will hold any size or kind of binder or mower knife.

COMBINED SICKLE AND DISC SHARPENING ATTACHMENT

No. 925AC—Consists of Sickle Attachment No. 945A and a Holder for Sharpening Any Size of Plow Coulter or Disc, the Disc can be Held Rigidly in Any Position Desired, the Work is Under Full Control of the Operator and the Attachment is Especially Good where You Desire to Grind Nicks Out of Large Discs, Weight Each Boxed 6 Lbs. \$2.50

Each

SCYTHE STONES

WESTERN RED END

- Per Gross
No. 2—Western Red End, 10 inches Long, Flat Beveled
Edge, Sharp Grit, Weight Per Gross 102 Lbs.\$7.50
One-quarter Gross in a Box.

STAR

- Per Gross
No. 8—Star, Round Oval, 10 inches Long, Huron Grit,
Weight Per Gross 115 Lbs.\$10.50
One-quarter Gross in a Box.

INDIAN POND

- Per Gross
No. 1—Indian Pond, Round Oval, 10 inches Long,
Hard, Very Sharp Grit, Weight Per Gross 108 Lbs.\$10.50
One-quarter Gross in a Box.

LAMOILLE

- Per Gross
No. 8—Genuine Lamolille, Round Oval, 10 inches Long,
Extra Quality Vermont Grit, a Sharp Gritted Stone
Giving a Fine Edge, Weight Per Gross 124 Lbs.\$14.00
One-quarter Gross in a Box.

SCYTHE STONE ASSORTMENTS

- Per Assortment
No. A Assortment—Consists of
80 Assorted Scythe Stones
of Assorted Grits, Coarse,
Fast and Fine Cutting,
Put up in a 12 1/4 x 11 1/2 x
10 1/2 inch Nicely Finished
Wood Display Case,
Weight Per Case 73 Lbs.\$10.00

9 Crescent Scythe Stones.....	.10

BLACK DIAMOND

- Per Gross
No. 7—Black Diamond, Flat Octagon, 10 inches Long,
Vermont Grit, Very Sharp and Fast Cutting,
Weight Per Gross 115 Lbs.\$16.00
One-quarter Gross in a Box.

VIENNA

- Per Dozen
No. 9—Imported Vienna Emery, Cigar Shaped, 9 1/2
inches Long, for Scythe or Hone Use, Weight Per
Gross 210 Lbs.\$1.30
One Dozen in a Box.

QUICK CUT

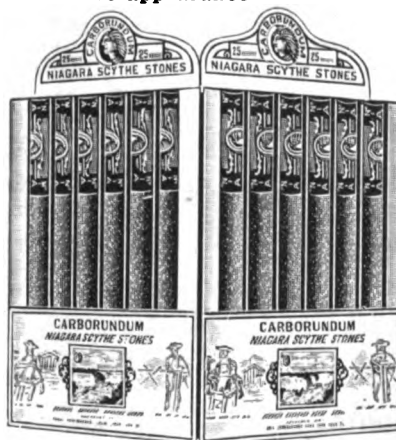

- Per Gross
No. 10—Quick Cut, 10 inches Long, Oval Shape, Emery,
Terra Cotta Color, Fast Cutting Grit, with Steel
Rod Running Through Center to Prevent Breaking,
Weight Per Gross 96 Lbs.\$12.50
One-quarter Gross in a Box.

CARBORUNDUM NIAGARA SCYTHE STONES

In Display Carton.

Display Carton is made of cardboard, reinforced with wood
and covered with a buff paper. It is hinged at the center, and
when folded back for display is rigid and makes an exceedingly
attractive appearance.

- Per Carton of 1 Dozen
No. 100—10 inch Car-
borundum Niagara
Scythe Stones, 1
Dozen in Display
Carton\$2.40
No. 191—12 inch Car-
borundum Niagara
Scythe Stones, 1
Dozen in Display
Carton\$3.00

HAND OF LOCKS

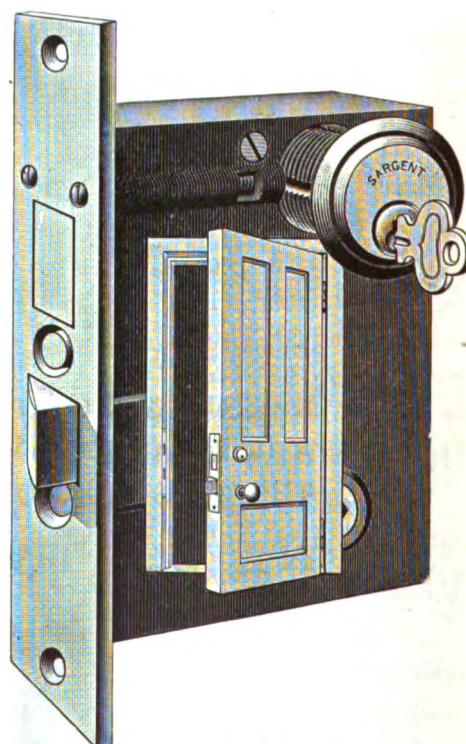

Left Hand Lock on a Left Hand Door.

Right Hand Lock on a Right Hand Door.

Left Hand Reverse Bevel Lock.
On a Door Opening Out—For Front and Corridor Doors.

Right Hand Reverse Bevel Lock.
On a Door Opening Out—For Front and Corridor Doors.

When **Reversible** Locks are not used, always specify the hand of the Lock wanted—not the hand of the Door; Beveled Front Locks and Rabbeted Locks are never Reversible.

DESCRIPTION OF FINISHES

ON IRON AND STEEL GOODS MADE BY SARGENT & CO.

The standard finish ornamental iron and steel is **Berlin Bronzed** and is listed without prefixed letter; other finishes are designated by prefixed letters as below:

Prefix Letter.

- T**—Tuscan Bronzed, Surface Unpolished (T Finish).
- K**—Tokio Bronzed, Bronze Plated, Polished Raised Surface, Black Background (Termed as Bronze Plated, K Finish).
(Sometimes called No. 3 Finish). By some manufacturers called Geneva.
- YT**—Bronze Plated, Bright Finish, Unpolished (YT Finish).
- DA**—Antique Copper, Finish, Unpolished (DA Finish).
- AB**—Antique Copper, Highly Polished (AB Finish).
- DR**—Antique Copper, Sand Finish, Unpolished (Sanded, DR Finish).
- RB**—Antique Copper, Sand Finish, Mottled (Sanded, RB Finish).
- OT**—Old Brass (Dull Brass Finish), Light, Unpolished (OT Finish).
- OB**—Old Brass (Dull Brass Finish), Light, Polished (OB Finish).
- OE**—Old Brass Finish, Depressed Surface, Oxidized and Relieved (OE Finish).
- RD**—Antique Brass, Sand Finish, Light (Sanded, RD Finish).
- R7D**—Antique Brass, Sand Finish, Light, High Parts Buffed (R7D Finish).
- NT**—Nickel Plated, Bright Finish, Unpolished (NT Finish).
- N**—Nickel Plated, Highly Polished (N Finish).
- J**—Ivory Black Finish.
- BNT**—Blue Black, Electro Plated, Unpolished (BNT Finish).
- BC**—Rustless Iron Finish, Unpolished (BC Finish).
- BB**—Bower-Barff, "Rustless Iron," Sand Finish (BB Finish).

ON BRONZE METAL AND BRASS MADE BY SARGENT & CO.

No Prefix Letter on Plain Bronze, **Natural Color, Highly Polished**, Designated by the terminal letter P (Natural Bronze, No. 1 Finish).

No Prefix Letter on Design Goods in Bronze, **Natural Color, Highly Polished**, Designated by the Terminal Letters indicating the design wanted (Natural Bronze No. 1 Finish).

Other Finishes are designated by prefixed letters as below.

Prefix Letter.

- M**—(Imperial). Black Background, Raised Surface in Polished Natural Color Bronze (Sometimes called No. 3 Finish).
- AB**—Antique Copper, Highly Polished (AB Finish).
- RB**—Antique Copper, Mottled, Sand Finish (RB Finish).
- OB**—Old Brass, Polished (Dull Brass, Light) (OB Finish).
- OE**—Old Brass, Depressed Surface, Oxidized Black and Relieved (OE Finish).
- RD**—Antique Brass, Light, Sanded (RD Finish).
- N**—Nickel Plated, Highly Polished (N Finish).

ON STEEL GOODS MADE BY STANLEY WORKS

All unfinished goods are listed without suffixed letters; finished goods are designated by suffixed letters and numbers as below.

Suffix.

- A**—Natural Bronze Finish, Planished (Like Sargent's Natural Polished No. 1 Finish).
- D2**—Antique Copper Finish, Planished (Like Sargent's AB Finish).
- F**—Old Brass, not Shaded, Planished (Like Sargent's OE and OB Finish).
- SF4**—Antique Brass, Sand Finish (Like Sargent's RD Finish).
- SD2**—Antique Copper, Sand Finish (Like Sargent's RB Finish).
- J**—Japanned.
- N**—Nickel Plated Finish (Like Sargent's N Finish).
- H**—Dead Black, Electro-Plated, Bower-Barff Finish (Like Sargent's BNT Finish).
- No. G**—Bower-Barff, Rustless Iron Finish (Like Sargent's BC and BB Finishes).

LOCKER LOCKS

Cuts Half Size.

STANDARD TIME COMBINATION

Per Dozen

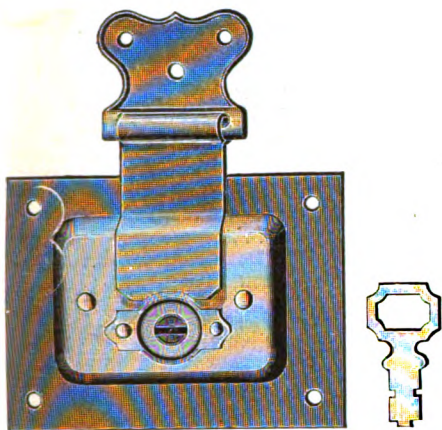

- No. 3332—2 1/2 x2 3/4 inch, All Brass, 1 1/4 inches from Selvedge to Center, 2 inch Nickel Plated Dial, Nickel Plated Knob, 7/8 inch Diameter Tube, for Doors 1/2 to 3/4 inch Thick, Combinations All Different in Large Series, Can Readily be Changed, Complete with Directions \$25.00

Opened in 5 seconds or less by turning the Knob and Pointer to the proper Dial Marks in succession. This is done by aid of Light, or by Touch, or by Sound, at discretion. It will click or not click. The operator takes his choice every time. The O'Clock Dial, familiar to everyone, renders the operation easy. It is all as simple as the time of day. Its many novel and excellent features make it the most satisfactory lock extant for use upon Lockers of every description.

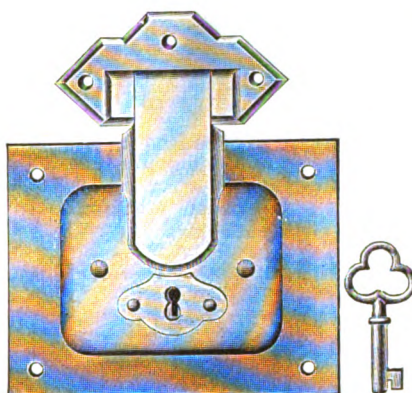

Note—When ordering Nos. 3360 and 3332 state Hand and Thickness of Door, furnished to order for Metal Doors.
One-twelfth Dozen in a Box, with Screws.

FLOOR HINGES

THE NEW SHELBY "CHIEF," BALL BEARING, DOUBLE ACTING

Cut Shows Hinge with Finish Plate Removed.

Cut Shows Hinge Complete.

Application of the "New Shelby Chief" Double Acting Floor Hinge.—Fit the door full size of opening, then round the back edge allow the door to swing close to the jamb. Apply the Top Pivot to the jamb and the Pivot Socket to the top of the door sunk flush. After Pivot and Hinge have been secured, place the door in position, entering the Pivot first and placing the bottom of the door in proper position with the floor plate on the surface of the floor. Before securing the Plate to the floor see that the door is in line with the door jamb, apply the lower plates flush with bottom of door.

These Hinges swing doors double acting by using a stop bead on casing. They work equally well single action.

Adjustable Tension, to Apply to Surface of Floors.

The New Shelby Chief Hinge is the easiest to apply, it is not necessary to cut a hole in the floor to receive the hinge as is the case with other makes of Floor Hinges. The Shelby Chief overcomes these objectionable features, as it rests upon the surface of the floor and is the only Floor Hinge that can be used where steel beams come near the surface of the Floor, no metal box required for cement, concrete or tile floors. Water cannot get to the working parts of hinge and rust it out. Tension of Spring can be adjusted at any time after door is hung.

Heavy Wrought Steel Frame, Best Oil Tempered Steel Spring, Steel Foot Plate.

Japanned Dead Black.

Nos.	2	4
For Doors, Thickness, Inches.....	1 1/4 to 1 3/4	1 3/4 to 2

Weight Per Set, Lbs.....	3 3/4	5 1/2
Per Set	\$4.45	4.70

One Set in a Box, with Screws.

"STANDARD," DOUBLE ACTING, CHECKING

Bearings—All Bearing Surfaces of the cam and plunger are large with long wearing surfaces. The weight of the door rests on hardened Steel Ball Bearings, operating in a hardened tool steel cup and cone. Bearings are placed at the top of the hinge, instead of at the base, to keep them free from grit and damp.

The Hinge Frame is of special design, so arranged that all mortising in the door is eliminated.

Alignment—The door can always be brought to perfect alignment after it is hung by loosening alignment screw on one side of cam and tightening the one on the other side.

Durability—On account of checking mechanism automatically controlling the spring hinge, the door is closed gently and stops when it reaches the center of the joint, avoiding the Slam-Bang, Flip-Flop action of the door until it stops of its own accord, thereby increasing the life of the hinge many times that of the ordinary Double-Acting Spring Floor Hinge.

STEEL SIDE PLATES AND STEEL FLOOR PLATE

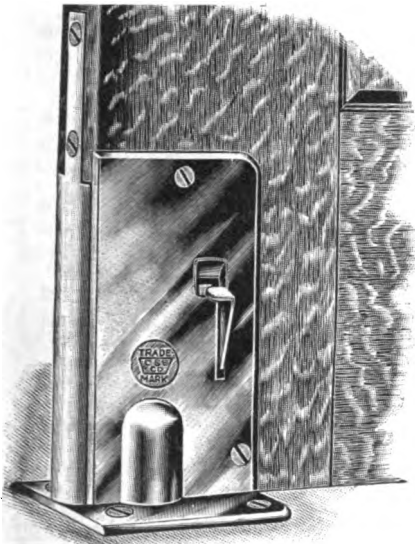

For Doors 1 1/4 to 1 3/4 inches Thick, Not Over 32 inches by 7 feet.

No. 4D—Antique Copper Plated, Weight Per Set 5 Lbs.....	Per Set \$8.00
No. 5D—Old Brass Plated, Weight Per Set 5 Lbs.....	8.00

One Set in a Box, with Screws.

FLOOR SPRING HINGES

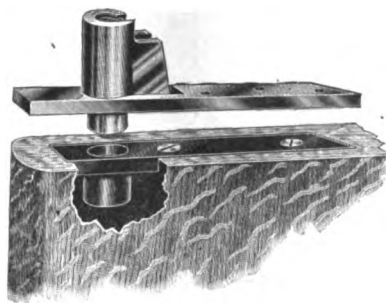

CHICAGO "RELAX" SPRING PIVOT, BALL BEARING

Cut Shows Hinge Applied to Door.

Steel, Antique Copper, Planished.

For Doors, Inches. 1 1/4 to 1 1/2	1 1/2 to 2	
Per Set	6.10	9.20

The "Adjustable Top Pivot" is always furnished with this hinge, permitting the door to be readily taken down and allowing full clearance of doorway.

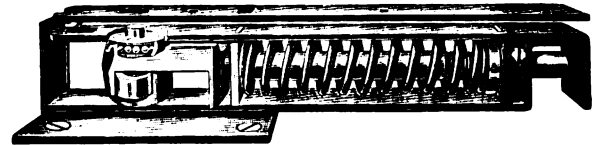

For "Concrete Floors" a special "Concrete Floor Plate," which is applied to the door casing, is furnished when so specified.

One Set in a Box, with Screws.

CHICAGO "PREMIER" SPRING PIVOT, BALL BEARING

Top Pivot and Socket.

Exposed View.

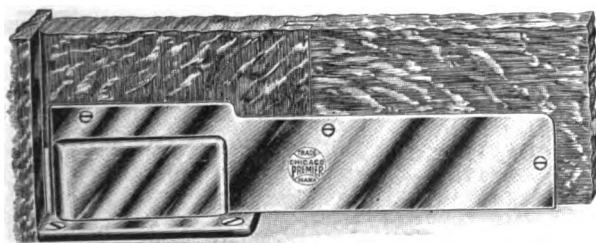

This Hinge holds the door open when it is swung to 90 degrees. The weight of the door is carried on Ball Bearings, the eccentric is equipped with hardened steel roller bearings and the piston is made of drop-forged steel.

Compression spring is made of the best tempered steel flat wire, producing the greatest efficiency and durability, adjustable tension.

The alignment feature is readily accessible at any time and is adjusted by turning a single screw.

The floor plate has an invisible reinforcement into which the pintle of hinge engages, thereby making a positive connection.

The attaching plate serves as a templet for cutting the door, requiring only the use of a saw and eliminates mortising projecting arms into the edges of the door.

Applied View.

For Doors, Inches.	1 1/4 to 1 3/4	
Per Set	\$3.35	

Where floors are tile or concrete, the hinges should be specified with Concrete Floor Plates, which are attached to the door casing. Concrete Floor Plates are a part of the hinge and cannot be supplied individually for the regular hinges.

The regular hinge can be applied to concrete floors by leading the screw holes into which the floor plate is fastened or by using expansion screws.

One Set in a Box, with Screws.

Blank Butt,
Closed.

Blank Butt, Open.

Spring Butt,
Closed.

Spring Butt,
Closed on Door.

To economize for light doors, put a Chicago Spring Butt at the top and a Chicago Blank Butt at the bottom of the door. Never use a blank on outside doors, as it takes the full power of two Springs to hold door against the draft. Always put the Blank below the Spring Butt when a Blank is used. Always use the largest Spring Hinge and Blank which the thickness of door will permit.

SARGENT DOOR CONTROLLERS

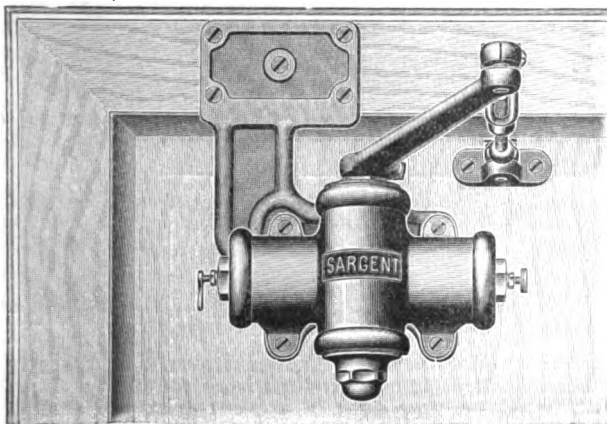

A COMBINATION OF COMPRESSION SPRING AND LIQUID CHECK

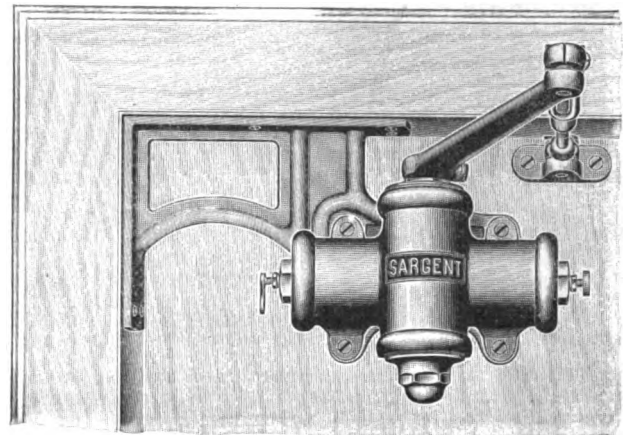

Showing the Door Controller Applied to Right Hand Door.

Showing the Door Controller Applied with Soffit Bracket.

Showing the Door Controller Applied with Flush Bracket.

Showing the Door Controller Applied with Corner Bracket.

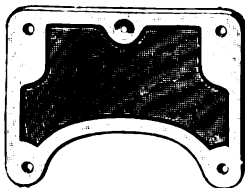

Plate No. 33.

For Doors with Very Narrow Top Rails.

Screen Doors and sometimes other doors are made with very narrow top rails to which the Door Controller cannot be applied because the screw-holes come below the top rail. In such cases it is necessary to use the extra plate (No. 33), the regular back-plate being screwed to the extra plate and that to the door.

Effectually Controls the Closing of the Door.

Sargent Reversible Liquid Door Controller is simple in construction, easy to apply, easy to regulate, prompt and effective in its action; it effectually controls the closing of the door and prevents all slamming. This is accomplished by an adjustable double control feature consisting of a speed lever (at the left in the illustration) which, combined with the vent screw (shown at the right), regulates the speed of closing. By adjusting these two parts the door can be closed quickly or slowly at the same speed from the point of greatest opening or it will move quickly to any desired point and then close gently.

The Controller is suitable for either Right or Left Hand Doors and may be quickly reversed by removing the nut (shown at the bottom of the Controller in the illustration) and a Dust Collar at the top and then turning the Controller over and replacing the Nut and Dust Collar.

The flattened coil compression spring is made of tempered steel wire of the finest quality and is very powerful.

Each Controller is packed with a blue print template giving full directions for applying, reversing and regulating.

Gold Bronzed.

YALE DOOR CLOSERS

MODEL Y LIQUID CONTROLLING

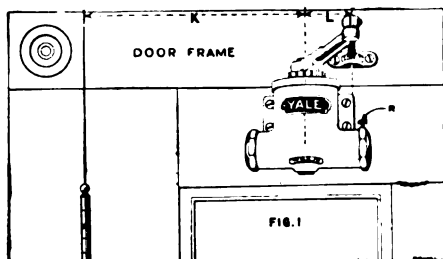

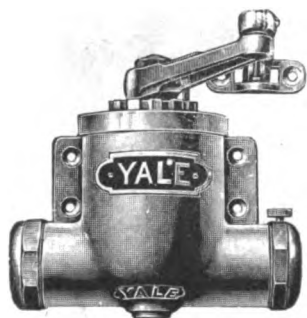

Fig. 1—Right Hand Doors from Inside.
Use Right Hand Check.

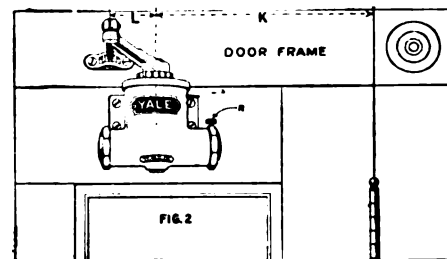

Fig. 2—Left Hand Door from Inside.
Use Left Hand Check.

This new model combines the principles of the original "Blount" Door Check, with many improvements.

Its general appearance is attractive; the screw-holes for attaching are conveniently accessible.

The "Yale" Closer combines a powerful coil spring (which furnishes the motive power to close the door) and a metallic piston moving in a metallic cylinder against a non-freezing liquid (which furnishes the checking or controlling power).

A simple Regulating Valve enables these two powers to be adjusted, relatively to each other, as to give any desired action to the door whereby it will always be positively closed, but under a controller which prevents slamming.

The shaft and crank are made of one piece of drop forged steel, of great strength and stiffness. The shaft is provided with a bearing at its lower end, instead of being overhung as before, thereby reducing the strains and greatly decreasing the tendency to wear on the packing, and to leakage of liquid.

The connecting rod is unusually heavy and is attached to the piston by means of a large pin. Supported at both ends, not overhung. The action is such that the piston rod is always under compression, not tension, a light strap thus sufficing to secure it to the crank, for convenience in handling the parts. The construction eliminates the tendency to tilt, which exists in other Door Checks and which is a constant cause of wear and leakage.

The working parts are immersed in a lubricating fluid, so that the wear resulting from continued use is inappreciable and the device when once properly adjusted in place will continue indefinitely to function without further care.

The coils or springs are guaranteed against breakage due to defective manufacture. The main arm is of unusually heavy construction, and is designed especially to guard against breakage when the check is used under severe conditions. The use of door controllers has increased rapidly and greatly. Originally designed simply to close door to prevent draughts, they are now in demand even more largely to eliminate noise and danger by insuring the quiet closing of doors.

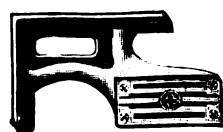

Iron, Gold Bronzed.

	Each
No. 11—For Screen Doors and Other Very Light Doors, Weight Each 5 Lbs.....	\$3.25
No. 12—For Light Inside Doors not Exceeding 7 feet High by 3 feet Wide, Weight Each 7 ¼ Lbs.....	4.25
No. 13—For Inside Doors of Medium Size not Exceeding 7 feet High by 2 ½ feet Wide, Weight Each 8 ½ Lbs.....	5.00
No. 14—For Heavy Inside and Ordinary Outside Doors not Exceeding 7 ½ feet High by 3 feet Wide, Wt. Each 12 Lbs..	6.00
No. 15—For Outside Doors of Medium Size not Exceeding 7 ½ feet High by 4 feet Wide, Weight Each 17 Lbs.....	8.00

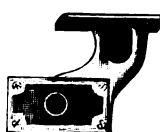

In selecting the check to be used be sure it is of ample size. If too small for the door it will not be effective in control, and is liable to be broken. For doors exposed to severe draughts, use a check one size larger than called for in the table above. Doors with metal frames or heavy glass panels, require heavier checks than ordinary doors of equal size.

One in a Box, with Screws.

YALE DOOR CONTROLLERS

MODEL C, DOUBLE ACTING

This is designed for use on doors hung on double acting hinges which permits the door to swing in both directions. As such hinges, of necessity, always contain springs, which operate to close the door, this article is a **checking device only**. Its construction embodies features identical with those which have made the Yale Blount Door Check successful and also a very ingenious arrangement whereby the main arm swings over the top of the door and under the Soffit of the door frame in accordance with the direction in which the door is moved.

The Yale Door Controller controls a double acting door as perfectly as the Yale Door Controller controls the single acting door. It brings the door quietly to rest on the center every time, without any of the flip-flap which heretofore has been inevitable with such doors, thus eliminating the noise and danger which they have involved and greatly reducing or preventing the draughts which such doors have heretofore permitted.

Construction.

The check consists of a short vertical cylinder, through the top of which projects the spindle, to which is attached the main arm. To the outer end of the latter is attached the adjusting arm, the other end of which is fastened to the door jamb so as the door moves the spindle is caused to rotate.

The horizontal transverse cylinder at the bottom contains the liquid chamber, the piston, and the regulating valves, by which the action of the door may be controlled independently in each direction, according to the varying conditions of wind pressure. The non-freezing liquid is hermetically sealed within the liquid chamber, and a third regulating valve controls the resistance of the door to motion in either direction from the closed position.

Gold Bronzed.

No. 53—Yale Double Acting Door Controller..... Each
One in a Box, with Screws..... \$7.00

SCREEN DOOR CHECKS AND SPRINGS

SARGENT'S LIQUID

Cast Iron, Antique Bronze Finish.

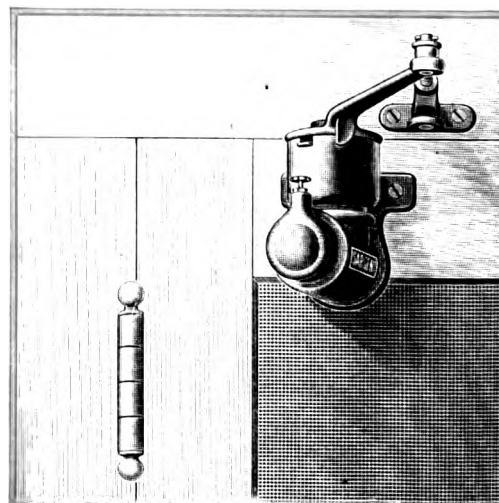

No. 20—Reversible, for Either Right or Left Hand Doors, without Changing Any Part, Requires no Regulating, Arm is Adjustable to Suit Door Frame, All Working Parts Enclosed..... Each
\$3.00

The Vent Screw regulates the speed of closing of the door, and may be adjusted as desired.

This is an effective spring and check which may be used on any screen door without the slamming and banging which annoys the occupants of the house and wears on their nerves. Can be applied by any one. A strong, sturdy and well made device.

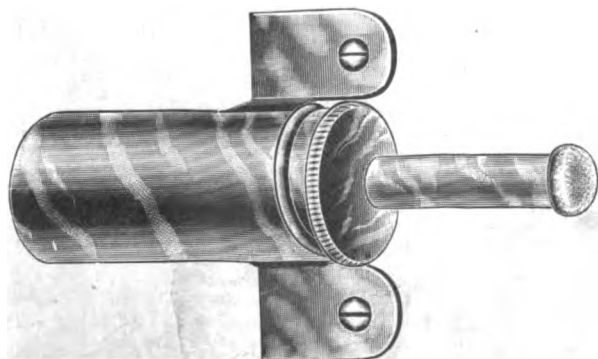

Operates quickly, keeping out flies. Checks surely, preventing the slamming and banging of doors.

One in a Box, with Screws and Template.

AUTOMATIC DOOR CHECKS

LITTLE TIGER

No. 16—2 7/8 inches Long Over All, Brass Cylinder and Plunger, Dead Nickel Finish..... Per Dozen
\$9.00

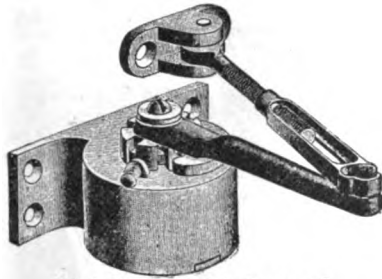

The Tiger Check is 2 7/8 inches long over all and can be set between screen door and regular door. The Cylinder and Plunger of the Tiger Door Check is made of brass and will not corrode by being exposed to the weather.

The Tiger Checks are so constructed and applied that when the door swings shut it strikes the end of the plunger and forces it into the cylinder, compressing the air in same and forming an air cushion. Very simple to apply. It is a Tiger in neatness, quickness of action, strength and checking power.

One-twelfth Dozen in a Box.

DOOR SPRINGS

ECLIPSE

Cast Iron, Gold Bronzed.

Reversible for Right or Left Hand Doors.

	Each
No. 1651—For Inside Doors.....	\$1.80
No. 1653—For Wide Inside Doors or Narrow Outside Doors.....	2.30
No. 1655—For Wide Outside Doors.....	3.00
No. 1657—For Very Wide Outside Doors.....	4.00

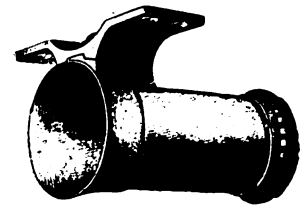

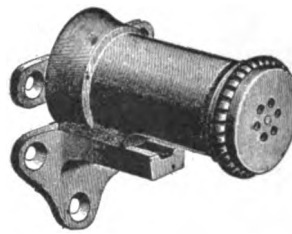

The Spring is adjustable tension, very compact and powerful and is made from extra heavy flat clock-spring steel of the finest quality.

To change hand, simply withdraw the pin at the bottom of the case and turn spring the other side up.

One in a Box, with Screws.

DOOR CHECKS

ECLIPSE

For Applying to Door.

For Applying to Casing.

Cast Iron, Gold Bronzed.

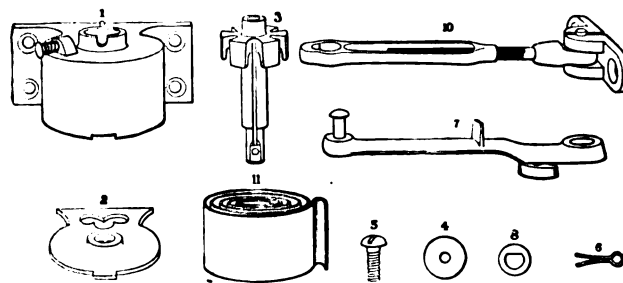

Each

No. 1623—For Ordinary Doors, 1½ inch Diameter Cylinder.....	\$3.00
No. 1625—For Wide Doors, 2 inch Diameter Cylinder..	4.00
No. 1627—For Very Wide Doors, 2½ inch Diameter Cylinder.....	6.00

Eclipse Door Checks are packed with detachable feet, so that the same check can be applied to either the door or the casing as desired. The detachable foot for attaching to the door is so arranged that the cylinder may be properly adjusted, in or out, to suit doors differently set in their frames. The set screw holds the cylinder firmly when adjusted. Have the cylinder indoors where possible. By screwing the cap at the end of the cylinder the check can be instantly varied for light or heavy draft.

One in a Box, with Screws.

SCREEN DOOR CHECKS

ALL-ROUND

No. 10—Rubber Disk, Ivory Black
Trimming \$1.75

The "All-Round" is a simple, durable and effective check for Screen Doors. It can be easily applied to any Screen Door in connection with any other Door Spring or Spring Hinge. Each time the door closes the rubber disk moves around the Wire Hanger and presents a new edge for checking the door.

One Dozen in a Box.

NO-SLAM

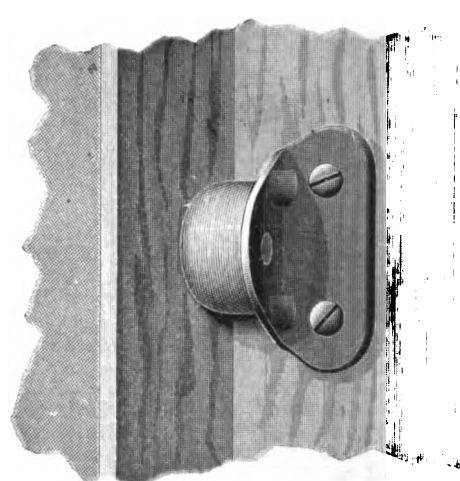

No. 1—Rubber Ball, Nickel Plated
Trimming \$4.00

This is an automatic Check for Screen Doors which can be applied to any Screen Door in connection with any Spring or Spring Hinge.

One-half Dozen in a Box, with Screws.

ANTI-SLAM

SHELBY

No. 1049—Wrought Steel, Japanned, Soft Rubber Bumper, for Screen Doors..... \$7.50

No more disturbing the slumbers of the whole household in the morning, or waking the baby, when this little device is used in keeping your Screen Doors from Banging and Slamming.

Easel to display accompanies each box. One-quarter Gross in a Box, with Screws.

DOOR SPRINGS

PERFECTION

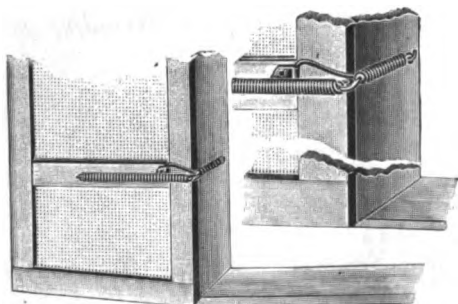

Japanned, Coiled Crucible Steel Wire, 17 inches Long, with Loop Eyes and Screw Hooks.

No. 3— $\frac{3}{8}$ inch Diameter, for Heavy Doors	Per Dozen
No. 4— $\frac{1}{2}$ inch Diameter, for Heavy Doors	\$0.60
No. 5— $\frac{1}{2}$ inch Diameter, for Extra Heavy Doors70
No. 6— $\frac{1}{2}$ inch Diameter, for Gates80

One Dozen in a Box.

DOOR SPRINGS

WAGNER, JOINTED

Japanned, Crucible Steel Wire, Jointed.

No. 51—For Light Screen Doors.....	Per Dozen
No. 52—For Heavy Screen Doors.....	\$1.50
No. 53—For Panel Doors.....	1.80
	2.40

This is the most perfect and popular Spring on the market, the Spacing Bar keeps the Coils of Spring away from the Door and acts to a certain extent as a Hold-Back, which is a convenience when taking anything through the door. With Screw Hooks and Fastener.

One Dozen in a Box, with Screws.

DOOR CLOSERS

BADGER

The Badger Screen Door Closer is a very simple and efficient device for closing light and heavy screen doors.

Wrought Arm, Malleable Iron Frame, Steel Tension Spring, Aluminum Finish.

No. 9—For Light Doors.....	Per Dozen
No. 8—For Heavy Doors.....	\$6.00
	6.00

For heavy doors the spring can be strengthened in the following way: First, by pulling the pressure rod out about an inch, then by turning it half way around and putting it back in the slot again, then twist the bar to the same position as found when shipped. Place the plate between spring and bracket behind the bar.

One-half Dozen in a Box.

GATE SPRINGS

PERFECT

No. 12 Gauge Crucible Steel Coiled Wire, Japanned.

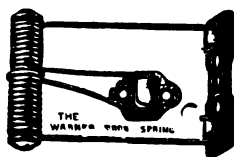

No. 10—15 inches Long, $1\frac{1}{2}$ inch Diameter, Complete with 2 Galvanized Steel Staples.....	Per Dozen
	\$2.75

Weight Per Dozen 14 Pounds.

One-half Dozen in a Box.

This Latch is superior to any Cast Latch, being made of Wrought Steel, and provided with Holes in Strike and Guide Plate for Padlock.

Size 2, One Dozen; Size 3, One-half Dozen in a Box, with Screws.

GARAGE AND BARN DOOR LATCHES

EITHER RIGHT OR LEFT HAND

Extra Heavy, Wrought Steel.

Per Dozen

- No. 1252J—Japanned, Handle 10 $\frac{1}{2}$ inches Long, Bar 12 inches Long.....\$17.50

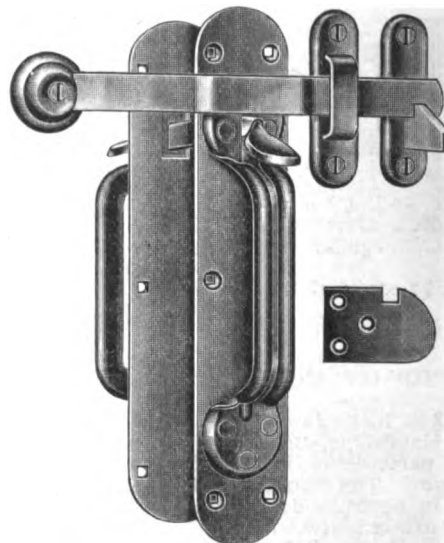

These Latches are strongly made of wrought steel and are consequently greatly superior to the old fashioned cast iron latches. The handle is large and of particularly strong pattern. The rolled edges give a comfortable grip for the hand. Combination round and square screw holes permit the use of either bolts or screws.

Weight Per Dozen 36 Pounds.

One-twelfth Dozen Sets in a Box.

DUPLEX LATCHES

EITHER RIGHT OR LEFT HAND

Extra Heavy Wrought Steel, with Two Escutcheon Plates, Handle and Thumb Pieces.

Per Set

- No. 1264J—Japanned, Escutcheon Plates 14 $\frac{1}{2}$ x 2 $\frac{3}{4}$ inches, Handle 12 inches, Bar 12 inches Long.....\$2.25

The two handles and thumb pieces provide a comfortable grip in handling a heavy door from either side. No. 1264J greatly improves the appearance of the entrance. It is adjustable for doors from 1 $\frac{3}{4}$ to 2 $\frac{1}{4}$ inches thick, although it can be supplied on special orders for doors of any thickness. The parts are put together without use of tools or set screws and when once applied to the door, cannot become loose or drop out.

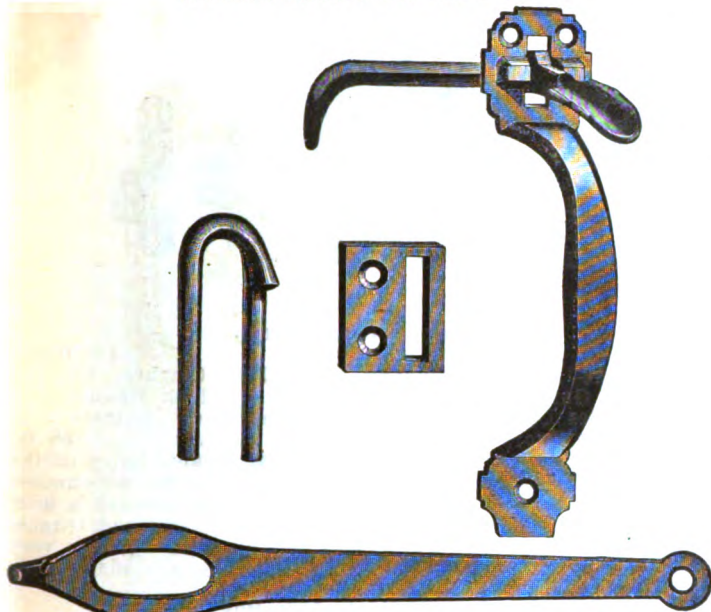

Combination screw holes in the escutcheon plates permits securely bolting the plates together through the door, using $\frac{1}{4}$ inch carriage or stove bolts.

Weight Per Set 6 $\frac{1}{4}$ Pounds.

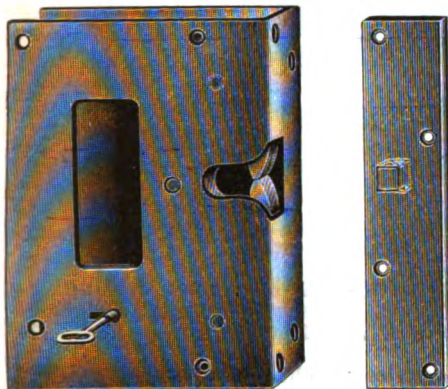

One Set in a Box, Complete with Screws and One 3x2 inch Extra Flush Catch or Mortise Strike.

 One-twelfth Dozen in a Box, with Screws.

BARN DOOR LATCHES

WHITCOMB

Wrought Steel, Extra Large Handles on Each Side of Door.

Per Dozen

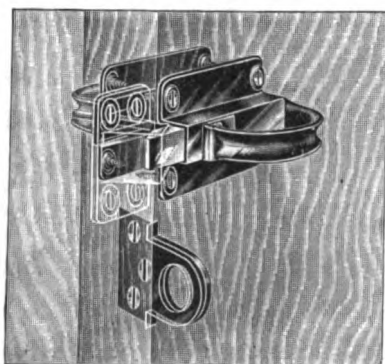

No. 1—2 5/8 x 5 inches, Japanned, with Two Catches, to Hold Gate or Door Either Closed or Open, Padlock Staple, Handles Operate Latch from Either Side...\$7.00

Two catches are furnished with each Latch so that the door or gate can be held open or closed and the two large handles make it easy to operate from either side. It is arranged for the use of a padlock.

It is a strong, durable and convenient Latch. Harness will not catch on it. Can be easily attached. It is especially designed for Fancy Barns and Outbuildings.

One-half Dozen in a Box.

WATROUS-ACME

The angle slant on the strikes and the bevel on the bolt allow this Latch to lock automatically. The bolt is wrought steel, solid at its working end, has a 1 1/8 inch throw.

Wrought Steel, Heavy and Strong.

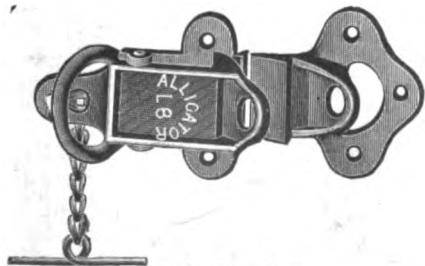

Per Dozen

No. 1240—2 5/8 x 5 inches, Japanned, Tinned Bolt, Sherardized Spring, Large Roomy Comfortable Handle on Each Side, Locks Automatically, Adjustable for Doors 3/4 to 1 1/4 inches, Complete with One Pair Safety Padlock Eyes...\$7.00

The inside plate is applied back from the jamb so there is no danger of injuring the hand. The strike is made wider than the bolt to allow for any sagging of the door.

One-quarter Dozen in a Carton.

ALLIGATOR

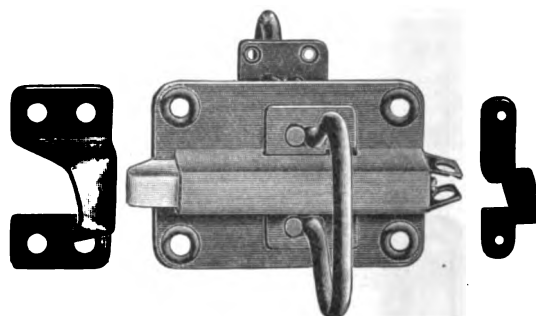

Malleable Iron.

Per Dozen

No. 85—Non-Breakable Malleable Iron, Black Enamelled, Reversible for Either Right or Left Hand Doors, Length of Latch Bar 4 1/2 inches...\$6.50

The best and most popular Snap Latch on the market. It has every advantage of durability possible. Closes and latches doors with the minimum effort and is not affected by warping or sagging of door. Padlock may be snapped through latch, making a perfect lock.

One-half Dozen in a Box.

Heavy, Wrought Steel.

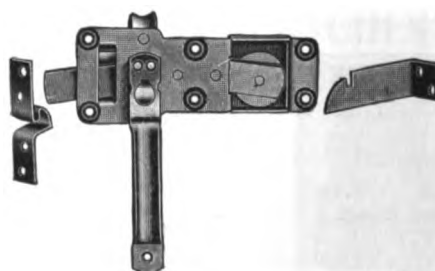

Per Dozen

No. 8—4x6 inches, Japanned, with Two Catches, to Hold Gate Either Open or Closed, 1/2 inch Round Handles Operate Latch from Either Side, Adjustable to Doors of Any Thickness...\$8.00

The biggest, strongest, handiest, most durable Latch on the market. Especially adapted for use in factories, warehouses or garages, where workmen can open or pass through a door while both hands are occupied, thus saving time and trouble of dropping the load and picking it up again. Works very easily and never sticks or binds, can't freeze up. Adapted for use of padlock.

One-half Dozen in a Box.

DIEHL'S GRAVITY

Wrought Steel.

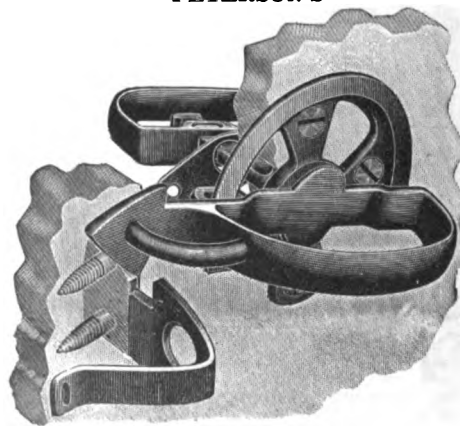

Per Dozen

No. 10—Black Japanned, with Two Catches to Hold Door Open and Closed, Operates from Both Sides, Adjustable to Doors of Any Thickness...\$6.00

This Latch has a counter weight in place of a spring. It is not affected by dampness. It cannot be opened by stock nosing or rubbing.

One-half Dozen in a Box.

PETERSON'S

Malleable Iron, Reversible, for Swinging or Sliding Doors.

STORM SASH AND SCREEN HANGERS

SENSIBLE

Part A.

For Use on Storm Windows, Basement Windows and Screens.

No. 3—Steel, Japanned Per Dozen Sets \$3.50

EXTRA PARTS

Per Dozen Pairs

No. 3A—Eyes, Steel, Japanned.....\$0.80

No. 3B—Hooks, Steel, Japanned......80

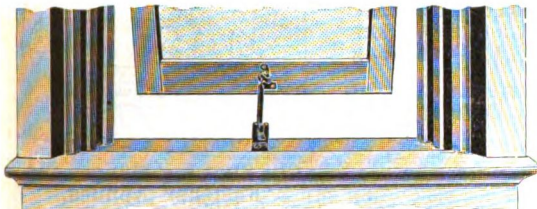

Part B.

With these Hangers, windows can be hung or taken off with as great convenience from the inside as from the outside of the house, either by hooking both sides at once or as illustrated by hooking first one side, which relieves the weight, and then the other.

One Dozen Sets in a Box, with Screws.

STORM SASH AND SCREEN FASTENERS

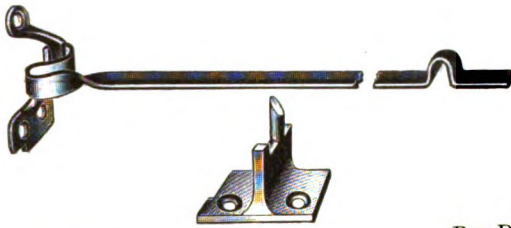

SENSIBLE

Cut Shows Window Open for Ventilation with No. 1 Fastener.

Cut Shows Window Closed with No. 1 Fastener.

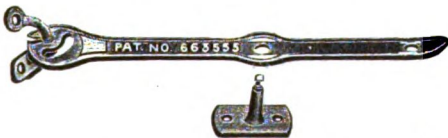

Per Dozen Sets

No. 1—Malleable Iron, Wrought Steel Lever, Japanned. \$1.80

When the window is opened for ventilation the Fastener falls into position, acts like a spring and allows no rattling.

Draw window up tight before turning lever and you will have a perfect air-tight lock.

One Dozen Sets in a Box, with Screws.

Per Dozen Sets

No. 1A—Malleable Iron, 11 inches Long, Black Japanned\$2.10

This Fastener is made with an eccentric slot, which pulls the sash close to the casing and when closed the lever is in such position that it does not interfere with the inner window.

One Dozen Sets in a Box, with Screws.

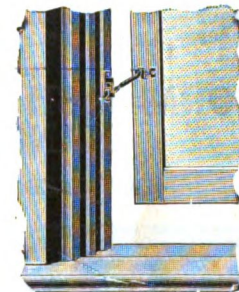

Per Dozen Sets

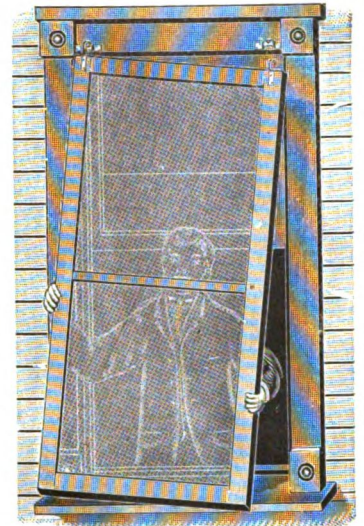

No. 2—Malleable Iron, Wrought Steel Lever, Japanned, Two to a Set.....\$1.80

When the window is opened for ventilation the Fasteners fall into position, acting like a spring and allows no rattling.

One Dozen Sets in a Box, with Screws.

Cut Shows Window Open for Ventilation with No. 2 Fastener.

Cut Shows How Screen or Storm Windows Can be Raised.

STORM SASH AND SCREEN HANGERS AND FASTENERS

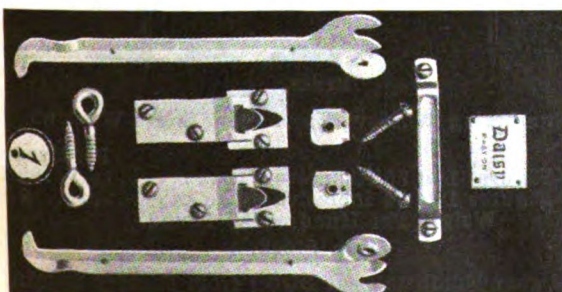

DAISY

Cold Rolled Steel, Electro Galvanized.

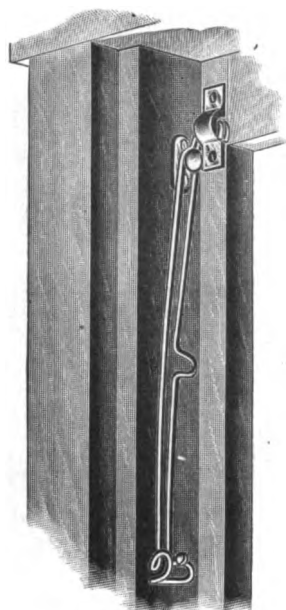

Per Dozen Sets

No. 1—Set, Consists of 1 Pair Hangers, 1 Pair Fasteners, Two Nail Pins, Two Screw Eyes, One Pull and 10 Screws.....\$3.50

One-twelfth Dozen in a Box.

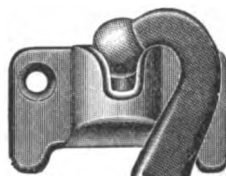

STORM SASH AND SCREEN HANGERS

No. 1 Side Fastener.

DIEHL'S

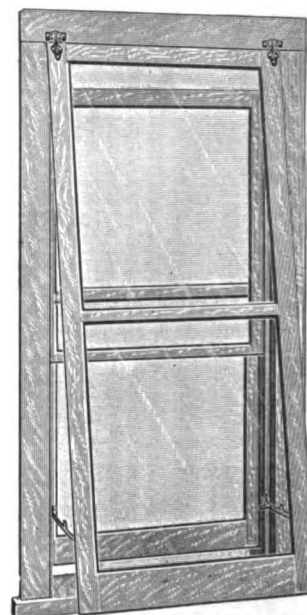

Part A.

Part B.

Hanger No. 6.

The Diehl is the only Ball and Socket Hanger on the market. It works freely, cannot bind, will not blow off, can be hung on one side at a time from the inside as well as from the outside of building.

Fastener is flexible steel and will hold sash perfectly tight to blind stops, where in the above position the fastener is entirely out of the way of the workings of the inside sash.

Cut Showing Hanger and Fastener Applied.

COMPLETE SET

For Use on Storm Windows, Basement Windows and Screens.

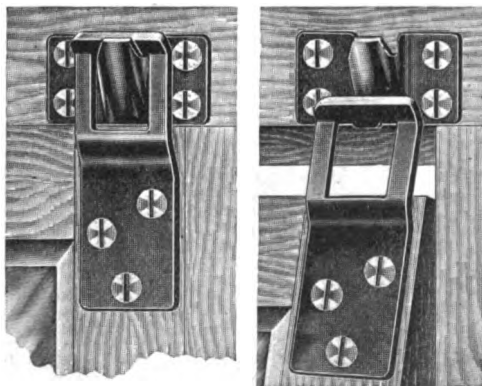

- | | |
|--|----------------|
| No. 6 Set—Consists of Two Parts A and Two Parts B of No. 6 Hanger, Made of Best Malleable Iron, Japanned, and Two No. 1 Side Fasteners Complete, Made of Flexible Steel Japanned | Per Dozen Sets |

STORM SASH AND SCREEN HANGERS

IMPROVED PEERLESS

Wrought Steel, Japanned.

- | | |
|--|----------------|
| No. 1715J Set—Consists of 2 Eyes and 2 Hooks | Per Dozen Sets |
| Weight Per Dozen Sets $3\frac{1}{2}$ Pounds. | \$2.00 |

EXTRA PARTS

- | | |
|--|-----------------|
| No. 1715JE—Eyes Only, for Fastening to the Casing | Per Dozen Pairs |
| No. 1715JH—Hooks Only, for Fastening on Screen or Window | \$1.10 |
| | 1.10 |

The angle on the Hook and on the head of the Eye guides the eye up and over the Hook, so that a sash or screen can be hung easily and quickly from the inside of the building.

These Hangers hold storm sash snugly to the window frame and absolutely prevent rattling.

One Dozen Sets in a Box, with Screws.

SASH FASTENERS

SCHROEDER'S PEERLESS FASTENERS

Wrought Steel, Japanned.

- | | |
|-------------------------|-----------------|
| No. 1719—10 inches Long | Per Dozen Pairs |
| | \$2.50 |

These Fasteners hold the sash firmly and allow the window to be pushed out for cleaning and ventilation.

Weight Per Dozen Pairs 5 Pounds.

Open Stock.

Note—Higher Numbers Sent Direct from Factory by Mail.

BASEMENT WINDOW HINGES AND FASTENERS

DIEHL'S SELF-SUPPORTING

No. 22 Basement Window Hinge.

Cut Showing Window Open.

No. 19 Fastener.

These Hinges are the only **Self-Supporting** or **Bracket Hinges** on the market. No Ceiling Hooks or other contrivance needed to hold the window open. It can readily be seen by cut that this Hinge forms a perfect bracket, thereby holding the window at right angle when open. All you have to do is to lift the window and shift it backward and there it stays, when you want to close the window you merely shift it forward and let it down.

The Hinges are very handy for they are separable and the window can be taken off without removing a screw.

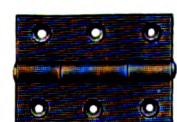

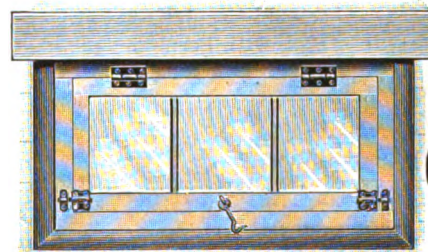

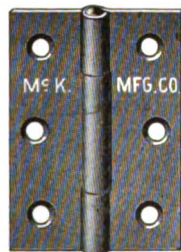

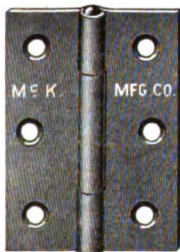

The No. 19 Basement Window Fastener is a non-rattling Fastener and will keep the basement window absolutely tight because of its wedge shape, it forces the window down tightly against the blind stop, the more force from the outside the tighter the window gets.

No. 22—Hinges Only, Wrought Steel, Japanned, with Screws..... Per Dozen Pairs **\$3.00**

No. 19—Fasteners Only, Wrought Steel, Japanned, with Screws..... Per Dozen **\$1.50**

One Dozen in a Box.

BASEMENT WINDOW SETS

No. 4761 Set—Consists of 1 Pair 2½ inch Light Narrow Steel Butts, 1 Steel Sash Lock, 1 Steel Wire Hook and Eye, Galvanized..... Per Dozen Sets **\$2.50**

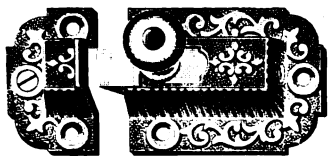

One Set in a Box, with Screws.

Illustration Showing Method of Applying Simplex Transom Lifters to All Styles of Transoms.

THE SIMPLEX TRANSOM LIFTER

It is an entirely new departure in Lifters.
Its superiority is at once seen.
Has greater strength than any other, as the lock
is up beside the sash.
One Lift Operates all styles of Transoms.
Locks automatically and securely; no need of
Transom chains.
The method of opening the sash is a straight
push or pull with one hand.

The Lifter is up out of the way, as all that is
needed is the push or pull.
Does not mar the trim below the Transoms.
Is more easily put up, requiring about half the
number of screws and half the time.
Approved by the best architects.
It is so simple in operation that a child can
manage.

No. D5248—Brass, Natural Color, Unpolished	23.00
No. 5248—Brass, Natural Color, Highly Polished	27.50

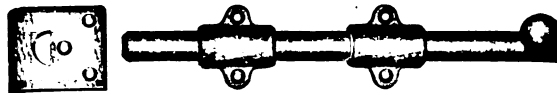

Operation—Both top and bottom bolts are operated from inside of door only by slight pressure on the handle bar at any point. Inclosed in the top case is a device which holds the ends of the rod in position when they are withdrawn from the strikes by the operation of the handle bar, so that the door may be swung over a carpeted, marble or tile floor. When the door is closed the rod is instantly released by the auxiliary latch and returns, by gravity, to its locked position.

Cannot be operated from the outside of door and no hardware is required on the outside.

These Bolts are furnished regularly for doors 8 feet high and 3 feet wide. For smaller doors, the upper vertical rod and the handle bar may be cut off. Can be furnished to order for large doors.

Weight Each 16 Pounds.
One in a Box, with Screws.

No. J5234	—Ivory Black Finish.....	11.80

This is a heavy Holder provided with Rubber Tipped Bolt that will not slip on any floor.

One-half Dozen in a Box, with Screws.

STANLEY GARAGE

Cut Shows Holders Applied.

Wrought Steel.

	Per Pair
No. 1774J—Japanned, Consists of Three Parts, 30 inch U Shaped Heavy Steel Bar which Holds Back the Door, Pivot Plate with a Heavy Rivet 7/8 inch Thick, Coupling the Bar to the Door and the Bumper Plate which Locks the Bar to the Frame of Garage at Two Points	\$4.25

The Holder is reversible for right or left hand doors and can be applied to any shaped door. Nothing to adjust or get out of order. The Pivot Plate is attached to the door so that the distance from the plate to the jamb can be made as great as possible. The patented tubular grip and tenso chain including the grip is 4 feet long. It is strong and simply constructed.

Weight Per Pair 8 ½ Pounds.

One Pair in a Box, with Screws, Staples and Directions.

SHELBY GARAGE

Wrought Steel, No Springs or Frail Parts to Rust or Break.
3 ¾ x 2 x ¾ inch Swivel or Door Jamb Plate, 3 x 3 ½ x 2 x ¼ inch Door Plate with Locking Device, ½ inch Round x 33 ½ inches Long Rod, 3 ¼ x 3 x 1 ½ x ¼ inch Strike, 36 inches No. 13 Chain.

No. 3050—Japanned, for Right or Left Hand Doors, without Change

Designed in particular for swinging garage doors while the car is being driven in or out, but can be used on all swinging doors that is desired to be held open, such as warehouse, barn, garage or public buildings.

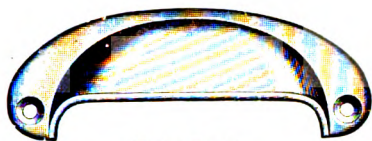

A child can operate it as it automatically catches when the door is opened and all that is required to release it for closing is a slight pull on the chain.

With the use of this holder there is no danger of the doors blowing shut and mashing a fender or lamp and possibly injuring the driver which would necessitate an expense many times the cost of the holder.

Weight Per Dozen 56 Pounds.
One Set in a Box, with Screws.

HOUSE LETTER BOXES

CITY GEM

The aluminum finish boxes are entirely of galvanized steel (rust-proof), with lettering in red, and the olive-green are finished in a rust-proof enamel, baked on at 300°. The other boxes are made from a special refined steel, and all boxes have riveted joints—no solder used. When the door is opened the mail is brought forward in a convenient manner for removal. The top letter flap is automatically closed, and held closed, with a spring; drop-letter hole has a guard to prevent removal of letters; the words "Letters" and "U. S. Mail" are embossed in the metal; the door has a glass-covered "peep-hole" so owner can tell at a glance if box contains mail.

Brass Nose Lock with Two Keys, Brass Name Plate and Door Pull, Patent Package Holder.

10 inches High, 6 inches Wide, 3 inches Deep.

Weight Per Dozen 30 Pounds.

One-twelfth Dozen in a Box, with Screws; One Dozen in a Crate.

URBAN JEWEL

The aluminum finish boxes are made of galvanized steel (rust-proof), with lettering finished in red, and the other boxes are made from a special refined steel.

Has a beveled glass sight, a convenient brass handle for opening the box. This box is an exceedingly tasty design, with a capacity for legal envelopes and papers, and wide letters and circulars—letter-slot extends the whole width of the top. It is so constructed as to be absolutely storm-proof at all times. The cover holds the box shut whether it is locked or not; when opened the entire contents of the box are exposed for convenient removal.

Open Stock.

Per Dozen Pairs

KITCHEN SINK PUMP BRACKETS

"DIAMOND"

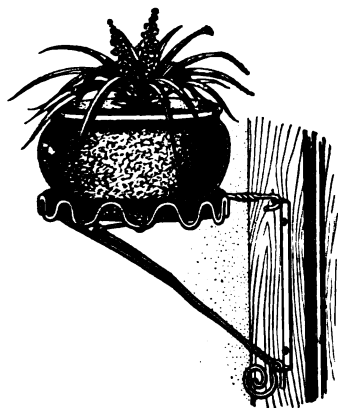

Cast Iron, Galvanized.

No. 10—Strongly Made, Neat, Small and Compact, Each
Occupies the Least Possible Amount of Space,
Complete with Adjusting Screws.....\$3.00

This Pump Bracket does not damage the Sink in any way, as there is a thin piece of leather or rubber placed under the Bracket where it grasps the top of the rim. There are two Set Screws in the lower extension arms of the Bracket and by adjusting these set screws the surface of the Bracket is brought to a satisfactory level with the Kitchen Sink regardless of any irregularity or unevenness of the side of the sink. The Suction Pipe of the Pump passes down through the center of the Bracket to the floor, where we recommend the use of a Nickel Plated Floor Flange or finishing ring.

Open Stock.

DUMB WAITERS

HELLER'S

For Residences, Offices, Stores, Etc.

No. 1—25 Lbs. Capacity, Complete with Sheaves, Guides, Weights and Ropes, for 12 foot Lift, Ready to Set Up.....**\$60.00** Each

For Restaurants, Stores, Apartment Buildings, Etc.

No. 2—50 to 75 Lbs. Capacity, Automatic Brake, Complete with Machine, Guides, Weights and Ropes, for 12 foot Lift, Ready to Set Up.....**\$75.00** Each

Extra for Each Additional Foot, Add 20c Net.

All sheaves and bearings are a part of the main frame and cannot be placed otherwise than in the correct position, thus insuring no binding or undue wearing of the rope, as is often the case with other machines. Neither can they work loose after being operated a few weeks or months. Has self-oiling devices which need but little attention.

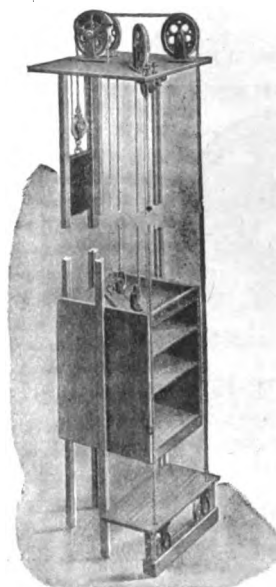

The automatic brake which is very powerful and always reliable, enables one to stop the car and hold it at any point without the use of an extra brake rope.

The No. 2 machines can be supplied with two hand rope wheels at opposite sides, and the weights can be placed at the right, left or rear, as desired.

When Ordering, Give Size of Opening and Height.

DUMB WAITER FIXTURES

NEW YORK SAFETY

New York Safety—Dumb Waiter Fixtures Only, Including All Pulleys and Brake, no Rope, Weights or Car.....**\$35.00** Per Set

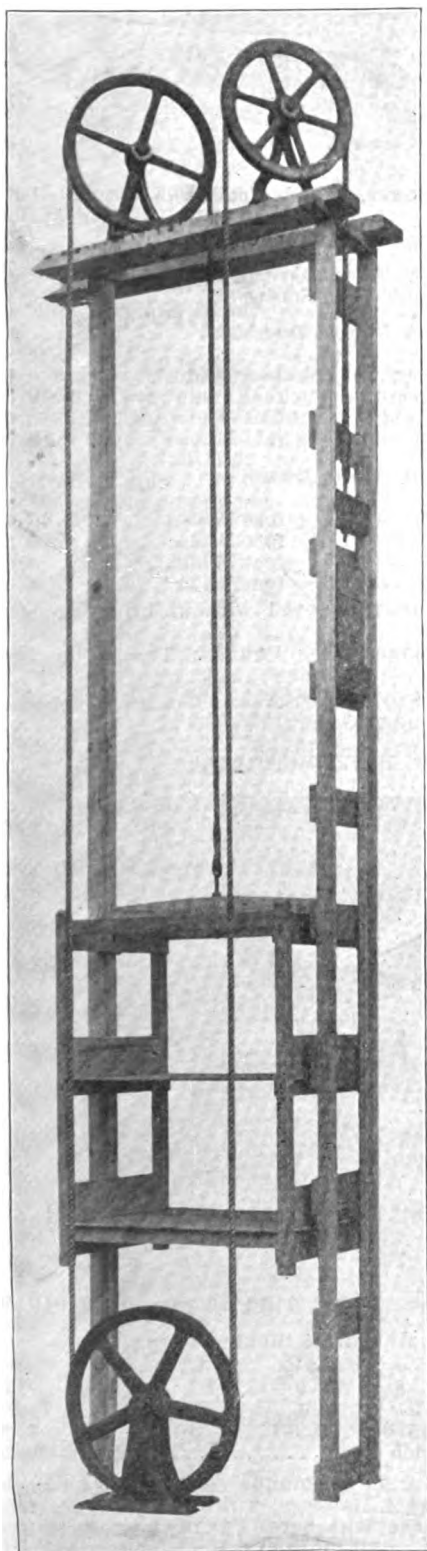

Fixtures one size only, suitable for all well holes under 24 inches square, not larger. Can be set up by any mechanic, diagrams for erecting accompany each set.

The wheels should be placed on top of car so weight of car shall be lifted from the center in all cases. They can be placed diagonally if necessary to accomplish this.

Counter weights should weigh about the same as the combined weight of the car and the two wheels on top, not less. Always use flat counter weights, which can be run in guides or box as desired

For stringing use pliable cotton rope, or operating $\frac{1}{2}$ inch, for safety $\frac{3}{8}$ inch, for brake $\frac{1}{4}$ inch. Samples of rope sent with each set.

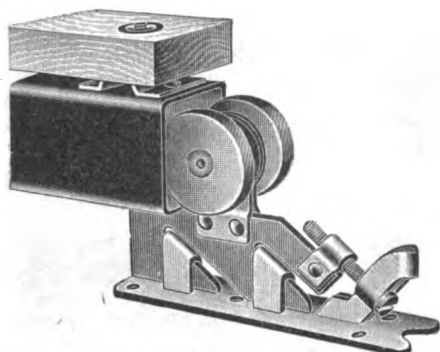

One Set in a Box.

Nos. 1 and 2.

HOUSE DOOR HANGERS

R-W HERO TROLLEY BALL BEARING

Adjustable Steel Hanger, Wood Header, 2 1/4 inch Diameter Vulcanized Fibre Wheels, Steel Ball Bearings, Blue Lacquer Finish, 16 Gauge Steel Track.

No. 19—Complete with Track, Overhead Center Stop, Floor Guides and Screws.

For Double Doors.

	Per Set
No. 19-25 —For Openings 5 feet Wide.....	\$7.20
No. 19-25 1/2 —For Openings 5 1/2 feet Wide.....	7.20
No. 19-26 —For Openings 6 feet Wide.....	7.20
No. 19-26 1/2 —For Openings 6 1/2 feet Wide.....	7.50

For Single Doors.

	Per Set
No. 19-14 —For Openings 4 feet Wide.....	\$4.20
No. 19-14 1/2 —For Openings 4 1/2 feet Wide.....	4.50
No. 19-15 —For Openings 5 feet Wide.....	4.80
No. 19-15 1/2 —For Openings 5 1/2 feet Wide.....	5.40

The Track can be easily removed without injury to plastered walls.

Weight Full Set of Hangers 5 1/2 Pounds, Track Per Foot 2 1/4 Pounds.

Hangers, One Set in a Box, with Screws; Track Attached to Header, Separately.

PROUTY CUSHION TRACK

All Steel Hardened Axle, Hard Maple Rail.

For Double Doors.

Per Set

No. 5D—Full Set of 4 Hangers, with 14 feet of Track, Weight Per Set 25 Lbs.....\$6.80

For Single Doors.

No. 5S—Half Set of 2 Hangers, with 8 feet of Track, Weight Per Set 13 Lbs.....3.25

The special locking adjustment on the Hanger for raising or lowering the door is absolutely positive, for it is designed with a horizontal adjustment screw, which does not carry the weight of the door, but is used for adjustment only. It prevents the door from sagging and keeps it always in place.

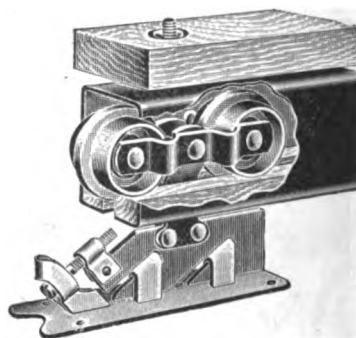

The Hanger is fitted with special noiseless bearings, the tread being turned true to fit track. The axle is hardened and sound-deadening felt compression washers carefully protected by steel stationary washers prevent the wheel from side-play or rattle.

The track is especially constructed for No. 5 Hanger only. The hard maple rail is thoroughly kiln dried and mounted in a felt cushion supported by metal case.

The floor guides are special rubber tired roller guides, align and guide the door perfectly without binding.

Hangers, One Set in a Box, with Screws; Track Separate.

R-W ROYAL TROLLEY BALL BEARING

Adjustable Steel Hanger, Wood Header, 2 1/4 inch Diameter Lathe Turned Gray Iron Wheels, Steel Ball Bearings, Blue Lacquer Finish, 16 Gauge Steel Track.

One Set in a Box.

BARN DOOR HANGERS

CANNON BALL, FLEXIBLE, ROLLER BEARING

NON-ADJUSTABLE

ADJUSTABLE

Tandem, Flexible, Frictionless, Wrought Steel Truss Frame, Non-Adjustable, Painted.

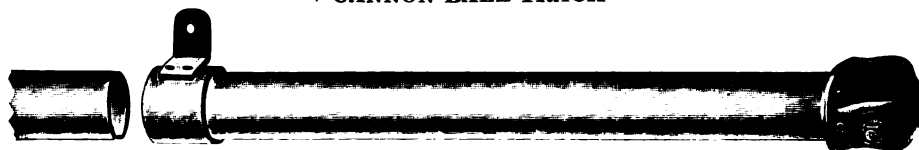

No. 884—2 1/4 inch Noiseless Wide Tread, Special Steel Ball Wheels, Hardened Steel Rollers, 1 1/4 x 6 1/4 inch Japanned Steel Door Straps, 9 1/2 inch Malleable Iron Pendant Loop.....\$24.00
Weight Per Dozen Pairs 74 Pounds.

The Cannon Ball Hanger Runs inside the track, not outside. It is frictionless and noiseless. The frame is double strap, light and steady running, completely enclosed, water and bird proof.

★The adjustment of the door up and down on No. 507 Hanger is accomplished by means of a vertical adjustment screw and plate which rests on the top of the door under the strap. The adjusting screw has a large flat head 1 1/4 inch diameter and 1/4 inch thick, which hangs in the lateral adjustment stirrup.

One Pair in a Box with Bolts, Six Pairs in a Case.

CANNON BALL TRACK

View Showing Section of Track and Center and End Brackets.

No. 387—Cannon Ball, 2 1/4 inch Diameter, 14 Gauge Steel, with 1/4 inch Slot on Under Side to Take Hanger Frame, 2 1/2 inch Steel Splices, with 1 1/2 x 1/4 inch Brackets Attached, 3 foot Sections.....\$0.24
Weight of Track Per Crate of 96 Feet 205 Pounds.
Extra Center Brackets—For Cannon Ball Track, Weight Per Dozen 11 Lbs.....\$1.80
Extra End Brackets—For Cannon Ball Track, Weight Per Dozen 7 Lbs.....1.80

WATERSHED, TANDEM TYPE

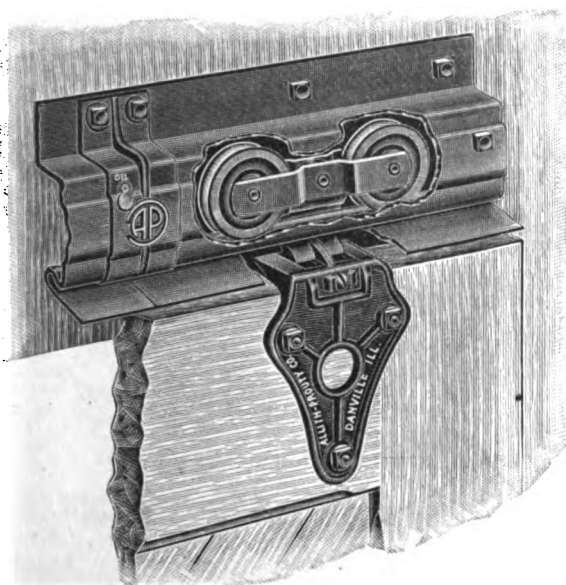

Hanger—This Hanger is of the Tandem Type, made of best quality malleable iron and finished in black enamel. Roller Bearings with rounded ends reduce friction and prevent the bearings from cutting into the frame. Hanger adjustment permits its use on doors of different thickness. Swing-out feature is provided by the Frictionless Tilting of the Hanger Wheels on the rounded tread of the track.

Track—Made of 14 gauge high carbon steel, without rivets and electric weld, making the strongest and most rigid Barn Door Track of its type. The rounded surface forms an ideal bearing surface for the wheels. Self-cleaning and bird-proof. Opening at bottom of track only 5/8 inch. Ribbed malleable joint brackets with oil holes through which the hanger bearings may be oiled. Bolts tightly to wall every 12 inches. No center brackets used.

Non-Breakable Malleable Iron Frame, Rounded End Steel Roller Bearings, Adjustable, Weather Weight and Bird-Proof, Self-Cleaning.

No. 1010—Hangers, Black Japanned, Adjustable in and Out from Building, with Joint Bracket, Two End Stops and Bolts for Hangers and Lag Screws for Track, Weight Per Dozen Pairs 115 Lbs.....\$24.00

SLIDING FOLDING GARAGE DOOR FIXTURES

R-W, ROLLER BEARING

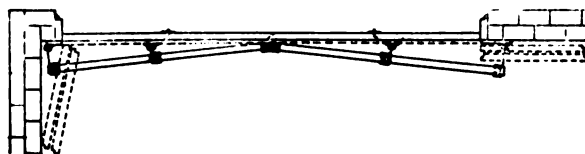

Meets the demand for a fixture that will allow hinge doors to fold and swing inside of building, requiring only minimum space. Not recommended for doors over 3 feet in width.

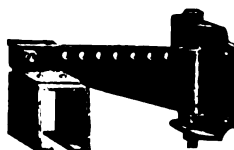

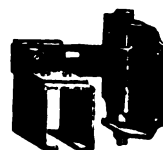

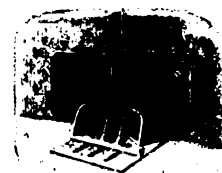

With this fixture doors will close perfectly tight into door frame — cannot sag, operate very easily and make a very attractive front on the building.

Four doors hinged together in pairs are required for each opening, one pair folding to each side. Will stand at any angle or parallel with front walls.

Cut Shows Hardware Applied to Door.

No. 435C—Center Brackets	Each, .80	No. 271 —Adjustable Floor Center Guide....	Each, .80
No. 435E—End Brackets	Each, 1.00	No. 301-72—Steel Bumper Shoes.....	Each, .10
No. 435I—Intermediate Brackets	Each, .70		

Note—In Ordering, State Width and Height of Opening, Also Thickness of Doors.

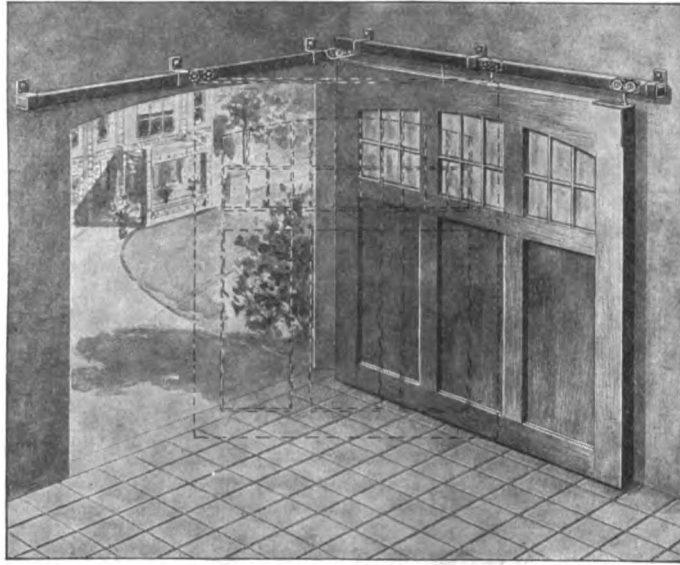

Doors installed with this equipment occupy less room when open than single doors. Makes a nice weather proof and tight job when closed. It is a heat saver in cold weather, due to the close flush fit. Doors are stopped in the same manner as a house door. Doors will not sag under any condition, a common fault to all side hung doors. Permits the use of part or all of the opening at any time. Prevents swaying of doors at top which is almost unavoidable with a wide swing door.

TROLLEY RIGHT GARAGE DOOR HANGERS

R-W

Designed to use where, for lack of room, right angle doors are desired.

As shown in cut, track on side wall is set over track above opening. This requires that the outer end hanger have an extra long pendant.

Cut Shows Hangers Applied.

For use on single door specify four wheel hangers for each end of door.

For use on double doors specify for each door one four wheel hanger for outer end and one two wheel hanger for inner end.

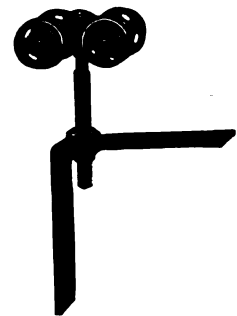

Hangers packed with screws one in a box.

GATE HINGES AND LATCHES

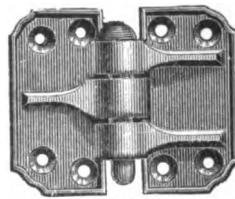

Latch.

To Swing One Way, Self-Closing, Reversible for Either Right or Left Hand Gates.

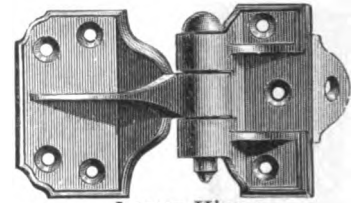

No. 1L—Latch Only, Plain Cast Iron, Screw Hole Adjustment, $2\frac{1}{4} \times 1\frac{1}{4}$ inch Case.....\$1.50
Weight Per Dozen 9 $\frac{1}{2}$ Pounds.
One-half Dozen in a Box.

CLARK'S

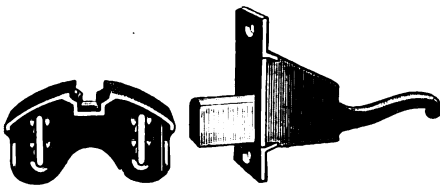

Upper Hinge.

No. 1H—Hinges Only, Plain Cast Iron, $3\frac{3}{4} \times 4\frac{1}{2}$ inch Upper Hinge, $3\frac{1}{2} \times 4$ inch Lower Hinge.....\$3.00
Weight Per Dozen Pairs 32 Pounds.
One-twelfth Dozen Pairs in a Box.

Lower Hinge.

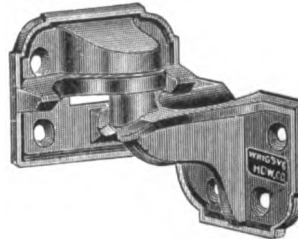

No. 1—Sets, Consists of One No. 1L Latch and 1 Pair No. 1H Hinges.....\$4.50
Weight Per Dozen Sets 43 Pounds.
One-twelfth Dozen Sets in a Box.

Latch.

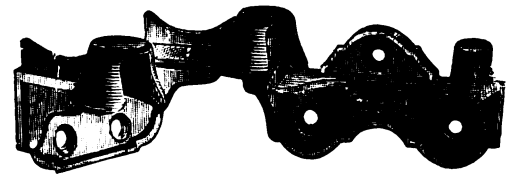

To Swing Both Ways, Self-Closing, Reversible for Either Right or Left Hand Gates.

No. 2L—Latch Only, Plain Cast Iron, Mortise, with Screw Hole Adjustment, Face $3\frac{1}{2}$ inches Long, Case $1\frac{1}{4}$ inches Deep.....\$1.50
Weight Per Dozen $8\frac{1}{2}$ Pounds.
One-half Dozen in a Box.

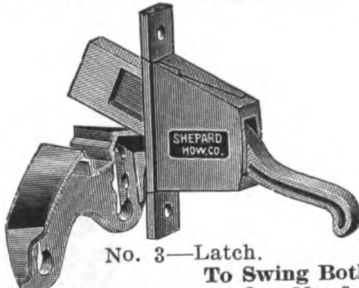

Upper Hinge.

No. 2H—Hinges Only, Plain Cast Iron, $3\frac{3}{4} \times 2\frac{1}{8}$ inch Upper Hinge Plate, Opens 3 inches, $2\frac{1}{4} \times 4$ inch Lower Hinge Post Plate, $1\frac{1}{4} \times 3\frac{3}{4}$ inch Gate Plate, Opens 3 inches..\$4.50
Weight Per Dozen Pairs 28 Pounds.
One-twelfth Dozen Pairs in a Box.

Lower Hinge.

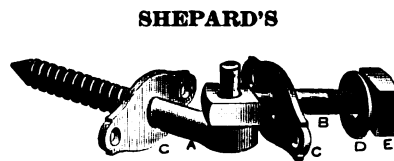

No. 2—Sets, Consists of One No. 2L Latch and One Pair No. 2H Hinges.....\$4.70
Weight Per Dozen Sets 43 Pounds.
One-twelfth Dozen Sets in a Box.

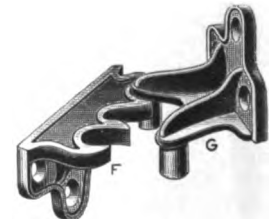

No. 3—Latch.

To Swing Both Ways, Self-Closing, Reversible for Either Right or Left Hand Gates.

No. 3 Sets—Consists of One No. 3 Plain Cast Iron Latch, Face $3\frac{1}{2}$ inches Long, Case $1\frac{1}{4}$ inches Deep, One No. 3 Wrought Iron Upper Hinge, $8\frac{1}{4}$ inches Long Over All, $4\frac{1}{2}$ inch Screw, and One No. 3 Cast Iron Lower Hinge, Plates $3\frac{1}{4}$ inches Wide.....\$10.00
Weight Per Dozen Sets 40 Pounds.
One Set in a Box; Two Dozen Sets in a Case.

No. 3—Upper Hinge.

No. 3—Lower Hinge.

HOOK AND EYE HINGES

Wrought.

Inches	1 1/2	5/8	3/4
Ave. Wt. Per Dozen Pairs, Lbs.	13	22	36
Per Pound	\$0.20	.15	.13

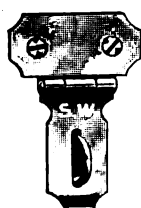

No. 925J—Wrought Steel, Japanned, Double Hinge.

Extreme Length of Hinge, Inches	4 1/2	6
Width at Joint, Inches	1 1/2	..
Dist. Between Center of Hinges, In	1 1/2	..
Weight Per Dozen, Lbs.	5	..
Per Dozen	\$2.90	4.40

Designed particularly for boxes, tool chests, lockers, etc. When hasp is closed the screw holes are concealed, making it impossible to take off the hasp without first removing the padlock.

One-half Dozen in a Box, with Screws.

LIGHT T

No. 345C—Wrought Steel, Brass Plated.

Extreme Length, Inches	2 5/8
Width at Joint, Inches	1
Weight Per Dozen, Lbs.	3 1/4
Per Dozen	\$2.00

One Dozen in a Box, with Screws.

HINGE HASPS

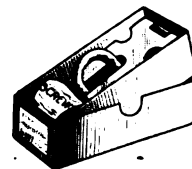

No. 813—Wrought Steel, Bright.

Length of Strap, Inches	3	4 1/2	6	8
Width at Joint, Inches	1 1/2	1 1/2	1 1/2	1 7/8
Size of Screws, Nos.	6	7	9	10
No. of Screw Holes	7	7	8	8
Weight Per Dozen, Lbs.	2	2 1/4	5	8 1/4
Per Single Dozen	\$0.75	.90	1.25	1.50

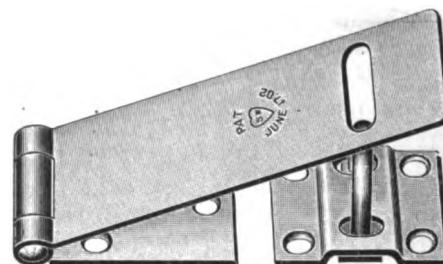

No. SC813—Wrought Steel, Bright, One in a Box, with Screws.

Lgth. of Strap, In.	3	4 1/2	6	8
Per Single Dozen	\$1.60	2.00	2.65	3.50

Cut Shows One in a Box, with Screws.

SAFETY HASPS

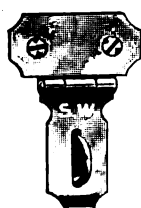

No. 915—Wrought Steel, Bright.

Length of Strap, Inches	3	4 1/2	6
Width at Joint, Inches	1 1/2	1 1/2	1 7/8
Size of Screw, Nos.	7	7	8
Wt. Per Single Dozen, Lbs.	3 1/4	4 1/4	9
Per Single Dozen	\$1.80	2.40	3.40

These Hasps are made with concealed screw holes, rendering it impossible to take Hasp off when locked.

One-half Dozen in a Box.

BASKET HASPS

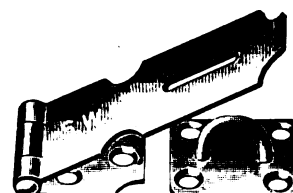

No. 345C—Wrought Steel, Brass Plated.

Extreme Length, Inches	2 5/8
Width at Joint, Inches	1
Weight Per Dozen, Lbs.	3 1/4
Per Dozen	\$2.00

One Dozen in a Box, with Screws.

SAFETY

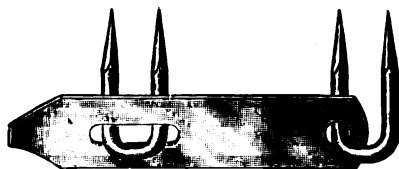

No. 346C—Wrought Steel, Brass Plated.

Length, Inches	2 1/2
Width at Joint, Inches	7/8
Weight Per Dozen, Lbs.	1 1/4
Per Dozen	\$2.00

One Dozen in a Box, with Screws.

HASPS AND STAPLES

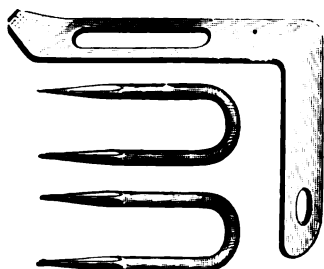

No. 20—Wrought Steel, Plain.

Length, Inches	5	6	7	8	9	10
Wt. Per Dozen, Lbs.	1 1/2	2	2 1/2	3 1/2	4 1/4	5
Per Dozen	\$0.90	1.00	1.10	1.30	1.70	2.00

One Dozen in a Box.

BENT HASPS AND STAPLES

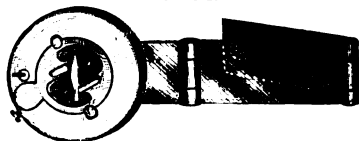

No. 40—Wrought Steel, Plain, with Two Staples.

Inches	5	6	7	8
Weight Per Dozen, Lbs.	1 1/2	2	2 1/2	3 1/2
Per Dozen	\$1.10	1.30	1.40	1.60

One Dozen in a Box.

HASP LOCKS

PROUTY

Self-Locking, Black Japanned.

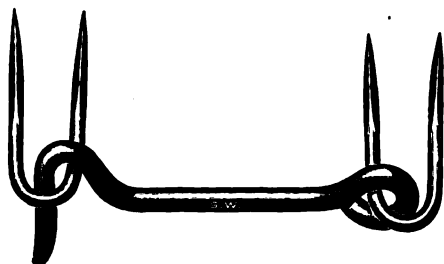

Per Dozen

No. 22—7 3/4 inches Long, Black Japanned, Double Hinge, Steel Hasp, Solid Brass Lock with 2 Keys, 100 Key Changes, to be Used as Chest Lock or where it is Desired to Employ the Lock in or Around Corner\$7.00

The Locking Bar of this Hasp Lock corresponds to the shackle on the ordinary padlock, but in the "Prouty" is contained entirely within the lock. This renders it impossible to secure any hold or leverage whereby the lock could be forced to break open, the entire lock must be destroyed. The fact that the locking bar cannot be used as a feeler makes it nearly impossible to file a duplicate key.

Weight Per Dozen 7 3/4 Pounds.
One Dozen in a Box, with Screws.

HOOKS AND STAPLES

Bright Wire, Extra Heavy.

Size, Inches	5x 1/8
Weight Per Gross, Lbs.	30
Per Gross	\$5.25

One-quarter Gross in a Box.

6x 1/8
37
5.60

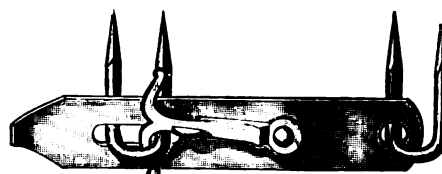

No. 850—PERFECT, Wrought Steel, Bright.

Length, Inches	8
Weight Per Dozen, Lbs.	4
Per Dozen	\$0.90

This Hasp can be operated by one hand, cannot be opened accidentally as the weight of the head and shape of the slot hold it in place, can be locked with padlock, suitable for either right or left hand.

One Dozen in a Box.

HASPS, HOOKS AND STAPLES

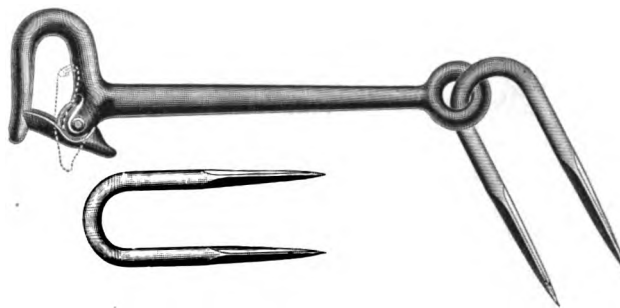

No. 30—Wrought Steel, Plain, with Double Hook.

Length, Inches	5	6	7	8	9	10
Wt. Per Dozen, Lbs.	2	2 1/2	3	3 1/2	4 1/2	5 1/2
Per Dozen	\$1.20	1.40	1.60	1.80	2.20	2.50

One Dozen in a Box.

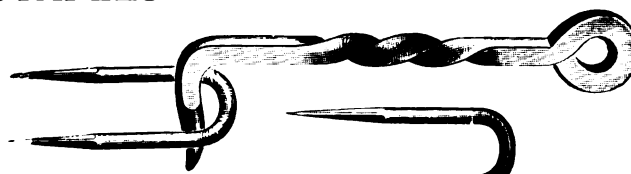

SAFETY GATE HOOKS

No. 100—Malleable Iron Hook, Wrought Steel Staples, Tinned.

Length, Inches	4	5	6
Weight Per Gross, Lbs.	24	27	30

EGG CASE

Size	Length, Inches	Gauge No.	No. Nails in Keg	Net Wt. Per Keg, Lbs.	Advance Over Base
3D	1½	15	51,700	70	\$0.60

This is a special nail made at solicitation of egg shippers. They have a very large head and are adapted to egg cases and other similar uses.

Note—Cement Coated Nails are made with great care and are suitable for either machine or hand driving. Coated Nails are put up by count, not by weight. A keg contains the same amount of nails as a keg of uncoated, but being lighter they weigh less.

ROOFING NAILS

BARBED

Polished.

SIMPLEX

Barbed, 1 inch Pressed Steel Disc Head.

Length, Inches	1
Gauge	12
Per Pound	\$.....

The Simplex Nail is in one piece, having the stem riveted on both sides of the head. The head is much thicker than the tin cap, this prevents buckling of the head, leakage, and increases the life of the nail as the head will not rust through like a tin cap.

One Hundred Pounds in a Keg.

GARDEN CULTIVATORS

PULL EASY

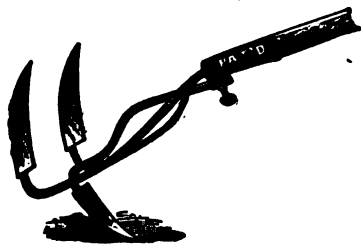

Adjustable, Drop Forged Teeth.

Per Dozen

- No. PE—Nine Teeth, Removable Middle Tooth, Adjustable from 7 to 18 inches Wide, Can be Used as Cultivator and Rake, Adjustment Made with Thumb Nut, 4 1/2 foot Handle.....\$21.00
Weight Each 3 1/2 Pounds.
One-half Dozen in a Bundle.

IMPROVED GARDENER'S FRIEND

Used as a Drill.

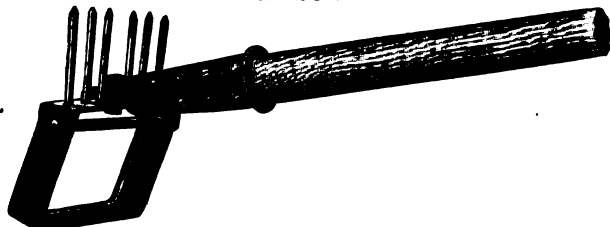

Used for General Cultivating.

Shield Used in Place of Center Plow.

Per Dozen

- No. 8U—Combination Garden Tool, Solid Cast Steel Shovels, 1 3/4 x 4 1/4 inches, Edges are Sharpened Entire Length, for Cutting Weeds, 4 1/2 foot Selected Handle, Weight Complete 3 1/2 Lbs.....\$15.00
This tool enables one to do three times as much cultivating as with the common hoe; it stirs up the soil and leaves it in a smooth condition.

WEEDERS
GILSON

High Grade Steel Blade, Steel Rake Teeth, Malleable Iron Socket, Painted, 6 foot Hardwood Handle.

Per Dozen

- No. 8 1/2—3 1/2 inch Cutting Blade, for Narrow Rows, for Nurseries, Florists and Hard Soil.....\$ 8.40
No. 5—5 inch Cutting Blade, for General Garden Purposes, an All Around Tool, Very Popular..... 9.00
No. 6—6 inch Cutting Blade, for General Gardening where the Soil is Light and Rows Wide Enough Apart to Allow the Weeder to be Operated Properly..... 9.60
No. 8—8 inch Cutting Blade for Sandy Soil as is Usually Found in Potato Growing Districts..... 10.80
Gilson Weeder, the new wonder working tool, makes gardening a pleasure—more and better work in less time.
Average Weight Per Dozen 40 Pounds.

FEATHER-WEIGHT

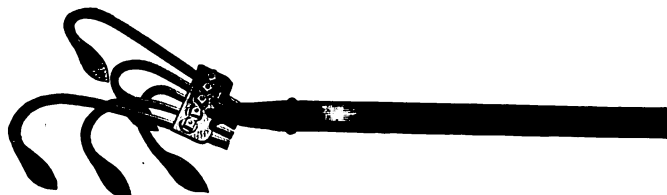

Forged from Solid Piece of Tool Steel.

Per Dozen

- No. FWS—Three Natural Finished Tines, with Drop Forged Points, 4 1/2 foot Ash Handle.....\$8.00
Light and strong. Being forged from one solid piece of tool steel, its weight is far less than that of other cultivators and there are no bolted parts to work loose. Points work from 1 to 2 inches beneath the soil surface.
For keeping in moisture and working up close to growing plants, this cultivator is very efficient.
Average Weight Per Dozen 30 Pounds.
One-half Dozen in a Bundle.

INVINCIBLE

High Grade Forged Steel Blades, Malleable Iron Socket and Head.

Per Dozen

- No. IGC5—Five Adjustable Steel Blades, 4 1/2 foot Handle.....\$13.50
Works between rows. Every part is detachable. Center tooth can be removed and rows straddled. Pulverizes soil thoroughly.

Average Weight Per Dozen 40 Pounds.
One-half Dozen in a Bundle, Tines Burlapped.

NORCROSS

Per Dozen

- No. 5N—5 Adjustable 1/4 inch Square Spring Steel Prongs with Forged Shovels, Malleable Head, Glossy Black Painted Metal Parts, Silver Bronzed Shovels, 4 foot Waxed and Belted Best Quality White Ash Handle, without Universal Connection, Weight Each 3 Lbs.....\$13.50

The prongs are changeable for rows of any width. Loosening two nuts releases any prong without disturbing the others. Works between rows or center prong can be removed and rows straddled. Removing center prong and reversing other four, makes a potato digger.

Weight Per Dozen 40 Pounds.
One-half Dozen in a Bundle, Crated.

NORCROSS MIDGET WEEDER

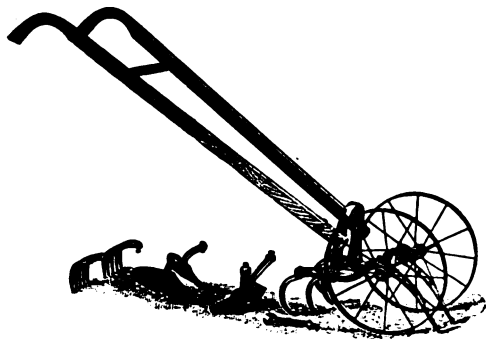

Per Dozen

- Midget—Three Blades, 1/4 inch Square Spring Steel Prongs, Attached to Malleable Iron Head with Two Bolts, Black Painted Metal Parts, Silver Bronzed Shovels, 9 inch Handle.....\$4.50
Designed for use in flowers, small shrubbery, etc.
Average Weight Per Dozen 10 Pounds.
One-half Dozen in a Bundle, Crated.

GARDEN PLOWS

STANDARD CULTIVATOR

Single and Double Wheel.

Ground and Polished Hard Steel Attachments, Malleable Iron Wearing Parts, Hardwood Handles, Nicely Finished.

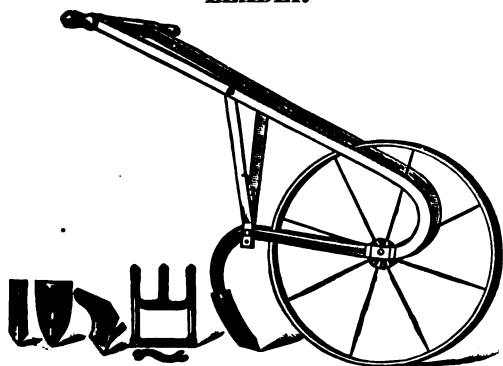

Each

No. 4—16 inch Steel Wheels, Complete with 4 Shovels, 1 Pair Hoes, 1 Pair Diamonds, 1 Pair Rakes, 2 Leaf Guards and Wrench.....\$10.00

Can be changed in a minute from a double wheel, for cultivating astride the rows, to a single wheel to cultivate between rows. When set up either as a single or double wheel, the wheels can be adjusted up or down to gauge the depth of work; the handles are also adjustable for height to suit boy or man.

Weight Each Complete 40 Pounds.

LEADER

Each

No. 3—24 inch Wheel, Steel and Malleable Iron Construction, Wood Cross Bar Handle, Steel Attachments with Each Plow are Mould Board with Land Slide, Shovel, Calf-Tongue, Weeder and Cultivator...\$4.00

It is so constructed that the center of weight falls directly over the pivoting point of the axle, making it self-balancing. Handle can be raised or lowered to suit man or boy. The cross-handle makes plow more easily guided and pushed, with less strain on the arms than the vertical or bent handles. The weight of the operator's body can be used against handle.

Weight Each Complete 25 Pounds.

MIDGET SEEDERS

Will Attach to Single Wheel Cultivators.

Attaches with One Bolt in Same Place and Same Manner as the Cultivating Tools.

Each

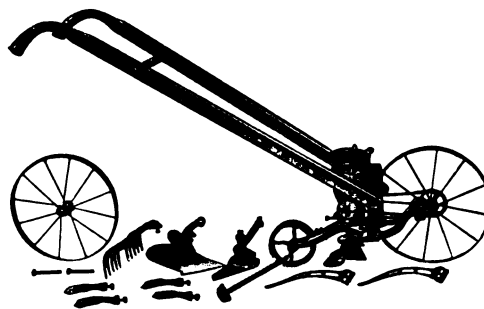

No. 1—8 inch Steel Wheel, 1 1/4 inches Wide, Gray Iron Hopper with Malleable Iron Cover, Brass Seed Tube, Hopper Holds 1 Pint but will Handle and Drill Out Clean a 5¢ Package of Seed.....\$2.90
Weight Each 7 Pounds.

Index naming several varieties of seed; no trouble to adjust; adjustable shoe for any depth.

One in a Box.

STANDARD SEEDER AND CULTIVATOR

Single and Double Wheel, Cultivator Hoes, Plows and Rakes, with Hill and Drill Seeder.

Ground and Polished Hard Steel Attachments, Malleable Iron Wearing Parts, Hardwood Handles, Nicely Finished.

Each

No. 9—16 inch Steel Wheels, Complete with 4 Shovels, 1 Pair of Hoes, 1 Pair Diamonds, 1 Pair Rakes, 2 Leaf Guards, Hill and Drill Seeder and Wrench...\$18.00

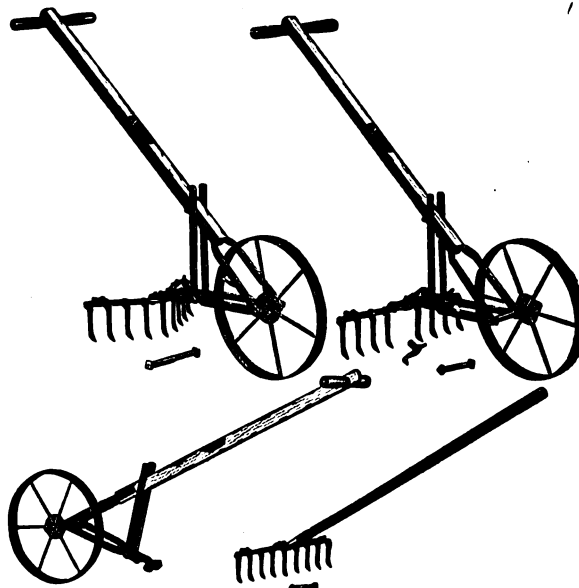

Can be changed from a double to a single wheel cultivator in a minute.

With the Hill and Drill Seeder Attachment it is three practical tools combined on one. This tool will not only deliver seed in drills, but by shifting one part only, without the use of tools, will drop hills 4, 6, 8, 12 and 24 inches apart.

Weight Each Complete 58 Pounds.

PULL-EASY WHEEL CULTIVATOR

DUADJUSTO

Each

No. PEW—14 inch Electro Welded Wheel with 1 inch Rim, Arms Adjustable from 7 to 18 inches, Middle Tooth can be Removed, Each Tooth and Cross Bar Made of One Piece of Cold Pressed Steel, Rigid and Unbreakable, Handle 35 inches Long, Made of Polished Maple, Varnished, Frame Parts and Cultivator Painted Steel Gray, Weight Each 10 Lbs...\$4.00

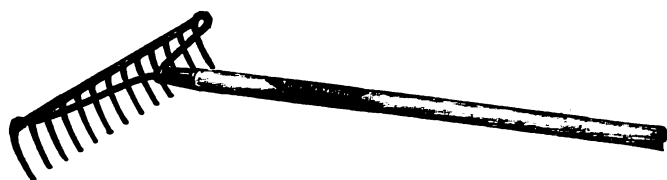

Wheel may be offset and middle tooth removed for straddling row. Four height adjustments.

The Duadjusto is the only Wheel Cultivator that can be changed to a hand cultivator. All that is necessary is to loosen two bolts. The handle for the Hand Cultivator is not furnished with the equipment.

Three in a Crate.

HAY CARRIERS

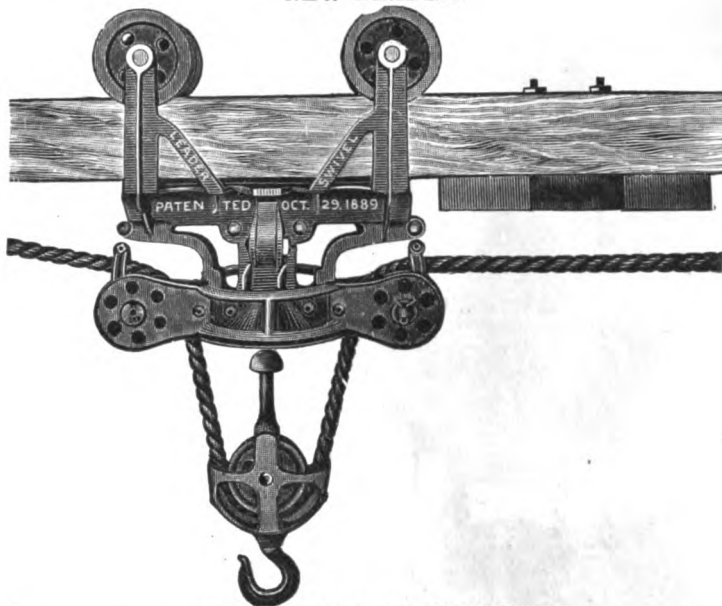

MILWAUKEE IMPROVED

Double Swivel, for Wood Track. Each

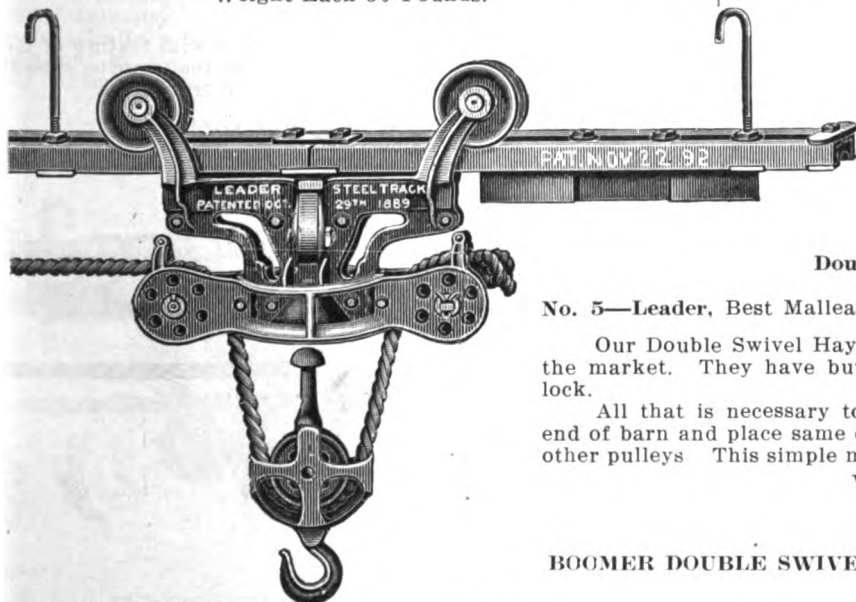

No. 2—Milwaukee Improved, Best Malleable Iron, Two Piece Positive Lock, for 4x4 inch Wood Track.....\$7.00
Weight Each 30 Pounds.

NEW LEADER

Double Swivel, for Wood Track. Each

No. 8—New Leader, Best Malleable Iron, Two Piece Positive Lock, for 4x4 inch Wood Track.....\$7.00
Weight Each 32 Pounds.

LEADER.

Double Swivel, for Steel Track. Each

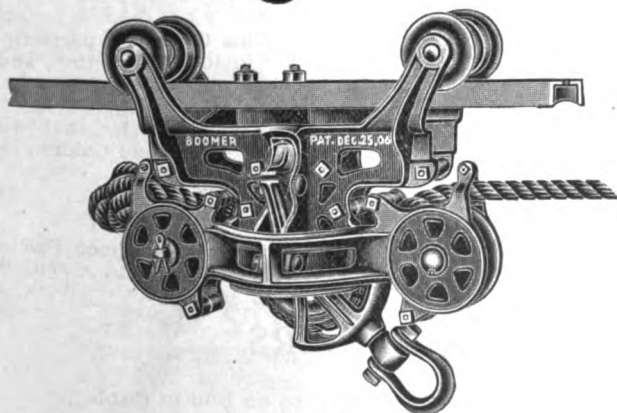

No. 5—Leader, Best Malleable Iron, Two Piece Positive Lock.....\$7.00

Our Double Swivel Hay Carriers are the best working Carriers placed upon the market. They have but two pieces in the lock, which makes it a positive lock.

All that is necessary to work it either way is to take off the pulley from end of barn and place same on opposite end of barn. Do not unstring rope from other pulleys. This simple method saves annoyance and time.

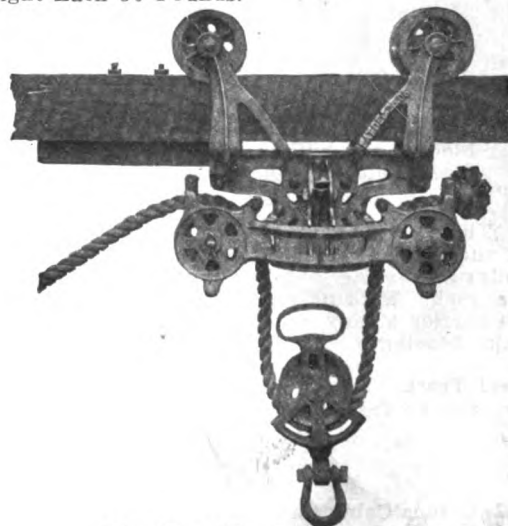

Weight Each 30 Pounds.

BOOMER DOUBLE SWIVEL.

For Steel Track. Each

No. 1—Boomer Double Swivel, High Grade Malleable Iron, Large Mouth Pattern.....\$6.00
Weight Each 34 Pounds.

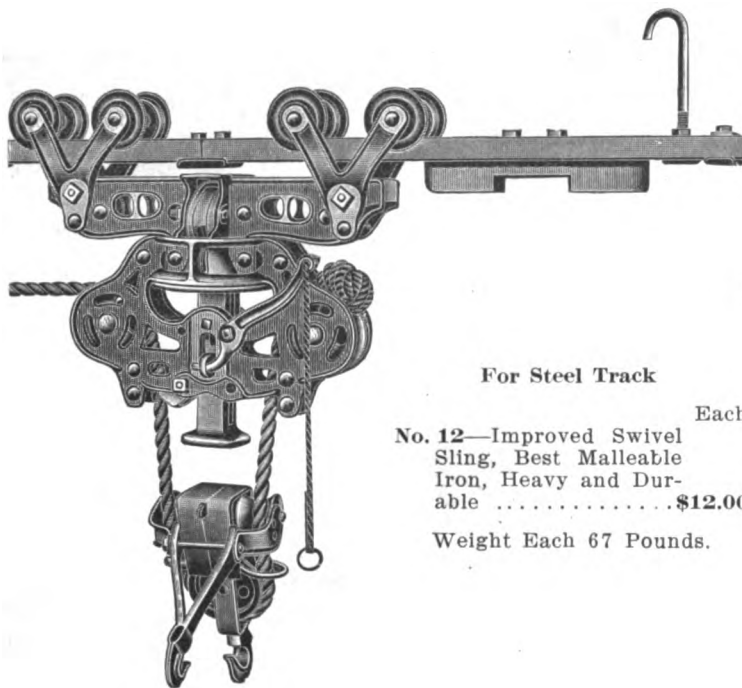

For Wood Track. Each

No. 2B—Boomer Double Swivel, High Grade Malleable Iron, Large Mouth Pattern, for 4x4 inch Wood Track.....\$6.00
Weight Each 37 Pounds.

These Carriers are of the large mouth pattern, the fork pulley having the swivel clevis and swinging yoke which allows the malleable iron links to pass well up into the car, where it is grasped by the dogs and firmly held. These features do away with any friction, or twisting strain on any part of the carrier, and allow the operator to fill the barn to the highest point possible. The sheaves being large will carry any size rope up to one inch.

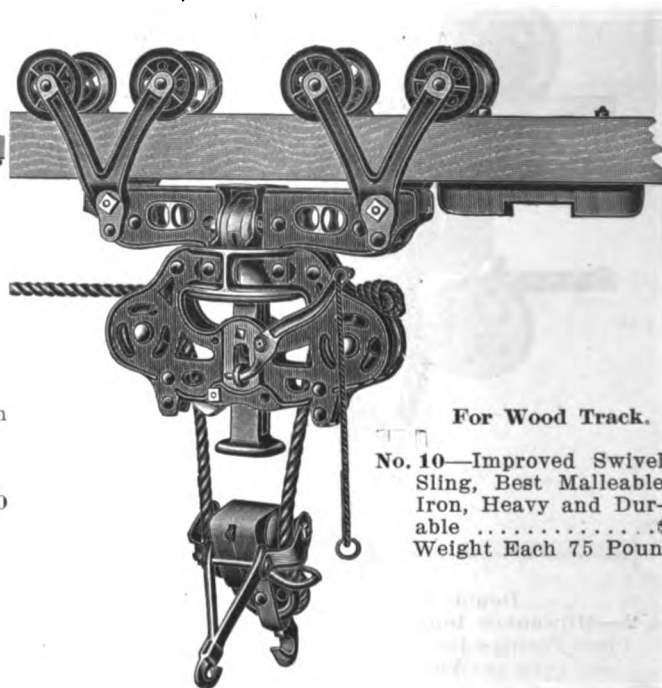

HAY CARRIERS

IMPROVED SWIVEL SLING

For Steel Track

No. 12—Improved Swivel Sling, Best Malleable Iron, Heavy and Durable \$12.00
Weight Each 67 Pounds.

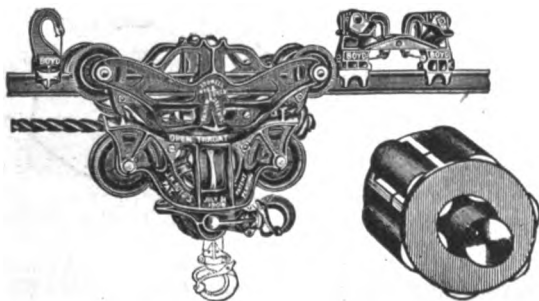

For Wood Track.

No. 10—Improved Swivel Sling, Best Malleable Iron, Heavy and Durable \$12.00
Weight Each 75 Pounds.

These Carriers draw the Hay or Grain up direct as the load stands with no twist in the rope. A special feature of these Carriers is that often when the barn is empty it is not necessary to raise the load up to the track, for the load can be raised to any point desired and tripped, thereby saving not only time, but half the distance or more for the horses to travel.

BOYD OPEN THROAT.

Cut Shows Patent Anti-Friction Steel Roller Bearings.

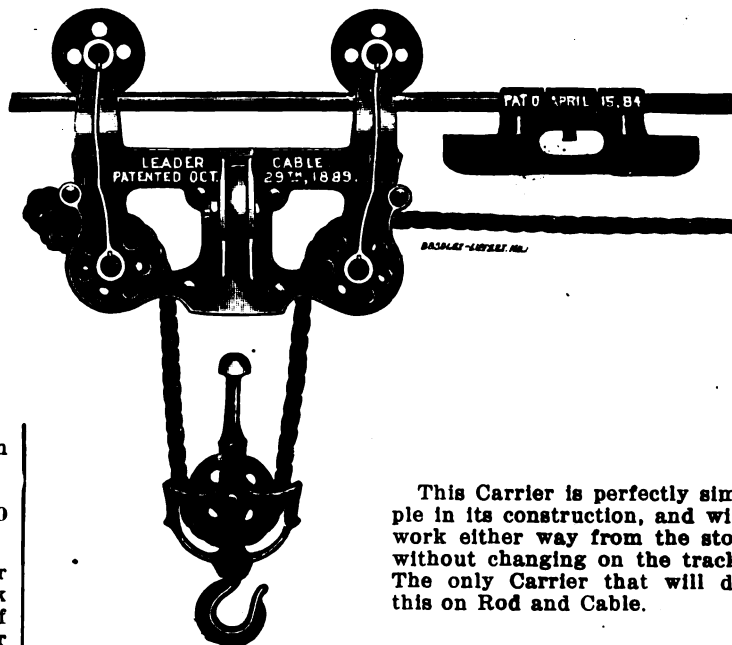

For Steel Track.

No. 20—Boyd Open Throat, Best Malleable Iron, Three Piece Lock without Springs, Patent Anti-Friction Steel Roller Bearings, Aluminum Finished.....\$8.00
Weight Each 40 Pounds.

This Carrier has a wider flare of the throat than any other on the market, measuring 6 inches inside. The jointed fork pulley allows the fork hook to swing up to within 6 inches of the track. Fork pulley has a round top permitting it to enter the carrier at any angle. All rope pulleys are supplied with roller bearings.

Steel Track—For Boyd Open Throat Carrier, in 5, 10 and 15 feet Lengths \$0.22 Per Foot

LEADER ROD OR CABLE

For Rod or Cable.

No. 14—Leader, Best Malleable Iron, Two Piece Positive Lock, Strong and Durable.....\$7.50
Weight Each 23 Pounds.

This Carrier is perfectly simple in its construction, and will work either way from the stop without changing on the track. The only Carrier that will do this on Rod and Cable.

STACKING OUTFIT FOR CABLE CARRIERS

FOR A 50 FOOT STACK.

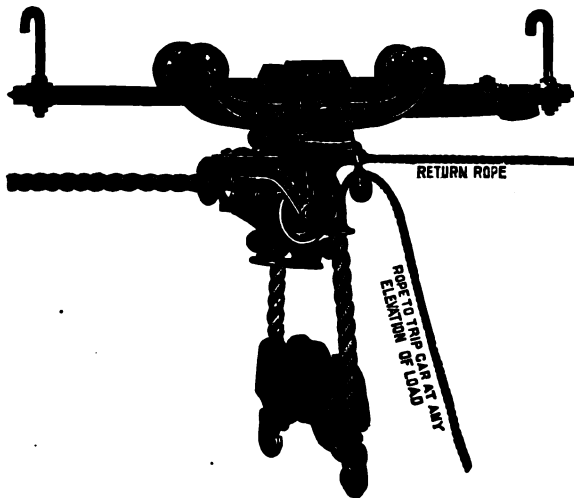

- | | |
|--|--|
| 1 Leader Cable Carrier. | 2 Pair Clamps to Make Loops on End of Cable. |
| 1 Hay Fork. | 2 Hay Fork Pulleys. |
| 150 Feet ½ Inch Galvanized Wire Cable. | 130 Feet or Longer ¾ Inch Manila Rope. |
| 2 Pair Square Collars to Hold Derrick Poles in Position. | 65 Feet ¼ Inch Check Rope for Hay Fork. |

WIRE ROPE

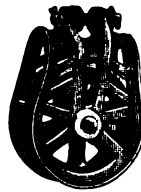

Wire Rope—½ Inch Diameter, Galvanized, for Cable Carrier to Run On, in 150 Foot Coils.....\$0.05 Per Foot

HAY CARRIERS

CLOVER LEAF RIGHT ANGLE SLING ELEVATOR

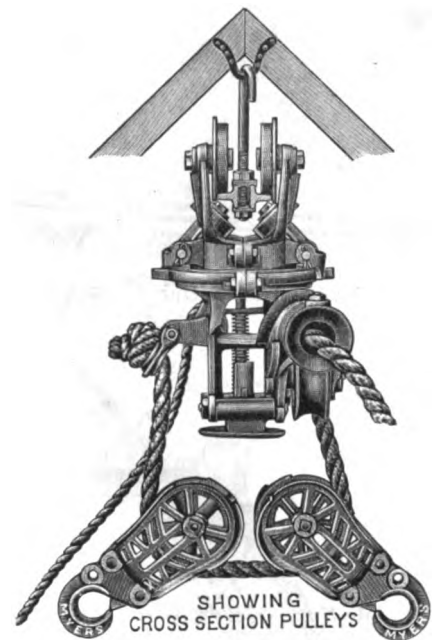

For Double Steel Track.

TRIPLE HOIST ATTACHMENT

Knocker Used on the Clover Leaf Right Angle Fork and Sling Elevator.

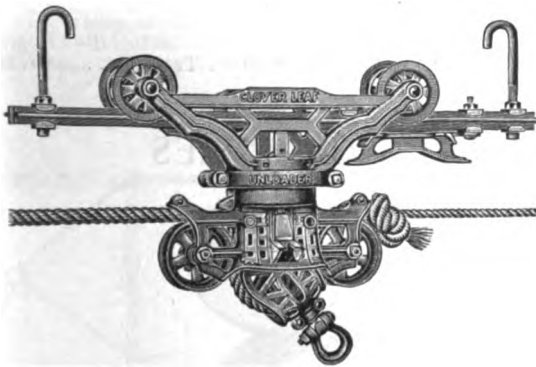

SHOWING CROSS SECTION PULLEYS

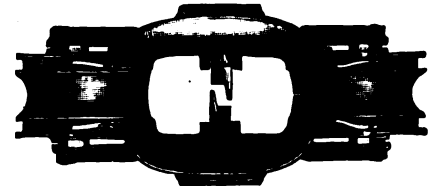

- Each
 No. 70—Malleable Iron Throughout, $\frac{3}{8}$ in. Tinned Steel Axles, Double Hoist, Rope Draft\$14.50
 No. 71—Same as No. 70, but Triple Hoist..... 15.00
 Weight Each 52 Pounds.

Deposits the load in the mow in the right position without the use of right angle pulleys. Reversed by turning the swivel from left to right. Very heavy and of sufficient strength, with a truck operating on an 18 inch wheel base. Operates automatically, and is tripped by the sling pulley striking a plate immediately under the carrier. Also arranged with a separate trip rope by the use of which the load may be carried into the mow at any elevation desired without drawing entirely to top of the barn.

CLOVER LEAF UNLOADER

Track Wheel and Turned Steel Axle

Cut Illustrating Wide Open Mouth.

For Double Steel Track.

Swivel and Reversible, 16 Inch Truck.

- Each
 No. 114—Malleable Iron Throughout, $\frac{3}{8}$ inch Turned Steel Axles, Swinging Fork Pulley, Wide Open Mouth, Rope Draft.....\$8.50
 Weight Each 28 Pounds.

Heavy and substantially made. Fitted with wide open mouth to receive fork pulley when approaching in any direction. Also has swinging fork pulley which relieves the carrier from all strain when drawing hay over a high beam or into a well filled mow.

FORK PULLEYS

For No. 114 Unloader.

- Each
 No. FP—Malleable Iron, for No. 114 Clover Leaf Unloader.....\$1.00

HAY RACK CLAMPS

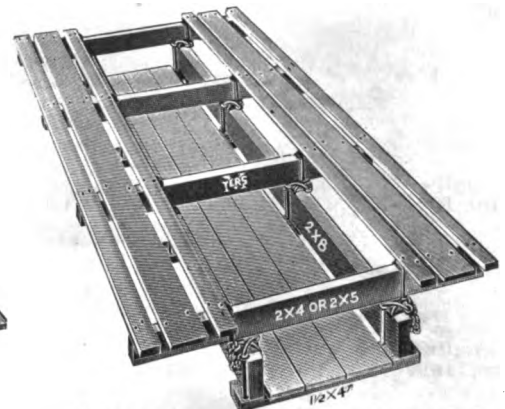

MYER'S TAKE-DOWN

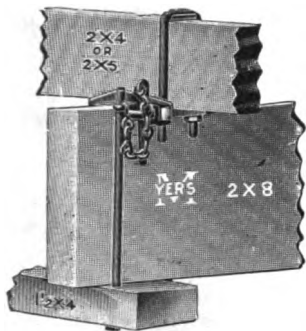

Beds Sills—After the Top part has been removed, can be used for many other purposes.

Top Part of the Ladder—One man can put it on or remove it from the wagon.

Ladder Complete—Can be taken apart by removing two pins.

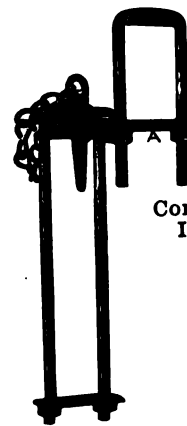

The Timbers Clamped Together.

A Perfect Clamp, No Holes in Timbers to Rot or Weaken Them.

One man can put it on or remove it from the wagon.

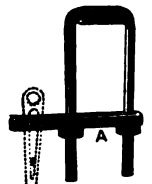

Special Features—The hay rack or ladder can be taken apart by removing two pins, which enables the user to place the rack on the wagon or remove it in two sections and without assistance. An entirely new departure from any thing now on the market.

Complete Iron.

Lower Half of Clamp.

Clamp that Attaches the Top Section to Sills by a Steel Bar.

Made Entirely of Steel and Malleable Iron.

No. 6—For 8 inch Sill and 4 or 5 inch Cross Timber, Weight Per Dozen Sets 192 Lbs. \$29.00
No. 7—For 10 inch Sill and 6 inch Cross Timber, Weight Per Dozen Sets 240 Lbs. 32.00
One Set in a Box.

Per Dozen Sets

WENZELMANN PATENT FIXTURES

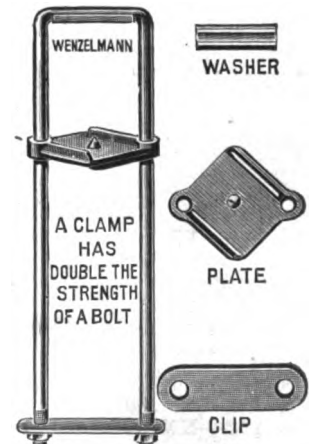

The modern way of building Hay Rocks. By using the Wenzelmann Hay Rack Fixtures the boring of holes in the timbers is not necessary. By their use the full strength of the timbers is retained and does away with the holes, which simply collect water and hasten decay.

It requires a very short time to build a rack with the use of these fixtures. A wrench and saw is about all the tools required.

Made Entirely of Steel and Malleable Iron.
Set Consists of 8 Clamps and Fixtures.

Per Dozen Sets
No. 1—14 inch to Clamp 2x4, 2x8, 2x4 inch, Weight

ROAD SCRAPERS

KING

With Steel Runners.

- No. 2K—Capacity 5 Cubic Feet, 32 inches Long, 28 inches Wide, 10 inches Deep, Weight Each 65 Lbs..**\$9.80**
No. 3K—Capacity 3 Cubic Feet, 32 inches Long, 25 inches Wide, 10 inches Deep, Weight Each 55 Lbs..**8.70**

Each

Made from solid steel, pressed into shape. Has a flange around the top made by turning back the edge of the bowl. This flange reinforces and stiffens the bowl and adds much to the strength and capacity of the scraper.

On account of its lightness, the King can often be used to great advantage in many kinds of work. The wood handles are fastened to side of bowl.

INGHAM

With $\frac{1}{2} \times 1\frac{1}{2}$ inch Steel Runners.

- No. 2-IR—Capacity 5 Cubic Feet, 31 $\frac{1}{2}$ inches Long, 29 inches Wide, 11 $\frac{1}{2}$ inches Deep, Weight Each 94 Lbs.**\$13.25**
Adapted for all railroad, township and farm work. Easily handled by one man and team.

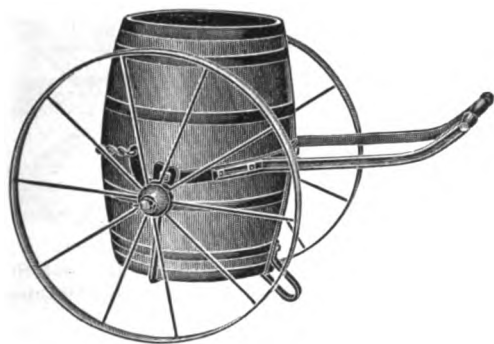

Each

Pressed from a heavy plate of hardened steel of the toughest quality. The handles are round and are fastened to the top of the scraper. The bails fasten to the sides with slotted clamps and are made long and heavy so that they do not twist out of shape and pull the scraper unevenly.

The back and sides are high and on a level nearly to the cutting edge, so that they hold the dirt after the bowl is filled.

BARREL CARTS

IMPROVED DUPLEX

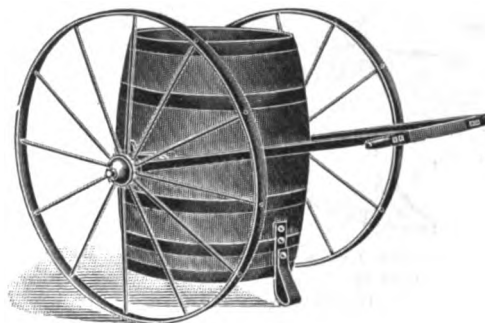

Without Barrel.

Duplex—Steel Frame, Painted Green, 36 inch Steel Wheels, with 2 inch Rim and 4 ½ inch Hub, Painted Yellow, Elliptical Spokes. \$10.00

The barrel is carried direct on the axle, has a device at the bottom to prevent the barrel from slipping off when handle is raised, has new chain take up device for the front to hold barrel back against the frame.

Weight Each 88 Pounds.
Shipped Knocked Down.

ECLIPSE

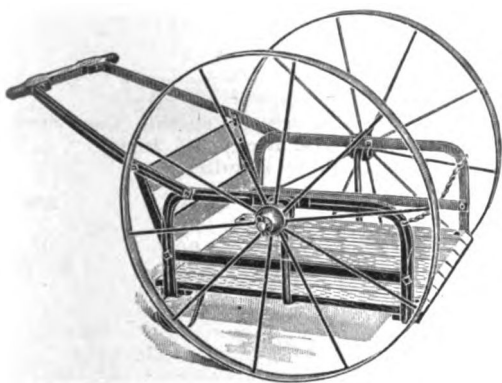

Without Barrel.

Eclipse—Heavy Steel Frame, Turned Steel Axles, 36 inch Steel Wheels with 2 inch Rim and 4 ½ inch Hub, all Bearings are Made to Bolt to Barrel, all Parts Painted Black \$7.00

Weight Each 56 Pounds.

Shipped Knocked Down.

PLATFORM

Platform—27x30 inches, Hardwood Platform, Painted Drab Color, Steel Frame, Painted Red, 30 inch Diameter Yellow Painted Steel Wheels with 2 inch Rim, 4 ½ inch Hub and ½ inch Hole. \$11.50

The low down frame makes it easy to load and unload. It will hold five milk cans or will carry a barrel of water.

Weight Each 100 Pounds.

One in a Bundle, Knocked Down.

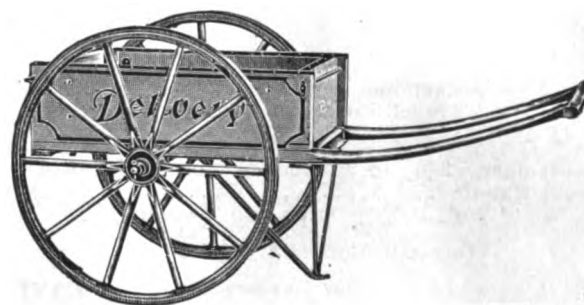

PUSH CARTS

Steel Wheels and Axle.

No. 2—Body 20x37 inches, 8 inches Deep, Ironed Edges, Detachable Side and End Boards, Self Locking Swinging Rest, ¾ inch Steel Axle, 26 inch Steel Wheels, with 1 ½ x ¾ inch Half Oval Steel Tires, 14 inch Front Wheel, Weight Each 68 Lbs. \$16.00

RYAN'S SELF-CLEANING

Per Dozen

No. 10—Best Crucible Cast Steel Blades, Spring Steel Cleaner Rods, Malleable Iron Castings, Selected Hardwood Han-
dles, Length Over All 5 feet..... **\$36.00**

Will dig a 7 inch hole 3 feet deep in one minute. Will work perfectly in any soil from sticky mud to dry sand.
The load is cut free from the blades and forced out by simply spreading the handles.
Weight Per Dozen 125 Pounds.
One-quarter Dozen in a Bundle.

IWAN'S ONE BLADE

Per Dozen

No. 100—Single Tempered Cast Steel Blade, Malleable Iron Handle Sockets, Single Extra Grade Handle, with Lever to
Turn Blade, Steel Rod and Pins, Length 5 feet 5 inches..... **\$20.00**

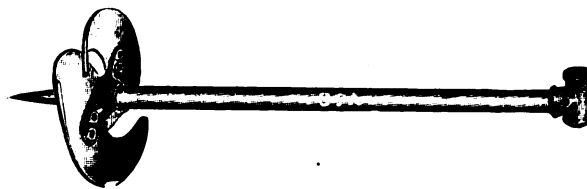

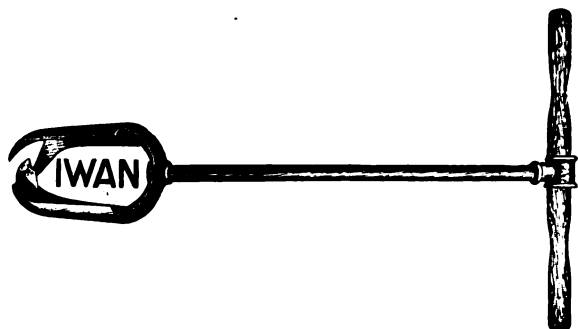

This Digger is exceptionally well suited for digging in stony ground. Having but one blade it can be forced deeper into
the ground than two bladed diggers, and therefore loosens more soil with each plunge. The blade being wide and of large
surface, the digger can also be used as a shovel for replacing the earth in the post hole.

Weight Per Dozen 115 Pounds.
One-sixth Dozen in a Bundle.

In Ten Rod Rolls.

Blue Ribbon Poultry Fence is intended to be exactly what its name implies, an Ideal Fence for Poultry, etc. It is not intended to displace the heavy Poultry Fences, where such are needed; it is not recommended for places where it is necessary to turn Stock as well as Poultry, but for strictly Garden and Poultry Fencing this Fence has distinct advantages over the heavy Poultry Fence, as none of the Heavy Fences are spaced close enough for small chicks, etc. Little chicks fresh from the shell are confined without difficulty by Blue Ribbon Poultry Fence because the spacing is close at the bottom where it is needed. Compared with netting this fence is more advantageous to the user in every respect, and is much easier to erect than a heavy fence.

U. S. POULTRY FENCE

The U-S Poultry Fence is new in the line of poultry fence or netting. It is constructed with Parallel Line Wires for every mesh, which are intertwined with the mesh wires at their points of intersection with right and left twists. The Cable Margin Wires are also connected with the mesh wires with right and left twists. In the process of weaving all wires are under the same tension thus producing a fabric with all line wires the same length and all meshes or openings the same size.

In stretching the tension is on the Line Wires Only, thus preventing any narrowing of the fabric between the posts even though placed 20 or 30 feet apart. Being thus constructed with Parallel Line Wires for every mesh the necessity for Base-board and top-rail is eliminated, thus effecting quite a saving in cost of erection. U-S Poultry Fence rolls out flat and even like a roll of paper.

The intertwisting of the line and mesh wires makes the fence, when erected, very stiff and rigid. It does not have that Loose, Baggy Appearance so common in the old style poultry netting.

Note—Galvanized After Weaving Carried in Stock. Galvanized Before Furnished to Order from Factory.

SPECIAL POULTRY AND STOCK FENCE

This Fencing is scientifically constructed from the best material, heavily and thoroughly galvanized. It is not as heavy as regular field fence nor is it as close at top as some poultry fencing. Instead it is a combination fence, so woven as to be proof or a protection against poultry and also a barrier to stock.

Top Bar No. 10	
Bottom Bar No. 10	
Line Wire No. 14	
Stay Wire No. 14	

The stays are in one piece running continuously from top to bottom and are interwoven so as to render it impossible to slip or spread the wires in any way. Neither heat nor cold affect this fence for the line wires have the Coiled Spring feature, which is self-regulating, thus keeping the fence in shape at all seasons.

Spacing between line wires, 1 ¼, 1 ½, 1 ¾, 2, 2 ¼, 2 ½, 3, 3 ½, 4, 4 ½, 5, 5 ½, 6 and 6 inches

Height, Inches	16	22
Number of Cables.....	3	4
Per Lineal Foot.....	\$0.10	.11

In Ten and Twenty Rod Rolls.

The Pickets are left Projecting for insertion in the ground; easily applied to any form or size of flower bed.

CYCLONE TRELLIS

Heavily Galvanized Wire, Corrugated Wires are of No. 10 and Cables of No. 13 Wire.

Single.

Nos.	180	240
Width, Inches	18	24
Per Lineal Foot.....	\$0.08	.10

In Ten and Twenty Rod Rolls.

The Trellis here shown is practical and durable in construction, and very attractive in appearance. Just the thing for climbing vines and flowers.

Being made of heavy wire, it retains its shape perfectly, therefore is easily placed in position, and will last indefinitely.

RUBBISH BURNERS

WIRE

Fire and Sparks can't blow away and spread with these burners. The punched metal gives enough metal to hold the hot papers and ashes. Enough holes to burn up every bit. An easy way of disposing of rubbish that is always accumulating. Keeps the house, attic, cellar and factory clean—does it safely and lessens the fire risk because there are no dangerous rubbish piles.

LAWN MOWER SHARPENERS

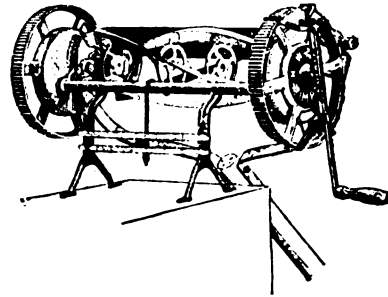

OSBORN, HAND

Per Dozen
No. OH—High Grade Steel File with Four Cutting
Edges, Amber Bronzed Holder\$4.00
No adjusting necessary, will fit any Lawn Mower Blade,
when dull loosen screws and turn the file, the groove of the
sharpener follows the curve of the blade, simple in construc-
tion, ready for use.

Weight Per Dozen 7½ Pounds.
One Dozen in a Hinged Cover Display Box.

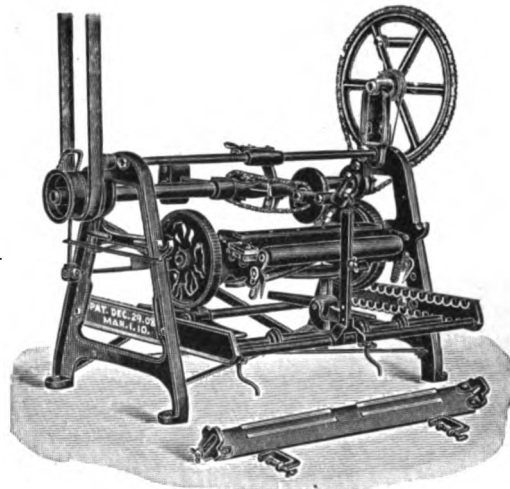

LITTLE GIANT

Per Dozen
No. 1L—Malleable Iron\$26.00
See that the boxings of Mower are properly adjusted and
clamp Mower firmly to Sharpener; place them on bench so
that crank will turn freely; adjust the stationary blade so
that the revolving blades turn a little hard at first; mix
emery with heavy oil about the thickness of molasses and
apply it to the blades with brush while they are in motion.
Follow these directions to secure a perfectly sharpened Mower.
One-twelfth Dozen in a Box.

LAWN MOWER GRINDERS

IDEAL

Cut Shows Grinder without Sub-Base.

The Power Grinder is the same as the Hand Grinder, except equipped with Power Attachment, with Tight and Loose Pulleys. The Power Grinder can be operated by Hand, as well as by Power. The Main Driving Shaft which carries the Grinding Wheel is 1¼ inches in diameter. The Grinding Wheel is of Carborundum, the best known abrasive, which while costing more than Emery will wear twice as long and cuts much easier.

The "Ideal" Lawn Mower Grinder is a Machine that is rapidly revolutionizing the old unsatisfactory method of sharpening Mowers by means of Files and Emery Dust.

By means of the "Ideal" Lawn Mower Grinder, any person with ordinary intelligence can sharpen a Lawn Mower with accuracy in one-half the time required by the old method. The "Ideal" Grinder will grind any desired clearance behind the cutting edge, and the blades will all be ground the same distance from the center, or straight across, so that each blade touches the steel cutting bar along its entire length with uniform precision.

Heavy Iron Frame, Fitted Brass Bearings, Main and Grinding Wheel Shafts are Ball Bearing, 5x¾ inches, Grinding Wheel, Steel Bicycle Chain, ¾ inch Feed Screws, with Skate Sharpening Attachment.

Each
No. 1—Hand Grinder, 36 inches High, 30 inches Wide Between Frames, Will Sharpen All Mowers up to 24 inch Blades,
with Sub-Base, Weight Each 125 Lbs.\$80.00
No. 3—Power Grinder, 53 inches High, Same Description as No. 1, with Sub-Base, Weight 190 Lbs. 80.00

Full Directions for Operating Furnished with Each Machine.

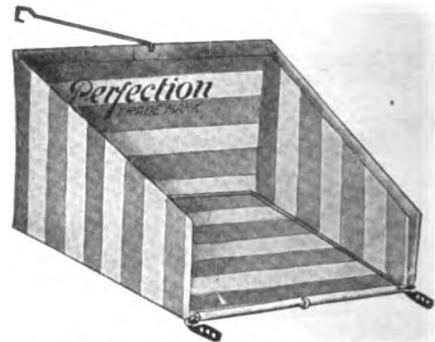

For Shipment Direct from Ohio Factory.

LAWN SPRINKLERS

FOUNTAIN SHOWER

No. 10—Fountain Shower, 2 ¼ inch Diameter, All Brass
Hose Nozzle or "Rose".....\$3.50

Per Dozen

For use either in the hand for sprinkling flowers or lawn, or as a lawn sprinkler, by laying it upon something to elevate it slightly. The perforations are not smoothly cut, but are pricked in from the top, so that the water is distributed in the form of a fine mist even at low pressure.

One Dozen in an Attractive Lithographed Display Carton.

HALF CIRCLE FOUNTAIN

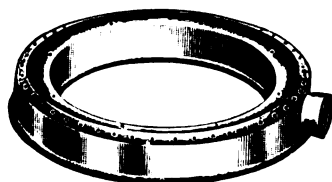

No. 12—Half Circle Fountain, 4 ½ inches Long, Polished
Heavy Sheet Brass, Perforated, for ¾ inch Hose...\$8.00

Per Dozen

Delivers a mist-like spray that thoroughly covers but half of the full circle. The water is all thrown forward from the sprinkler so that it can be moved about without shutting off the water. An exceedingly popular lawn sprinkler of unique and attractive design.

One-half Dozen in an Attractive Lithographed Display Carton.

FOUNTAIN

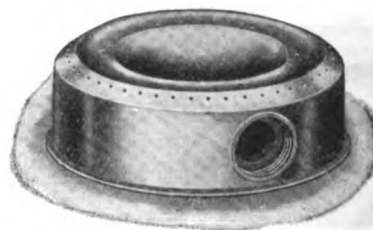

No. 1904—8 inch Diameter, Polished Heavy Sheet
Brass Hollow Ring, Perforated Top, for ¾ inch
Hose\$15.00

Per Dozen

Throws a fine spray and covers a large circle. Can be conveniently moved from one spot to another without shutting off the water. No moving parts to get out of order.
One-half Dozen in an Attractive Lithographed Display Carton.

BABY FOUNTAIN

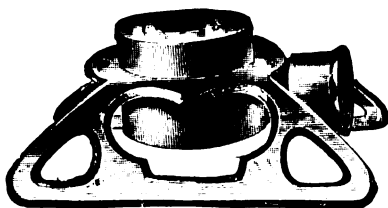

No. 14—Baby Fountain, 5 ¼ inch Diameter, Polished
Heavy Sheet Brass, Perforated Top, for ¾ inch
Hose\$10.00

Per Dozen

Sprinkles a square plot of grass instead of a round plot. Has the same beautiful mist-like spray as the regular fountain. Can be easily moved about without shutting off the water.
One-half Dozen in an Attractive Lithographed Display Carton.

EVANSTON

Nickel Plated Brass Nozzle.

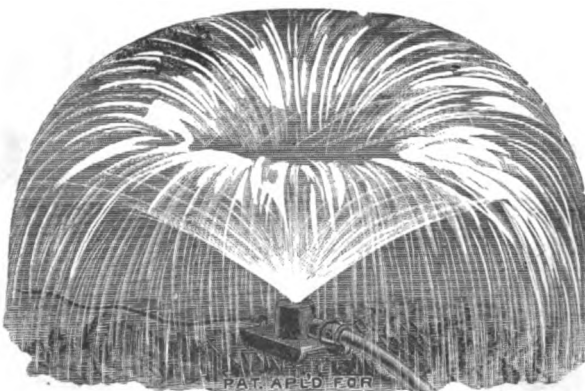

No. 15 — Evanston, 2 ¼ inches
High, Japanned Iron, for ¾
inch Hose\$7.00

Per Dozen

Made in the most substantial manner and possesses a great advantage in that it has no revolving parts to wear out and that it will not clog with sand or dirt.

One-twelfth Dozen in a Box.

SENSIBLE

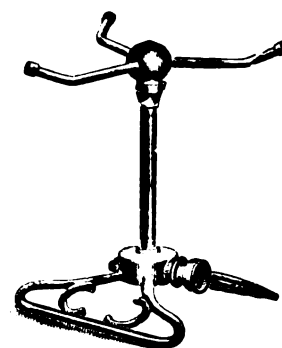

No. 16—Sensible, Japanned, Cast
Iron, for ¾ inch Hose.....\$5.00

Per Dozen

Spray will cover a space from 30 to 40 feet.

Packed One in a Box.

PLUVIUS

No. 18—Pluvius, 11 inches High,
Ball Bearing, Revolving
Arms, Brass Swivel Hose
Connection, Brass Head and
Arms, Red Japanned.....\$26.00

Per Dozen

Revolves with the slightest pressure and covers a large or small circle according to water pressure.

One-twelfth Dozen in a Box.

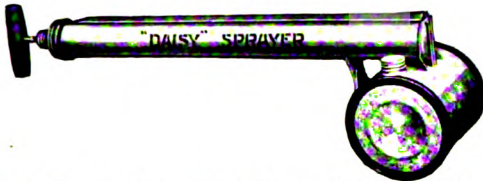

SPRAYERS

MIDGET

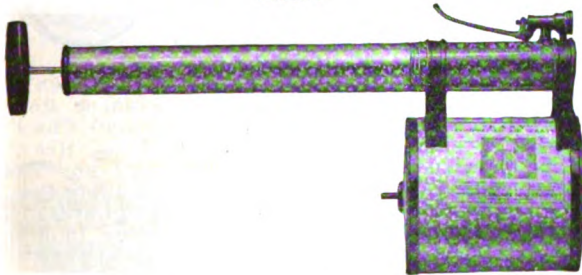

Midget—Capacity 1 Pint, 3x3 inch Heavy Tin Reservoir, Length Over All 14 inches, $\frac{1}{4}$ inch Pump Rod, Fitted with Anhydrous Leather and Special Metal Expanders\$4.00

An ordinary one-quart Mason fruit jar is used for the reservoir and can easily be replaced in case it gets broken. The reservoir is fitted with a zinc funnel shaped screw cap.

Weight Per Dozen 25 Pounds.
One Dozen in a Box.

BANNER COMPRESSED AIR

Each

No. 12BG—Capacity 4 Gallons, Galvanized Iron Tank, with Double Flange Heads to Stand a Heavy Pressure of Air, 21 inches High, 7 inch Diameter, Heavy Brass Pump Screwed in Center of Head with Machine Cut Thread, Brass Safety Valve to Prevent Over-Pressure, Complete with Adjustable Shoulder Strap with Snap at Each End, Two Feet of $\frac{1}{2}$ inch Three Ply Heavy Cloth Lined Rubber Hose, with Brass Nipple at Each End, with Lever, Self-Cleaning Nozzle, Weight Each $12\frac{1}{2}$ Lbs.\$ 8.00

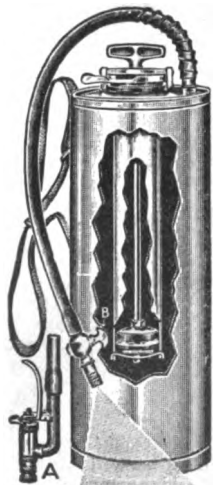

No. 12BB—All Brass, Otherwise Same as No. 12BG, Weight Each 13 Lbs. 12.00

The machine, being oblong, gives it a churning motion when carried over the shoulder, thereby keeping the ingredients well mixed. Adapted to all kinds of spraying purposes.

Adapted for spraying potato vines and vegetables of every description, trees, shrubbery, disinfectants, fly oil, etc.

One in a Box.

AUTO-POP SPRAY

The strongest and most simple in its working parts of any compressed air sprayer. Two pumpings of about 15 strokes on the plunger will discharge the contents under high and constant pressure. Indispensable for all spraying purposes, applying disinfectants, cattle fly oil, whitewash and cold water paint.

Each

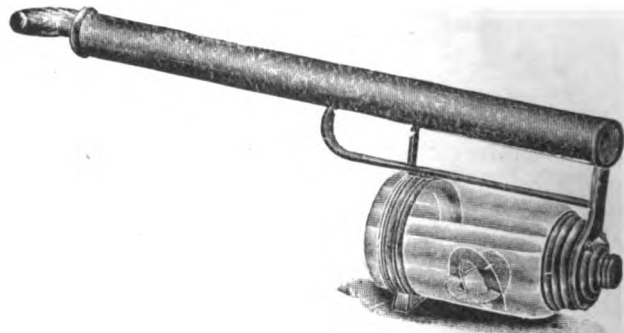

No. 1B—Capacity 4 Gallons, Brass Tank, 24 inches High, 7 inch Diameter, 2 inch Diameter Seamless Brass Pump, Malleable Iron Castings, Complete with Fine Spray Nozzle, Solid Stream Cap, "Auto-Pop" Shut-Off Attachment with Self-Cleaner, 2 feet of $\frac{1}{2}$ inch Hose and Carrying Strap, Weight Empty 9 Lbs., Weight Loaded 39 Lbs., Shipping Weight 15 Lbs.\$13.00

No. 1G—With Galvanized Tank, Otherwise Same as No. 1B 8.50

Extra, Brass Extension Pipe, Length 24 inches.80

Extra, Galvanized Extension Pipe, Length 24 inches.60
One in a Box.

LOWELL GLASS

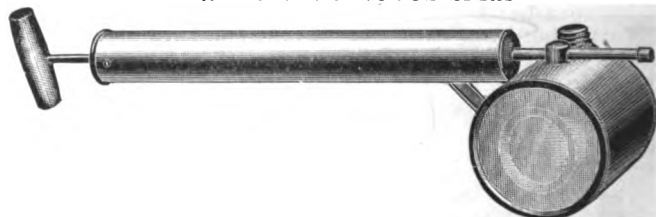

Per Dozen

No. 20—Double Tube, Capacity 1 Quart, $1\frac{1}{2} \times 19$ inch Painted Red Tin Air Chamber, $22\frac{1}{2}$ inches Long Over All, Detachable Glass Reservoir, Large Hand Hold with Agitator\$11.00

Has a zinc jar top with a 1 inch zinc can screw. The double air chamber enables the operator to spray a quart of liquid with only two-thirds the number of strokes over any other sprayer that sprays over end of barrel.

Weight Per Dozen 30 Pounds.
One Dozen in a Box.

LOWELL CONTINUOUS SPRAY

Per Dozen

No. 115—Continuous Spray, Capacity 1 Quart, $1\frac{1}{2} \times 14$ inch Air Chamber, $\frac{1}{4}$ inch Steel Plunger Rod, Special Type Plunger, $\frac{1}{8}$ inch Brass Ball Check Valve, Positive in Action, Solution Tank Heavy Tin, Constructed so that Sprayer Will not Tip Over when Filling Tank, $\frac{3}{4}$ inch Zinc Filling Cap, Complete with Extra Tip for Spraying Upwards.\$12.00

Lowell Continuous Sprayer, as the name implies, is so constructed that it not only sprays on the downward stroke of the plunger, but also when it draws back, thus causing a continuous spray.

Weight Per Dozen 24 Pounds.
One Dozen in a Box.

PERFECTION

Each

No. 10G—Galvanized Steel Tank, Lock Seamed with 26 Rivets, 20 inches High, $7\frac{1}{2}$ inch Diameter, Capacity 4 Gallons, Heavy $1\frac{3}{4}$ inch Seamless Brass Pump Tubing with Brass Valves, $\frac{1}{8}$ inch Pump Rod Filled with Anhydrous Leather, with Special Metal Expander, Heavy Shoulder Strap Attached with Snaps, $\frac{3}{8}$ inch 5 Ply Cloth Inserted Hose Equipped with Automatic Shut-Off Nozzle, Weight Each 9 Lbs.\$ 9.00

No. 10B—Brass Tank, Otherwise Same as Above. 13.00
One in a Box.

This Sprayer is built along the best lines to give best service. Will handle whitewash, water, paint, bordeaux, etc., perfectly. For whitewash and heavy mixtures it is necessary to use a W. W. cap in nozzle furnished with each sprayer.

SPRAYERS

LOWELL FOUNTAIN COMPRESSED AIR

Each

- No. 110—Capacity 3 Gallons, Galvanized Steel Tank, Aluminized, Brass Pump, Complete with Tree Attachment Consisting of $\frac{3}{8}$ inch Red Rubber Tubing with 1 foot Brass Spraying Nozzle for Small Tree and Shrub Spraying, 3 inch Spray Crook Nozzle for Potato Spraying, Funnel with 2 inch Brass Wire Strainer Cloth and 1 inch Heavy Web Shoulder Strap.....\$ 9.00
- No. 111—With Polished and Lacquered Brass Tank, Otherwise Same as No. 110.....13.00
- Extra Brass Extension Rod—1 foot Long......50
- Extra Brass Extension Rod—2 feet Long......90

This Sprayer is both automatic and positive in its action. One charge or pumping is sufficient to expel entire contents of tank. Having convex heads entire contents can be drained from machine, leaving it perfectly dry when not in use. The air compressor or pump has a $1\frac{1}{8}$ inch diameter brass cylinder which is placed outside of the tank and is detachable. It screws into a cast brass seat which contains a $\frac{1}{2}$ inch ball check valve, also detachable. The discharge pipe extends down through the tank to the very bottom of the solution.

Weight Per Box 100 Pounds.

One-half Dozen in a Box.

SPRAY PUMPS

LITTLE GIANT BUCKET

Will carry a pressure on the nozzle of from 50 to 100 lbs. with ordinary exertion.

Will throw a solid stream 50 feet and is of unusual value for spraying trees, washing windows and buggies, extinguishing fires, sprinkling lawns, flowers, etc.

The foot rest steadies the pump, holding it in proper position.

Each

- No. 327 $\frac{1}{2}$ —26 $\frac{1}{2}$ inches High, 2 Brass Cylinders, $1\frac{1}{8}$ inch Diameter, 20 inches Long, Cast Brass Base, Malleable Foot Rest, Brass Ball Valves, Patent Agitator, Complete with 3 feet of Rubber Hose and Fine, Coarse Spray and Solid Stream Nozzle.....\$5.00
- Weight Per Dozen 72 Pounds.
- One-third Dozen in a Bundle.

Barrel not Furnished.

MYERS' COG GEAR BUCKET

The Large Cylinder in combination with the Cog Gear Handle makes this an exceptionally easy working pump of more than ordinary capacity.

The patented jet agitator keeps the liquid thoroughly mixed.

Each

- No. R324—1 $\frac{1}{2}$ inch Diameter Brass Cylinder with Solid Plunger, Brass Ball Valves, Air Chamber and Discharge Tube, Malleable Iron Foot Rest, Head and Cog Gear, Patent Jet Agitator, Complete with Detachable Hose and Graduating Vermorel, Fine, Sprinkling and Solid Stream Nozzle.....\$7.20

Weight Each 7 Pounds.

One in a Box.

MYERS' IMPROVED BARREL

Bronze Ball Valves and Brass Seats.

For Barrel.

Each

- No. 305B—Brass Cylinder, Brass Plungers Fitted with Hemp Packing, Brass Discharge Pipes, 20 inch Air Chamber, Enabling the Pump to Throw a Uniform and Elastic Spray, Complete with One Lead and 15 foot $\frac{1}{2}$ inch 5 Ply Discharge Hose, Graduating Vermorel Nozzle and Both Jet and Mechanical Agitators.....\$15.50
- The entire pump sets inside the barrel containing the liquid and is bolted at its upper end to the barrel staves. All working parts are entirely submerged in the liquid, avoiding all possibility of losing priming. Self-expanding hemp packing plunger. Has good leverage. Very powerful and easily operated. Will handle hot, cold or any caustic mixture.

Weight Each 35 Pounds.

NOZZLES

IMPERIAL

Each

- No. 1019—Will Throw a Fan Shaped Spray or Solid Stream, Will Readily Free Itself Should it Become Clogged by Turning the Cock Handle, for White-washing, Fitted for $\frac{1}{4}$ inch Pipe, Will Fit Nos. 327 $\frac{1}{2}$, R324 and 305B Spray Pumps.....\$1.10

SPRAY PUMPS

SMITH STURDY

Double Acting, Continuous Spray.

Each

No. 45—Length of Handle and Nozzle 25 1/2 inches, Made Entirely of Brass, no Leather Packing and Other Parts to Wear out, Brass Nozzle of Special Construction, Main Nozzle Supplied with Three Interchangeable Discs with Various Size Holes for Different Work, a Fine Nozzle is Also Furnished which May be Used for Wagons and Windows, Complete with 42 inch Hose. \$5.00

This Spray Pump may be used in connection with any pail, bucket, can, barrel or tank by simply placing the strainer end of hose in such vessel. It is double acting and works with ease on the up and down stroke. One brass tube works inside of the other, has brass ball valves, which will not corrode or rust. It does not require extension rods for elevating the spray, for it will spray the tallest tree from the ground. Used with a barrel for large orchard work. It is easily operated by one man.

The Sturdy is used for all kinds of spraying purposes such as spraying garden vegetable, orchards, washing wagons, windows, spraying disinfectants, whitewashing stables and poultry houses and for all purposes where spraying is to be done. It is a great fire extinguisher. When not in use have a pail of water handy and in case of fire you will find this Pump to be an excellent extinguisher. Throws a stream 40 to 50 feet.

When used with a barrel, if a long piece of hose is required, remove the hose furnished with the pump and in its place use ordinary 1/2 inch hose. Slip one end on to the bottom of pump and the strainer part in the other end. As much hose as is necessary may be used.

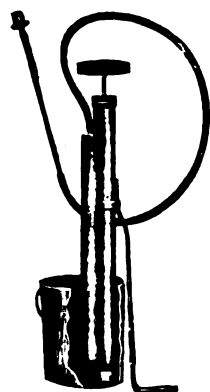

Weight Each 3 Pounds.

WHITEWASH SPRAYER AND FORCE PUMP

LIGHTNING

Will Fit Any Pail or Bucket.

Each

No. 28.

No. 28—Heavy Galvanized Iron, Nicely Painted, Brass Tops and Bottoms, Ball Valves and Steel Foot Rest, Large Air Chamber, Complete with Three feet Heavy Cloth Lined Hose, with 1 foot of Heavy Brass Extension Rod and a Brass Nozzle. \$3.00

Extra Brass Extension Rods—3 feet Long, with Connections, for Whitewashing High Ceilings or Spraying Trees.60

This Pump is used for a bucket spray and force pump, for spraying trees, shrubbery, garden use, vegetables, washing wagons, windows, etc., as well as for whitewashing. It will throw a continuous stream 35 feet high. Will spray whitewash without clogging.

The Pump is provided with an overflow carrying all liquids back into the pail which might get above the plunger leather. The plunger is easily removed. No parts to get out of order and the machine is easy to operate.

The Pump is also provided with a patent spring plunger leather expander which keeps the plunger leather open and in shape and prevents it from drying up.

Weight Per Dozen 88 Pounds.

One-half Dozen in a Box.

WHITEWASH SPRAYING MACHINES

STAR

Each

No. H—Capacity 4 Gallons, Heavy Galvanized Tank, Riveted and Soldered Joints, Powerful Self-Contained All Brass Air Pump, Complete with Spray Pipe with 1/8 inch Cock and Spray Nozzle and 10 feet of 3/8 inch Discharge Hose. \$16.00

These machines are subjected to a test of 100 pounds pressure per square inch before shipping and are thoroughly first-class in every detail of construction. They will be found invaluable for small classes of work and will suggest themselves for a variety of uses. They are provided with a bail handle and are very portable.

Weight Each 20 Pounds.

Each

No. J—Seamless Brass Tubing, Pumping Cylinder, Air Chamber, Valve Seats and All Working Parts are Constructed Entirely of Brass, Complete with Spray Pipe with 1/8 inch Cock and Spray Nozzle, Follower Wrench and 10 feet of 3/8 inch Discharge Hose. \$18.00

The pumping cylinder and air chamber, being constructed of brass, will not corrode from the use of any liquids. One man can operate this machine alone and from 80 to 90 pounds of pressure can be easily carried.

Weight Each 40 Pounds.

FLY AND GERM KILLER

CHILD'S SO-BOS-SO KILFLY

"Once Tried, Always Used."

So-Bos-So Kilfly has increased the milk production in hundreds of dairies. It has made life more comfortable for thousands of horses, cattle and hogs. It has made thousands of chicken coops and hen houses more sanitary. Thousands of farmers are using So-Bos-So Kilfly on their live stock the year round. Summer in particular is the time when you should use So-Bos-So Kilfly.

CHILD'S
SO-BOS-SO
TRADE KILFLY MARK

So-Bos-So—One Gallon Cans, Thoroughly Disinfectant and Germicidal, for Cows, Horses and Cattle\$15.00
So-Bos-So is a liquid mixture designed to protect cows, horses and hogs from torture of flies, and is positively harmless.

One Dozen Cans in a Box.

SO-BOS-SO SPRAYERS

No. 2—Capacity 1 Quart, Tin Reservoir and Air Chamber, Size of Air Chamber 1 7/8 x 15 1/2 inches, 4 1/4 x 6 inch Reservoir, Throws a Very Fine Spray and Especially Adapted for the Use of So-Bos-So Kilfly\$7.00
One Dozen in a Box.

The assertion that we make regarding So-Bos-So Kilfly increasing milk production 20 per cent is taken from the records of several farmers who have used this preparation for many years with gratifying results.

The entire top of Black Jack Tank Heaters lifts off, allowing easy removal of the ashes. The air chamber is a part of the body casting and therefore just as durable as any other part of the heater.

WESTERN

Burns Kerosene, Self-Sinker.

The Burner sets about 3 inches below top edge of the base and is fed by the feed pipe on side of heater which is governed by a dropper.

The large pipe on outside of heater is for supplying air to the burner.

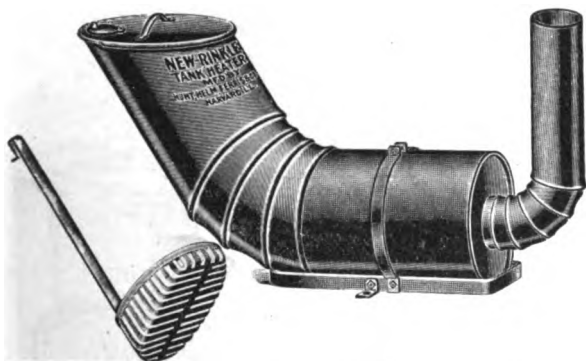

Each
No. 30W—30 inches High, Diameter of Top 10 inches, Base 14 1/2 x 19 inches, Gray Iron Base, Cold Rolled Steel Jacket Cast in and Made a Part of Base thus Overcoming Any Possible Chance for Leakage, Complete with Burner, Tank and Valve, Weight Each About 150 Lbs. \$30.00

With this Heater there is no sparks to contend with, no ashes to take up, no fire to kindle, no wood or coal to carry. Simply turn the oil on, light it and leave it. This burner is amply large to heat an ordinary size water tank during zero weather at a cost of about one-half cent per hour. Any child can operate it.

This Heater can also be used for heating hog and poultry houses, garages and other out-buildings.

TANK HEATERS

NEW RINKLE

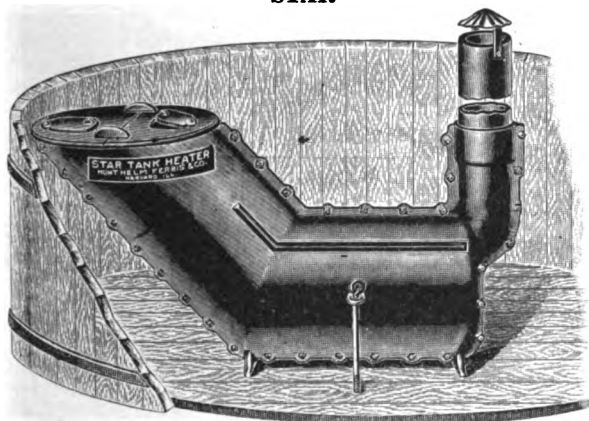

Body is of 14 Gauge Boiler Iron, All Except the End or Head Being in One Piece.

Each

No. 691—24 inches High, Complete with Grate as Shown, Two Lengths of One-Piece Smoke Pipe, Shovel, Etc., Weight Each 95 Lbs. \$18.00

This is a submerged heater and can be used with wood, iron or cement tanks. Built by a special crimping machine and is absolutely leak proof. The end of heater is made with a flange or rim welded to the inner surface of the body, this makes the heater into one solid piece without seams. The grate shown in illustration hangs in the heater, and is easily lifted out. The cover is made with a rim which holds it in place and a handle and draft slide are riveted to the cover.

STAR

All Cast Iron.

Each

No. 242—24 inches High, Weight Each 240 Lbs. \$28.00

This Heater can be set in any tank and moved about at will. Fire is entirely under water. Will burn any kind of fuel, hard or soft coal, wood, chips, or cobs. Ashes can be taken up at any time without disturbing the fire.

BEE SMOKERS

CORNEIL

Each

No. 276—Standard, Improved, Heavy Sheet Steel Stove, 3 1/4 inch Diameter, Stamped Sheet Steel Legs, Metal Bound Bellows, Protecting the Leather Edges from Wear, Wire Handle to Cone, with Heavy Hinged Nozzle \$1.50
Twelve in a Box.

NELSON

20 Gauge Galvanized Steel and Cast Iron.

Each

No. 200—Galvanized Steel Heat Chest and Fuel Box, Each 30 inches Long, 12 inches Wide, 8 inches High, Jointed Together at an Angle of 45 Degrees with Cast Iron Flanges, Cast Iron Smoke Pipe Reaching Above Water Line, Complete with Grate and Scraper, Weight Each 95 Lbs. \$16.00

All joints are packed with heavy asbestos, which will not burn out. This, combined with its rigid construction, through the use of cast iron flanges, makes the Nelson unbreakable.

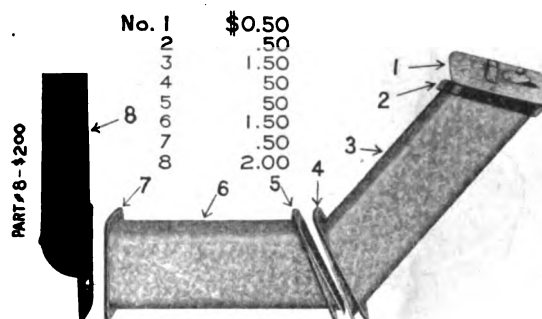

The Nelson will burn trash, rubbish, straw, cobs, wood and coal. For coal a basket grate is provided, but for other fuels no grate is needed. Will burn wood 30 inches long.

In wood tanks the Nelson is fastened to the bottom with a cross-bar and lag screws. In metal or concrete tanks it should be fastened to a plank or two 2x4's and weighted down. Never place any rocks on top of heater as they will greatly interfere with the heating surface and will damage the heater.

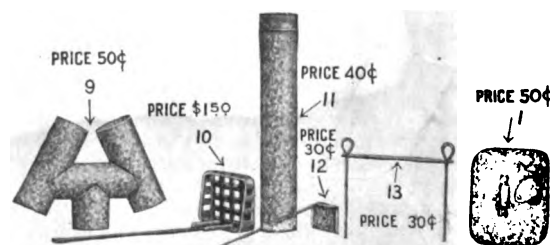

Will heat the ice off your tank whether it is 6 feet or 16 feet in diameter. It will heat the water with less fuel and attention than any other heater, and will keep the water at the right temperature.

The Nelson is built in sections, the cost of maintenance is less than in case of heaters built in one piece or unit.

EXTRA PARTS FOR NELSON TANK HEATERS

NO. 6 CAN BE SUPPLIED WITH OR WITHOUT 5 AND 7 AND NO. 3 WITH OR WITHOUT 2 AND 4. UNLESS OTHERWISE ORDERED THEY ARE SHIPPED COMPLETE.

STOCK WATERERS
HANDY AUTOMATIC

Cut Shows Interior View.

This Fountain or Waterer Works Equally Well Attached to a Tank, Barrel or Pipe. It has a Brass Valve Seat, is Easily Adjusted and Repaired without Removing the Tank or Barrel.

No. 14H—Cast Iron, Japanned, Weight Complete	Per Dozen
14 Lbs.	\$28.00

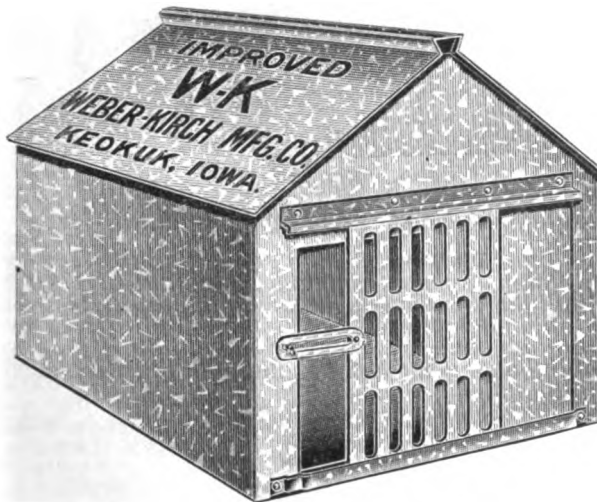

This Waterer is so constructed as to allow the amount of water in the pan to be easily regulated by simply screwing the brass ball float (No. 1) up or down until the desired amount of water is obtained. The flow of the water can also be controlled at the valve, by screwing the soft rubber button (No. 4) up or down, this allows for any adjustment which may be necessary through wear. These adjustments can be made without taking the fountain apart or off the tank or barrel.

 Amco Rings are made to prevent rooting. One ring will do the work. Can be used in Hill's or Blair's Ringers.
 50 in a Box; One Dozen Boxes in a Package.

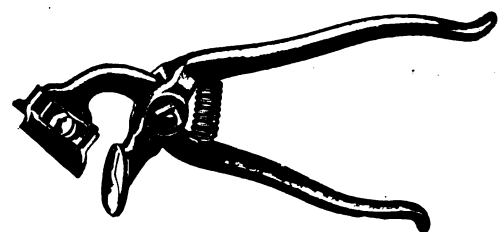

HOG TAMERS AND MARKERS

DR. MILLER'S NEVER ROOT

Per Dozen
 No. 2—10 3/4 inches Long, Unbreakable Iron, Japanned, with One Large and One Small Cutter.....\$4.50
 Extra Marking Blades—Assorted, Round, Square and Triangular, Put up One Dozen in a Box..... 4.50
 One of the best devices of the kind on the market. It cuts out only a part of the rim of the nose in a circle, allowing the end to turn to each side and heal in a few days, into small knots: this effectually prevents the hogs from rooting.
 Weight Per Dozen 18 Pounds.
 One-half Dozen in a Box.

NEW IDEA ANTI-ROOTER

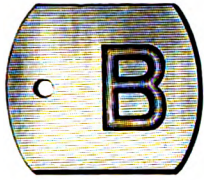

Per Dozen
 No. 5—Hog Tamer and Ear Marker Combined, Malleable Iron, Aluminum Finish, Reversible Steel Blades, Adjustable Cutters, Steel Coil Spring, with Copper or Metal Anvil or Base to Cut On.....\$12.00

This is the only Anti-Rooter gotten up on a scientific principle. It cuts the rooter or rim of the nose, leaving center of the nose or rooter uninjured.

Weight Per Dozen 16 Pounds.
 One-half Dozen in a Box.

CATTLE STANCHIONS

LEADER CHAIN HANGING, STEEL

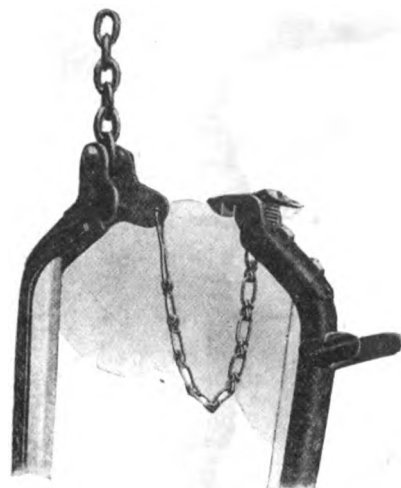

"Oval Pattern."

Made of Extra Heavy U-Bar Steel, Riveted at Top and Bottom to Malleable Iron Castings.

The channels of the steel U-Bars are turned inward and are lined with well oiled and smooth rounded hardwood strips.

A small boy can easily open the lock by a slight thumb pressure, but it is impossible for it to open accidentally. A malleable fork on drop bar engages with the upright of the stall and prevents stanchion turning when open.

The Stanchion is 45 inches high inside, which gives the animal great freedom of movement and affording the greatest possible amount of comfort.

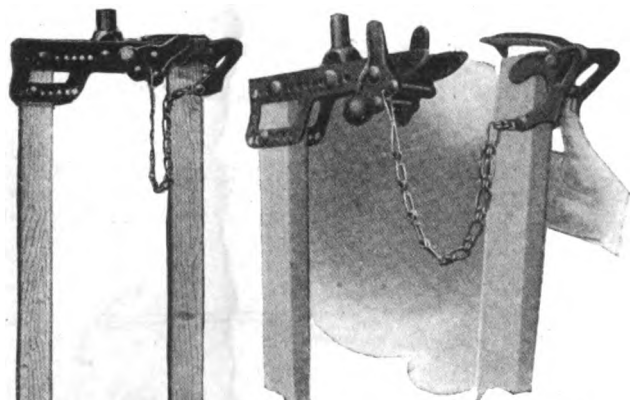

Cut Showing Patent Lock on Oval Stanchion.

No. 3—45 inches High Inside, Adjustable at Top and Bottom for 3 Different Widths Neck Space, 5 1/2, 6 1/2 and 7 1/4 inches, 6 inch Heavy Chains, All Metal Parts Durably Finished in Black Enamel, Weight Each 21 Lbs. Each **\$3.25**

LEADER ADJUSTABLE, WOOD

Cows confined in either of these Pivot or Chain Hanging Stanchions will have great freedom as the Stanchion will respond quickly to any movement, whether the animal is standing or lying down.

Pivot Stanchion No. 6 Showing Tumbler Lock.

Best Quality Hardwood Bars, 2 1/2 x 1 3/8 inches, Heavy Malleable Iron Top and Bottom Castings.

No. 6—Pivot Stanchion, 49 inches High Inside, 54 inches High from Top to Bottom, Pivots 2 1/2 inches Long, Adjustable to Either 5, 5 1/2, 6, 6 1/2, 7, 7 1/2 or 8 inch Neck Space, Weight Each 17 Lbs. Each **\$2.30**

No. 7—Chain Hanging Stanchion, 49 inches High Inside, 54 inches High from Top to Bottom, Chains 6 inches Long, Adjustable to Either 5, 5 1/2, 6, 6 1/2, 7, 7 1/2 or 8 inch Neck Space, Weight Each 17 Lbs. **2.50**

Pivot Stanchion No. 6.

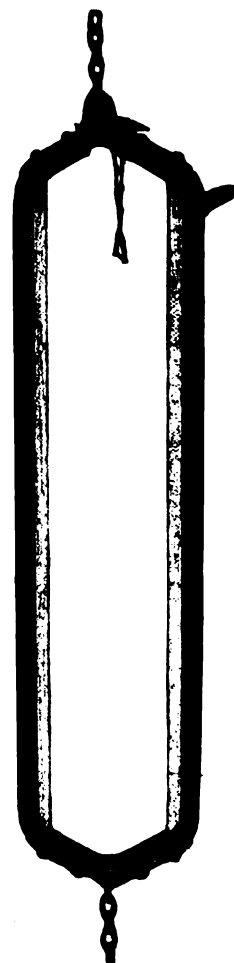

Side Bars are clean white, straight grained hardwood, edges rounded and all smoothed and oiled. The bars are very strong and will give years of service. Tops and bottoms are heavy malleable iron castings. All metal parts finished in black enamel.

STANCHION IRONS

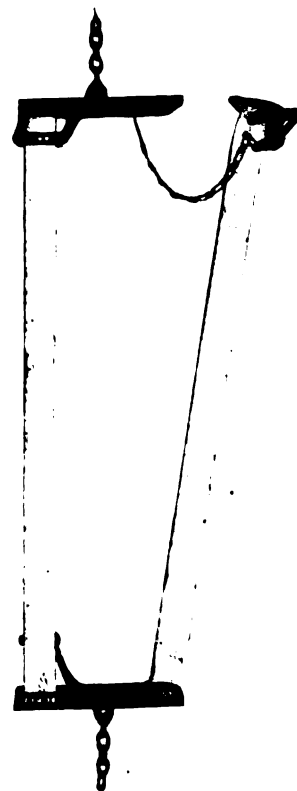

No. 1—Malleable Iron, for Fastening Cattle in Stalls Per Dozen **\$1.25**

Chain Hanging Stanchion No. 7.
